IN MEMORIAM OF DR. J. W. E. LINDER

---

Dr. Linder fell victim to an acute apoplectic stroke while enroute home from a Bigger and Better Business Program on which he had been the final speaker. From this affliction he did not rally and left us four days later (April 28, 1939).

Dr. Linder was of one of the first families of Georgia, being the son of the late Congressman George W. Linder, of the Georgia House of Representatives during the Reconstruction Period. At the time of his death he was a member of the Executive Board of the National Medical Association, a trustee of Morris Brown College, Chairman of the Steward Board of Big Bethel A. M. E. Church, Chairman of the official Atlanta delegation to the 1940 African Methodist Episcopal General Conference in Detroit, Mich., General Chairman of the 1939 Citizens' Committee of the National Negro Health Week Campaign, and a goodwill envoy to the forthcoming pageant in Jackson, Miss., which commemorates "Seventy-five Years of Progress" by the Negro, having been appointed to this position by Governor E. D. Rivers, Chief Executive of the State of Georgia.

Dr. Linder was the co-founder and first President of the Lambda-Sigma (Graduate) Chapter of the Phi Beta Sigma Fraternity and was the guiding light in this Chapter until his death. He was Chairman of the official delegation to the 1938 Conclave of the Phi Beta Sigma Fraternity held in Winston-Salem, N. C.

He enjoyed a very lucrative medical practice in the City of Atlanta for over 30 years. He was an ex-President of the Atlanta Medical Association and the Georgia State Medical Association. He was loved by all who knew him. He was known for his integrity, his loyalty, and his aggressiveness. His influence will long be felt for his Progressive Programs—not only in the field of medicine, but in every phase of life which vitally concerns our race.
