Architectural and Engineering Design Services for the EAT Fat City Center, a Community Campus for Entrepreneurship, Art, & Technology

The Parish of Jefferson, authorized by Resolution No. 139667, is hereby soliciting the submittal of a Statement of Qualifications [Technical Evaluation Committee (TEC) Questionnaire] from person(s) or firm(s) interested and qualified to provide professional architectural and engineering services related to the design and construction of the EAT Fat City Center, a community campus for entrepreneurship, art, & technology and its associated transportation hub/parking garage. (Council District 5)

DEADLINE FOR SUBSMISSIONS: 3:30 p.m., June 2, 2022

General Information and Project Background

Jefferson Parish drives economic growth across Greater New Orleans and the State of Louisiana, serving as the logistical hub of the ten-parish region and home to one of the fastest growing airports in the United States with strategic access to major highways, railways, and waterways, including the Mississippi River. To foster its ongoing success, it would be beneficial for unincorporated Jefferson Parish to improve Fat City as its "city center"— an urban community that is its social, economic, and cultural core, stimulating the creative economy, offering urban living, attracting new residents, incubating start-ups, and growing business.

To this end, Jefferson Parish has developed a vision for the EAT Fat City Center, a campus of activity that facilitates the respective advancement and positive interaction of various agencies, offices, organizations, community leaders, industry experts, and the publicat-large across numerous fields and disciplines, especially in relation to: Entrepreneurship, Art, and Technology.

anticipated that the EAT Fat City Center will link together It is anticipated that the EAI Fat City Center will link together an array of public and private entities, increasing their proximity to people who need their services most. Whether someone is starting a business, looking for workers, seeking job training, or looking for a new career path, the EAT Fat City Center will act as a one-stop resource center for economic development.

Planned partners include: a technology library & makerspace, a workforce development office, an east bank satellite office for the Jefferson Parish Economic Development Commission (JEDCO), an office for the Metaire Business Development District (MBDD), a business incubator space, a co-working space, hot desk space, offices for local business organizations and associations, a transportation hub/public parking garage, and various shared amenities, including an ample amount of flexible meeting rooms to accommodate the region's fluctuating business and community needs. Additionally, community leaders have expressed an interest in partnering to further expand the arts offerings within the EAT Fat City Center campus, especially with respect to digital, technological, visual, performing, and collaborative arts.

is further planned that the EAT Fat City Center building will relate to an adjacent, to-be-designed outdoor recreational park, thereby allowing the two sites to be thoughtfully integrated and to collectively serve as a cohesive campus for shared hosting of community events and festivals. The current total campus footprint for the structures is approximately 49,000 sq. ft., adjacent to an additional outdoor park space of approximately 32,000 sq. ft. The anticipated size of the EAT Fat City Center building is 35,000–40,000 sq. ft.

The EAT Fat City Center will also include a structured parking garage/transportation hub with a target size of approximately 250 parking spaces. This structure may or may not be connected to the aforementioned EAT Fat City Center building. The structured parking will meet a core need to support the redevelopment of the neighborhood.

These square footage approximations for the building structures and park may be adjusted to enlarge the park/building footprint by potentially relocating the transportation hub/parking garage onto a separate nearby site so as to better serve both the EAT Fat City Center as well as the surrounding Fat City neighborhood.

Due to the unique, multidisciplinary nature of the EAT Fat City Center, Jefferson Parish is seeking a Statement of Qualifications from person(s) or firm(s) interested in and qualified to provide architectural and engineering services for the design and construction of the EAT Fat City Center. The proposed building may consider some or all of the following design goals (the "Design Criteria"):

- Access to light and air;
 Communal spaces and opportunities for cross-program interactions;
 A clear sense of materiality;
 A strong façade and street presence;
 Thoughtful integration of parking;
 Carefully siting and coordination with park design;
 Flexibility for use to change over time;
 Thematic integration toward promoting Entrepreneurship,
 Arts, & Technology;
 Efficient layout and compact core(s);
 Efficient construction (esp. structure and envelope);
 Integration of passive solar, daylighting, and environmental strategies; and
- strategies; and Low operating and maintenance costs.

The EAT Fat City Center will be the first development in a renewed Fat City. It shall be a trendsetter and a trailblazer; and it must embrace the community and draw residents to the area, especially with respect to entrepreneurship, arts, & technology. The design should respond to this great responsibility to create a building/campus that is sophisticated, of its place, layered, well-detailed, comfortable to occupy, and efficient to operate.

