

Get the Most Out of Your Drupal Site

Acquia Insight—the ultimate Drupal management suite—takes the mystery out of Drupal tuning and configuration, giving developers greater visibility and control over their sites. Manage code, maximize performance and ensure site security through easy-to-use dashboards and tools.

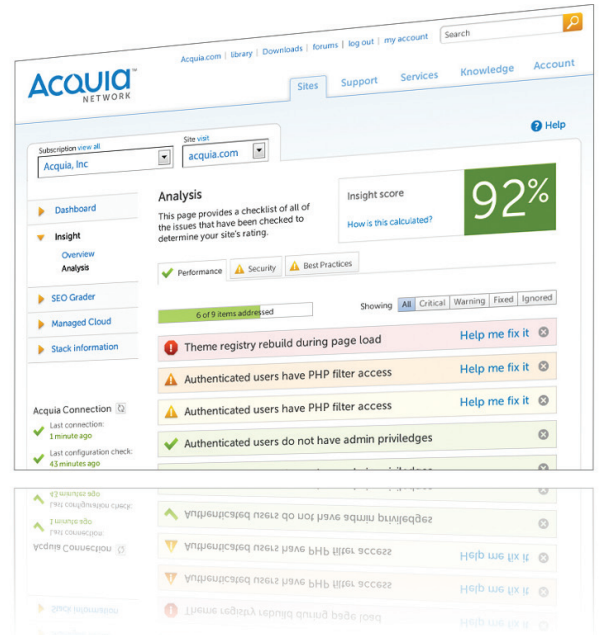

Drupal Best Practices Built In

Best practices learned from thousands of sites are available as a service for any Drupal website.

- **Automated best practices:** Experience from thousands of Drupal sites, automated and delivered as a service
- **Configuration monitoring:** Monitors more than 80 configuration, performance and security settings
- **Dynamic scoring:** On demand scoring (0-100) based on site configuration changes
- **Actionable recommendations:** Practical “Help Me Fix” recommendations for all found issues to provide clear guidance and speed resolution
- **Drupal code analysis:** Identify and review module code modifications to quickly identify and resolve code-level issues
- **Multiple environments:** Run Acquia Insight on dev, stage and production environments to analyze sites across entire development workflow
- **Personalized alerts:** Configurable real-time email alert systems
- **Database and log monitoring:** Watchdog, cache and MySQL monitoring and reporting
- **Track performance over time:** Scores reported on configurable timeline to track improvements over time

Start now

Acquia Insight is included with every Acquia Network subscription. Simply install the Acquia Network Connector module on your site, connect to the Acquia Network and learn how you can take your Drupal site to the next level. Call 855.430.7700 or visit acquia.com/free-trial to get started.

Acquia Insight—the ultimate Drupal management suite
