# New products and features 2015

NEW  
2015

## GPSMAP® 7400 series

First class chartplotter/sonar combos with tons of new features.

The new GPSMAP 7400 series are beautiful widescreen multitouch fully networked devices with premium mapping designed for anyone who desires high performance and ease of operation on the water. The combo xsv models provide best in class sonar capabilities, including True CHIRP, DownVü and SideVü.

Page: 16

## New echoMAP™ series

The all-new echoMAP dv and sv series chartplotter/sonar combos.

The all-new echoMAP dv and sv series chartplotter/sonar combos are available with 4", 5", 7" and 9" displays. The dv series includes built-in support for traditional HD-ID™ sonar and Garmin DownVü™. The sv series also adds SideVü™ capabilities for the clearest scanning sonar images on the water.

Page: 26

## GHP™ Reactor Autopilot series

Simply the most responsive autopilot system we have ever offered.

With its solid-state 9-axis AHRS, the GHP Reactor mounts anywhere, in any orientation and requires minimal commissioning. It reacts to the sea to hold course even when your boat is pitching and rolling. The GHP Reactor series offers powerboat and sailing features in all corepacks.

Page: 38

## GSD 25 - Black Box Sonar

Designed for the serious offshore sportfisherman.

The GSD 25 premium sonar module is a remote network solution that provides outstanding fishfinding and bottom tracking capabilities for boats with networked MFD installations or GPSMAP 7400 series chartplotters. It offers dual-channel 1kW CHIRP, plus DownVü™ and SideVü™ sonar.

Page: 64

## The new GMR™ xHD2 series

High-definition open-array radars for yachts and sport fishing boats.

The new GMR xHD2 series high-definition open-array radars has excellent sensitivity, and their consistent target positioning make them perfect for offshore and overnight cruising and fishing. These reliable radars provide invaluable aid in tracking land, other boats, weather or even finding game fish.

Page: 48

## Unlimited transducers

New GT series scanning transducers – a welcome sonar addition.

For any caliber of mariner, from the casual cruiser to the professional angler. Our new range supports both Garmin echoMAP and GPSMAP chartplotters and multifunction displays. Choose from various configurations of traditional, CHIRP, DownVü™ and SideVü™ sonar technology for precisely the type of installation and fishing experience you want.

Page: 61

# THE POWER OF SIMPLE™

We believe that the power of a tool in itself is not enough to make it the best. This is why you will find high-end features readily available in every model we offer. Because simplicity and reliability is essential for the best user experience possible. That's why we do our best to create the most innovative and user-friendly interfaces you can find.

The result is a wide selection of very complex, sophisticated technology products that are extremely easy to use. Making your time on the water more fun, more rewarding – more simple.

You will find the Power of Simple at work in all our new marine products coming your way in 2015. We believe they are characterised by compelling design, superior quality and best value. We wouldn't settle for anything less. And neither should you.

# Garmin Marine Network

## Garmin Marine Network & NMEA 2000 – waterproof networks for leisure and professional boats.

Garmin makes it easy to connect multiple devices and instruments in your boat. Simply combine the Garmin Marine Network with the NMEA 2000 to view multiple functions, such as chart-plotter, radar, sonar, AIS, on one or more displays.

All Garmin Marine Network and NMEA 2000 devices come with an easy plug-and-play setup. The system automatically detects the devices in the network and makes them ready to use.

All connectors are waterproof and the speed of the network is an impressive 100 Mbit. This means you can simultaneously view radar images, charts, soundings and other information on one or more displays in real time without any delay.

With an almost endless number of options, you can make your on-board network as advanced as you like.

View network examples on page 13, 19, 36 and 37.

