**JURY TRIAL DEMANDED**

*The Great Spirit made all things... So live your life that the fear of death can never enter your heart. Trouble no one about their religion; respect others in their view, and demand that they respect yours. Love your life, perfect your life, beautify all things in your life. Seek to make your life long and its purpose in the service of your people.*

Tecumseh, Shawnee Chief (1768-1813), from his speech to the Osages in 1811, and other speeches to other Native nations.

A version of Benson John Lossing's engraving (in wood) of Shawnee Chief Tecumseh, with water colors on a platinum print after a pencil sketch by French trader Pierre Le Dru at Vincennes, taken from life, c.1808.

Plaintiff Apache Stronghold and its members, by and through their attorneys, allege and state as follows:

### **THE NATURE OF THIS ACTION**

1. This is a gravely serious and urgent matter of the religious freedom rights, the treaty rights, and land rights of the Western Apache Peoples which the Defendants are now poised this week to obliterate forever. This case is at a crisis point precipitated by the

recklessly deliberate and illegal aggressions and harmful, damaging actions of the Defendants.

2. The deliberate and direct effect of the Defendants' publicly stated plans and planned actions is to illegally annihilate the religious freedom rights of the Western Apache Peoples at a sacred and actively utilized religious place and traditional Western Apache cultural property known to the Apache since time immemorial as Chi'chil Bıldagoteel. A literal English translation of Chi'chil Bıldagoteel is "Emory Oak extends on a Level," or more simply as it is commonly known: "Oak Flat."

Available online at <https://billmoyers.com/story/the-mine-at-oak-flat-a-timeline-of-a-government-bad-faith/> .

3. The publicly stated primary purpose of the Defendants is to present a concrete plan and act to enable the conveyance in the immediate future of federally-managed land which includes Oak Flat, and other lands, to two foreign mining companies, Rio Tinto and BHP, to install a massive industrial complex to extract copper ore, while dumping the toxic waste nearby in the process, in spite of knowing that Oak Flat is a traditional cultural and religious property of the Plaintiff Apache Stronghold and all Western Apache Peoples. Evidence exists that the Oak Flat “parcel” within the proposed land exchange is not owned by the Defendant United States of America.

4. The traditional Western Apaches have never lost their vital relationship to Oak Flat, though the U.S. Government, at times in Apache history, has actually imprisoned Apaches on their own Reservations and often, and for prolonged periods of time, have not allowed Apaches to come to Oak Flat for any of their traditional reasons and needs which include for their physical and spiritual health and well-being, and especially in conformance with their traditional Apache religious beliefs and ceremonies that are centered and seated at Oak Flat.

5. This action is brought to protect the constitutional rights of Apache Stronghold and its members, guaranteed by the First Amendment Right to the Free Exercise of Religion, the First Amendment Right to Petition and Remedy, the Fifth Amendment Right to Due Process (Adequate and Effective Notice), the statutory rights guaranteed by the Religious Freedom Restoration Act, and for breach of treaty rights, trust responsibilities, and fiduciary duty owed to Plaintiff Apache Stronghold and its members by the Defendants.

## **FACTUAL ALLEGATIONS**

6. Evidence exists that the “Oak Flat Parcel” within the proposed “Southeast Arizona Land Exchange and Resolution Copper Mine Project” which—quite possibly as soon as January 15, 2021—is to be conveyed away by the Defendants to the foreign mining conglomerates Rio Tinto and BHP via their joint subsidiary Resolution Copper Mine, is not owned by the Defendants.

7. The Western Apaches through their 1852 Treaty with the United States of America continue to have ownership interests in the lands proposed to be conveyed away in a land swap by the Defendants with the foreign mining conglomerates, Rio Tinto and BHP, via their joint subsidiary Resolution Copper Mine. Those lands particularly include, but are not limited to, the “Oak Flat Parcel.” And the “Oak Flat Parcel” of the proposed Resolution Copper Mine Project is located right smack dab in the middle of the Western Apaches’ 1852 Treaty lands.

8. The U.S. government as a trustee of the Apache Nations, and the Western Apache Peoples in particular, intends to dispose of and allow the total destruction of the Western Apaches’ Chi’chil Biłdagoteel National Historic District and Traditional Cultural Property, the seat of Western Apache religious beliefs and the exercises of their religious freedom as guaranteed first by the Apache Nations’ treaty rights under the 1852 Treaty of Santa Fe, and by the First Amendment to the United States Constitution, the Religious Freedom Restoration Act (42 U.S.C. § 2000bb, *et seq.*), and the United Nations Declaration on the Rights of Indigenous Peoples, to which the United States of America is a party.

