

1 Braxton Way Suite 125 Glen Mills, PA 19342
484-840-4300 www.ssrs.com

OVERVIEW

The study was conducted for CNN via telephone by SSRS, an independent research company. Interviews were conducted from **April 3-6, 2020** among a sample of **1,002** respondents. The landline total respondents were **350** and there were **652** cell phone respondents. The margin of sampling error for total respondents is +/- **3.7** at the 95% confidence level. The design effect is **1.41**. More information about SSRS can be obtained by visiting www.ssrs.com. Unless otherwise noted, results beginning with the March 31-April 2, 2006 survey and ending with the April 22-25, 2017 survey are from surveys conducted by ORC International. Results before March 31, 2006 are from surveys conducted by Gallup.

Question text noted in parentheses was rotated or randomized. Values less than 0.5 percent are indicated by an asterisk (*).

NOTE ABOUT CROSSTABS

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "SN" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.

EMBARGOED FOR RELEASE:

Wednesday, April 8 at 6:00 a.m.

A1. Do you approve or disapprove of the way Donald Trump is handling his job as president?

Q14. Social distancing guidelines in place nationwide and stay-at-home orders in many states are attempting to reduce interactions between people which could lead to faster spread of coronavirus. How well do you feel you understand what is acceptable under the guidelines put in place where you live? **[RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

	NET Well	Very well	Somewhat well	NET Not well	Not too well	Not at all well	No opinion
April 3-6, 2020	94%	77%	17%	5%	3%	2%	1%

Q14a. And how well do you feel people in your local community are following those guidelines? **[RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

	NET Well	Very well	Somewhat well	NET Not well	Not too well	Not at all well	No opinion
April 3-6, 2020	74%	28%	46%	24%	16%	9%	2%

Q15. As you may know, the federal government’s social distancing guidelines are in place through April 30. If those guidelines were lifted at that time, do you think you would feel comfortable or not comfortable returning to your regular routine?

	Comfortable	Not comfortable	No opinion
April 3-6, 2020	37%	60%	3%

Q16. Overall, how prepared do you think you are to deal with a coronavirus infection if you or someone in your family contracted the virus? Would you say you feel very prepared, somewhat prepared, not too prepared, or not at all prepared to respond to that? **[RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

	NET Prepared	Very prepared	Somewhat prepared	NET Not prepared	Not too prepared	Not at all prepared	No opinion
April 3-6, 2020	71%	24%	47%	28%	16%	11%	1%
March 24-29, 2020	76%	30%	46%	22%	14%	9%	1%
March 4-7, 2020	68%	24%	44%	31%	16%	15%	1%

Q16a. How confident are you that you would be able to get necessary medical care in the next week if (INSERT ITEM). Do you feel very confident, somewhat confident, not too confident, or not at all confident about getting medical care for that? **[ITEMS READ IN RANDOM ORDER] [RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]**

You contracted coronavirus	NET Confident	Very confident	Somewhat confident	NET Not confident	Not too confident	Not at all confident	No opinion
April 3-6, 2020	70%	36%	34%	29%	18%	12%	1%

You had a serious health problem other than coronavirus	NET Confident	Very confident	Somewhat confident	NET Not confident	Not too confident	Not at all confident	No opinion
April 3-6, 2020	66%	34%	32%	33%	20%	13%	1%

Q17. Do you, personally, know someone who has been diagnosed with the novel coronavirus, or not?

	Yes	No	No opinion
April 3-6, 2020	22%	78%	*

Q18. And how likely do you think it is that you or someone in your family will contract coronavirus? Would you say that is very likely, somewhat likely, not too likely, or not at all likely to happen? [RESPONSES ROTATED IN ORDER FOR HALF/IN REVERSE ORDER FOR HALF]

	NET Likely	Very likely	Some-what likely	NET Not likely	Not too likely	Not at all likely	Someone in family already contracted (vol.)	No opinion
April 3-6, 2020	46%	13%	34%	50%	33%	17%	1%	2%

Q18a. In the last few days, would you say you have become (more) concerned about the threat of coronavirus, (less) concerned, or has your level of concern remained about the same?

	More concerned	Less concerned	Remained about the same	No opinion
April 3-6, 2020	37%	5%	58%	*

MORE ON METHODOLOGY

A total of **1,002** adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Interviews were conducted in English and Spanish. Among the entire sample, **35%** described themselves as Democrats, **25%** described themselves as Republicans, and **41%** described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Results for the full sample have a margin of sampling error of +/- 3.7 percentage points. For the sample of 875 registered voters, it is +/- 3.9 percentage points. For the subset of 462 Democrats and Democratic-leaning independents who are registered to vote, it is +/- 5.6 percentage points.

Interviews were conducted among a representative sample of the adult population, age 18 or older, of the United States. Members of demographic groups not shown in the published crosstabs are represented in the results for each question in the poll. Crosstabs on the pages that follow only include results for subgroups with a minimum n=125 unweighted cases. Results for subgroups with fewer than n=125 unweighted cases are not displayed and instead are denoted with "**SN**" because samples of that size carry larger margins of sampling error and can be too small to be projectable with confidence to their true values in the population.