**GARMIN**<sup>®</sup>

# Icon key

**10Hz GPS**  
Built-in, high-sensitivity 10Hz GPS/GLONASS receiver.

**DownVu**  
DownVu™ scanning technology compatible.

**SmartMode**  
Can change multiple displays simultaneously.

**AIS**  
Can present AIS data via a connected AIS receiver.

**Helm App**  
Compatible with Garmin Helm App.

**Sonar**  
Sonar function included.

**Auto Guidance**  
Automatically suggests the best route based on all the marine chart's attributes.

**Marine Network**  
Compatible with Garmin Marine Network.

**Sonar compatible**  
Compatible with Garmin's sonar module.

**Battery**  
Can be powered by battery.

**Media Control**  
Audio system can be operated directly from your chartplotter screen.

**Touchscreen**  
The product has a touchscreen.

**BlueChart g2**  
Compatible with BlueChart® g2 marine charts.

**Multitouch**  
This product has a screen with multitouch.

**Video**  
Video input included.

**BlueChart g2 Vision**  
Compatible with BlueChart® g2 Vision™ marine charts.

**NMEA 0183**  
Can communicate via the NMEA 0183 interface.

**Waterproof**  
Waterproof according to standard IPX7 (copes with a depth of 1 metre for 30 minutes).

**Bluetooth**  
Can communicate wirelessly via Bluetooth®.

**NMEA 2000**  
Can communicate via the NMEA 2000 interface.

**Wi-Fi**  
Can communicate wirelessly via Wi-Fi.

**CHIRP**  
Sonar incorporating Spread-Spectrum CHIRP technology.

**Radar compatible**  
Garmin radar can be connected.

**Digital Switching**  
Control your virtual devices remotely from a key fob or tablet.

**SideVu**  
SideVu™ scanning technology compatible.

# Networking & Standalones

# GPSMAP® 8500 Black Box Series

GMM 170 Part no.:  
010-01021-00  
GMM 170 (6 o'clock view)  
Part no.: 010-01021-01

8500 Part no.: 010-01019-00  
8530 Part no.: 010-01019-02

GMM 150 Part no.: 010-01020-00  
GMM 150 (6 o'clock view)  
Part no.: 010-01020-01

GMM 190 Part no.:  
010-01022-00

GRID™ Part no.: 010-01024-00

## Powerful elegance

Our "black box" option allows a fully integrated glass helm with large 15", 17" or 19" multitouch monitor displays.

The ultimate "black box" chartplotter experience. Install in a low-profile flush mount or custom flat mount for a beautiful and sleek glass helm.

Allows you to customise layouts, data and gauges. Integrates everything, including various sonar technologies, autopilot, connectivity, apps, engine data, weather and multimedia.

The new digital switching system puts full control at your fingertips, either at the helm, remote key fob, or

an app on a tablet. SmartMode™ control allows you to quickly change all screens at a helm in sync to a custom preset mode with a single touch.

Pair with GPS 19x external 10Hz GPS/GLONASS receiver to update position and heading 10 times per second.

Add optional mapping with Garmin Card Reader (sold separately). GPSMAP 8530 comes with worldwide BlueChart® g2 cartography.

# GPSMAP® 8000 MFD Series

8015 Part no.: 010-01018-00

8012 Part no.: 010-01017-00

8008 Part no.: 010-01016-00

GRID™ Part no.: 010-01024-00

## The best just got better

Everything changes, and if you want to stay on top you need to change with it. That's why we gave our best series a substantial upgrade, making it even better.

Our updated GPSMAP 8000 series improves upon what was already the best user interface we'd ever made. Dual-core processors join forces with support for multiple sonar technologies. Beautifully designed with powerfully simple full-system integration that gives your boat an exquisite glass finish.

Available in three different screen sizes (8", 12" and 15"), the MFD series lets you customise layouts, data and gauges. Integrates everything, including various sonar technologies, autopilot, connectivity, apps, engine data, weather and multimedia.

The new digital switching system puts full control at your fingertips, either at the helm, remote key fob, or an app on a tablet. SmartMode™ control allows you to quickly change all screens at a helm in sync to a custom preset mode with a single touch.

Pair with GPS 19x external 10Hz GPS/GLONASS receiver to update position and heading 10 times per second.

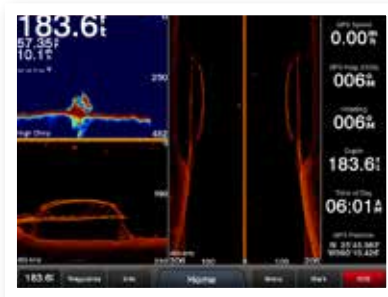

# Special features and main functions

## Digital Switching

Full one-touch helm control of AC mains, charge inverter, and virtual devices.

## Sonar support

Get full sonar coverage with both SideVü™ and DownVü™ through GCV 10 or GSD 25 (sold separately).

## Camera integration

Video available in every screen for ultimate flexibility. Supports fixed cameras, PTZ cameras and FLIR®.

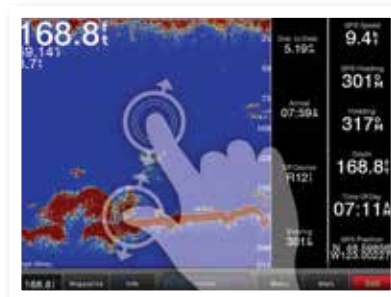

## Auto Guidance

Auto Guidance automatically calculates a safe route to your chosen destination<sup>1</sup>.

## Integrated Autopilot

Easily access your autopilot control from any display.

## Multitouch

Touchscreens capable of performing pinch-to-zoom.

