INVESTOR IN PEOPLE

**STUDENT LOANS FOR HIGHER EDUCATION IN WALES,  
FINANCIAL YEAR 2006-07 (PROVISIONAL)****INTRODUCTION**

This statistical first release provides statistics on loan outlay and repayments of loans and borrower activity, for all Welsh domiciled students and those EU students studying in Wales during financial year 2006-07, and also shows comparable data for financial year 2005-06. Figures are provided for the publicly owned debt only.

**Key policy changes for 2006/07**

From 2006/07, loans to cover the cost of tuition fees became available for students. This means that tuition fee payments can be deferred until students have left higher education and are earning over £15,000. New system Welsh and EU domiciled students studying in Wales (i.e. those entering under the new support arrangements introduced in September 2006) were subject to tuition fees of £1,200. Welsh domiciled students studying in England were subject to variable tuition fees of up to £3,000.

New system students in receipt of the new Maintenance Grant have their maintenance loan entitlement reduced by up to £1,200 depending on the level of grant paid.

**KEY POINTS**

- The amount lent to eligible HE students for Maintenance Loans during financial year 2006-07 was £148.5m, a rise of 0.6% when compared to 2005-06.
- The total amount lent to eligible HE students during financial year 2006-07 was £163.9m, of which £15.4m relates to Tuition Fee Loans.
- Repayments posted to customer accounts amounted to £29.1m (including £8.7m paid earlier than required) in the financial year 2006-07. £19.1m of these repayments relates to Income Contingent Loans, the remaining £10m relates to Mortgage Style loans.
- During the 2006-07 financial year 4,055 borrowers repaid at least one of their loan accounts in full (compared to 4,524 during 2005-06).
- The balance outstanding (including loans not yet due for repayment) at the end of financial year 2006-07 was £1,127.3m of which £1,058.7m relates to income contingent loans.
- At the end of 2006-07 there were over 154,000 borrowers; of these, over 97,700 had accounts in repayment status.

## **TABLES**

Table 1 shows the amounts paid out in loans and repaid during financial year 2006-07 and makes comparisons to financial year 2005-06.

Table 2(i) shows the change in the number of borrowers each year from 01/04/2005 to 31/3/2007 broken down between those with Mortgage Style loans and those with Income Contingent loans, and with the year end numbers further broken down between those in repayment and those not yet in repayment.

Table 2(ii) shows a detailed breakdown of Mortgage Style Loan borrower repayment activity and repayment status for 2006-07, and makes comparisons to financial year 2005-06.

Table 2(iii) shows a detailed breakdown of Income Contingent Loan borrower repayment activity and repayment status for 2006-07 and makes comparisons to financial year 2005-06.

## **NOTES FOR EDITORS**

1. The statistics on student loans in this release were compiled by the Student Loans Company (SLC). They include public sector loans only, which are made and repaid on both an income contingent basis and a mortgage style basis.

2. A portfolio of UK student loans to the value of just over £1bn was sold to the private sector in March 1998. A second tranche to the value of £1.03bn was sold in March 1999. The loans sold were mortgage style; none of the income contingent loans available from the 1998/99 academic year were involved in either sale. This publication does not include statistics on the sold debt portfolios.

3. These statistics cover both income contingent loans as well as the old 'mortgage style' loans. Responsibility for the income contingent loan book was transferred to the Welsh Assembly Government in 2006 but responsibility for the mortgage style loan book remains with the Department for Education and Skills (DfES).

4. At the beginning of financial year 2005-06, the administration charges balance (otherwise known as the non interest bearing balance) on mortgage style loans was transferred to SLC on the advice of DfES. In order to provide a complete picture of the outstanding customer debt for comparison with previous years, the administration charges debt outstanding to SLC is also shown in the statistics.

### **PRE- 1998/99 STUDENT SUPPORT ARRANGEMENTS (FOR STUDENTS ENTERING HIGHER EDUCATION UP TO AND INCLUDING 1997/98)**

5. The financial support arrangements for students on courses which began before 1 August 1998 also applied to some new students who entered higher education in 1998/99 but were treated exceptionally as existing award holders for the purposes of the Mandatory Awards Regulations (e.g. gap year students). Tuition fees were paid in full by Local Authorities where the student was eligible for a mandatory award and such students also received a grant towards their maintenance, depending on income, for the duration of their course. Eligible students were able to apply for loans repayable on a mortgage-style basis.

6. Mortgage-style loans were available to most 'home' students in full-time non-postgraduate higher education (and students on full-time and part-time postgraduate courses of initial teacher training) who were aged less than 50 when their course started. They were available to eligible students whether or not they received a mandatory award, although their course had to be designated for mandatory awards purposes. These loans were not income-assessed.

