COVER PAGE

The picture is from Raffaello Bastiani (ITA) taken at the Class 1 Abu Dhabi GP, United Arab Emirates, December 6th 2013.

Dear friends of powerboating,

Welcome on board the new UIM Yearbook!

I am well aware that last year was a steep learning curve and that we at the UIM have been warmly encouraged to go ahead with the reform "Sport at the Center". I am both grateful and impressed by the commitment of our athletes. We will go ahead with the further development of the UIM to offer to our athletes the quality of service that they deserve and I will personally dedicate all my passion, commitment and energy to achieve this goal.

In the past year the UIM has made significant achievements and among them some worth remembering are the successfully

organized power boat races in over 50 countries around the world under the UIM leadership, the 136 UIM titled events and the 60 UIM World titles allocated with over 1000 drivers from all over the globe who fiercely competed at UIM titled races and proudly waved the UIM flag.

We have commenced the new season at the fantastic Salle des Etoiles in Monaco where we have organized our UIM Gala Awards Ceremony which has brought together 450 guests from 40 different nations who shared this memorable event with us. A particular thank to HSH Prince Albert who honored us with his presence.

At the UIM Gala we have honored our World Champions and we have presented our prestigious recognitions such as the "Stefano Casiraghi Memorial Trophy", the UIM Safety Award, the UIM Environmental Award and Special Mentions.

The "Stefano Casiraghi Memorial Trophy" was awarded this year to a very special person: Her Royal Highness Princess Ann, President of our UK National Federation, the RYA (Royal Yachting Association). The RYA, under Princess Ann leadership, worked very closely with the UIM and provided a Pilot Scheme for the UIM Propstars Junior Training Program.

In this respect we will continue to focus on the development of young talents and the UIM Propstars Program will be a milestone in attracting and educating, together with our many National Authorities who joined us, new generations of athletes. It is our firm intention to create a clear pathway of progression from the UIM junior classes to the UIM senior classes within the sport of powerboat racing and to promote safe, responsible and environmentally friendly racing for the future.

On environmental issues and energy efficiency we are and we will continue to develop significant synergies between the boatyard industry and competitive powerboating. The UIM Environmental Award is a worthy platform for such cooperation.

Safety will continue to be a UIM priority and we are committed to continuously improve and to exchange knowledge and experiences with other International Sport Federations. To this purpose, the UIM Safety Award has been established to recognize outstanding contributions, best practices and research efforts that have contributed to improve powerboat safety and the implementation of new safety solutions.

We will continue our efforts to ensure that our Sport will be fair, clean and fully compliant with the WADA Anti-doping code.

We at the UIM will continue with our commitment to serve all our stakeholders and our Sport's growth and development through values such as loyalty, dedication and passion. Such a mission is a big responsibility which goes over and above rules, regulations and any commercial aspects and it should be a source of inspiration for young people who practice our Sport.

Our Champions are the best ambassadors for our sport and for our values. We count on you!

This year we, as UIM, are 92 years old and we are continuously growing and moving forward because of you and because we, together, are a fantastic sport family.

We are also proud to be a proactive member of our larger sport family, the ARISF, SportAccord and the overall Olympic Movement and that's why to keep this large family united and successful we need team spirit among sports, among federations, among nations and among our athletes. Our athletes are the main representatives of our ideals. Athletes make our values and message tangible for millions of people worldwide.

We are convinced that our Sport is a fantastic medium to break barriers, bring people together and that our initiatives will make our powerboating family stronger and bigger.

It is clear that to ensure our Union will continue to grow and develop I need the support from all of you. Let me thank all of you, our champions, executives and authorities, sponsors and supporters for your continuous encouragement and commitment and let me wish to all our passionate fans and friends and to all the people who gave their remarkable contribution to our sport, particularly all the ones who did it on a voluntary basis, a safe and successful racing season.

I believe that, together, we can build a bright future. Together, we are greater than the sum of our individual ambitions. Together, we will continue our journey forward!

Paul De Scheemaecker	Member	Belgium
Sergey Girov	Member	Russia
Mikael Lundblad	Member	Sweden
Luis Ribeiro	Member	Portugal
Jerzy Wojewoda	Member	Poland

International Medical & Safety Commission

The International Medical & Safety Commission convenes to consolidate all aspects of safety in all disciplines of racing. It studies health in sport, newly emerging sports medicines and treatments, aspects of personal and overall safety, questions of pollution and makes regular recommendations for improvement to Council. The Presidents of the four main Commissions are automatically seconded to COMINSAFE.

Robert Wartinger President U.S.A.

Per Benson	Member & Cominoff President	Sweden
Luigi Collarini	Member	Italy
Daniel Dehaemers	Member	Belgium
Luca Filiberti	Aquabike Chairman	Italy
Fred Hauenstein	Cominsport President	U.S.A.
Umberto Panzeri	Comintech President	Italy
John Reed	Member	United Kingdom

International Sport Commission

COMINSPORT convenes to study, modify, improve and implement all international sporting rules, draw up the relevant calendar and examine all requests for record homologation.

Fred Hauenstein President U.S.A.

Phillip Stacey	Secretary	United Kingdom
Sami Abu Shaikha	Member	Qatar
Giacomo Borgonovi	Member	Italy
Vahur Joala	Member	Estonia
Erwin Lang	Member	Austria
Pelle Larsson	Member	Sweden
Jean-Marie Lhomme	Member	France
Petr Pylaev	Member	Russia
Tony Walsh	Fastwater Promoter	Australia

International Offshore Commission

The members of the COMINOFF are elected by the representative nations participating in offshore racing. Its brief is to study, draw up and enforce rules for offshore competition, assist in compiling the racing calendar and defining championship status, examine requests for record homologation and set up specific technical working groups and sub-commissions as necessary.

Per Benson President Sweden

Ahmed Ibrahim Alblooshi	Member	U.A.E.

2013 Environmental Award Special Mentions

VRIPACK - Special Mention for GREENING THE SPORT

AZIMUT BENETTI GROUP - Special Mention for ENVIRONMENTAL BENEFIT

VSY - Special Mention for INNOVATION

What a stunning edition of the UIM Awards Giving Gala!

The fifth UIM Awards Giving Gala has been unquestionably a great success. An impressive event, organized at the Salle des Etoiles in the Principality of Monaco, where a remarkable audience gathered to crown the last Powerboating season champions and the prestigious UIM Awards winners. The event has been opened by HSH Prince Albert II in front of 500 guests, which included VIP's, national authorities, celebrities, and the UIM World Champions and Awards winners.

Monaco gave again a warm welcome to all the Powerboating stakeholders and fans convened from all over the world. Over 60 UIM World Champions from 40 different countries attended the UIM yearly event receiving their well deserved honours. During the Ceremony, the 2013 UIM Environmental Award Winner (Columbus Yachts, 40S

Hybrid) and the three UIM Special Mentions (Azimut-Benetti Group, Vripack and VSY) received their recognitions.

