

Google Meet hardware by Logitech

Affordable and effective video meetings with Google Workspace integration and Logitech support.

Video conferencing everywhere

Available in small, medium, and large configurations, these pre-configured room solutions include a Logitech conference cam (MeetUp or Rally), Meet Compute System with magnetic mount, and the Logitech Tap touch controller.

Easy to deploy

With quality components, commercial-grade cabling, and innovations that automate a better user experience, Logitech Room Solutions for Meet make it easy to deploy video collaboration throughout the workplace.

Join by phone

With dial in and dial out feature, the Google Meet hardware kit is perfect for any call, whether to a remote co-worker, a customer on the phone, or a partner on another platform.

Tap to join

Joining a meeting is as simple as a tap on the touchscreen. Register the room with Google Calendar, and your meetings will automatically appear on the touchscreen with all of the details.

Seamless integration with Google Workspace

For Workspace customer there's no easier way to have video meetings, whether it's integration with Google Calendar, Drive, Jamboard, or easy management for Admins.

Plug and play

With a focus on reliability, your rooms are easy to set up and come with dedicated Logitech support. Plus, with automatic updates, your experience improves over time.
