

HOMELESSNESS DEMANDS ACTION

The City can tackle homelessness by building rent-g geared-to-income housing. At Dundas and Sherbourne, there is vacant land and we have a plan. We need your help in shaping it and your involvement in the fight to win it. Here are the details:

214-230 Sherbourne are 7 adjacent properties located at the southwest corner of Dundas and Sherbourne. For 50 years, houses on this lot provided homes for poor people. 10 years ago, 2 of those houses were demolished, leaving just one 30-room house standing.

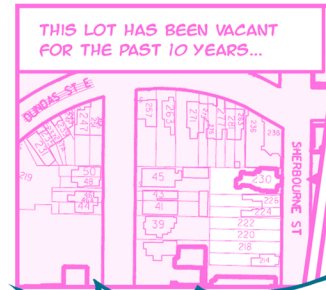

A decade later the lot remains empty and the house abandoned. Meanwhile, the number of people left homeless in the area continues to swell. The neighbourhood desperately needs housing that poor people can afford.

We've teamed up with planners and architects to create a model for public housing that can be built at 214-230 Sherbourne. With your help, we can finalize the design and fight for its implementation. 27 organizations have signed a letter demanding the City acquire these properties.

If the owners refuse to sell to the City, the City must take the properties over - expropriate them - to build social housing. Join us.

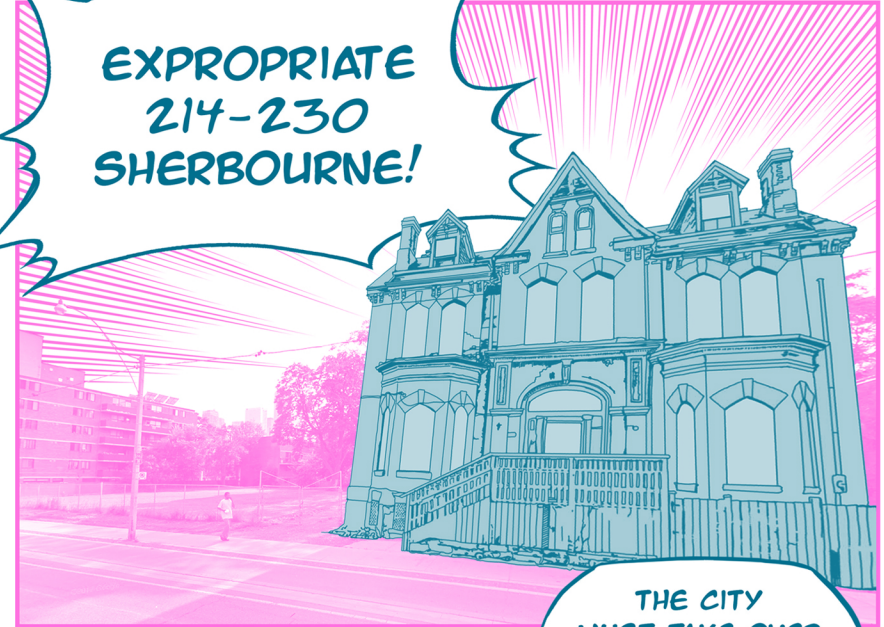

COMMUNITY PLANNING
 ★ THUR. MAY 16, 6PM
 40 OAK STREET
 DINNER PROVIDED

EMPTY BUILDINGS SHELTER NO ONE.

EXPROPRIATE 214-230 SHERBOURNE!