This year the Stefano Casiraghi Memorial Trophy has been awarded to Her Royal Highness Princess Ann, Royal Yachting Association President. The RYA is the driving force behind the dedicated training and racing section who constantly strive to reach the highest achievements. The UIM Safety Award in the name of His Highness Sheikh Hamdan Bin Mohammed Bin Rashid Al Maktoum has been given to the Bergamo Scuba Angels for their continuous efforts in performing and improving all the rescue operations in Powerboating races.

The UIM President Dr. Raffaele Chiulli stated: "let me thank HSH Prince Albert II that honoured us with his presence at the cocktail

reception and the President of SportAccord Mr. Vizer and all the Presidents and authorities of International Sport Federations who were with us at the Night of our World Champions. We will continue to serve all our stakeholders and our sport's growth and development through values such as loyalty, dedication and passion. Our World Champions are the best ambassadors for our sport and for our values. We are also proud to be a proactive member of our larger sport family, the ARISF, Sport Accord and the overall Olympic Movement and that's why to keep this large family united and successful we need team spirit among sports, among federations among nations and among our athletes who make our values and message tangible for millions of people worldwide. I do believe that we all, together, can build a bright future.

UIM AWARDS GIVING GALA

UIM AWARDS GIVING GALA

Victory Team did it again

2013 saw Victory Team's vice-like grip on the coveted Sam Griffith Trophy hold firm securing a remarkable 13th Class 1 World Championship as the sport celebrated the 50th anniversary of the first drivers' Championship and cruised passed the 600 Grand Prix mark since being sanctioned by the World Governing Body, the Union Internationale Motonautique (UIM), in 1964.

Understandably tipped by the majority at the start of the year to deliver the Dubai-based outfit a seventh consecutive Championship, Arif Al Zaffain and Mohammed Al Marri duly delivered. But it was not the trouble-free run of previous seasons, with breakdowns and uncharacteristic driver errors forcing the duo to endure the title chase to the last race of the year in Abu Dhabi.

It was a highly prestigious and entertaining season; a spectacular landmark first Grand Prix in the People's Republic of China in Sanya, the discovery of a precious new jewel for the sport with Terracina delivering a simply sparkling Italian Grand Prix on its series debut, the emergence of a trio of genuine potential race winners and title challengers and the crowning of the most unexpected - certainly most flamboyant - European Champions.

The season kicked-off at the end of March

on the Chinese Riviera at the stunning bustling city port of Sanya on the southernmost tip of Hainan Island.

Despite being pushed to their limits, Victory 3 made the perfect start to the defence of their title leaving Sanya with a trio of trophies and unbeaten.

In June the Championship returned to Turkey but this time to race across the Bosphorus in Pendik on the Marmara Sea. Race 1 was a thriller. HUB Australia's Nicholson and Willaton produced a spectacular

16

performance in testing conditions to win and become the first Australians to take the top step of the podium since 2002 in a dramatic and incident-filled race.

Arif Al Zaffain and Mohammed Al Marri banished all memories of their race 1 exit and produced an emphatic start-to-finish win in race 2.

Terracina hosted round 3 and delivered arguably the event of the season, certainly the most dramatic in terms of outcome, but also in terms of glitz, glamour and atmosphere.

An untroubled flag-to-finish victory in race 1 gave Arif Al Zaffain and Mohammed Al Marri their fourth win of the year.

Race 2 could not have been scripted with Miles Jennings and Alfredo Amato pulling off

one of the most popular and surprising results of the year with a simply sensational win in race 1, winning their first win in just their third Grand Prix together and clinch the European Championship.

The World title would be decided in Abu Dhabi and with a 26-point advantage Al Zaffain and Al Marri were looking to close it out in race 1. Victory dominated official qualifying locking out the top two places with Arif Al Zaffain and Mohammed Al Marri going quickest. Nadir Bin Hendi teamed-up with Australia's Darren Nicholson and marked his return to racing after an imposed two-year absence with second quickest, but over four seconds slower than their teammates.

A win in race 1 made it a dream return to the Championship for Bin Hendi, winning with

Nicholson in their first outing together. In race 2, Arif Al Zaffain and Mohammed Al Marri produced a command performance to take the win and clinch a record 13th Class 1 World Championship title for Victory Team.

The UIM Skydive Dubai XCAT World Series continued its phenomenal growth in 2013, taking massive strides towards the aim of reaching six continents by 2016.

2013 was the year that the Series went international for the first time. After three races in the UAE (Abu Dhabi and two in Dubai), the action moved to the spectacular setting of Stresa, on Lake Maggiore in Italy. Then a week later, the racing continued a little further along the picturesque lake, in Arona with crowds of over 40,000 lining the shore to take in the action.

It was then on to Ningbo, China for the first time (in front of another record-breaking crowd) before the Series returned to its UAE roots, with the seventh and final race of the season being contested back in Dubai.

Making this all possible was the creation and development of a unique containerised system in order to be able to transport the competing boats and other equipment in the most efficient manner. This new system, referred to as 'Cat in a box' enables the entire Series race set-up including hospitality facilities and a race village to be transported globally within the confines of standard shipping containers.

2013 also marked the securing of several new partners for the Series. Among others, Skydive Dubai came on board as title sponsors, while Dubai Duty Free and property developers Emaar signed up as main sponsors.

20

Meanwhile, on the water, it was the Dubai-based Fazza team of Arif Al Zaffain and Nadir Bin Hendi who emerged as overall Series champions once again (with Mohammed Al Marri having raced alongside Al Zaffain at the start of the season). The team took an early lead in the Series after winning the first two races, but succumbed to mechanical problems at the third, in Dubai, where Team Westerlund took the win.

A second place in Stresa meant they maintained the lead, however, and despite Mouawad (Omar Danial and Gary Ballough) and Skydive Dubai (Sultan Al Dhaheri and Jay Price) closing in on them towards the end of the season, a victory in the final race sealed the Series for Fazza.

A third place finish in the final race saw Skydive Dubai overtaking Mouawad for second spot in the overall standings.

As ever, safety remains a massive priority for the WPPA, who are constantly working with experts around the world to ensure the safety of the pilots and all involved in the Series.

2014 will see the Series expanding to 10 rounds, and extending its reach even further afield with races planned in several new venues such as Switzerland (Lugano) and – as well as making a return to Italy, China and of course its birthplace – the United Arab Emirates

AQUABIKE

World's best Aquabike Riders produce an electrifying season

2013 was an amazing year for the UIM-ABP Aquabike World Championship with five Grand Prix and the World's top riders fighting it out for the ultimate accolade of being crowned Champion.

