

## **Members of Pentathlon GB – Travel Insurance Recommendations**

Pentathlon GB would like to remind members that the Pentathlon GB Travel Insurance covers only those members who are travelling abroad to compete, or train, as part of a team officially sanctioned by Pentathlon GB. This would normally be led by a member of the Pentathlon GB Performance Team or the Pentathlon GB Biathle Director.

Pentathlon GB members who are travelling abroad to compete or train with their club, or alone, should ensure that they purchase specialist sports travel insurance. Members should not rely on ordinary travel insurance as a claim may well be turned down on the grounds that you did not disclose the fact that you were competing or training. This applies to all the elements of Modern Pentathlon, not just those involving potentially dangerous activities: for example, insurers will turn down your claim for an accident which occurs during a training session or competition which only covers the running element of the sport if you do not purchase specialist sports travel insurance.
