

HELP US STOP THE WAR

ST KILDA NETWORK FOR PEACE IN THE MIDDLE EAST

We are angry that blood is being spilt for oil. Angry that the Labor government and Australian military forces are involved in a war that should be opposed. Angry that the United States and Australian governments want to oppose the invasion of Kuwait, but did nothing to oppose Indonesia's invasion of East Timor.

Angry that there is no need for this war, that it will not solve any of the real problems of the Middle East, that it will only increase the level of tension, the level of militarism, in the region.

Angry at the carnage, horror, environmental destruction and human tragedy resulting from this bloody conflict.

The Network For Peace in the Middle East opposes both the acquisition of territory by force, and opposes the presence of foreign military forces in the Middle East. The war will not solve the problems of occupation, injustice and denial of human rights throughout the region.

We, the ordinary people of Australia, have both the moral responsibility and the capacity to oppose this war. And we can have an impact! A great world-wide mass movement played a key role in stopping the last great military adventure of the United States - in Vietnam. We can do the same again this time - if you join with us!
