## IP ADDRESS & COOKIE POLICY

---

**LAST UPDATED JULY 2023**

Bittrex Global operates cryptocurrency exchanges in Liechtenstein and Bermuda. Bittrex Global GmbH is registered with the Financial Market Authority under Law of 3 October 2019 on Tokens and TT Service Providers (TVTG) in Liechtenstein to operate as a TT Exchange Service Provider, TT Token Depositary and Token Issuer on behalf and for the account of third parties. Bittrex Global (Bermuda) Limited is regulated by the Bermuda Monetary Authority and licensed as a Class F Digital Asset Business under the Bermuda Digital Asset Business Act 2018 to operate as a digital asset exchange, provide custodial wallet services and operate as a digital asset derivative exchange provider.

## 1. GENERAL

This policy is relevant to all users of services provided by Bittrex Global (Bermuda) Ltd., Bittrex Global GmbH, or their affiliates, as applicable (collectively “**Bittrex Global**”, “**we**”, “**us**” and their derivatives). This policy is provided for information purposes only and is not a binding contract. It is of general application and may apply to both customers and non-customers. For customers of Bittrex Global, the relevant Bittrex Global Terms of Service (as amended from time to time) which have been accepted by you in connection with your use of Bittrex Global’s services govern any access to, or use of, any services provided by us; and in the event of any conflict between the Terms of Service and this policy, the Terms of Service will apply. Bittrex Global may, at its sole discretion and without notice, amend or modify this policy from time to time by publishing an updated policy on its website. Capitalised terms that are used but not defined in these terms and conditions have the meanings given in the Terms of Service.

## 2. INTRODUCTION

Bittrex Global collects two types of information about you resulting from your use of the Site and/or the Platform:

- (a) basic personal information, including your name and surname; and
- (b) aggregate information which is generated from the practices that we have in place regarding cookies and the Internet Protocol Address (“**IP Address**”) of the users of the Site and/or the Platform.

Our practices regarding the collection and processing of your personal information – when you visit and use the Site and/or the Platform (regardless of where you visit and use them from) – are set out in our [Privacy Policy](#).

The practices that we have in place for the generation of aggregate information are described in this policy.

Please read the following carefully to understand how and why the Site and the Platform use your IP Address and cookies. If you do not accept or agree to the practices described in this policy, you must exit both the Site as well as the Platform immediately. Continued use will be deemed to amount to your full acceptance and

consent to the processing of the data set out above in sub-paragraphs (a) and (b) above.

### **3. IP ADDRESS**

#### **3.1 What happens when you visit the Site?**

Every time you connect to the internet or, if you use an always-on connection, such as broadband or ADSL, when you boot up or restart your computer, you are automatically assigned a unique identifying number known as an IP Address. This IP Address, which contains information regarding the location of your computer on the internet (your country of origin) and the name of your internet service provider (“ISP”), is automatically logged by the Site.

The same also applies when you access the Platform via the Site or otherwise.

#### **3.2 What is an IP Address?**

When you first started your internet session (i.e. your computer connected to the internet), your computer was automatically assigned a unique number (normally in the region of 9 or 10 decimal numbers), known as an IP Address. This is your computer’s unique address on the internet. Without an IP Address, websites would not be able to deliver their content to you given that they would not be able find your computer on the internet. Since each time you disconnect and reconnect to the internet a new IP Address is automatically assigned to your computer, IP Addresses are not inherently capable of identifying you as an individual (at least, by themselves and not combined with other identifiers). An IP Address does, however, contain information regarding the location of your computer on the internet (your country), and the name of your ISP, and which when combined with other available information may lead to your identification. For these reasons, EU Data Protection Law (in particular, the General Data Protection Regulation (GDPR), Regulation (EU) 2016/679) treats IP Addresses as personal data with the resulting protections.

#### **3.3 How do we collect your IP Address?**

Each time you visit a page on the Site or access the Platform, your computer sends out a message asking for the requested content to be delivered. This message sent by your computer also encloses your IP Address as a form of “return address”, so that the Site and/or the Platform may find your computer in order to send it that requested content. Our webserver automatically logs all these messages.

#### **3.4 What do we do with your IP Address?**

When we log your IP Address, the data collected is grouped up with the other logged IP Addresses in order to provide us with the statistics on the geographic location of visitors to the Site and/or the Platform, how long they stay on the Site and/or the Platform, which are the most viewed pages and for other statistical reasons that may be relevant for our business. We may also use your IP Address to confirm that you are eligible to access the Services and for other compliance related reasons.

We gather your IP address automatically and store it in log files. These files also contain information relating to your browser type, ISP, operating system, date/time stamp, clickstream data and the files viewed on Site and/or the Platform. Collecting this type of information allows us to generate aggregate information for the purposes of developing the Site and the Platform, including in terms of overall user trends and activities online (such as the number of unique visitors, pages accessed and viewed most frequently, or the search terms entered). Furthermore, it also allows us to administer the Site and the Platform, diagnose any potential server problems, analyse visitor trends and statistics, and generally helps us to provide you with a better internet experience.

IP Addresses are not stored for longer than necessary for the above stated purposes. Please refer to our [Privacy Policy](#) for further information on retention periods and other rights in relation to personal data.