7. Borrowers start to repay their loans in the April after they complete, or otherwise cease to attend, their course, unless they qualify for deferment because of low income. Borrowers are able to apply for deferment of repayments for a year at a time if their gross income is less than 85 per cent of national average earnings, i.e. less than £2,034 per month from 1 September 2006. The amount owed by each student is adjusted annually in line with the annual inflation rate. In 2006-07 the annual inflation rate of 2.4% was used for this adjustment (as measured by the March 2006 Retail Price Index).

## DEFINITIONS

8. The following is a glossary of terms used in connection with mortgage style loans:

In deferment	The borrowers gross income is 85% or less of the National Average Earnings or he or she has taken out a further mortgage style student loan in relation to a subsequent course. The borrower's obligation to make repayments is therefore deferred for one year at a time, or until the end of the course if granted on grounds of continuing study. Borrowers must apply for deferment.
In arrears	Borrowers who have at least one loan on which repayments are owed excluding those granted time and indulgence (which is in single figures).
Deferred with arrears	Borrowers who have at least one loan in deferment status with arrears of repayment excluding those granted time and indulgence (which is in single figures).
Accounts paid in full	All repayments made in accordance with the schedule of repayments required under the Loan Agreement. This can include payments made in respect of accounts not yet in repayment status as well as those in repayment status (including deferment) where repayments have been made ahead of schedule.
Entered repayment status / in repayment status	The borrower has reached the point where repayment is scheduled to commence, that is, the April after he/she graduates or leaves his/her studies.
Cancelled loan	The borrower no longer has any liability to repay as provided for in the loans regulations. A borrower's liability shall be cancelled: <ul style="list-style-type: none"> <li>• On the death of the borrower;</li> <li>• After 25 years or when the borrower reaches the age of 50 (60 if the borrower was aged over 40 when he/she last borrowed), whichever is the earlier, provided the borrower is not in default; or</li> <li>• If borrower is in receipt of a disability related benefit and permanently unfit for work.</li> </ul>
Written off loan	The borrower remains liable to repay but recovery is deemed unlikely by the loan administrator or not possible by legal judgement. No loans have been written off within this category.

## STUDENT SUPPORT ARRANGEMENTS FROM 1998/99

9. New student support arrangements came into effect from the start of the 1998/99 academic year. Students are, with certain specified exceptions, expected to contribute towards the cost of their tuition up to £1,000 a year in 1998/99 (£1,200 in 2006/07). The amount depended on their own and, if appropriate, their parents' or spouse's income.

10. Students receive support for living costs through loans which are partly income-assessed. Most students in the final year of a course receive a lower rate of loan because the loan does not cover the summer vacation following the end of the course. There are different rates of loan based on whether the student is living at home, and, if not, on whether the student is studying in London or elsewhere. Repayment of these loans is linked to income after leaving university or college so that leavers only repay as and when they can afford to. Repayments are at the rate of 9% of income above the income threshold (which has been £15,000 since April 2005 and was previously £10,000). Apart from a few exceptions, where borrowers live overseas or have small balances, SLC does not collect monies from borrowers with income contingent loans – this is done through the taxation system. From 1999/2000 student loans have been made available to those aged 50 to 54 who plan to return to work after studying. From 2006/07 the age limit has been raised to 60 for all students. Students aged 50 and over no longer have to prove that they intend to return to work following their course.

11. For new entrants to higher education, 1998/99 was a transitional year. For the first year of the new scheme eligible new entrants received support for living costs through both grants and loans. Grants, which were assessed against family income, on average formed about a quarter of the support available. Students were entitled to apply for a non income assessed loan, which comprised the remaining three quarters of support available, and which is repayable on an income contingent basis. Those borrowers who took out income contingent loans in 1998/99 who left their studies before April 1999 and who would normally enter repayment status at the start of the 1999-00 financial year were granted a repayment holiday until April 2000.

12. Students with additional costs such as those with dependants, or who have a disability, may be eligible for specific grants on top of other student support. Grants for students with dependants and single parent students are income assessed but the care leaver's grants, school meals allowances and disabled students allowances are not.

13. The Repayment of Teachers Loans scheme was introduced in September 2002. It was open to newly qualified teachers, teaching one of the priority subjects for at least half of their time in a state school or Further Education establishment in England and Wales. Priority subjects include Mathematics, Science, English (including drama), ICT, Modern Languages (including Welsh), Technology and Basic skills. The RTL scheme was closed to new entrants in 2005, those already in the scheme will be unaffected. For mortgage style loans the debt is repaid on behalf of the borrower by DfES over 5 or 7 years, depending on the original credit agreement. For income contingent loans the debt is repaid on behalf of the borrower by the DfES over 10 years. Those who leave teaching before this period expires become responsible for the remaining debt. DfES will administer the RTL scheme on behalf of the Assembly. As at 31/3/2007 there are approximately 24,000 UK Student Loans borrowers on the RTL scheme, the vast majority owing Student Loans debt to DfES.

