#### **DISABILITY AWARENESS TRAINING**

This one day course provides the opportunity to give helpers practical advice and understanding of what is involved in working alongside sailors with a disability.

It provides the ideal opportunity to learn and ask questions in a safe environment before being pitched in at the deep end. By alleviating fear of disability and imparting knowledge, the course aims to encourage helpers to become involved and to enjoy their involvement to the full. Importantly, training also improves the quality of that very first experience for both sailor and helper alike.

##### **Course aims**

- Rationalise and alleviate fear of working with people with disabilities;
- Train students to facilitate activities for people with disabilities;
- Provide practical advice & knowledge of working alongside disabled people.

##### **Course objectives**

- To be aware of and able to demonstrate knowledge of:
  - The needs of disabled children and adults;
  - Improve essential communication skills;
  - The use of current terminology used to explain disability;
  - Understanding of disability and its challenges in the sporting environment.

#### **DISABILITY AWARENESS INSTRUCTOR TRAINING**