The Championship visited some breath-taking venues, from the stunning resort of Sanya in China to the idyllic northern Italian town of Viverone, then back to China to amazing Liuzhou before ending the season with a Middle East double-header in Doha, Qatar and the final round in Abu Dhabi in the United Arab Emirates.

And what a Championship it was; racers from over 20 countries fought it out in three categories, the men and ladies Ski Division GP1, Freestyle and the Runabout GP1.

There was drama, excitement, thrills, shocks and heartache with all but one title going down to the final race of the year.

In September the Championship proper kicked into gear in Viverone in Italy then Liuzhou in China was the next stop on the tour, then Doha in Qatar and Abu Dhabi in UAE.

The 2013 UIM-ABP Aquabike World season crowned eight athletes.

Pija Sumer for Serbia in Ski Division Women, the Frenchman Michael Poret in Ski and Slalom Men, the Kuwaitian Yousef Al Abdulrazzaq in the powerfull Runabout GP1, Cyrille Lemoine, France, in the Runabout Slalom GP1 and Rok Florjancic, for Croatia.

The Aquabike Rally Jet challenge saw again the French Jean Bruno Pastorello crowning the title in Vladivostok in Russia, while in the Offshore Runabout category the World title was for Marc Forbin, another French athlete, who triumphed on Guadalupe's waters.

AQUABIKE

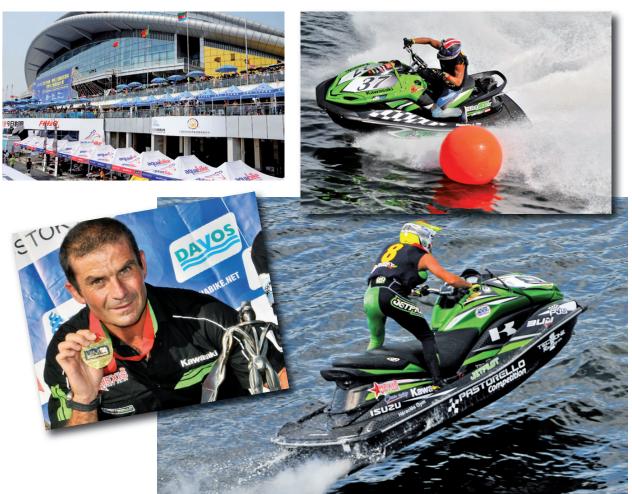

AQUABIKE

Alex Carella J.I.M. WORLD CHAMPION SHIP

Leads Qatar Team to a 1-2 finish in 2013!

Italian driving sensation Alex Carella for the third straight season came from behind climbing the ladder of success once again to win the UIM F1 H2O World Championship in 2013.

The 27 year-old from Piacenza led a strong Qatar Team for a resounding one-two finish in the drivers championship out-dueling his American teammate Shaun Torrente by just six points in the end 80 to 74. The Qatar Team dominated the prestigious Team Championship as well winning by a comfortable 80 points for the highly skilled multinational organization based at Doha.

The seven month journey began in early June, in Brasilia, at the series first ever event on the South American continent, with Finnish two-time World Champion Sami Selio of the Mad-Croc Baba Racing Team stealing the spotlight winning from pole position with the Qatar Team duo reaching the podium for the first of three times during the year with Torrente finishing ahead of Carella in two of the three opportunities.

In mid-summer in late July the tour was off to historic Kyiv for the Grand Prix of Ukraine and this time the story was all about French driver Philippe Chiappe of the CTIC China Team who captured his first victory in his 11 year-career making it a very popular victory throughout the paddock for the likeable driver from Rouen.

As the series headed to the Far East for the fall season stopover in the Southern city of

Liuzhou at the Grand Prix of China, it was once again time for the Italian to exert himself. Alex knew that he had to make a move if he wanted to win another title. He did just that, winning for the second year in a row from pole position.

His team member Torrente, who was glued right behind Alex the first half of the race, had disaster strike when a brief

mechanical problem moved him down to sixth while Sami Selio came home second and Chiappe finished in a close third.

At the halfway point of the season Alex had tied Sami Selio with 44 points to lead the drivers table with Philippe Chiappe sitting at 39 and Torrente at 35 making it a close four driver scrum for the title.

It was off to Doha and the 10th Grand Prix of Qatar with Alex nailing down pole position just ahead of his teammate Torrente. It looked it would finish that way in the race as well, until, with just three laps from the end, Alex's engine gave out handing his fired Shaun the victory. The Floridian had earned his first career victory on the tour and had now moved into first place in the championship with 55 points.

For French driver Chiappe, he wanted to forget Doha totally. Firstly, he missed a buoy in the race in the fight for third place, then he was penalized for passing the leader Torrente on the yellow flag and if that wasn't enough, he was later disqualified from any result when the race officials said he had an illegal issue with his engine.

The UIM F1H2O circus then moved to UAE for the last two rounds in Abu Dhabi and Sharjah.

With just two races to be run in the United Arab Emirates, the lead in the championship had changed for the fourth straight race in a row. Bad luck once again visit the Florida driver as Torrente failed to get a lap in the final

Q3 qualifying session needing an engine change and moving him back to the 11th starting position for the race.

Meanwhile, Sami Selio got his new boat working to perfection grabbing pole position while trying to forget his own bad luck suffered during a start line accident he had suffered in Doha a week before destroying his number one race boat.

Sami, despite this, dominated the day reasserting himself to the top of drivers championship with a win in Abu Dhabi for his 12th career victory, tying Francesco Cantando of the Singha F1 Team as the winningest most active driver on the tour.

Selio, with 64 points was now two ahead of Torrente's 62 and four in front of Alex's 60. Philippe Chiappe was still in the hunt at 54 with 20 points still there for the taking with the final round at the Grand Prix of Sharjah two weeks later.

In one of the closest finishing scenario's in the 30 years of racing on the UIM F1 H2O World Championship tour, four drivers were still in the hunt in their chase for glory chasing the title. It would all come down to this one race.

Qualifying was critical on the new modified five-pin circuit and when the one-hour session for pole position was completed it was the two-time World Champion Carella who had earned the number one spot ahead of his teammate Torrente with Chiappe taking third on the start dock.

The biggest surprise came when points leader Selio accidentally took himself out of picture by crashing out just before the run for pole position forcing a boat and engine change. Sami was now starting practically at the end of the dock and praying for a miracle to happen to have any chance of becoming a hat-trick World Champion.

When the final checkered flag fell to end the 2013 season, it was Alex Carella setting the stage with a perfect run. He never once made a wrong during the event leading from start to finish for all 38 laps and earning his eighth career victory and adding another World Championship to his resume in just 25 career starts.

Shaun Torrente would make it a Qatar Team one-two sweep, pushing Alex early and then realizing he didn't have an answer for the Italian. Shaun then decided to be cautious by backing down enough to finish third. Philippe Chiappe pushed Carella to the end finishing second and third overall for the season with 69 points.

