Open Source Toward Industry Maturity

June 12-13, Orange Gardens, Paris-Chatillon

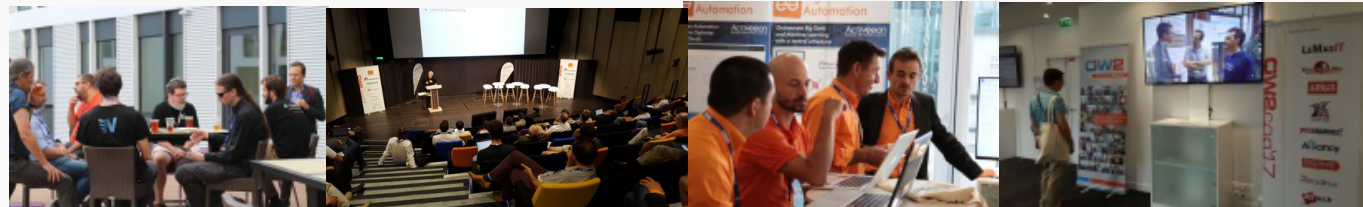

OW2con'19

Open Source Towards Industry Maturity

At OW2, our job is to promote the development of open-source software for complex information systems: middleware, generic business applications, cloud computing platforms, etc. We are supported by a vibrant open source community and business ecosystem. We help build healthy and sustainable open source projects that reach out to their markets.

As open source is becoming mainstream, IT developers, vendors, users and even open source organisations such as OW2 have to adapt. Free software came about in 1983 as a movement launched by and for developers working collaboratively on software projects, it evolved in the mid-1990s as commercial open source and with the explosion of cloud computing, big data, IoT, etc. in 2010, it became the de facto vehicle for collaborative innovation. What the billion-dollar open source mergers announced in 2018 tell us is that open source is reaching industry maturity. Open source projects are becoming increasingly competitive and all IT developers, vendors and users must have an open source strategy.

Welcome to OW2con'19!

OW2con'19 Highlights

The event covers a wide range of hot topics, including open source cloud and middleware technologies, IoT, and Big Data, security and privacy, artificial intelligence, blockchain, mobility, software testing, etc. It will also provide ample opportunities to connect with the global community and to socialize with open source professionals from all over the world.

OW2con'19 brings visibility to OW2 members, their technologies, their initiatives and collaborative projects. OW2con'19 is all about technology, business and community.

12-13 June, 2019

Save the date!

- Open source **communities Meet-ups**
- **Open Source Governance** initiative session
- **Open Source in Big Cities** initiative session

Overview of OW2con'19

OW2con offers two days of high level technical presentations and a unique opportunity to meet with peers and network with the international open source community at large. The program is structured so as to allow for greater networking opportunities and more in-depth concurrent sessions. This year a whole afternoon is dedicated to invited open source communities for greater attendance and enhanced visibility opportunities.

 - OSS in Big Cities
 - Closing Session

“Opportunities for discussions,
good speakers.”

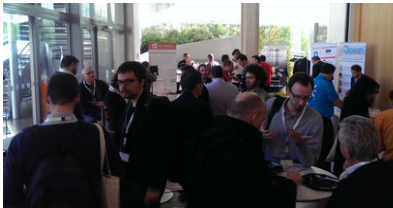

“Small, but fascinating conference where you meet friends and new persons, engage with people, find novelties. A lot of food for thoughts. Recommend it to your contacts!”

“I think that OW2con makes the difference in the European scenario of open source, and this conference really shows the facts and the potentials of OW2.”

“I couldn't find anything wrong (maybe am I a OW2con Enthusiast? :-))”

“Excellent presentations and very qualified presenters.”

“The international presence, the presentations that were mostly business and not simply technological oriented.”

“I liked the reception and sharing spirit that reigned there as well as the dynamism of the participants. A great tool for sharing of open source projects.”

“The content of the conference is very good.”

“Nice atmosphere”

“In a few words: I had the sensation that ... OW2 shines! The open source within OW2 shines! Lot of great projects that can bring value to your business, lot of ideas, cues, hints, suggestions that make this community a place where you can grow, learn, cooperate with all members, explore new ways, paths, technologies, state-of-the-art and beyond..”

“- Excellent "melting pot" event (many different people there). - Very interesting conferences. - Very good availability of OW2 staff..”

“Very welcoming community!”

“This year I was able to see people I knew and meet interesting new people with whom I'll be working with in the future.”

“(…) the good lunches, the great free beer party, the sessions, the live conference on dailymotion, the Awards!”

Praise for OW2con*

“It was a great conference during these two days which give me an outlook of best high techs used in open source projects.”
