

Company Fundraising by JustGiving

Transform the way your company supports charity, by inspiring teamwork and reducing admin.

Inspire

It's easy for employees to set up fundraising pages and see how much their colleagues are raising using JustGiving.

And they'll find it easy to raise more money, using JustGiving's exclusive fundraising tools like JustTextGiving by Vodafone.

Simplify

You can download reports to see how much each employee has raised, so you don't have to chase anyone. And you can easily allocated matched donations, which JustGiving will process for you.

And you can direct employees' fundraising questions to JustGiving's support team, available seven days a week.

Track

Your Company Fundraising profile shows all the fundraising happening in your company at a glance.

And you can download detailed reports to help you analyse and track every employee's fundraising.

How it works

We create your company profile on JustGiving.

Your employees can link their fundraising pages to your company profile.

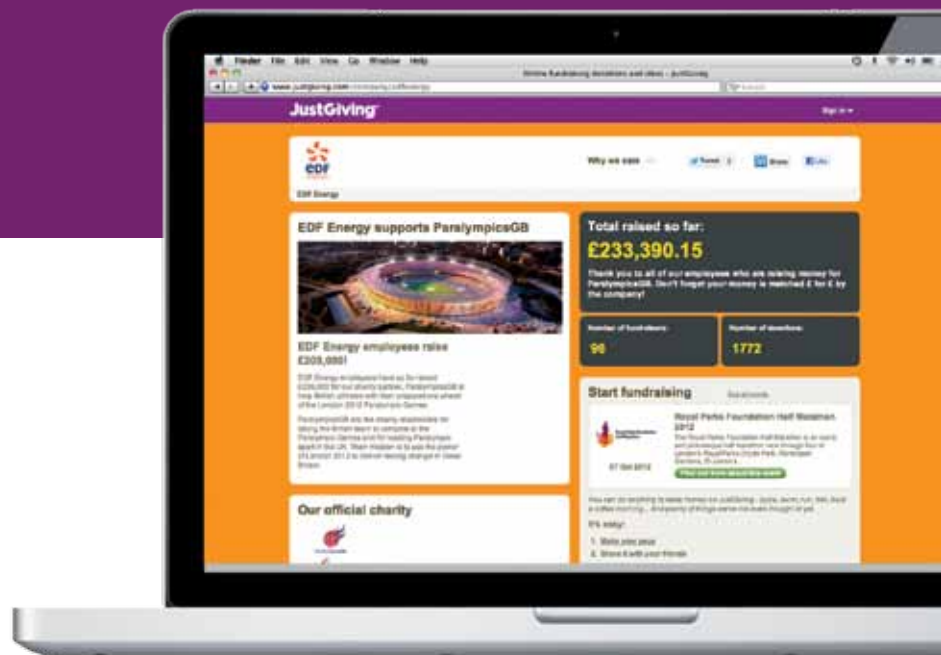

You get simple reports that help you track fundraising success.

"Having one centralised company profile meant our employees felt they were getting the recognition they deserved and it was a great way for us to see all the fundraising in one place.."

Sarah Grimes

Community & Education Coordinator, EDF Energy