A total of 24 drivers from 15 various nations on five different continents took to the seven month challenge of fighting for glory and hoping to etch their name in history while becoming the 2013 UIM F1 H2O World Champion.

UIM NATIONS CUP

Team Abu Dhabi complete hat-trick of UIM Nations Cup

In just its third year on the World stage the UIM Nations Cup once again produced an enthralling and hectic series of racing, full of incident and the odd accident, but above all epitomised a wonderful spirit amongst the competitors where competing was equally as important, if not more so, as winning.

The 2013 Nations Cup was fought out in Qatar and Abu Dhabi with teams from Italy, Lebanon, Norway, Qatar, Russia, Saudi Arabia, UAE and Venezuela challenging for honours, the outcome swinging one way then another, with Team UAE coming from

behind to retain their title and make it three wins out of three.

Team Qatar's Khalid Al-Kuwari opened his scorecard on home waters in Doha producing a sensational performance to win the first of two Match Races, beating Team Russia's Andrey Panyushkin in a hotly-contested final.

Team Lebanon's sole representative Lebos Chaguri won the third and fourth-placed race-off beating the second Team Russia's driver, Roman Vandyshev, but it was the four-man Team Russia squad who took the early lead in the overall Nations Cup and

Qatar Grand Prix to top the standings on 40 points, with Team Qatar in second on 37 and the defending Champions Abu Dhabi in third on 31.

Al-Kuwari's route to the final of the Match Race, with two boats lining up against each for the best of three runs on a two-pin alternate course, saw him beat his teammate Mohamad Al-Obaidly in the first round and then Mohamed Al Mehairbi in the quarter-finals. He got passed Lebos Chaguri in a close semi-final after winning the decisive third leg, after his jump start in the second run handed the win to Chaguri to tie the heat.

UIM NATIONS CUP

Andrey Panyushkin eased into the semifinal after Team Norway's Stian Slattedalen crashed out on the first leg of their quarterfinal, capping a disastrous day for Team Norway, Slattedalen's teammate Christian Carlsen failing to make the Match Race after crashing out in the time trials.

In the sprint races Team UAE's Rashed Al Qemzi completed a memorable double easily winning both 20-minute races on a dramatic afternoon on Doha Bay, with Al Qemzi's teammate Mohamed Al Mehairbi and Team Lebanon's Lebos Chaguri crashing out in race 1 and Team Qatar's Mohamad Al-Obaidly crashing out early in the second race.

Rashed Al Qemzy dominated an incidentfilled first race which ended under the yellow flag, Al Mehairbi crashing out on lap 7, followed by Chaguri turning his boat over immediately after the re-start on lap 12.

Al Mehairbi led briefly from pole but was passed on lap two by Al Qemzi who imme-

diately started to pull away on the 1475 meter four-pin circuit and cruised to the chequered flag.

But it was Team Russia's four-man squad who proved too strong for their five country rivals over the two days of competition, taking overall victory in the Nations Cup Qatar Grand Prix thanks to consistent top four finishes in both the Match and sprint races to top the standings on 94 points. Team Saudi Arabia finished a surprise second on 89, with the defending Champions Team UAE in third with 81.

In Abu Dhabi, Qatar's Khalid Al Kuwari benefitted from two jump starts by the UAE's Rashed Al Qemzi in the final to win his second Nations Cup Match Race, with series debutants Italy's Stefano Paoletti and Marco Gambi meeting each other in the third and fourth place race-off, Paoletti coming out on top.

Team UAE needed something special from their drivers if they were to retain their crown

and they got it. Rashed Al Qemzi produced two virtuoso performances winning both sprint races to lead the team to the UIM Nations Cup Abu Dhabi Grand Prix title and win the Nations Cup for the third consecutive year.

Al Qemzi led race 1 from start-to-finish and apart from an early challenge from Slattedalen was in full control to run out the comfortable winner, with teammate Mohamed Al Mehairbi picking up valuable points in fifth.

In race 2 Al Qemzi produced another blistering start and was moving clear of Slattedalen and Paoletti when the yellow flag came out.

Al Qemzi was quick to react when the green flag was raised and immediately started to open a gap over Slattedalen and Paoletti, the leading trio holding station when a second yellow flag came out on lap 13 after Carlsen's engine gave out.

From the restart Al Qemzi was able to ease away to take the win-double and was followed home by Norway and Italy.

UIM NATIONS CUP

UIM NATIONS CUP

The Swedish team's Erik Stark is the 2013 F2 UIM Powerboat World Champion, with second and third

places going to Ola Petterson (Sweden) and Paolo Zantelli (Italy).

"In 2013 the F2 finally had the World Championship it deserves," said Giacomo Borgonovi, Chairman of the UIM Formula Committee. "Five events were created in the 2013 UIM racing calendar, and for this wish to deeply thank all the people who have contributed to the success of the F2 World Championship," he said.

"The number of drivers in each event was higher than expected, with 20-23 boats from 13 Nations at each race. I wish to warmly thank the National Authorities who organized the races, the drivers and the

teams who attended them and all the people who have co-operated in the fulfilment of the races."

The professionalism of the drivers in this class has improved year after year, and the fact that the five events were won by different drivers proves that the competition amongst them is very level.

"Unfortunately we have to recall the tragic event occurred at the European Championship at Idroscalo in Milan, which took away a great man and victorious driver, Paolo Zantelli," continued Mr Borgonovi. "We remember him forever for his humanity and sportsmanship."

The venues and organization of the five World Championship races and one European Championship race in 2013 were all first rate.

Stockholm (Sweden)

Swedish driver Erick Stark won this race, which had 22 participants.

Baku (Azerbaijan)

This was a new venue, and 19 drivers enjoyed the event. It was well organized, with just some minor problems with the transportation of the boats.

Brindisi (Italy)

This was also a new venue, with the race circuit run in a harbour. There was a warm atmosphere at this event, which 20 drivers attended.

Nottingham (United Kingdom)

An amazing race with 18 drivers attending. There were unfortunately some very minor accidents.

Sasolburg (South Africa)

A new venue, new organizer and a new experience. The 20 drivers and all those involved in in F2 were very happy to be there, and appreciated the hospitality and warmth of the people. This was a great race, that saw Erik Stark win once again, and gain the crown of 2013 F2 World Champion.

FORMULA 2

UIM WE RETENDED TO THE REPORT OF THE REPORT

FORMULA 2

POWERBOAT P1

SuperStock Series Spearheading Next Decade of P1 Racing

POWERBOAT P1

Powerboat P1 celebrated its tenth anniversary in 2013 by seeing its SuperStock one-design series go from strength to strength on both sides of the Atlantic. In its third season of racing in the UK and USA, P1 SuperStock delivered outstanding results in the key areas of boat reliability and safety, growth in pilot skills, consistency and quality of host venues, commercial partnerships and television coverage. P1 also achieved stability in terms of rules and continued its strategic partnership with BRP Evinrude.

