good news....

RYA Training remains very safe:

- Evolved over 40 years
- Comprehensive guidelines
- Robust instructor training
- Structured parameters

Supported by

Gallagher Heath Insurance Services

however.... safety first?

A number of incidents/accidents have occurred at RYA RTCs during non-RYA training activities. Think:

- plan thoroughly
- “would I do this on an RYA course?”

Safety management must be organisation-wide, not just switched on for Training
