New Telephone System

We are upgrading our phone system across the whole company. Part of the upgrade is to transfer all original phone numbers across to the new system. Our phone numbers will **NOT** change.

However, we will have a few hours disruption at each depot as their telephone numbers are swapped across. This means our depots will be non-contactable by phone for part of the day as the chart below shows. Unfortunately we are unable to give specific down times. Faxes & emails will be unaffected

Please don't hesitate to contact another depot who will be happy to help.

Depot	Date of no. swap	Phone Number