## **STUDENT SUPPORT ARRANGEMENTS FROM 2006/07**

14. A new Maintenance Grant has been introduced for 'new system' students who started their course in September 2006. The new Maintenance Grant replaces the HE Grant. The maximum amount of support available is £2,700 a year, and how much a student receives depends on their income and that of their household. Students with a household income up to £17,500 will receive the full £2,700 grant; students with household incomes above £17,500 receive a partial grant, with a minimum grant of £50 payable once household income reaches £37,425. No grant is payable where household income is above £37,425. The Maintenance Grant is non-repayable. The equivalent Special Support Grant (of up to £2,700) ensures that students in the DWP vulnerable groups have their grant disregarded when entitlement to benefits is calculated. Since students from lower-income households will have part of their maintenance met through the new Maintenance Grant, their entitlement to repayable support through a maintenance loan will be reduced by £1 for every £1 of Maintenance Grant entitlement up to a maximum of £1,200.

## **TUITION FEE LOANS**

15. From 2006/07 students can defer payment of tuition fees by taking out a Tuition Fee Loan. As well as being available to new system students, this option is also available to pre-2006/07 entrants if they make a full or partial contribution to their fixed fees. Students can take out as much or as little fee loan as they choose, up to the maximum amount of fees being charged. The repayment of Tuition Fee Loans debt is no different to that for Maintenance loans debt. When the borrower goes into repayment they effectively have a single combined debt balance to be repaid according to the Income Contingent repayment regulations. New system Welsh and EU domiciled students studying in Wales were subject to tuition fees of £1,200. Welsh domiciled students studying in England were subject to variable tuition fees of up to £3,000.

16. Tuition Fee Loans became available to EU students studying in Wales in academic year 2006/07. Prior to this year EU students were not entitled to any form of Student Loan.

**Table 1 : Student Loan outlay and repayments - Publicly Owned Debt : financial years 2005-06 to 2006-07 [1] : amounts (£000)**

. = not applicable - = nil or negligible .. = not available

- [1] Repayments of Income Contingent Loans are shown in the financial year when they are posted to customer accounts. The SLC are notified of repayments by HMRC usually within one year of the end of the tax year they relate to, e.g. there will be some borrowers who have repaid their accounts in full in financial year 2006-07 but this will not be reported until the reconciliation has been made with SLC records.
- [2] Early repayments include those which do not necessarily settle the account in full.
- [3] Interest which was added to the existing loan debt which was neither repaid or cancelled during the financial year.
- [4] For PAYE or self employed repayers, interest is not applied to income contingent loan accounts until the SLC have received notification of the amounts collected by HMRC, which is usually within one year of the tax year the repayments relate to. Interest is then applied retrospectively to individuals' accounts by the SLC.
- [5] A non-interest bearing penalty imposed on accounts where extra administration is required (e.g. in cases of arrears, default).
- [6] Balance transfers can occur between the private debt portfolios and the Government portfolios, between the Government administrations and as a one off in 2005-06 with the SLC.
- [7] Transfer of Mortgage Style non interest bearing balance to SLC effective 01/04/2005, plus other transfers from private debt portfolios to Government administrations.
- [8] Constituent parts may not add to totals due to roundings.
- [9] The adjustments indicate transactions in the year affecting customer balances that have not been accounted for in the transaction lines above.
- [10] The cumulative balance of loans in deferment with no arrears at end of financial year (i.e. the amount of deferment and the sum not yet due for repayment but excluding any amount repaid).
- [11] The cumulative balance of loans which are in arrears status at the end of financial year. The arrears value is the overdue amount and does not include administration charges; the balance is the outstanding amount of the account on which there are arrears (including the overdue amount).
- [12] The cumulative balance of loans in deferment with arrears at end of financial year. The arrears value is the overdue amount: the balance is the outstanding amount of the account on which there are arrears (including the overdue amount).
- [13] All movements in the Mortgage Style Loans Administration Charges balances from the beginning of 2005-06 onwards belong to the SLC. This results in a new outstanding balance to be carried forward to the next FY.
- [14] The amounts outstanding for fixed rate loans of £500 to part-time students at the end of the financial years 2005-06 and 2006-07 were £1.12m and £1.11m respectively.

**Table 2(i) : Student Loan outlay and repayments -Publicly Owned Debt : Financial years 2005-06 to 2006-07: borrower activity**

. = not applicable    - = nil or negligible    .. = not available

[1] The number of borrowers with Income Contingent Loans represents those with one or more open loan accounts of the following type: ICR maintenance loans; hardship loans; part time loans; and Fee Loans.

The SLC are notified of borrowers' repayments by HMRC usually within one year of the end of the tax year they relate to, e.g. there will be some borrowers who have repaid their accounts in full in financial year 2006-07 but this will not be reported until the reconciliation has been made with SLC records. Hence, they remain in the borrower numbers until the HMRC return is processed and any resultant refund is returned to the borrower.