## Main functions

- GPSMAP 8000 series integrated touchscreen chartplotters available with 8", 12" and 15" displays
- GPSMAP 8500 series black box solution compatible with 15", 17" and 19" Garmin touchscreen marine monitors (sold separately)
- FUSION-Link™ support
- Low profile flush mount or elegant flat mount for a glass helm look
- Pinch-to-zoom your map, radar and sonar screens with multitouch
- SmartMode™ control quickly changes all screens at a helm in sync
- Digital switching puts full control at your fingertips
- Integrates various sonar technologies, integrated autopilot, connectivity, apps, engine data, weather and multimedia
- Customise layouts, data and gauges
- GPSMAP 8000 series includes external 10Hz GPS/GLONASS receiver that updates position and heading 10 times per second
- GPSMAP 8500 series black box can be paired with external GPS 19x 10Hz GPS/GLONASS receiver that updates position and heading 10 times per second
- Compatible with Garmin Helm App and BlueChart Mobile

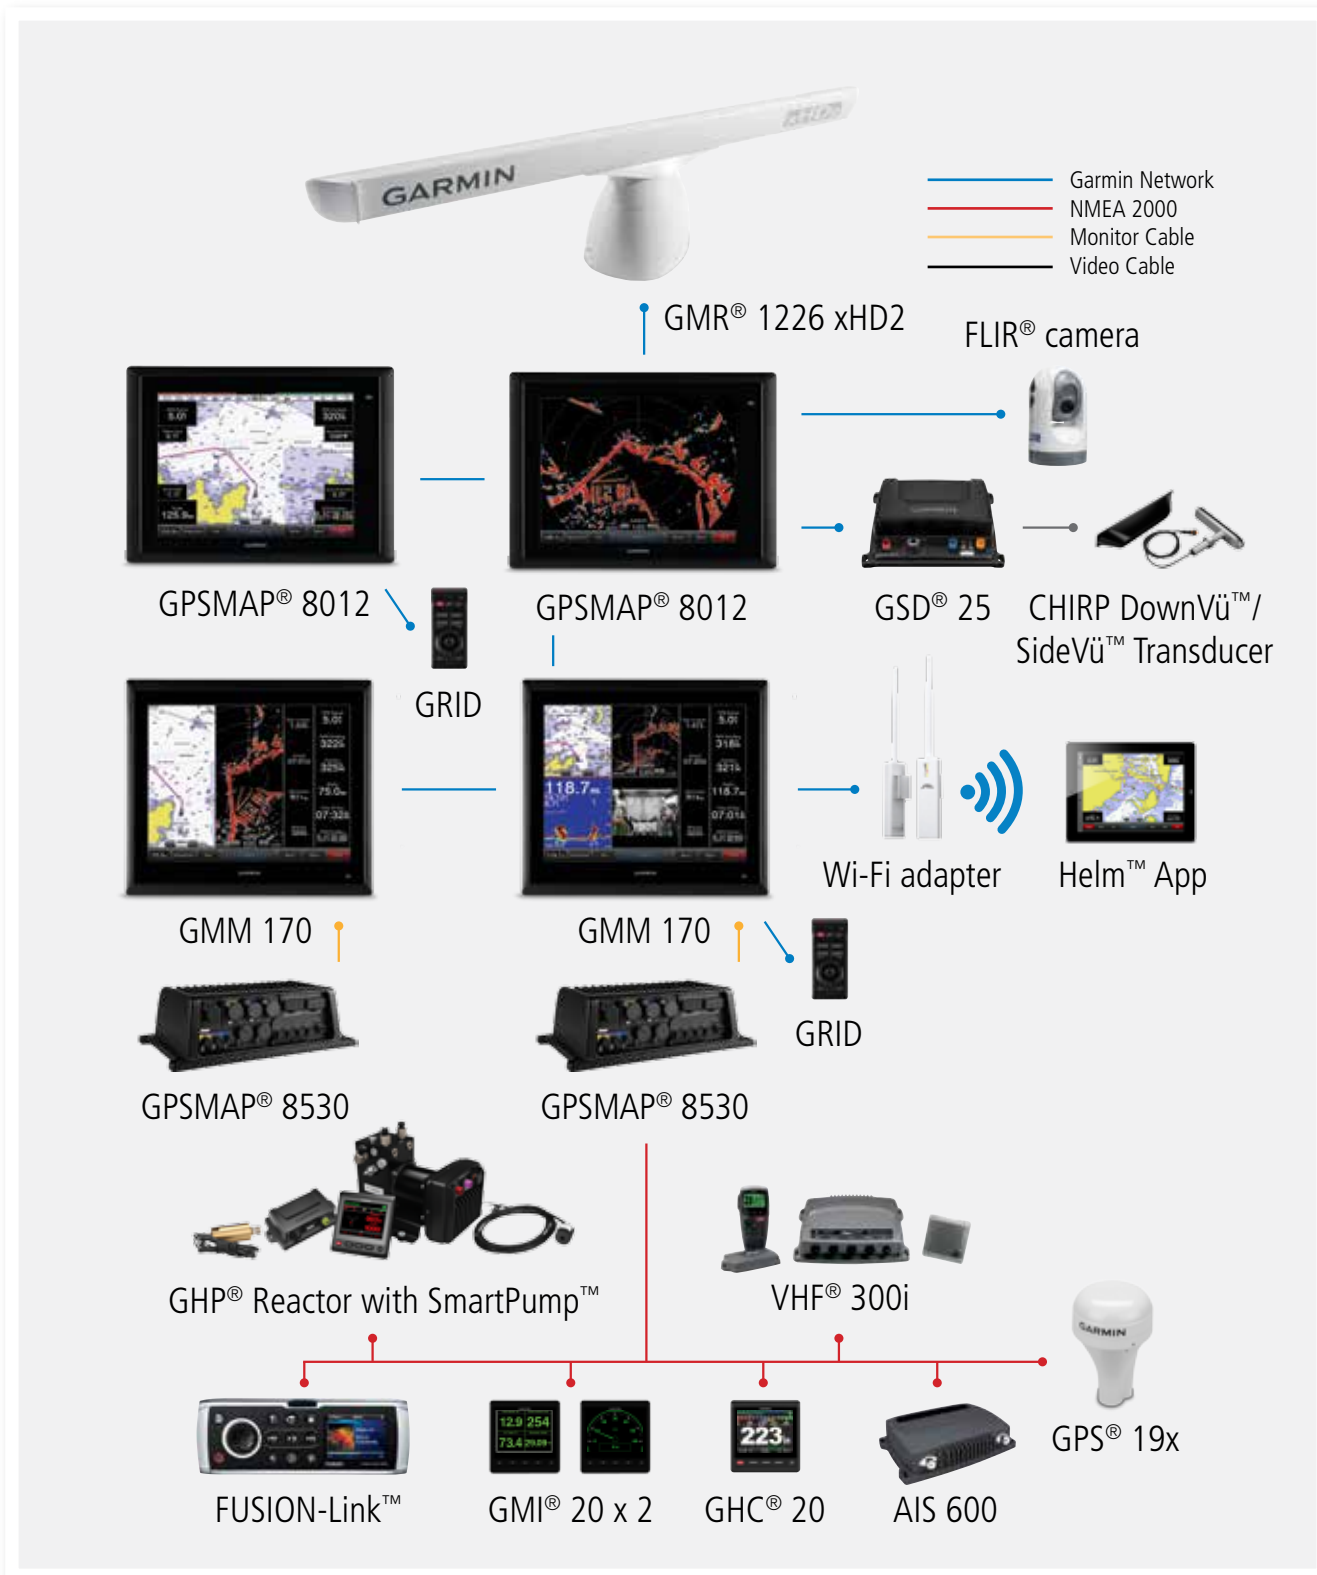

### Sailing features

- Laylines, showing you on screen when to make a tack or gybe
- Show true wind and apparent wind angle at the same time
- Show a heading and a course over ground line simultaneously
- Automatically configure chartplotters optimally for sailing
- Show Upwind/Downwind VMG and VMG to Waypoint to optimise sailing performance

<sup>1</sup> Available with BlueChart g2 Vision (sold separately).