The two SuperStock championships attracted more than 20 teams, with some racers competing in both series. This produced the first double champions, with the American crew of Andy Biddle and Tracy Blumenstein securing the UK title at the final round of the season and then going on to snatch the honours in the USA by a single point.

P1's commitment to developing the sport on a long-term basis saw it attract 175,000

spectators to its events, reach 400 million homes around the world through TV broadcasts to 100 countries, and grow its digital fan base to 250,000 by engaging more than 130 countries online. The new-style TV show has a strong teams focus and a new broadcast deal with FOX Sports in the USA has been added to the UK and European coverage on Sky Sports.

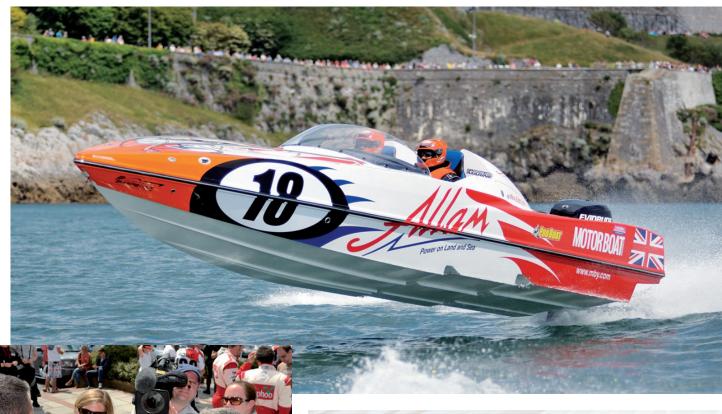

P1 continued to play an active role in the UIM's Youth Development Project and to work closely with the P1 Marine Foundation, a UK-based international charity, to achieve continuous improvement of its environmental performance. The event planning process in both the UK and USA involves protecting local wildlife, raising environmental awareness and knowledge, and leaving behind a positive legacy at each race venue.

2014 will see P1 stage more than 30 Super-Stock races at high-profile venues together with expansion into new markets.

POWERBOAT P1

UIM WE NOT THE RETURN THE

41

UIM P750

UIM P750

44

UIM P750

Started over 30 yrs ago, now in eighteen countries, participating in one Global Community that hosts National, European, International and World Championship titles. Competing in three racing disciplines; Surf, Circuit and Endurance. Who are we? No other powerboating series offers or challenges its teams as much as ThunderCat Racing, the UIM P750 Classes which are amongst the top grass root racing sports to hit the World...

Ingredients to race: It's all about raw energy, agility, dedication, sheer grit and determination. Open to all genders, sizes and financial circumstances. As a racer you will experience adrenaline rush, heart palpitations on the start line – waves crashing down awaiting the flag to drop, then 9 laps of G Force, gladiator strength fighting the seas elements, man's knowledge and competitive nature and an abundance of personal satisfaction when get onto the beach. Pumped with a feeling like no other!

A community that engulfs and empowers the mass... Thunder Cats Racing is a nuclei of positivity continuing to grow the sport with the help of their fantastic family of racers and friends that push the sport forward in each country. The 2013 UIM P750 World Championships was held on UK's most challenging waters in Cornwall last October. The Racing Village and home for most of the competitors and officials was at Pentewan Sands, hosting the long haul and Circuit disciplines. The surf discipline was held at Watergate Bay on the

rugged North coast offering waves that were on par with South Africa, a challenge for all the teams! Nine countries competed: Canada, Russia, Belgium, South Africa, Norway, Sweden, Ireland, Germany and the UK watched over by the ThunderCat Safety Team which proved to all to be second to none, ensuring all the teams were kept safe and well... seeing some of the hardest racing seen in years, the Victors were announced and in Stock Class Chad Romans and Kyle Kumm from South Africa got the gold medales as Sean Fisher and Grant Pittard (UK) in Pro Stock Class and Barry and Drickie Marx again from South Africa in Modified Class.

After the racing had finished and time to reflect, the World Championship has given a wonderful platform for the global community to build momentum and drive to push this unique sport forward. The bonding and friendships that have grown between the countries are fantastic. 2014 What have we got to come? More countries join the family including Gibraltar who will be hosting the UIM European P750 Championships in association with the UK. Already Norway, Germany, Sweden, France, Malta, Russia, Ireland, Gibraltar and the UK are wanting to compete, giving nine countries in the championship and over 30 boats!! This looks to be larger than last year's Worlds... clearly showing how this UIM class is growing and becoming one of the largest series in the World. © Photos by Gary BRAYS

2013 was the first year that the series for F125, F250 and F500 ran under the 'Hydro GP' banner. The opening meeting of the season was at Boretto on the River Po in Italy. There were four rounds for all three classes of Hydro GP and two additional ones for Formula 500 UIM World Championships. In every series, the winner was decided in the last heat of the season. A great season for UIM Hydro GP with an overall of 46 drivers from 12 nations.

Twelve drivers and their teams made their way to Boretto for the first round F500 World Championship series. In the first heat Marian Jung (SVK) took the win with Robert Hencz racing under the Hungarian flag finishing second. However Robert was penalised one lap as he had destroyed a turn buoy which moved Ferenc Csako (AUT) up to second place with Robert relegated to third.

The second heat with ten drivers lining up on the start line. Marian Jung again won by a good margin but this time it was Attila Havas (AUT) who took second place and local driver Mauro Bacchi, making his only appearance in F500 this season, taking the third position.

The final heat resulted in another win for Marian giving him a maximum 1200 points, with Robert Hencz second and Mauro Bacchi third, which was also the overall finishing positions.

In the F125 European Championship

thirteen drivers took part but unfortunately Franz Philippe and Denny Tosi, both from Italy, failed to take any points over the weekend.

The first heat was won by the young driver from Italy Manuel Zambelli with Henryk Synoracki from Poland taking second place, Marcin Zielinski also from Poland in third and Alex Zilioli (ITA) in fourth. In the second heat Manuel Zambelli stopped on the fourth lap so failed to take any points which left the way open for the ever reliable Henryk Synoracki to take the win with Alex Zillioli in second and Marcin Zielinski third. The final heat resulted in a win for Synoracki with Zambelli second and Zielinski third. The overall result was a win for Henryk Synoracki with Manuel Zambelli securing enough points to take second place from his fellow countryman Alex Zillioli who took third place.

There was a disappointing entry in F250 with only seven drivers making the journey to Boretto, and both Rene Behncke and Stefan Probst failed to score any points. The very fast driver Lembit Aaslav-Kaasik from Estonia took three heat wins with Wayne Turner the British National Champion taking three second places and second position overall. Peter Bodor (HUN) took third place in the first heat but then suffered with problems and failed to score any further points over the weekend leaving the way open for David Loukotka (CZE) to take third place overall.

