Project Management Training

Agile Workshops and Training

Agile Coaching and Mentoring

Agile Project Management Tools

Simplifying IT

VISION STATEMENT

To be the transforming agent to corporations and professionals by providing education and tools on the latest principles of project management and agile software development.

MISSION STATEMENT

Raman Tech's mission is to empower IT professionals to be more effective, efficient, and successful in managing and developing software for their organization and clients. In essence - to be the catalyst and model for setting the standards for managing projects and creating a transparent and collaborative environment, where people are motivated to take ownership of their work and reach their potential.

PMI® R.E.P.

Raman Technologies, Inc trains people and organizations around the world to earn credits, learn, and pass PMI® certification exams. We have an approved global provider membership and premium level registered educational partnership with the Project Management Institute. This gives us intellectual property (IP) licensing options to help deliver the right content to you to pass the exams.

Simplifying IT

BUILD AND MANAGE GREAT TEAMS. DELIVER CLIENT VALUE.

Raman Technologies Inc is an international, corporate provider for agile and project management training, and coaching. Headquartered in the United States, Ramantech is a R.E.P. with the Scrum Alliance and Project Management Institute. We offer courses for certified scrum master, certified scrum product owner, certified scrum developer, and approved project management preparatory training. Our courses also count towards professional development unit (PDU) credits. Raman Technologies does public and private training.

At Raman Technologies, we are also developing a cloud-based, agile project management tool, called Cognosco. This tool will not only generate the typical agile metrics to help monitor the team's progress, but help you plan Agile projects. Cognosco will track your agile projects, make recommendations based on what worked well in the organization, provide a repository of real time agile information to plan your project, and alert you to areas of concerns. To learn more, please visit our product page.

IT PROJECT MANAGEMENT AND AGILE TRAINING SOLUTIONS

Our courses are led by the best in the industry and are approved by the Scrum Alliance and the Project Management Institute.

* Certified Scrum Master (CSM)

* Certified Scrum Product Owner (CSPO)

* Certified Scrum Developer (CSD)

* PMI Agile Certified Practitioner (PMI-ACP^{SM})

* Project Management Professional (PMP®)

* Program Management Professional (PgMP®)

* PMI Risk Management Professional (PMI-RMP®)

* PMI Scheduling Professional (PMI-SP®)

PMI, PMP, PgMP, PMI-RMP, PMI-SP are registered marks of the Project Management Institute, Inc.

Our training will help your organization obtain the credentials you need to be more competitive in the global market place. Raman Technologies can also provide tailored training and coaching services to corporates that need quick , custom solutions to their existing situation.

SCRUM ALLIANCE QUOTE

"The Scrum Alliance REP program benefits training organizations, of course, but it's good for students too. Potential students know that if we've attached our name to a REP organization, their training is solid. For instance, all of the CSD-track courses are reviewed by third-party industry thought leaders. That kind of commitment carries through in what we do for REP organizations themselves, who know we will do all we can to promote their courses and their affiliation with the Scrum Alliance." - Mitch Lacey, Scrum Alliance Board Member

SCRUM ALLIANCE QUOTE

"It's not easy to become a REP. Organizations must demonstrate excellence in courseware, trainers, and continuous improvement in order to be accepted. We spend a good deal of time reviewing each and every organization, course, and trainer. Being named a Scrum Alliance REP is quite an honor!" - Rod Claar, Scrum Alliance Program Manager

TRAINING CLASSES AND COMMUNITY

We know your time is valuable and you have high expectations. At Raman Technologies, we not only pre-screen our trainers for quality, but we ensure the training environment meets the highest standards. At our training, all of your dietary needs will be taken care of for the time you are with us. We partner with the top hotels around the world to ensure all expectations are met and to maintain a competitive market price for your training.

Full refunds are available up until 30 business days before the scheduled event date via EventBrite – our 3rd party registration system. Cancellations made within 30 business days of the event will be credited toward future events. However, no refunds will be issued. No refunds or credits will be available for "no-shows." Substitutions will be accepted at any time prior to commencement of the course. If a course does not meet the minimum registrants 10 business days prior to the commencement of the course, we will contact you to discuss a refund or credit towards a future event. For cancellation and refund policies for classes HOSTED by other providers, please go to the registration page for the course.

Changing the old paradigm for software development means building a collective force of out-of-box, like minded thinkers that value learning, trust, collaboration, adapting to change, team accountability, and working together. These principles go beyond just software development, it applies to a lifestyle and how you live and perceive your life. Using Meetup.com, we will be creating Agile Communities across the globe. If you are interested in working with Raman Technologies to start a community, please contact us. With Meetup.com, users can log into and add our communities via facebook. Stay connected with our community at large and join our Global Facebook page. We will post updates to where we will be, photos from our conferences and meetups, and dates to upcoming training classes and webinars. Visit our website for more information.

COGNOSCO

Cognosco, Latin for *to examine, inquire, learn for,* is the most intelligent and robust agile project management tool on the market. Whether you have a small team, multiple teams or several vendors supporting the project, or use Scrum, XP, Kanban, hybrid methods, Cognosco adapts and grows with your organization.

Cognosco by definition tracks and records metrics and what worked well to help you plan your next agile project. If it is your first project with Cognosco, you will have up-to-date information at your fingertips to help you plan your agile project for success. Unlike other tools, Cognosco makes it a point to collect every piece of information used to plan your project. It will analyze that information for you along the way to help ensure you are implementing the best changes for future iterations and projects. It will help you search for answers to your agile questions specific to your projects and organize that information for future reference and implementation.

We are all about simplicity and getting you up and running in minutes. Cognosco is a cloud-based, secure tool with an easy online registration process. You can create a free trail account in minutes for you and your team, and experience the best of the best of what agile project management tools can offer. Go Ahead, Contact Us, And Get Started!
