Methodology

The *Forbes* World's Billionaires list is a snapshot of wealth using stock prices and exchange rates from March 18, 2020. Some people become richer or poorer within days of publication. We list individuals rather than multigenerational families who share fortunes, though we include wealth belonging to a billionaire's spouse and children if that person is the founder of the fortune. In some cases we list siblings or couples together if the ownership breakdown among them isn't clear, but here an estimated net worth of \$1 billion per person is needed to make the cut. We value a variety of assets, including private companies, real estate, art and more. We don't pretend to know each billionaire's private balance sheet (though some provide it). When documentation isn't supplied or available, we discount fortunes. For daily updates of net worths, go to forbes.com/real-time-billionaires.

FORBES (ISSN 0015 6914) is published seven times a year in February, April (double issue), May, July, August, October and November (double issue) by Forbes Media LLC, 499 Washington Blvd, Jersey City, NJ 07310.