The second round of the series was at Roudnice nad Labem in the Czech Republic.

In the F250 class there was a better entry with eleven drivers taking part. Rene Behncke had sorted his problems from the previous event in Boretto and took two heat wins (heats two and three) and with a second place in the first heat to local driver David Loukotka, Rene secured sufficient points to take overall first place, with some very exciting racing. Lembit Aaslav Kaasik failed to finish the first heat but took second place to Rene in both the second and third hearts giving him third place overall with David Loukotka in second.

The F500 class resulted in a clear win for Attila Havas with two heats wins and a second place with Robert Hencz who failed to finish the second heat taking overall second position with one heat win and one second place. Congratulations to Anton Rosenleitner from Austria who took the final podium position just 62 points behind Robert.

Nine drivers raced in the F125 class, Manuel Zambelli dominated the weekends racing with three heat wins with Henryk Synoracki taking second place and Marcin Zielinski third.

The third round of the Championships took place the first weekend in July on the River Danube at Baja in Hungary.

In F500 it was very nice to see three drivers

from Bulgaria taking part. The event was won by Marian Jung with wins in both heats. Robert Hencz took second place and Attila Havas third. Giuseppe Rossi (ITA) took third place in the first heat but only managed fifth place in second heat so slipped to fourth overall.

The F125 races resulted in a completely different result from the previous rounds with the ever improving Marek Peeba from Estonia taking a very creditable first place, Marcin Zielinski took second and Manuel Zambelli who failed to take any points in the second heat relegated to third.

Hungarian driver Peter Bodor had a very good weekend in the F250 class and won the event convincingly with two first places. Wayne Turner took second place with Lembit Aaslav-Kaasik third.

The next round of the Hydro GP series was

at Bitterfeld in Germany on the 9-11 August and this was the final round for both F125 and F250.

F500 were the first class to take to the water and Marian Jung took the first heat win with Giuseppe Rossi in second place and Robert Hencz in third. In the second heat Giuseppe took first place with Attila Havas, who failed to start the first heat, in second and Glebas Sobciukas (LIT) third.

The overall result for F500 was a win for Giuseppe Rossi with Marian Jung taking second; Glebas Sobciukas and Robert Hencz had equal points and third position went to Glebas with a faster heat time.

Only one heat was completed by both F125 and F250. Marek Peeba took his second event win in F125 series with Henryk Synoracki second and Marcin Zielinski third, local driver Stefan Probst from

Dresden was in fourth place. The Championship leader Manuel Zambelli made a tight turn on a buoy and came out of his boat on the warm up lap and so did not take part in the heat.

On the warm up lap for the F250 the very fast driver Lembit Aaslav-Kaasik had a very serious accident and was taken to hospital and so was unable to take any further part in the event and this unfortunately ruined his chances of taking the Championship title.

The event was won by Wayne Turner from Great Britain with Peter Bodor second and David Loukotka third.

As this was the final round for the F125 and F250 competitors, the Championship medals were presented at prize giving. In the F250 class the gold medal went to Wayne Turner, silver to David Loukotka and bronze to Peter Bodor and in F125 Henryk Synoracki took the gold, Marek Peeba the silver and Marcin Zielinski the bronze.

As the F500 Series consists of six rounds the drivers still had two rounds of their Championship to go and the first of these was at Viverone, in Italy, in early September. Attila Havas took the event win with Giuseppe Rossi second and Marian Jung third. Erko Aabrams (EST) in his first year in F500, having previously raced in F125, had suffered engine problems throughout the season but in Viverone Erko had an extremely good event and took fourth place with two third and a fifth place in the heats, a very good and promising performance.

The final round of the series was at Berlin-Grunau at the end of September with three drivers with a chance of winning the F500 crown. It all hung of the last heat of the event between Marian Jung, Robert Hencz and Attila Havas. Marian had engine problems in this heat and Robert Hencz took the heat win from Attila Havas giving Robert the F500 title just two points ahead of Attila. Robert's win will be an inspiration to the younger drivers coming into the class.

F350 European Championship Series

For the F350 European series there were two events. The first round was at Jedovnice in the Czech Republic and was attended by fifteen drivers. Alex Cremona from Italy and previous World Champion certainly has his engine 'on song' and made a clean sweep of heat wins and a maximum twelve hundred points. Michal Kosut from neighbouring Slovakia took the second position with local driver David Loukotka in third.

The second round was held at Viverone in Italy, alongside the fifth round of F500. Unfortunately this was not so well attended and the water conditions caused some problems for the drivers. The first heat was won by Tunde Bedi-Fittavolini with David Loukotka in second and Michal Kosut third. Unfortunately Alessandro Cremona failed to score any points. The second heat did not take place due to the water conditions. Alessandro had sorted his problems for the final heat and took the win from Michal Kosut in second and David Loukotka third. This resulted in David and Michal finishing

UIM WE STRACTER

48

with equal points, David with a faster heat time won the event with Michal in second and Cremona third.

This resulted in Cremona winning the gold medal for the F350 Championship with David Loukotka taking the silver and Michal Kosut the bronze.

European 175, 500 and 700

Thirteen drivers, from seven European Countries, made their way to Jedovnice at the beginning of June for the single event European O500 Championship. Attila Havas had a runaway victory with maximum 1200 points and took the gold medal, Giuseppe Rossi who had problems in the first heat and failed to finish came back to take the silver medal with Robert Hencz securing the bronze medal.

The European O700 Championship was just two weeks later at Mysliborz in Poland. Here again Attila showed the drivers' a clean pair of heels' and took three heat wins. Marian Jung took second place in these three heats and secured the silver medal with Robert Hencz again taking the bronze.

The European O175 was hotly contested at Skulsk in Poland in the middle of August and it was good to see Vadim Ushakov from Russia making an appearance. The event was won by Rene Behncke from Germany with maximum points: Marcin Zielinski took a well-deserved silver medal position with Attila Hencz representing Hungary, the bronze. It is encouraging to see two generations of a family taking

medals in UIM championships as Attila is the father of Robert Hencz the winner of the F500 Championship.

World 125, 250 and 350

The World O125 took place early in the season at Chodziez in Poland. Team mates Manuel Zambelli and Rene Behncke fought for the gold medal with Manuel coming out on top with a maximum 1200 points and Rene taking the silver with 1000 points. The bronze medal was taken by Polish driver Henryk Synoracki .

San Nazzaro, in Italy, hosted the world 0250 on the River Po, this resulted in a win for Rene Behncke with local driver Massimiliano Cremona taking the silver medal

and Claudio Fanzine the bronze. Lembit Aaslav-Kaasik, the defending champion had a disappointing weekend and only managed seventh place. Chris Hellsten was given a warm reception by the local drivers having made the journey from the USA to take part in this event and finished in eighth place.

