Friends,

If you work downtown, or plan to be anywhere near downtown tomorrow  
(Tuesday), then please consider stopping by City Hall to vote for Kevin  
Raymond for King Conservation District Position 3.

The election to the Conservation District is an odd process, but is  
prescribed under state law. There are only four polling places in the whole  
county -- one will be Seattle City Hall. There will be no mail ballots for  
this election, and everyone must vote in person. Please encourage your  
friends and co-workers to vote any time during 11:30 AM -7:00 PM. Kevin is  
a strong Democrat and former officer of the 46th Exec Board. Every vote  
will help.

Further details about the election and Kevin are below.

Thanks,

Scott

Dear King County Voter,

Hi, my name is Kevin Raymond and I am a candidate for the King Conservation District Board of Supervisors and I would like your vote on March 28.

I am running for the Board of Supervisors to ensure that there is a voice for a collaborative watershed-based approach to salmon recovery on the board. We need to work cooperatively with cities, King County and unincorporated areas to support a winning strategy for salmon recovery.

All property owners in King County pay a small conservation district assessment of \$10 annually. This assessment is small, but if used wisely, it is a critical source of funding for leveraging state and federal funds

for salmon recovery. We need to return our local runs to sustainable levels, get our local Chinook off the threatened species list and do so with as much local control and oversight as possible. By working together, we can restore the species and avoid federal penalties.

The Conservation District is an important organization that provides services to farms and farmers including outreach regarding best management practices to ensure that our farms can be productive and environmentally friendly. I will support the work of conservation district staff in their efforts to support our region's local farms and farmers.

My background includes legal work on establishing the framework for our local watershed recovery efforts, work on the Seattle monorail project and active support for local Democrats. I am an attorney with land use background in natural resources and master plan development. Currently, I am involved in efforts that include alternative energy development, and establishing a new economy through use of biodiesel. In addition, I am working on climate change and cap and trade issues for a national forest conservation group.

The Conservation District runs its own election. This year it will be on March 28. You must be a registered voter in King County and you must vote in person. I would sincerely appreciate your vote.

Thank you very much for your consideration.

Sincerely,

Kevin Raymond
