

WAYFARER HELP SHEET

- The Wayfarer is in berth 193 with a faded red cover. The hull is white with orange decks
 - The Main and Genoa are rolled on tubes and stored in light and dark blue McNamara sail bags on the racks in the boat-shed
 - The Spinnaker is on the floor of the boat-shed in a blue bag marked Wayfarer 1
 - The rudder and tiller are also stored in the boat-shed
-
- Please note that the self-bailers have been blanked off and a bilge pump installed
 - The jib furling has been removed to simplify setting up

Before launching

- Check all the bungs are in and the aft locker hatch clips are done up
- Secure any items likely to be lost during a capsize
- Check trolley tyres are inflated to ease manoeuvring
- Only hoist sails when head to wind and lower them when not sailing

After use

- Please sponge or hose the boat clean
- Remove bungs and raise bow to drain water out
- Undo hatch clips to relieve rubber seal
- Please try to dry wet sails, but without letting them flap
- Roll sails onto their tubes and into their bags. Return sails, rudder and tiller to boat-shed
- Re-fit cover and secure tightly to prevent ponding of rainwater

Please report any problems on the hire record sheet