The World O350 was a closely fought battle with three drivers in with a chance coming to the last heat, however Rene Behncke took this heat to give him maximum points. James Aderholdt from the USA took the silver medal and David Loukotka the bronze. It was a disappointing event for Alessandro Cremona who finished in fourth place.

ITALY

With 44 medals from World and European competitions going to Italian drivers, eight World Champion titles, seven European championships and a further 12 titles, the 2013 Italian Powerboating racing season was one to remember.

It also contained sadness, with the loss of the unforgettable champion Paolo Zantelli. This tragic event occurred in our most prestigious race of the year, the Grand Prix at the Idroscalo, and ended a career in the UIM F2 division that spanned 17 years.

"His memory, and his devotion to the sport of powerboating prompts us to redouble our safety advances, a path we began 20 years ago," said the F.I.M. President Vincenzo Iaconianni.

It is required in sport, as it is in life, to continue to think about the future and the results of the 2013 season show that Italian powerboating can produce wonderful results, despite financial difficulties faced by the Italian drivers.

Prestigious World titles were captured by two by two young Italians; Manuel Zambelli, World Champion in class O125 and Maicol Chiossi, who won the gold medal at the F1000 World Cup.

Since the presence of women in power-boating is still rare, it was great to see a female duo in the World Cup class PR550, llaria Dal Ben and Giorgia Vicario (Vicario with her Spanish licence).

World Champions in Endurance Group A were Stefano Acanfora and Giancarlo Cangiano in class A-Supersport; in Endurance Group B: Luca Tagliapietra and Alberto Pascali in class S1, Simone Balducci in class S2 and Massimiliano Bertolucci and Elena Stepanova in class Boat Production.

There were also very good achievements from our drivers in the European Championships; 2013 European Champions Alessandro Cremona and Daniele Cargnello in Circuit class 0350 and F1000, Alfredo Amato together with the English driver Miles Jennings in Offshore Class 1, Mattia Fracasso and Antonio d'Arma in Aquabike class Runabout GP1 and Runabout GP2. A total of 44 medals is a wonderful accomplishment. Our aim is to continue this caliber of results, increase our number of drivers and keep the public thrilled.

Skagerak Across

A record held since 1982 was smashed in the ultimate offshore race, the Norsafe Skagerak Across, held in July 2013 and hosted by the Tvedestrand Racing Club,

Denmark, Sweden, England and Norway were represented, with 13 boats, both V-bottom and catamarans, from 27-50 feet and up to 2200 Hp.

The day of the race had the best possible weather conditions. The green flag was given just outside Sandvikaa and it was an exciting race for the spectators, who filled all of the small islands to catch the action.

The 31 year old record of 2h45' was beaten by more than an hour when Asbjørn Abrahamsen and Jørn Tandberg crossed the finish line; 1h40'54" is the new record!

Offshore 3B World Championship

To complete the event, TRK organized the World Championship in Offshore 3B.

Three days of racing with 13 boats from three nations meant a lot of challenges. First place went to Thomas and Annika Wrenkler from Sweden, second place to Johnsson and Myllymaki from Finland and third place to Norwegians Inge Lund and Martin Huth.

Circuit

One of our biggest success stories from 2013 was the P750 Pro Stock class, where sblings Sigurd and Elen Mollestad took silver in the World Championship and gold in the circuit. In the long haul discipline, Simen Andvik and Tony André Wolckmar won gold while Sigurd and Elen Mollestad took silver. There was a bronze medal for André Liltved and Sondre Andvik in the surf discipline.

Aquabike

The Norwegian jet ski athletes work-out several days a week, and some of them also jet ski at school, hard work which paid off during the 2013 season. The results in the national and international championships were the best ever for this sport in Norway, The goal is to do even better in 2014.

Circuit

In the junior class GT15 Michelle Knudsen took an historic bronze medal in the European Championship, giving Norway its first international medal in this class.

F-4S have had a stronger presence than usual in Norway, with six drivers in both the national and international series. Stian Slåttedalen took bronze in the Nordic Championships in Drammen, while fellow countrymen Christian Carlsen and Magnus Skjelbred were fifth and sixth. In the Nordic Championship, Sigurd and Elen Mollestad took the overall gold, ahead of Simen Andvik and Tony André Wolckmar, and André Liltved and Kjetil Johansen.

In the F2 class, five teams competed in the UIM F2 World Championships. Per Anders Edwardsen had a great run in Nottingham, where he was placed second, putting him ininth in the total standings. Mette Bjerknes, Pål Virik Nilsen, Frode Sundsdal and Tobias Munthe-Kaas also competed.

We also had two drivers competing in the UIM Nations Cup. Stian Slåttedalen and Christian Carlsen, who normally run in F-4S, secured the bronze for Norway and took several individual medals as well.

Marit Strømøy had her seasonal best when she grabbed fourth place in the Abu Dhabi Grand Prix in the F1H2O World Championship, where she was placed eighth overall.

LATVIA

With a ruined castle on one of its four islands, Lake Aluksne in Pilssala is the one of most beautiful venues for high level powerboat competitions in Latvia. In the summer of 2014 it will host the World Championship rounds for Formula 4 and the European Championship for JT250 junior classes.

Attracting more young people to the sport, to compete and just for fun, is one of the priorities of the Latvian federation. The Youth Development Through Sports framework gives those aged 8 to 18 a chance to try powerboating through the Formula Future programme. The Akvashelf Racing Team, in co-operation with Bush Boat Construction, have provided six new boats, boosting the development of Formula Future throughout all the Latvian regions.

The summer of 2014 will also see an Latvian Open championship. Five rounds for evaluation throughout the season will take place in Jekabpils, Jurmala, Aluksne, Liepaja and Jelqava.

In 2013, the F-4S World Championship round, which took place in Aluksne, included three Latvian pilots. All three, Ivo Egle (Nord Ost), Nikita Lijcs (Jurmala Racing Team) and Maksimilian Tuckovs (Riga Powerboat Team) were youth champions in JT250, which underlines the success of the programme. The European Championship for S550 was also held, with the silver medal going to Martins Bergholcs from the Liepaja team UPB Energy.

There was a Latvian presense at the Baltic Boat Show trade fair, with the Riga Powerboat Team and Jurmala Racing Team promoting interest in powerboats amongst the general public.

Formula 2 Riga Powerboat Team pilot Uvis Slakteris finished second in the F2 European Championship.

The 24 Hours of Rouen marathon was an achievement for Riga Powerboat Team pilots Uvis Slakteris and Atis Slakteris. As members of an international team they won third place overall and are actively preparing for the 2014 competition.

