

Turn potential prospects into visitors

SEO Grader helps you attract visitors, and potential customers, by improving the SEO quality of your Drupal site. Built in collaboration with Volacci, the Drupal SEO experts, SEO Grader helps you take advantage of powerful Drupal capabilities to improve search rankings to increase organic search traffic to your website.

Harness the SEO power of Drupal

SEO Grader helps developers and site owners maximize a site's ability to attract and convert visitors, according to the following five dimensions:

- **Page Structure:** Ensure that search engines find the most valuable information on every page by evaluating page and information structure across a site.
- **Crawlability:** Increase visibility of valuable site content by enabling search engines to crawl through the entire content of the site and easily navigate to every web page.
- **Findability:** Analyzes on-page content and elements to ensure both search engines and end users can easily access content, helping you get the most out of your content.
- **User Experience:** Improve search engine results by evaluating site according to key search engine quality criteria, including content freshness, page speed and spam prevention.
- **Best Practices:** Learn how to take advantage of the power of Drupal to optimize your site for conversions, turning anonymous visitors into prospects and customers.
