CHOLERA MORBUS IN CHILL.

WE have just received this melancholy news, and we consider it our duty to circulate it as speedily as possible, in order to give the alarm of the invasion of so formidable an enemy, that the measures which the welfare of society call for, may be promptly and effectually put in operation.

I am in a state of great anxiety, owing to the appearance in this part of the country, since the last forty days, of an epidemic called cholera, or cholera morbus, the effects of which are so violent that the very winds cause persons to fall down dead in the streets in a few moments after going out of their houses.

Remarkable Circumstance.—Two or three weeks since, on Saturday evening, three jovial young men of this city, who had just returned from a tavern in Broadway, in the course of their conversation, says one of them to another...

On Friday week a laboring man in the eighth ward of this city, who had been in the habit of drinking freely of ardent spirits, was cautioned as to the danger of such a practice at this peculiar time.

Transportation of Drunkards.—About 60 men and 40 females, from the streets and the House of Correction, have been conveyed to Fort Warren, a fine battery, in fitting up the barracks for a season of their confinement.

The Wretched Poles! Galligan's Messenger of the 22d Inst. contains a letter dated Bamberg, June 8th, which states that on the 3d of that month an officer of high rank, formerly belonging to the Russian army, had arrived at that city, having by artifice escaped from Siberia, whither he had been perpetually banished.

ENGLAND.

The cholera continues to rage, and in some parts with increased violence. We have this evening papers of the latest date, that this dreadfully bad broken out in Cold Bath Fields prison, and that seventeen prisoners died on the 25th.

The cholera was on the increase in Ireland; in Liverpool it was abating; it was officially announced as having broken out at Manchester. Sir James Macdonald, the recently appointed Governor of the Ionian Islands, died in London on the 29th June.

FIRE AT PORT-AU-PRINCE. A fire broke out suddenly at Port-au-Prince on the 5th July, which in four hours destroyed upwards of 600 buildings with most of their contents. Fortunately few persons were lost.

PRAYERS. At some of the Churches in New-York, prayers are held every afternoon at half past five o'clock, and to be continued every day during the prevalence of the Cholera.

A child fell from the second story of the Exchange Coffee House, in this city, on Sunday last, a distance of 30 feet, and remarkable to relate, received no injury, except a slight bruise.

Wanted, at this office, a ROLLER BOY. Application may be made immediately. Aug. 18.

DIALOGUE OF INFANT SCHOOL CHILDREN

At the 16th annual meeting of the Society for the Promotion of Permanent and Universal Peace in London, May 24, 1886, the following conversation took place...

At Hateson, near New York, on Tuesday July 24, 1886, the Rev. G. L. Hinton, of the Protestant Episcopal Church, on Sunday school...

TO CAPTAIN H. D. OF THE LXVTH REGIMENT. BY PHILIPS WHEATLEY, AN AFRICAN SLAVE. Say, Muse divine, can hostile seas divide The warrior's bosom in the fields of fight?

MISCELLANEOUS NEW-YORK A DESERT. The present condition of this city will stand among the most memorable events of its history.

ILLUSTRATION OF SECOND BOYHOOD. A well known dandy, who in his seventeenth year, well known at the end of the town, conceives well known that he is not only dressed as such...

POLAND. The most trifling persecutions are carried on by the Russians in Warsaw. The most unpolished towards the highest Polish in that unhappy capital.

M. Gaspar Spruzhewicz was one of the passengers of the steamer "Columbia" which arrived on Saturday from Havre.

Paranoma of Boston.—We understand that the gentleman from England is now exhibiting a panoramic view of our fair city on a canvas 3000 feet in length.

Interference and the Cholera.—We have alluded to the remarkable case of the cholera which occurred in the small village of St. John.

New-York.—The past month has been memorable in the annals of this city. In the short space of thirty-one days, ending yesterday morning at eight o'clock, the number of interments, according to the City Registrar, was 40,000.

Re-appearance of the Cholera in London.—We regret that it is our painful duty to inform our readers that this dreadful disease, although smothered for a time, has broken out again with renewed violence in the eastern district of the metropolis.

General Jackson, in his choleric prostration of unconstitutional proceedings, declined appointing a fast for the 22nd of July.

General Jackson, in his choleric prostration of unconstitutional proceedings, declined appointing a fast for the 22nd of July.

NEW-YORK A DESERT. The present condition of this city will stand among the most memorable events of its history. To persons unacquainted with its usual appearance and bustle, it would be futile to attempt any delineation of its altered exhibition.

Some particulars connected with this pestilence that walketh in darkness, and which is called Cholera, as it has been developed in New-York.

Execution.—We learn by the Mount Holly Mirror, that a woman named Elizabeth Freeman, the colored woman who was under sentence of death for the murder of her husband, was publicly executed on Friday the 22nd inst.

Another account says.—Her appearance was in every respect imposing. She was dressed in a white handkerchief negligee thrown over a black dress.

County Lyceum. A Lyceum seminary, an interesting or circuit library, a county cabinet of Natural History, a system of circuit teaching, under one or more district professors, or experimental teachers.

For our city, alas!—and for our country at large, there is a broader crisis in this respect, than that which concerns punishment may be expected.
