This section asks for details about your project and where it will take place

#### **Project Description**

Use the box provided to describe your project. We encourage you to try and express the aim of your project clearly and concisely and ensure it is clear what your project will do to achieve this aim.

#### Selecting Sports

You can add as many sports as are covered by your project.

Some of the sports listed are highlighted with an asterisk (\*). Please note that if your project will involve one or more of these activities, one of the following must apply, for your project to be considered eligible for funding:

- The organisation delivering these sports activities must be affiliated to the recognised national governing body (NGB). In the majority of cases this will be your organisation but where it is another organisation please give details of their applications.
- Any individuals delivering these sports activities on behalf of your organisation must be appropriately qualified with the recognised national governing body.

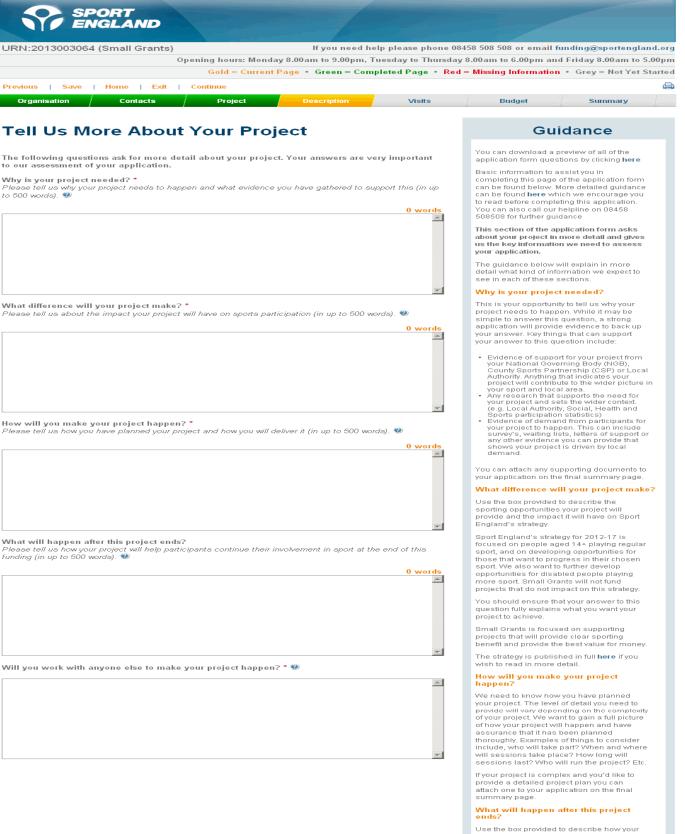

Only applications for projects involving recognised sports are eligible for funding from Sport England. If your sport(s) is not shown on the list, please contact the funding helpline on 08458 508 508 for advice.

Sport England's list of recognised sports can be viewed **here** 

#### **Project Location**

Please use 'Get Address' to find the address (es) of the main site(s) or venue(s) where your project is taking place. Please locate each site and enter into the table by clicking the 'Add Site / Venue' button.

Advice and Guidance

Use the box provided to describe how you project will encourage participants to continue in sport after our funding ends.

We want to support projects that will have a lasting impact on sports participation so this is your opportunity to explain how your project will do this. This does not necessarily mean we expect you to financially maintain the project. Strong projects can also establish opportunities for long-term participation through partnerships with other local sports providers or by offering lasting skills and experience.

However your project will tackle this challenge, this section is your opportunity to describe your approach.

#### Will you work with anyone else to make your project happen?

Use the box provided to tell us about any other organisations you are working with to make your project happen. This could be anyone from a volunteer coach to your National Governing Body or Local Authority. Please also explain what the other party's involvement will be.

# Guidance

You can download a preview of all of the application form questions by clicking **here**

This section of the application form asks more detailed questions about the number of people you will target to take part in your project and some information about their background.

When entering the ages of people taking part in your project please consider that Sport England's strategy for 2012-17 is focused on creating a sporting habit for life in adults and young people over the age of 14. Your application must demonstrate how it will achieve one or more of the following strategic outcomes:

- a) An increase in the proportion of 14-25's
- playing sport once a week b) A growth in regular (once a week)
- participation for all those aged 14+ • c) A reduction in drop off at ages 16, 18, 21 & 24
- d) Growth in participation by people (aged 14+) with a disability.

The first question helps us understand if people have already taken part in sport at your organisation in the past 12 months.

It also gives us a reference point to measure the success of your project against.

If you are a brand new organisation, have never delivered any sporting activities before, or your project will only work with new participants then you should answer 'No' to this question.

The next question is about targets. This section should show the participant numbers you expect after your project has finished. These are the targets we will use to measure the success of your project.

Background: We request some information to identify if your project will have any disabled or minority ethnic participants. If you enter figures for either of these measures then make sure that they each add up to 100%.

Project Start and End Dates: Please ensure your project start date is no sooner than 12 weeks from the date of submitting your application. Small Grants projects must be delivered within a 12 month period.

#### This section of the application form asks for more detail about your project costs and sources of other funding.

This is a really important part of the form. It helps us understand how you have arrived at the total cost for your project.

The first section asks you to add your project costs line by line. An example is provided at the top of the section to help you understand what we're after.

Firstly choose a standard category from the dropdown list (Item) then describe how it relates to your particular project (Description). The next step is to breakdown how you have reached this cost and to enter the total cost in pounds. The final box asks for the amount you are requesting from us towards this.

As you add budget lines your project budget will take shape. A summary of the totals will show at the bottom. Please remember that the maximum 'Amount requested from Sport England' is £10,000 and the maximum 'Total Amount' is £50,000.

The next two sections ask if you have any other funding, cash or non-cash, to support the cost of your project. If your project budget is entirely covered by your Sport England grant request then answer 'No' to both of these questions.

Where additional funding is being provided to support your total project cost you we would expect you to answer 'Yes' to at least one of these questions and enter the requested details.

At the end of this page the total costs of your project are automatically populated and the sources of funding (Grant, Other Funding, Non-cash & In-kind) are summarised. If there are any errors in the figures you will be asked to make changes. The simple formula to follow is:

Amount requested from Sport England (max £10,000) + Amount of other funding (cash & non-cash/in-kind) = Total Project Cost (max £50,000).

The final question asks you to describe how you have addressed the cost of VAT in your budget. This will depend entirely on your status as an organisation. If you are not able to reclaim VAT then it is ok to include VAT in your project budget.
