

MYmta

The MTA has launched a new app and website designed to help all MTA customers get where they're going as quickly and easily as possible. They're loaded with helpful features like:

- **Real-time arrivals** for all subway stops, trains and buses
- **Nearby stations, bus stops and places of interest** close to your location
- **Personalized trip planning** across subways, buses, LIRR and Metro-North
- **Preference settings** that let you save your favorite trips, stations, and stops
- **Exclusive access to info about scheduled work and delays**, straight from the MTA
- **And more**

Try them out today for free:

Latest MYmta Updates

Both the app and the website are currently in beta testing. So we want you to try them out, then tell us what you think.

Here's how:

- On the app's home screen, tap "Tell us what you think about this app."
- On the website, click the "Feedback" banner at the top of the page.

MYmta was designed for riders like you, so we definitely want to hear what you think. Your opinions and suggestions will influence future enhancements and new features. Check back here often for updates.

**Don't feel like using the new website right now?