9. The deliberate and direct effect of the Defendants’ publicly stated concrete plans and planned actions is to illegally annihilate the religious freedom rights of the Western Apache Peoples at a sacred and actively utilized religious place and traditional Western Apache cultural property known to the Apache since time immemorial as Chi’chil Biłdagoteel. A literal English translation is “Emory Oak extends on a Level,” or more simply as it is commonly known: “Oak Flat.”

10. The publicly stated primary purpose of the Defendants is to enable the conveyance of federally-managed land which includes Oak Flat, and other lands, to two foreign mining companies, Rio Tinto and BHP, to install a massive industrial complex to extract copper ore there, while dumping the toxic waste nearby in the process, knowing that

Oak Flat is a traditional cultural and religious property of the Plaintiff Apache Stronghold and all Western Apache Peoples.

11. The Plaintiff Apache Stronghold organization and its members have no adequate administrative remedies available. Plaintiff and many of its members have repeatedly pleaded with Defendants directly in person and in correspondence, publicly and privately—including numerous appearances and presentation of testimony before Congress over the past several years—and participating in various federal agency and Forest Service administrative processes, asserting their Apache land rights and requesting Defendants to comply with their obligations and to recognize and honor their Apache land rights and religious freedom rights, and to either cease or redress the breaches of trust complained of herein, to no avail.

12. Plaintiffs have exhausted all reasonable avenues of redress and remedy other than this action. Only this Court can provide to Plaintiffs the relief and remedies to which they are entitled.

13. Plaintiff and its members' beliefs forbid them from participating in any plans and actions that will cause adverse effects, damage or harms to Oak Flat and all it contains, both physical and spiritual, or providing access to those who would cause such damage or harms. This includes participation in any plans and actions and agreements to accept monetary compensation or other compensation, including proffers of things and promises presented to the Plaintiff and its members as “mitigation” for the adverse effects, damage, or harms suffered heretofore—whether temporary or permanent. It also includes being involved in anything that is contrary to their religious beliefs and teachings.

14. Such attempted “mitigation” proffers, solicitations, and coercions alone—cloaked in the guise of “meetings,” “listening sessions,” and “consultations”—cause serious distress and harm to Plaintiff and its members because their religious beliefs forbid such engagements and actions. It is no different to them than Christians bargaining with the Devil for their souls. And yet, the Defendants have constantly urged the Plaintiff and its members to do just that.

15. The United States does not have the power and authority to transfer the land at issue in this case.

16. Oak Flat is within the vast area of land and property and the rights thereto reserved by the Apache Nations to themselves in their 1852 Treaty with the United States of America,<sup>1</sup> commonly known as the “1852 Treaty of Santa Fe,” which was ratified by the U.S. Senate and proclaimed by President Pierce on March 25, 1853. The 1852 Treaty was never amended, rescinded, nor terminated.

---

<sup>1</sup> “1852 Treaty between the U.S. and the Apache Nation of Indians,” sometimes referenced as the “Treaty of Santa Fe”

*(Articles of a treaty made and entered into at Santa Fe, New Mexico, on the first day of July in the year of our Lord one thousand eight hundred and fifty-two, by and between Col. E. V. Sumner, U.S.A., commanding the 9th Department and in charge of the executive office of New Mexico, and John Greiner, Indian agent in and for the Territory of New Mexico, and acting superintendent of Indian affairs of said Territory, representing the United States, and Cuentas, Azules, Blancito, Negrito, Capitan Simon, Capitan Vuelta, and Mangus Colorado, chiefs, acting on the part of the Apache Nation of Indians, situate and living within the limits of the United States.)*

17. The Western Apaches through their 1852 Treaty continue to have ownership interests in the lands proposed to be exchanged by the Defendants. Oak Flat is a place that has special significance—a place where Apaches traditionally pray, collect water and medicinal plants for ceremonies, gather acorns and other foods, and honor those that are buried here. Many traditional Western Apache religious beliefs are seated only at Oak Flat, which is one reason why they exercise their religion there.

18. American history and the land in Arizona is stained with the blood of Apache women, men, elders and children, hunted down on the Apaches own Treaty lands and individually killed and mass-murdered in family groups by European and Euroamerican colonists, “settlers,” “prospectors,” miners, and agents of the United States of America. Much of it caused by those invaders of Apache land seeking to separate the Apaches from their Treaty lands which miners and prospectors unscrupulously coveted.

