

## How the Land Grant Permanent Fund Works

#### LGPF SAMPLE YEAR ILLUSTRATION: FY10

#### AVERAGE ANNUAL GROWTH and DISTRIBUTION of NM'S LGPF

\*Source: State Investment Council

#### **MONEY IN:**

On average: Royalties and Land Sales bring in 4.5% of the corpus value

+

On average: Interest, Dividends and Capital Gains bring in 6.5% of the corpus value

■ Money in averages 11%

### **MONEY OUT:**

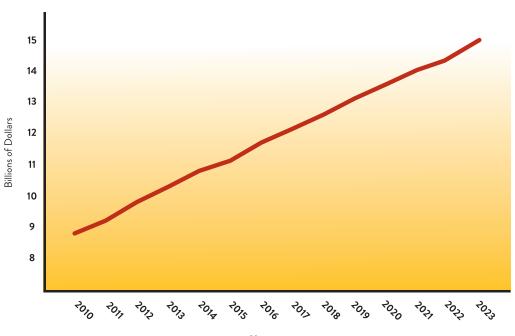

Under current law: 5.8% of the corpus is distributed to beneficiaries (will be reduced to 5.5% in 2013 and 5.0% in 2017)

- 7.0% distribution will not reduce the principal — the fund will continue to grow.
- New Mexico's Land Grant Permanent Fund is the 2nd highest in the Country.
  Meanwhile New Mexico ranks 49th in 4th grade reading levels.

# The Fund will Continue to Grow