# A network system example

This schematic is for reference only and should not be used in lieu of the Installation Instructions provided with each component of the system. Always refer to the applicable Installation Instructions to ensure that your installation is correct.

GPSMAP® 8500 & 8000 series

# Installation options

## Bail mount

Expand your options for mounting your chartplotter. Bail mount allows you to install it on any flat surface of your boat (GPSMAP 8008 & 8012 only).

## Flush mount

A low-profile flush mount is easy to position and suits most flat surfaces in your boat.

## Flat mount

The unique flat-mounted option makes the GPS a part of the dash. No edges or visible covers, just a beautiful clear glass screen.

## Digital Switching

How would you like full one-touch helm control of AC mains, charge inverter, and virtual devices on the GPSMAP 8000 and 7400 series? You won't even have to be near the dock to power up your boat, switch on the pumps or control the lights (even the ones underwater). In fact, nearly all of your controls can be accessed from a remote key fob, or an app on your tablet.

## FLIR® thermal vision

Don't let darkness and bad visibility drive you off of the water. With thermal night vision, your time on the water is much safer. FLIR's thermal imaging cameras are rapidly finding their way to pleasure crafts and yachts all over the world, as well as to commercial vessels, work boats, fishing boats, cruise ships and many other types of vessels. Is yours one of them?