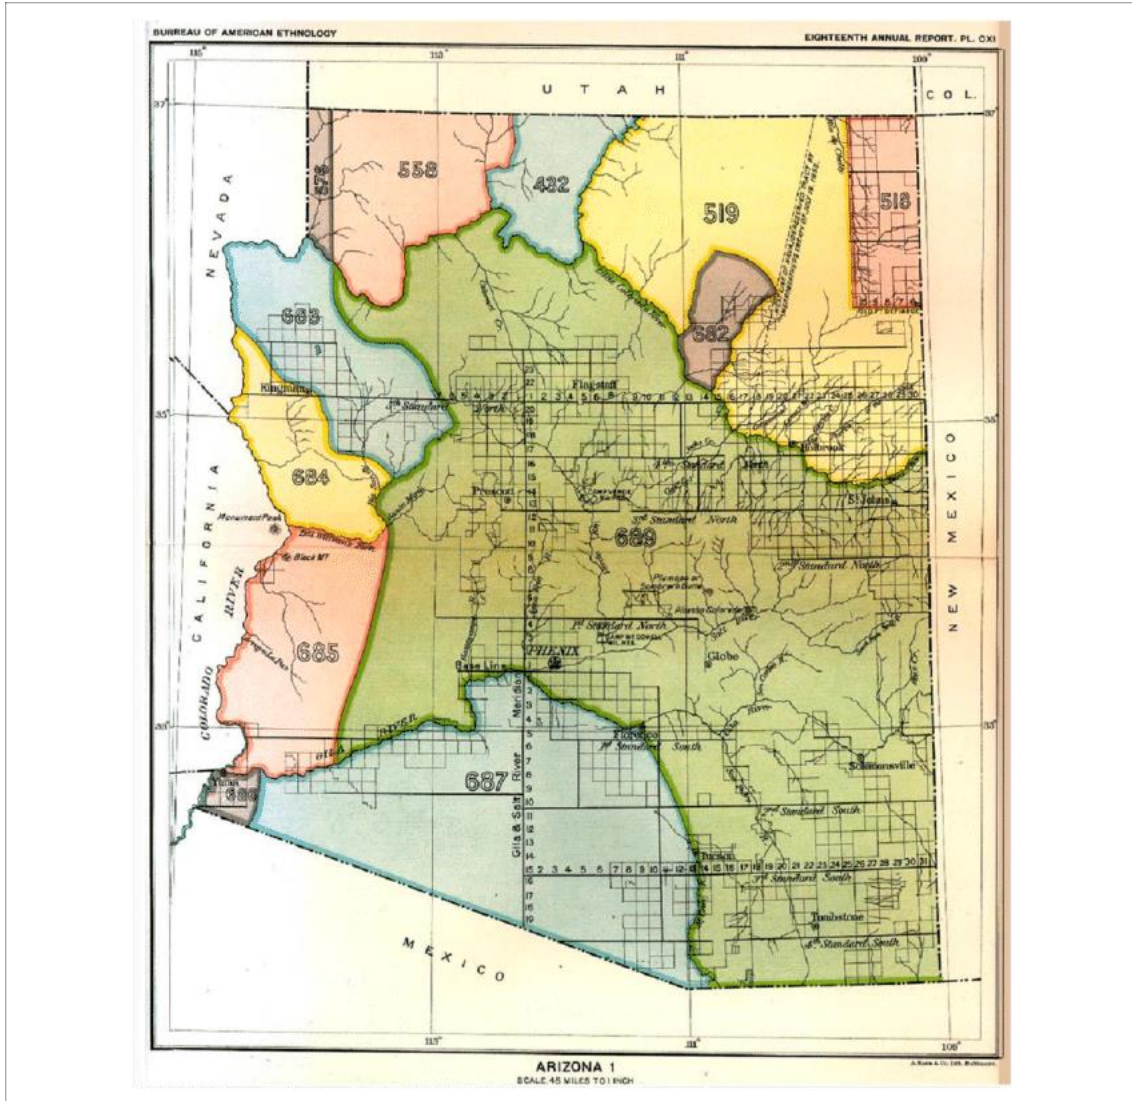

19. Those murderous campaigns and genocidal pogroms were rationalized by dehumanizing the Apache Peoples. See, *e.g.*, Welch, John R., “Earth, Wind, and Fire: Pinal Apaches, Miners, and Genocide in Central Arizona, 1859-1874.” (Sage Open Journal, October-December:1-19 (2017)).<sup>2</sup>

