Descriptive Summary

Title: The Joan Moore Papers,

Date (inclusive): 1978 - 2004

Collection number: 96

Creator: Joan Moore

Extent: Approximately 28 linear feet

Repository: University of California, Los Angeles. Library. Chicano Studies Research Center, UCLA
Los Angeles, California 90095-1490

Abstract: This collection of approximately 28 linear feet of papers represents the background research underlying Dr. Joan Moore's groundbreaking books and research studies. Chief among them are her books: *Homeboy: Gangs, Drugs and Prison in the Barrios of Los Angeles* (Temple University Press, 1979) and *Going Down to the Barrio* (Temple University Press, 1992) Both of which are widely respected for their insights into Mexican American gangs. Dr. Moore's "Drug Posses, Gangs and the Underclass in Milwaukee" study focuses on the African American community. Methodologically these studies expand the Chicago School's community research approach by incorporating actual gang members into the research team. More importantly, Dr. Moore's findings have provided important theoretical insights into deviance and social problems.

Physical location: Currently housed at the UCLA Chicano Studies Research Center Library and Archive, 144 Haines Hall. In the future the collection will be stored off site at the UCLA Southern Regional Library Facility. Please allow 72 Hours notice for the paging of archives.

Biography

Dr. Moore has made a major contribution to the social sciences in the area of crime, drugs and gangs. No scholar is as widely cited as is Dr. Joan Moore in this field. She has numerous articles, book chapters, and books in this area. Her two books *Homeboy: Gangs, Drugs and Prison in the Barrios of Los Angeles* (Temple University Press, 1979) and *Going Down to the Barrio* (Temple University Press, 1992) are widely respected for their insights into Mexican American gangs. *Homeboys* is considered by many a "classic" in this field. More recently, her "Drug Posses, Gangs and the Underclass in Milwaukee" study focuses on the African American community. Methodologically these studies expand the Chicago School's community research approach by incorporating actual gang members into the research team. More importantly, Dr. Moore's findings have provided important theoretical insights into deviance and social problems.