## **4. COOKIES**

### **4.1 What are cookies?**

As is common practice with almost all professional websites the Site uses cookies, which are tiny files that are downloaded to your computer, to improve your experience.

This page describes what information they gather, how we use it and why we sometimes need to store these cookies. We will also share how you can prevent these cookies from being stored however this may downgrade or 'break' certain elements of the Site's functionality.

Cookies contain information that is transferred to your computer's hard drive. A cookie enables the Site to remember users that have already visited. Without a cookie, every time you open a new web page, the server where that page is stored will treat you like a completely new visitor. Cookies allow us to remember your custom preferences such as your language preference and allow you to complete tasks without having to re-enter your information when browsing.

## 4.2 How do we use cookies?

We use cookies for a variety of reasons detailed below. Unfortunately in most cases there are no industry standard options for disabling cookies without completely disabling the functionality and features they add to this Site. It is recommended that you leave on all cookies if you are not sure whether you need them or not in case they are used to provide a service that you use.

We may use the following cookies:

- (a) **Strictly necessary cookies:** These are cookies that are required for the operation of the Site and the Platform. Namely, by way of illustration, they include cookies that enable you to log into secure areas of the Site and the Platform and make use of certain functionalities (e.g. log-in and access to your personal account and portfolio on the Platform).
- (b) **Analytical and Performance cookies:** These allow us to recognise and count the number of visitors and see how visitors move around the Site and the Platform when using it. This helps us to improve the way and manner in which the Site and the Platform work, such as by ensuring that users are finding what they are looking for in a seamless and straightforward manner.
- (c) **Functionality cookies:** These are used to recognise you when you return to the Site and/or the Platform (as relevant). This enables us to personalise our content for you, greet you by name and remember your preferences set on the Site and/or the Platform (for example, your choice of language or region).
- (d) **Targeting cookies:** These cookies record your visit to the Site and/or the Platform, the pages you have visited and the links you have followed. We will use this information to make the Site and the Platform, together with the advertising displayed on them, more relevant to your interests. We may also share this information with third parties for this purpose.
- (e) **Session cookies:** These cookies contain encrypted information to allow our system to uniquely identify you while you are logged in. Session cookies exist only during an online session. They disappear from your computer when you close your browser software. These allow us to process your requests and help us make sure you are who you say you are after you have logged in.

The legal basis for the personal data processed by the way of cookies is article 6 of the GDPR.

#### 4.3 How do I disable cookies?

You can prevent the setting of cookies by adjusting the settings on your browser (see your browser Help for how to do this).

You can control the use of cookies at the individual browser level, and can even block or reject all or some cookies by activating the relevant setting on your browser.

**If you do block or reject cookies (including essential cookies), you may still be able to access and use the Site and/or Platform, but your ability to use some of their respective features and areas, together with the services that you connect to through them, may be limited or may simply not function properly.**

Be aware that disabling cookies will affect the functionality of this and many other websites that you visit. Disabling cookies will usually result in also disabling certain functionality and features of the Site. Therefore it is recommended that you do not disable cookies. If you create an account with us then we will use cookies for the management of the signup process and general administration. These cookies will usually be deleted when you log out however in some cases they may remain afterwards to remember your site preferences when logged out.

We use cookies when you are logged in so that we can remember this fact. This prevents you from having to log in every single time you visit a new page. These cookies are typically removed or cleared when you log out to ensure that you can only access restricted features and areas when logged in. This Site offers e-commerce or payment facilities and some cookies are essential to ensure that your order is remembered between pages so that we can process it properly. When you submit data to a form such as those found on contact pages or comment forms cookies may be set to remember your user details for future correspondence. In order to provide you with a great experience on this Site we provide the functionality to set your preferences for how this Site runs when you use it. In order to remember your preferences we need to set cookies so that this information can be called whenever you interact with a page is affected by your preferences.

Except for essential cookies, all cookies will expire after a set period of time.

Many browsers allow you to browse privately, whereby cookies are automatically erased after you visit a site. The following is a list of the most common browsers and the way in which you can activate private browsing:

- Internet Explorer 8 and later versions: In Private
- Safari 2 and later versions: Private Navigation/Browsing
- Firefox 3.5 and later versions: Private Navigation/Browsing
- Google Chrome 10 and later versions: Incognito

Further information on cookies can be found on various sites such as [www.allaboutcookies.com](http://www.allaboutcookies.com).

#### **4.4 Social Media Features and Widgets**

The Site includes social media features such as Twitter and Facebook links. These features may collect your IP address and track which pages you are visiting on the Site. They may set a cookie to enable this feature to function properly.

Any personal information that you provide via such social media applications may be collected and used by other members of that social media application and such interactions are governed by the privacy policies of the companies that provide the application. We do not have control over, or responsibility for, those companies or their use of your information.

#### **4.5 Third-party cookies**

Please note that third parties (including advertising networks and providers of external services like web traffic analysis services) may also use cookies, over which we have no control. These cookies are likely to be analytical and performance cookies or targeting cookies.

### **5. OTHER INFORMATION STORED**

#### **Web Server Logs**

For security and troubleshooting purposes our web server stores logs of activity on the website. The information stored includes date, time, IP, page visited, result, amount of data sent and browser used.

### **6. MORE INFORMATION**

If you need additional information, please contact us at [Bittrex Global Support](#).