Latvian Pilot of the Year went to Nikita Lijcs (Jurmala Racing Team.) He took part in four rounds of the world championship; in France, Hungary, Latvia and Sweden, and was fourth overall amongst Formula 4S by gaining fourth place in the European Championship in Finland, third place overall in the ADAC Motorboat Masters and fourth place overall in the Eurofin Trophy. With Formula 4S in the Eurofin Trophy he raced in the MAD-CROC Baba Racing Team and will continue his agreement with them for 2014.

A victory and a gold medal went to our young pilots Nikita Lijcs and Toms Smilskalns in the eight hour endurance race in the World Championship in Moscow. Our team of four pilots ran against Endurance Pneumatics Class 4. It was an exciting race until the very end, with the two teams making an exact

same number of rounds, but Akvashelf Racing excelled in the end.

Preparation was key to this success. Team manager and owner Dmitry Schiller chose the best and the toughest pilots amongst young athletes. Each of them spent almost two hours on the watercourse and in eight hours they completed 163 rounds, around 360 km. The Akvashelf Racing Team took part in two classes in Moscow, and in World Championship Class 2, our world champions, pilots Dmitry Schiller, Andrejs Dudaks, Normunds Razna and Maris Zemracis, won third place.

The Daugava Aquatorium is situated immediately in front of Old Riga, and is one of the most important home watercourses for the Latvian Water Motor Sports Federation. This course is our pride and joy; it lies on a very beautiful spot, but is a very difficult and complicated track for pilots.

During the Riga Water Festival, international competitions will be held there, including the Formula 2 World Championship and the Pneumatic Endurance European Championship.

The Latvian Water Motor Sports Federation would like to express its sincere gratitude to all our medalists, pilots, coaches, mechanics and supporters. The federation wishes everyone safe starts and many medals for the 2014 season!

LATVIA ___

PORTUGAL

The 2013 season of the Portuguese Powerboat Federation was marked by an increase of the number of athletes, with approximately 400 new pilots initiated into the sport through the Formula Future initiative.

The Formula Future National Championship rounds took place in Figueira da Foz, Algés and Peso da Régua, Caldas de Aregos/Resende and São Martinho do Porto e Coruche, with this last region beating all records in terms of participant numbers.

The Nautical Club of Foz do Arelho contributed to this positive trend by organising training during school holidays, and the Nautical Club of Caldas de Aregos formed a team of 14 young people who attended all the National Championship rounds. The Formula Future National Team stages were held in Caldas de Aregos/Resende.

Also held was the Powerboat National Championship, featuring S 850 historic, T 850 and PR 750 in five stages; Caldas de Aregos/Resende, Ribadouro/Baião, Peso da Régua and Viana do Castelo, with the welcome return of São Martinho do Porto as a venue after a 20 year gap.

In S 850 Pedro Fortuna won the National Title. Tiago Évora won the T 850 and João Correia won the PR 750.

The eight journeys of the Radio Controlled National Championship of the FSR Eco, F1 Fe, F1 3.5 cc, FSRv 3.5 cc and FSR Open Classes also contributed to FPM's busy programme throughout the season.

Although the FPM normally allocates national titles only after a series of events, an exception was made in 2013 with the JetSki and Aquabike National Championship held in São Martinho do Porto.

In the UIM calendar, the VI Endurance Aquabike International Integrated took place in Portimão in Portugal, and in Peso da Régua the International Aquabike Classes were held, both events with remarkable success.

A highlight for Tiago Sousa was gaining the European Champion Title and the World Vice-Champion Title UIM Aquabike Class Pro in the Ski Division GP1 category.

Congratulations were also due to Stefania Balzer, who took the highest place on the podium after the Ski Ladies GP1 class in the European Championship.

Also noticed for his performance at an international level was the participation of Duarte Benavente in the F1 World Championship. In 2014 FPM looks forward to hosting boats, aquabike, Formula Future and the Radio Controlled National Championships throughout Portugal, events which will continue to introduce more young people to powerboating.

QATAR

UIM F1 H20 World Championship

The Qatar Team's Alex Carella led from start-to-finish to seal a third successive UIM F1 H2O World Championship title with a stunning victory at the Grand Prix of Sharjah.

"This was a superb performance by the entire team," said Khalid bin Arhama Al-Kuwari, Head of Formula Racing.

"Congratulations to Alex on his superb drive and also to Shaun Torrente, who pushed him all the way. It was another tremendous season for everyone at the QMSF and I would like to thank Sheikh Hassan for his support and all our team for their hard work. We have now won the last three world titles."

2013 H1 Unlimited World Championship

95 Spirit of Qatar's Kip Brown rounded off a successful season of H1 Unlimited racing by snatching a thrilling Bayfair victory to claim the National High Points title.

"This has just been an incredible experience driving for this team," said the pilot. "I always know I can drive the boat as hard as I need to because they are going to have everything working right."

2013 QMSF Championships

The Qatar Marine Sports Federation organized and hosted the following international championships: F1H2O, Nations cup, Aquabike, Flyboard and Unlimited Hydroplane. The local championships were in Junior Aquabike, Junior Hydro, Flyboard, RPO Classes and Aquabike.

UIM Appointment

Qatar's Sami Abu Shaikha has been reappointed senior vice-president of the UIM powerboat racing's governing body for 2013.

QATAR

"Sami has been a very important board member in the QMSF since day one of establishing the federation in Qatar in 2000," said His Excellency Sheikh Hassan bin Jabor Al-Thani, president of the Qatar Marine Sports Federation. "I wish him every success."

Speaking of his appointment, Abu Shaikha said, "This appointment comes as a result of all the hard work carried out by everyone at the QMSF, headed by His Excellency Sheikh Hassan bin Jabor Al-Thani."

A strong entry across all categories once again made judging a challenge with each image being judged on creativity, technical quality, composition subject matter and overall impact. As entrants become more familiar with their digital equipment, so the standard of entries increases.

For me, the biggest surprise was the strength of entries overall and particularly in the Aquabike section which demonstrates that the accessibility and excitement of this

particularly spectacular UIM competition brings out the best in the photographers. This truly is an exciting and photogenic sport to enjoy and I hope that more photographers will take advantage of its accessibility and make some great images to enter in our 2014 season competition.

New names were prevalent across the board with many new photographers submitting quality entries alongside the 'Old Guard' and what I personally found very refreshing was

the quality of 'atmospheric' entries. Many images show the boats close up but to place a boat in its environment while maintaining a good, clean and uncluttered composition takes things to a different level. This does not mean that we are only looking for this picture style so keep sending the 'full frame' entries!

Finally, for all participants in the 2013 season UIM Photo Competition, well done to the winners, and for those who

were not successful this year, keep taking the shots, keep watching and learning form those professionals who have to be good as their livelihood depends on them producing great images time after time, but most of all, keep enjoying UIM competition and we look forward to seeing your entries next year.
