

It's OPEN SEASON on White Women!

All-American Superstar Heroes?

The Kobe Bryant and O.J. Simpson cases illustrate this open season on White women but they represent only the tip of the iceberg of Black on White crime. You will never learn it from the controlled media, but there has been a tidal wave increase in murders, rapes, robberies and assaults by Black criminals.

While comprising only 13% of the US population, Blacks:

- Commit 57% of all murder/manslaughter
- Commit 42% of all violent crimes
- Commit 56% of the robberies
- Commit 38% of the aggravated assaults
- Commit 40% of the forcible rapes
- Account for 29% of all arrests

This escalating Black crime wave creates an ever-increasing number of White victims. White women are particularly at risk.

The controlled media are massively hyping the Kobe Bryant story, deliberately creating the anticipation of yet another acquittal for a famous Black "All-American, celebrity, superstar, hero". In the thoroughly corrupted American Justice System, that prospect is highly likely.

Through media manipulation, the American public is being conditioned to not even notice Black on White crime. Worse than that, Whites are encouraged to think that we actually deserve this Black criminal predation.