20. The United States of America does not have the power and authority to transfer the Oak Flat land at issue in this case, and in fact has a trust responsibility and fiduciary duty to Plaintiff Apache Stronghold, and all Western Apaches, to conserve and preserve that precious and irreplaceable asset and sacred religious property for the benefit of Apache

### **ADDITIONAL FACTUAL ALLEGATIONS**

**30. The National Defense Authorization Act for Fiscal Year 2015 (“NDAA of 2015”)**

The defendant United States of America, by and through its Department of Agriculture agency, the Forest Service, and their personnel, has suddenly publicly stated for the first time its intent to publish a Final Environmental Impact Statement (“FEIS”) on this coming Friday, January 15, 2021.<sup>5</sup> That mere act of publication will immediately enable the Forest Service to attempt to convey a 2,422-acre parcel of “Forest Service land” to an entity owned entirely by foreign mining corporations, pursuant to a mandate in Section 3003 of the “Cromnibus”<sup>6</sup>

### **The Land Exchange Mandate**

31. While Section 3003 of the NDAA mandates that the Southeast Arizona Land Exchange shall be done no later than sixty (60) days after the publication of the FEIS, there

---

<sup>7</sup> H.R.3979 - Carl Levin and Howard P. "Buck" McKeon National Defense Authorization Act for Fiscal Year 2015, Public Law No: 113-291 <https://www.congress.gov/bill/113th-congress/house-bill/3979/text> | <https://www.congress.gov/113/plaws/publ291/PLAW-113publ291.pdf> .

is no such mandate in the NDAA establishing any particular date or time frame for the publication of the FEIS.

32. The FEIS is the precursor act for the land exchange mandate.

33. Until as recently as this past summer, the FEIS was not even scheduled in the Tonto National Forest's Schedule of Proposed Actions ("SOPA") to be published until at least April 2021.

34. Plaintiff Apache Stronghold and many of its members, including but not limited to Wendsler Nosie, Sr., and Naelyn Pike, have been actively engaged throughout the Forest Service's conduct of the public administrative processes concerning Rio Tinto and BHP's intent to establish a copper mine on local lands near the San Carlos Apache Reservation, including those managed by the U.S. Forest Service.

35. The names and addresses, and even email addresses, of Apache Stronghold and many of its members, including but not limited to Wendsler Nosie, Sr., and Naelyn Pike, have been known to the Forest Service for a considerable amount of time, and the Forest Service has been well aware of their religious rights and legal interests in Oak Flat and the proposed land exchange and copper mine.

36. Without any prior notice to Apache Stronghold and its members—particularly including but not limited to Wendsler Nosie, Sr., and Naelyn Pike—and in deliberate and reckless disregard of the rights and legal interests of Apache Stronghold and its Western Apache members, the Forest Service by and through Tonto National Forest Acting Supervisor Tom Torres leaked to a Reuters news reporter on or before January 4, 2021, that the Forest Service will be publishing the FEIS on January 15, 2021.

### **The Mandate's Effect on Plaintiff and the Need for Immediate Relief**

37. That news, and the now suddenly looming ten (10) day deadline, was a surprise announcement without any adequate or effective notice of that January 15, 2021 date to Plaintiff Apache Stronghold and its members who have been actively engaged in the environmental and cultural resources review processes from the beginning days. Plaintiff Apache Stronghold and its members were shocked and distressed to learn that, first through a rumor that day, and then through reading the news report.

38. Plaintiff notes the obvious fact that the surprise announcement of the publication date was made and the agency action of publication of the FEIS would be consummated by the Forest Service before the new Biden Presidential Administration is inaugurated at 11:00 AM Eastern Standard Time on January 20, 2021.

39. That choice of date, even of all the possible dates just in the month of January 2021, is not a coincidence or a mere act of ministerial housekeeping by an outgoing administration. It is a nefarious act and breach of fiduciary duty and trust by a federal trustee of the Plaintiff and its Western Apache members, and violates their treaty rights, unduly burdens their constitutional rights, and their other rights to this land that is at the center of this case.

40. The Resolution Copper Mine is planned and expected to cause a 1,000+ foot deep, 2-miles wide subsidence crater that would be centered at Oak Flat:

Map shows area of massive mining subsidence that would occur to Oak Flat if that land is exchanged by the U.S. Forest Service for other land elsewhere in Arizona owned by Rio Tinto-BHP's joint venture entity, Resolution Copper Mine, and Oak Flat gets undermined.(© Reuters/Nancy Wiechec).
