

home health care solutions

medical equipment + supplies

Home medical equipment and supplies

In addition to our wide selection of equipment and supplies, we offer expert assistance to help you or your loved ones find the right products for security, independence and comfort at home.

Walgreens

Mobility

Our large selection helps mobility-impaired individuals maintain their independence.

- Scooters • Walkers • Rollators • Crutches
- Adjustable Canes, Quad Canes and more
- Transport Chairs and Wheelchairs
- Wheelchair Ramps

be *i*nformed

Walkers

They are NOT one size fits all. In order to accurately recommend the right walker for you, we will need your height and weight.

Rollators

To determine the correct seat height, sit on the seat with your back to the backrest. Your feet should both be flat on the ground with your thighs resting comfortably on the seat. Make sure you can sit comfortably between the handles.

Bathroom Safety

These easy additions can make difficult-to-use areas of your bathroom more accessible.

- Grab Bars
- Transfer Benches
- Elevated Toilet Seats
- Bath and Shower Chairs

Hosiery + Wound Care

Dressing changes can be quick and easy with these high-performance supplies.

- Paper Tape
- Cloth Surgical Tape
- Xeroform Petroleum Gauze
- Zinc Oxide
- Surgical Sponges
- Hibiclens Skin Cleanser
- Butterfly Closures
- Duoderm Dressing
- Telfa Non-Stick Pads
- Packing Strips
- Compression Hosiery

Planning and proper safety products will allow you to confidently use your bathroom in comfort and privacy. When choosing the right products for your well-being and overall safety, consider these areas:

Door

Never lock the bathroom door. You could prevent help from reaching you.

Floor

Place slip-resistant rugs near the shower, tub or sink. Immediately mop a wet floor.

Sink

Install a grab bar nearby. Never grab a towel rack for support.

Toilet

Use a raised toilet seat for seating assistance as well as support arms or grab bars.

Shower or Bath Tub

Use a bath or transfer bench with a hand-held shower for seating. Install a tub grab bar or wall grab bar for assistance entering and exiting the bathing area. Place a non-skid mat or adhesive strips for the tub or shower floor.

Supports + Braces

Provide stability for injured or sore areas safely and comfortably

- Wrist, Thumb or Ankle Splint
- Basic or Hinged Knee
- Knee Stabilizer
- Hernia Belt
- Maternity Support
- Post-Op Shoe
- Lumbar Support
- Ankle Stirrup
- Ankle Stabilizer
- Abdominal Binder

Medical Equipment + Supplies

Equipment to help patients remain comfortable and confident.

- Strength and Rehabilitation Equipment
- Vacuum Erection Devices
- Seat Lift Mechanism
- Breast Pumps
- TENS Units
- Lift Chairs
- Nebulizers

Medicare + Medicaid Billing

We bill Medicare and Medicaid for select home medical products.*

In order to get the process started you will need a prescription from your physician. Our HHCS advisors will work directly with your physician to obtain any additional information needed to bill for a product.

*Medicaid billing not available in Arizona. Ask HHCS staff about products that can be billed.

Private Fitting Room

The Home Health Care Solutions department has a private fitting room for items, such as diabetic shoes, braces and post-mastectomy supplies. And for added convenience and comfort, there is a dedicated checkout area.

Dedicated Staff

Walgreens has a trained healthcare expert to provide assistance in selecting and fitting the right products for your needs. Walgreens can also make it easy for you by billing Medicare and Medicaid directly for certain products and supplies.

Walgreens pharmacists

are trained to do more than dispense medications. They can also help you manage your overall health by administering health tests, such as blood glucose, A1C, blood pressure and cholesterol.

They're certified to administer many immunizations, including flu, tetanus, shingles and pneumonia. And they can also offer advice on diet and exercise, demonstrate self-testing and monitoring devices and can even perform injection training.