[2] The number of borrowers with Mortgage Style Loans represents those with one or more open loan accounts awarded under the pre 1998/99 arrangements.

The status of these borrowers is "real time" because all the repayments are made directly to SLC.

[3] The total number of borrowers is not simply the sum of the ICR borrowers and Mortgage Style Loan borrowers because some borrowers have both loan types.

[4] Borrowers who have repaid at least one loan account in full during the financial year. This covers those accounts that have a status of fully paid; and those accounts with small balance write-offs of less than or equal to £5. Includes accounts closed under the Repayment of Teacher Loans (RTL) scheme.

[5] Borrowers in payment status who have repaid at least one loan account in full in the financial year prior to the loan's statutory repayment due date.

[6] Borrowers who have at least one loan account cancelled during the financial year. Note that small balance write-offs are included in accounts paid in full. Excludes borrowers with accounts closed under the RTL scheme.

[7] Borrowers who had no loans at the beginning of the financial year and who took out new loans during the financial year. The total for new Income Contingent borrowers may be higher than total public debt figures due to a small number of new Income Contingent borrowers who previously had mortgage-style loans.

[8] Each borrower has a loan account for each academic year of study in which they take out a loan. The repayment status may be different for each loan account. Hence, a borrower may be counted in more than one repayment status and the total of the breakdown by repayment status will be higher than the total number of borrowers.

[9] Borrowers with at least one open loan account that has passed into repayment and has not subsequently been fully repaid or cancelled.

[10] Borrowers with at least one open loan account that has not yet passed into repayment because the Statutory Repayment Due Date has not yet been reached. This number includes a whole cohort of borrowers who are just about to go into repayment in the following April.

who have made no repayments	61.0	60.2	20.7	60.9	0.3	61.2
(B) Borrowers with accounts being closed	3.8	5.2	-	5.2	-	5.2
of which						
who have fully repaid [8]	3.7	5.1	-	5.1	-	5.1
who are having their account cancelled [9]	0.1	0.1	-	0.1	-	0.1
(C) Borrowers with accounts where repayments are still due	54.2	68.0	-	68.0	-	68.0
of which						
(a) awaiting first year HMRC return [10]	17.3	17.2	-	17.2	-	17.2
(b) above earnings threshold [11]	12.7	14.7	-	14.7	-	14.7
(c) non-repayment categories	4.2	4.2	-	4.2	-	4.2
(d) below earnings threshold	20.0	31.8	-	31.8	-	31.8
(e) overseas repayers - in arrears	-	-	-	-	-	-

. = not applicable - = nil or negligible .. = not available

[1] Borrowers with income contingent loans are shown in the table by their known status at the end of the financial year. The SLC are notified of borrowers' repayments by HMRC usually within one year of the end of the tax year they relate to, e.g. there will be some borrowers who have repaid their accounts in full in financial year 2006-07 but this will not be reported until the reconciliation has been made with SLC records.

[2] Each borrower has a loan account for each academic year of study in which they take out a loan. The repayment activity may be different for each loan account. Numbers in the Total IC loans column count each borrower once only, even where borrowers have loan accounts belonging to more than one product type. Therefore the totals in this column will not necessarily reconcile to the total of the component parts.

[3] Borrowers who have repaid at least one loan account in full during the financial year. This covers those accounts that have a status of fully paid; and those accounts with small balance write-offs of less than or equal to £5. Includes accounts closed under the Repayment of Teacher Loans (RTL) scheme.

[4] Borrowers in payment status who have repaid at least one loan account in full in the financial year prior to the loan's statutory repayment due date.

[5] Borrowers who have at least one loan account cancelled during the financial year. Note that small balance write-offs are included in accounts paid in full. Excludes borrowers with accounts closed under the RTL scheme.

[6] Borrowers who had no loans at the beginning of the financial year and who took out new loans during the financial year.

[7] Constituent parts may not sum to the totals because individual borrowers may be counted in more than one category if they have loan accounts in more than one status.

[8] Borrowers who have fully repaid their loans but the account cannot be closed until the final HMRC return is received and/or the final refund is paid.

[9] Borrowers who have had their loans cancelled but the account cannot be closed until the final HMRC return is received and/or the final refund is paid.

[10] Borrowers who have been matched with Student Loans records at HMRC but the first tax year return has not yet been received by SLC. Hence, the repayment status cannot yet be determined.

[11] Borrowers for whom the latest tax year return from HMRC indicates that they are above the earnings threshold.

This category also includes those borrowers who are having their loan repaid via the Repayment of Teacher Loans scheme.

This category also includes those borrowers who are now resident overseas, are above the earnings threshold for their country of residence, and are repaying on schedule.
