Technical details for display ads

Artwork must be supplied as a CMYK, press-optimised PDF. Any PDFs with RGB embedded images are not acceptable as these can cause reproduction problems and output colour cannot be guaranteed. All fonts must be embedded or converted to outlines. We can also accept documents in InDesign, Quark, Photoshop and Illustrator. Please ensure you include the relevant hi-res images and logos together with fonts, including a colour proof of your advert so we can accurately check it for any glitches. We will need to re-work and charge for any adverts created in Microsoft Publisher, Word, Word Art or similar programs.

All digital photographs must be supplied at 300dpi resolution, at the same size or larger than the printed image size. Please ensure that you have the right to use any image you include in your advert.