The project is expected to include the following supplemental

- Structural Engineering; MEP Engineering; Civil Engineering; and Landscape Architecture.

Additionally, the project may include the following supplementa

- Surveying Services; and Geotechnical Engineering Services.

The person(s) or firm(s) submitting a Statement of Qualifications (TEC Questionnaire) must identify all sub-consultant person(s) or firm(s) which they expect to use to provide professional services, and submit a Statement of Qualifications (TEC Questionnaire) for each sub-consultant person or firm. (Refer to Jefferson Parish Code Ordinance, Section 2-928).

It is further anticipated that the project may involve a construction management at risk (CMAR) delivery method. In this delivery method, a construction manager will be selected early in the design phase and will work in a design-assist role. The architect and its consultants shall coordinate with the CMAR throughout the design process to help ensure quality, budget conformance, and constructability. Preliminary Project Schedule

The anticipated schedule for overall delivery of the Project is as follows. Jefferson Parish reserves the right to modify this schedule if it is in the best interest of the Parish and Project:

Preliminary Project Budget
The preliminary estimated construction cost budget for the Project is fifteen million dollars (\$15,000,000.00).

Compensation
Compensation for the required design services will be made on an hourly rate basis or a fixed fee basis, or a combination of both, depending on scope and complexity of the work. The Parish reserves the right to determine the method of payment (hourly or fixed) for each individual assignment.

For hourly rate work, the person(s) or firm(s) shall be compensated

by the appropriate Jefferson Parish Department on the basis of their certified and itemized salary costs plus a fee to cover overhead costs and profit in accordance with guidelines established in Attachment "A" to the Standard Professional Services Agreement for Jefferson Parish. A copy of Attachment "A" may be obtained by calling the Jefferson Parish Department of Capital Projects at (504) 736-6833.

For fixed fee work, the fee shall be negotiated with the person(s) or firm(s) by the Jefferson Parish Dept. of Capital Projects and shall be mutually agreeable to both parties.

Compensation for supplemental services, if required, shall be in the form of a "lump sum" for each supplemental service, which shall be mutually agreeable to the Parish and the Consultant.

NOTICE OF EMERGENCY

A Director Declared Emergency has been declared by the Director of the Jefferson Parish Department of Sewerage. On May 5, 2022, it was determined that the Med Voltage Transformer for the back-up power generator servicing the Harvey Wastewater Treatment Plant was defiantly faulty. Any attempts to run the back-up generator without this transformer functioning correcting could result in serious electrical failure and damage to the entire generator unit. Repairs would be equal to or more than the cost of a new transformer. Back-up generator power is required for operation of the plant in the event of a power outage. With hurricane season approaching, back-up generator power is imperative.

COASTAL USE PERMIT APPLICATION: P20220088
PERMIT APPLICATION RECEIVED: Interested parties are hereby notified that the Jefferson Parish Department of Ecosystem and Coastal Management (ECM) has received the following application for a Coastal Use Permit (CUP) in accordance with the rules and Local Coastal Zone Management Act of 1978, as amended (La. R.S. 49:214.21-41), and the Jefferson Parish Coastal Zone Management Program as authorized by Ordinances 15528, 15529, and 15530. NAME OF APPLICANT: Camp Club Inc.
LOCATION OF WORK: Project site is located approximately 3.8 miles southeast of the southernmost end of lower Lafitte, and positioned 1,500 feet west of the Dupre Cut Canal near the western end of the Dry Hole Canal, in Jefferson Parish.
CHARACTER OF WORK: Perform removal operations of a 70' x 27' quarter barge that was moved as a result of Hurricane Ida. Plywood will be laid over a section of marsh/scrub brush/berm, measuring approximately 150 feet in length by about 27 feet in width. Tubular inflatable salvage bags will be placed in front of the quarter barge on top of the plywood while others will be placed underneath the barge to begin forward momentum; thence the barge will be pulled over a sact fubles, and rolled a distance of about 150 feet to the Dry Hole Canal and its original location. It is anticipated this method of removal will prevent wetland impacts, and one full growing season will be allowed before determining if mitigation of wetlands is required.

CLERK I (\$21,829/annually) – Position requires possession of a high school diploma or equivalency certificate or completion of vocational/business school (if academic courses were included). JEFFERSON PARISH RESIDENCY IS REQUIRED FOR THOSE APPLICANTS COMPETING ON AN ENTRANCE BASIS. For more information or to apply, visit our website at https://www.governmentjobs.com/careers/jeffparish.