## SmartMode™

SmartMode control allows you to quickly change all screens at a helm in sync to a preset mode with the push of a button.

**Fishing**

## GPSMAP® 7400 series

# First class chartplotter/sonar<sup>1</sup> combos

The new GPSMAP 7400 series are beautiful widescreen multi-touch fully networked devices with premium mapping designed for fishermen, cruisers, sailors or anyone else who desires high performance and ease of operation.

Main features include seamless integration with various components via NMEA 2000 and Garmin Marine Network, and compatibility with BlueChart® g2 Vision® (with Garmin patented Auto Guidance).

The top of the line combo xsv models provide integrated sonar capabilities that allow simultaneous sharing of all internal sonar. They support all of your transducers (even the first single unit dual-CHIRP) as well as DownVu/SideVu scanning sonars for the clearest images.

GPSMAP 7400 series is available in 7", 8", 10" and 12" display sizes.

### Main functions

- Multitouch 7", 8", 10", 12" widescreen displays
- High-sensitivity 10Hz GPS/GLONASS receiver
- Fast processor for rapid zooming, panning and image updating
- Wireless communication via Wi-Fi
- SmartMode™ control quickly changes all screens at a helm in sync
- Radar compatible
- Autopilot integration
- FLIR® Thermal Camera support
- IP Cameras support
- Composite video input
- DVI-D output (7410/7412 only)
- AIS and DSC Support

- FUSION-Link™ support
- Garmin Helm™ compatible
- NMEA 0183 and 2000 compatible
- BlueChart® g2 & g2 Vision® compatible
- Robust and waterproof (IPX7)
- Two installation options – bracket or flush

#### Sailing features

- Laylines, showing you on screen when to make a tack or gybe
- Show true wind and apparent wind angle at the same time
- Show a heading and a course over ground line simultaneously
- Automatically configure chartplotters optimally for sailing

- Show true wind direction to data fields
  - Show Upwind/Downwind VMG and VMG to Waypoint to optimise sailing performance
- Sonar functions 7400xsv series**
- Sonar output: up to 1,000 watts (RMS), 8,000 watts (peak to peak), CHIRP: 1000 watts (RMS) 4,800 watts (peak to peak), with 1kW transducer
  - Built in CHIRP DownVu & SideVu scanning
  - Built in true Dual-Channel CHIRP sonar
  - Max depth traditional CHIRP: 1,500 m
  - Max depth DownVu: 230 m
  - Max width SideVu: 150 m to each side
  - Sonar recording
  - All-in-one transducer options

<sup>1</sup> xsv models only.

# Special features and sonar functions

## Radar screen

Add your choice of Garmin marine radar, including our powerful xHD2 open array radars or xHD dome radars.

## Sailing features

Advanced sailing features such as Virtual Starting Line, Tack Assist mode and Start Countdown Timer.

## Advanced gauges

Easy to read digital gauges which are customisable and stunning to view in brilliant color.

## FLIR® support

FLIR thermal vision lets you navigate safely in darkness and bad visibility, regardless of weather conditions<sup>1</sup>.

## Digital Switching

Full one-touch helm control of AC mains, charge inverter, and virtual devices.

## Auto Guidance

Auto Guidance automatically calculates a safe route to your chosen destination<sup>2</sup>.

## Sonar functions (xsv-models, transducers sold separately)

## DownVü

Built-in CHIRP DownVü scanning sonar with the clearest images below your boat.

## SideVü

Built-in CHIRP SideVü scanning sonar with the clearest images to the sides of your boat.

## Dual CHIRP

Built-in high performance 1kW true dual CHIRP sonar solution (8,000W peak to peak).

<sup>1</sup> Available with compatible FLIR camera (sold separately).

<sup>2</sup> Available with BlueChart g2 Vision (sold separately).

# A network system example

This schematic is for reference only and should not be used in lieu of the Installation Instructions provided with each component of the system. Always refer to the applicable Installation Instructions to ensure that your installation is correct.

# GPSMAP® 1020xs, 1020, 820xs & 820

820xs w/o transducer Part no.: 010-01180-01  
820 Part no.: 010-01182-00

1020xs w/o transducer Part no.: 010-01183-01  
1020 Part no.: 010-01185-00

## Pristine plotter meets superb sonar<sup>1</sup>

These versatile combo units support special sailing features, Garmin marine radar, FUSION-Link™ entertainment system and the GCV™ 10 black box that adds both Garmin DownVu™ and SideVu™ scanning sonar with CHIRP technology (sold separately) and much more.

The built-in 10 Hz GPS/GLONASS receiver updates your position and heading 10 times per second, and the sonar-recording capability coordinates the timing of the sonar return with your boat's position and saves digital information.

