MSC-MEPC.6/Circ.12  
31 December 2013

## **NATIONAL CONTACT POINTS FOR SAFETY AND POLLUTION PREVENTION AND RESPONSE\***

1 The Maritime Safety Committee, at its sixty-seventh session (2 to 6 December 1996) and the Marine Environment Protection Committee, at its thirty-eighth session (1 to 10 July 1996), approved the issuance of a new circular combining the lists of addresses, telephone and fax numbers and electronic mail addresses of national contact points responsible for safety and pollution prevention.

2 The present circular is an updated version of MSC-MEPC.6/Circ.11, and contains information received by the Secretariat up to the date of this circular and consists of the following annexes:

- Annex 1 – amalgamated list of national inspection services – head offices (originally MSC/Circ.630), national inspection services – local offices (originally MSC/Circ.630), inspection services acting as representatives of flag States for port State control matters and responsible authorities in charge of casualty investigation (originally MSC/Circ.542), as well as the Secretariats of Memoranda of Understanding on Port State Control; and
- Annex 2 – list of national operational contact points responsible for the receipt, transmission and processing of urgent reports on incidents involving harmful substances including oil from ships to coastal States.

3 Member Governments are invited to:

- .1 provide information on any changes or additions to the annexes;
- .2 provide addresses, telephone and fax numbers and electronic mail addresses of inspection services acting as representatives of flag States in case of port States interventions; and

\*

In order to facilitate the identification and retrieval of information circulated by means of joint MSC-MEPC circulars, from now on such information will be disseminated through the following circular series:

- 1 Organization and methods of work, as MSC-MEPC.1/Circ...
- 2 General matters, as MSC-MEPC.2/Circ...
- 3 Casualty-related matters, as MSC-MEPC.3/Circ...
- 4 Port State control-related matters, as MSC-MEPC.4/Circ...
- 5 Survey and certification-related matters, as MSC-MEPC.5/Circ...
- 6 National contact points for safety and pollution prevention and response, as MSC-MEPC.6/Circ...
- 7 Human element-related matters, as MSC-MEPC.7/Circ...

.3 notwithstanding the provisions of the 1974 SOLAS Convention, as amended, with regard to communication of an intervention, port State authorities are requested, in order to expedite communications, to additionally convey information, related to port State control interventions, to those flag State inspection services – Head Offices – listed in annex 1 or to the inspection services acting as representatives of flag States, when available.

4 Effective 29 February 2008, Member States are requested to directly update their respective information as contained in annexes 1 and 2, and as outlined in paragraph 3 above, in the Global Integrated Shipping Information System (GISIS), using the reporting facilities of the Contact Points module.

5 The lists mentioned above, as set out in annexes 1 and 2, are issued, as annexes to the circular posted on IMODOCS, annually. However, the most updated version of these two annexes can be downloaded from the GISIS Website at <http://gisis.imo.org> through its Contact Points module. The whole circular, including the annexes, as well as a standalone pdf version of annex 2, are also available on the IMO's Website at <http://www.imo.org> and can be accessed through either "**National Contacts**" or "**Circulars**" links on the bottom of IMO homepage.

6 For ship inspection purposes, the only official version of the "**List of national operational contact points responsible for the receipt, transmission and processing of urgent reports on incidents involving harmful substances including oil from ships to coastal States – Annex 2**" to be used is the updated version, which is issued electronically on a quarterly basis. The quarterly date for this official version is specified at the top of each page of the above list (i.e. 31 March, 30 June, 30 September and 31 December). It is available on the IMO Website and can be downloaded as stated in paragraph 5.

7 Queries on the management of the data contained in the above-mentioned lists of national contact points should be addressed to:

## ANNEX 2

### LIST OF NATIONAL OPERATIONAL CONTACT POINTS RESPONSIBLE FOR THE RECEIPT, TRANSMISSION AND PROCESSING OF URGENT REPORTS ON INCIDENTS INVOLVING HARMFUL SUBSTANCES, INCLUDING OIL FROM SHIPS TO COASTAL STATES

1 The following information is provided to enable compliance with Regulation 37 of MARPOL Annex I which, *inter alia*, requires that shipboard oil pollution emergency plans (SOPEP) shall contain a list of authorities or persons to be contacted in the event of a pollution incident involving such substances. Requirements for oil pollution emergency plans and relevant oil pollution reporting procedures are contained in Articles 3 and 4 of the 1990 OPRC Convention.

2 This information is also provided to enable compliance with Regulation 17 of MARPOL Annex II which, *inter alia*, requires that the shipboard marine pollution emergency plans for oil and/or noxious liquid substances (SMPEP) shall contain a list of authorities or persons to be contacted in the event of a pollution incident involving such substances. In this context, requirements for emergency plans and reporting for hazardous and noxious substances are also contained in Article 3 of the 2000 OPRC-HNS Protocol.

3 Resolution MEPC.54(32), as amended by resolution MEPC.86(44), on the SOPEP Guidelines and resolution MEPC.85(44), as amended by resolution MEPC.137(53), on the SMPEP Guidelines adopted by the IMO require that these shipboard pollution emergency plans should include, as an appendix, the list of agencies or officials of administrations responsible for receiving and processing reports as developed and up-dated by the Organization in compliance with Article 8 (Reports on incidents involving harmful substances) and Protocol I (Provisions concerning Reports on Incidents Involving Harmful Substances) of the MARPOL Convention. Under Article 8 of Convention, each Party to the Convention shall notify the Organization with complete details of authorities responsible for receiving and processing reports on incidents for circulation to other Parties and Member States of the Organization. Attention is also drawn to both Guidelines which stipulate that "in the absence of a listed focal point, or should any undue delay be experienced in contacting the responsible authority by direct means, the master should be advised to contact the nearest coastal radio station, designated ship movement reporting station or rescue co-ordination centre (RCC) by the quickest available means".

4 The "List of national operational contact points responsible for the receipt, transmission and processing of urgent reports on incidents involving harmful substances, including oil from ships to coastal States" contained in the circular is updated at the end of each calendar year. This list is an update of that contained in MSC-MEPC.6/Circ.10 dated 31 December 2011, as amended.

5 The above mentioned "List" is available on the Internet and can be accessed at <http://www.imo.org/OurWork/Circulars/Pages/CP.aspx> (or select "**National Contacts**" link on the bottom of the IMO homepage). This Internet version is updated on a quarterly basis and includes **a summary indicating which country has submitted changes to its information, since the previous update.**

6 On receipt of this latest version and in order to maintain an accurate list, it is necessary that Member States check their respective information to ensure that it is correct. Effective 29 February 2008, Member States are requested to directly update their respective information in the Global Integrated Shipping Information Systems (GISIS) using the reporting facilities of the Contact Points module.