~~The xs models are compatible with an optional HD-ID™ transducer for DownVu™ with CHIRP technology and 50/77/200 kHz.~~

Also, they connect wirelessly to both Apple® iOS and Android devices for BlueChart® Mobile and the Garmin Helm™ app.

### Main functions

- 8" or 10" SVGA display with keyed control
- ~~High sensitivity~~, 10Hz GPS/GLONASS receiver
- Wireless communication via Wi-Fi
- Fast processor for rapid zooming, panning and image updating
- FUSION-Link™ support
- Garmin Helm™ compatible
- NMEA 0183 and 2000 compatible
- BlueChart® g2 & g2 Vision® compatible
- Robust and waterproof (IPX7)
- Three installation options – bracket, flush or flat-mounted

#### Sailing features

- Laylines, showing you on screen when to make a tack or gybe

- Show true wind and apparent wind angle at the same time
- Show a heading and a course over ground line simultaneously
- Automatically configure chartplotters optimally for sailing
- Show true wind direction to our data fields
- Show Upwind/Downwind VMG and VMG to Waypoint to optimise sailing performance

#### Sonar functions 1020xs/820xs

- Built-in highly acclaimed HD-ID™ sonar technology which also includes built-in Spread-Spectrum<sup>2</sup> CHIRP sonar capability
- Sonar output: up to 1,000 watts (RMS), 8,000 watts (peak to peak), CHIRP: 600 watts (RMS) 4,800 watts (peak to peak), ~~with 1kW transducer~~

- Max depth: 900 metres (with dual freq., 1kW transducer)
- Sonar recording
- Supports GCV™ 10 black box sonar that adds both DownVu™ and Garmin SideVu™ scanning sonar with CHIRP technology (sold separately)
- Compatible ~~with all-in-one~~ transducer for DownVu™ with CHIRP technology and ~~55/77/200 kHz~~
- AutoGain
- Graphic logging of water temperature
- Split-screen zoom for a close-up view of fish and the ocean floor

<sup>1</sup> xs models only.

<sup>2</sup> Spread Spectrum CHIRP technology scans on multiple frequencies at one time, returning vast amounts of data to the receiver. As a result, you can expect precise, shallow-water-like target separation at much greater depths.

## GPSMAP® 721xs & 721

# Surprisingly diverse 7" touchscreen combo

721xs Part no.: 010-01103-03

721 Part no.: 010-01103-02

Featuring special sailing features and quick-reference gauge displays, the GPSMAP 721 series makes your aquatic life better than ever. Compatible with radar, GCV™ 10 black box sonar<sup>1</sup>, BlueChart® mapping and sporting a 7" WVGA color touchscreen with pinch-to-zoom. Network support includes working wireless with your smartphone/tablet (using Garmin Helm™ app).

### Main functions

- 7" LED-lit WVGA touchscreen with multitouch
- High-sensitivity 10Hz GPS/GLONASS receiver
- Fast processor for rapid zooming, panning and image updating
- Wireless communication via Wi-Fi and Bluetooth®
- Radar compatible
- Video input
- FUSION-Link™ support
- Garmin Helm™ compatible
- NMEA 0183 and NMEA 2000
- Robust and waterproof (IPX7)
- Three installation options – bracket, flush or flat-mounted
- Sailing features including laylines
- Sonar output: up to 1,000 watts (RMS), 8,000 watts (peak to peak), CHIRP: 600 watts (RMS) 4,800 watts (peak to peak), with 1kW transducer
- Max depth: 900 metres (with dual freq., 1kW transducer)
- Sonar recording
- Available with all-in-one transducer for DownVu™ with CHIRP technology and 77/200 kHz
- Supports GCV™ 10 black box sonar that adds both DownVu™ and Garmin SideVu™ scanning sonar with CHIRP technology (sold separately)
- AutoGain
- Graphic logging of water temperature
- Split-screen zoom for a close-up view of fish and the ocean floor

### Sonar functions 721xs

- Built in highly acclaimed HD-ID™ sonar technology which also includes built-in Spread-Spectrum<sup>2</sup> CHIRP sonar capability

## GPSMAP® 527xs & 527

# Compact and dynamic 5" duo

527 Part no.: 010-01094-02

527xs Part no.: 010-01094-03

The GPSMAP 527xs and 527 chartplotters have a crisp 5" VGA display with perfect legibility in bright sunlight and complete darkness. They work at 10Hz to update position and heading 10 times per second, and have a powerful processor delivering excellent performance, unbeatable map processing and panning. Both models feature built-in Wi-Fi and Bluetooth®.

### Main functions

- Crisp 5" VGA display, 640 x 480 pixels
- High-sensitivity 10 Hz GPS/GLONASS receiver
- Wireless communication via Wi-Fi and Bluetooth®
- Fast processor for rapid zooming, panning and updating of the image
- FUSION-Link™ support
- Garmin Helm™ compatible
- NMEA 0183 and NMEA 2000
- Robust and waterproof (IPX7)
- Three installation options – bracket, flush or flat-mounted
- Sailing features including laylines
- Supports dual frequency mode (50/200khz) or dual beam mode (77/200 khz)
- Built in highly acclaimed HD-ID™ sonar technology which also includes built-in Spread-Spectrum<sup>2</sup> CHIRP sonar capability
- Sonar output: up to 1,000 watts (RMS), 8,000 watts (peak to peak), with 1kW transducer
- Max depth: 900 metres (with dual freq., 1kW transducer) and weak echoes at the same time
- Sonar recording
- DownVu-ready with an optional transducer

<sup>1</sup> xs models only.

<sup>2</sup> Spread Spectrum CHIRP technology scans on multiple frequencies at one time, returning vast amounts of data to the receiver. As a result, you can expect precise, shallow-water-like target separation at much greater depths.

# Auto Guidance

## Auto Guidance<sup>1</sup> – for a safer route

Our patented Auto Guidance was the first of its kind for both fresh and saltwater boating. Since then, it has helped mariners all over the world to avoid charted hazards and obstructions, creating a safe route to chosen destination, according to their boat's specifications.

### What you need

By adding a BlueChart® g2 Vision™ card to your compatible chartplotter, you can take advantage of patented Garmin Auto Guidance technology.

### Creates a safe path

Enter your location, and Auto Guidance instantly searches through relevant charts to create a safe path specifically designed for the dimensions of your boat.

### Autopilot support

Engage your compatible Garmin autopilot to follow the Auto Guidance route, and it will automatically keep you on route.

<sup>1</sup> Available with BlueChart g2 Vision (sold separately).

# FUSION-Link™ integration

FUSION-Link allows your compatible Garmin chartplotter or combo the ability to integrate with, and use specialized FUSION entertainment functionality, creating a centralized control station for the entire vessel and a more user-friendly experience.

### Innovative Multi-Zone™ Control

Volume separation is possible with FUSION's exclusive Multi-Zone control available at the helm, right from your MFD, or for absolute convenience: install a FUSION Wired Remote Control in each listening zone.

### FUSION's media bar for ultimate control

Add media bar to ensure you stay informed and in control of your MFD and your entertainment experience at the same time.

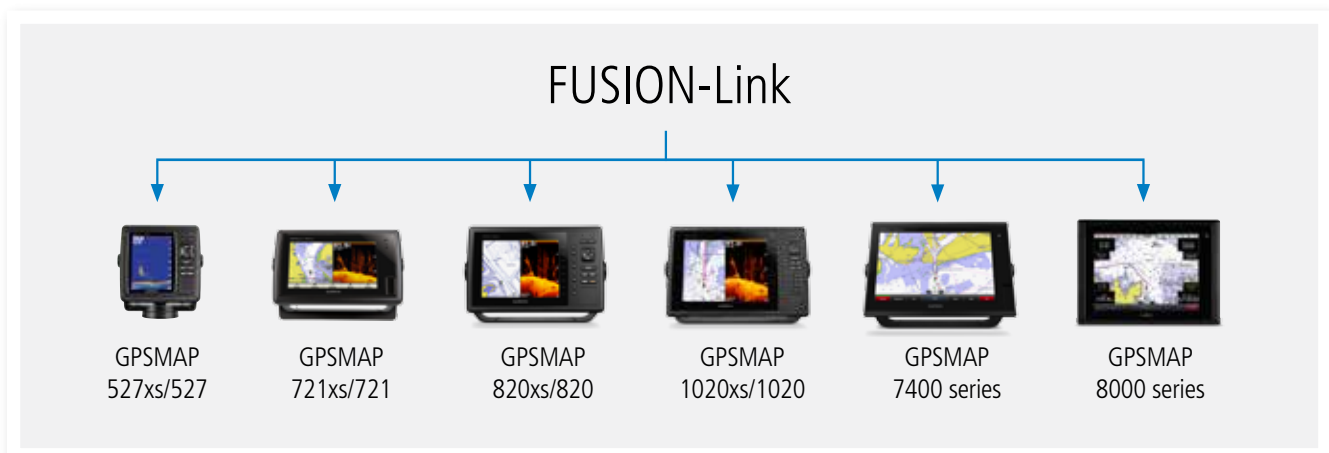

### iPod Interface

Our compatible MFD's recreate your iPod/iPhone interface enabling you to access your favorite playlist, album, artist or song's with ease, recreating the musical navigation experience you are already well accustomed to.

### FUSION range

Our compatible MFD's provide the ability to control [FUSION 205-series](#) and all [FUSION 700-series](#) capabilities.

## FUSION-Link capable products

Garmin Helm™ App

# Garmin Helm™ App – total freedom and endless possibilities

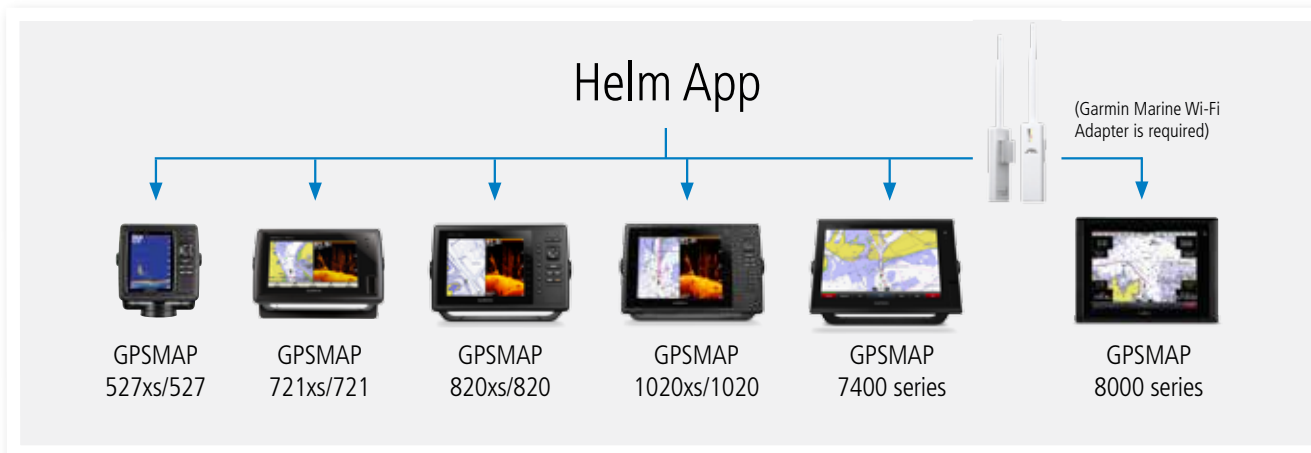

Garmin Helm is a free app that provides enhanced situational awareness for the mariner. It allows you to view and control your compatible Garmin GPSMAP devices from your iPhone, iPad or Android device.

Download from iTunes App Store or Google Play, and simply pair the mobile device to your Wi-Fi capable Garmin GPSMAP or Garmin Marine Wi-Fi Adapter (sold separately) for the GPSMAP 8000 series. You can even use multiple devices simultaneously.

### Main functions

- View and control chartplotters from iPhone, iPad or Android device
- Maintain enhanced situational awareness for mariners
- Easily switch between chartplotters using thumbnail screen preview
- Works seamlessly with SmartMode™ to group plotter thumbnails by station
- Use simple permission settings on chartplotter to allow or block app access
- Use up to 5 mobile devices simultaneously
- Compatible with Garmin GPSMAP 8000 series via Garmin Wi-Fi Adapter (sold separately)
- An iPhone or iPad can record a movie of your chartplotter screen to share

## Helm App capable products

Apple, iPhone, iPad, iTunes, and App Store are registered trademarks of Apple, Inc. iOS is a trademark or registered trademark of Cisco in the U.S. and other countries and is used under license. Android and Google Play are trademarks of Google Inc.

WARNING: Do not leave the helm unattended when the vessel is underway. You assume all responsibility and risk for the use of this app.

# Sailing features for GPSMAP® series

## Laylines

Shows you on screen when you should make a tack or gybe.

## Tides and current

Detailed animated view of tides and currents.

## New wind rose

Displays true and apparent wind angle at the same time.

## Heading and COG

Displays heading and a COG line at the same time.

## Wind data fields

Clear presentation of wind data fields.

## Wind graphs

Clear graphs of TWD, TWS and AWS over time.

# Sailing features capable products

# echoMAP® series

7.25v Part no.: 010-01386-00

9.25v Part no.: 010-01390-00

5.25dv Part no.: 010-01382-01

4.25dv Part no.: 010-01281-01

## Introducing echoMAP™ – the next generation

The all-new echoMAP dv and sv series chartplotter/sonar combos are available with 4", 5", 7" and 9" displays. The dv series include built-in support for traditional HD-ID™ sonar and Garmin DownVu™. The sv series also adds SideVu™ capabilities for the clearest scanning sonar images on the water.

Single microSD™ card slot provides expandable memory for accessory map purchases such as BlueChart® g2 Vision™ which include Auto Guidance capability.

5 Hz Internal GPS updates position and heading 5 times per second to make marking (and returning accurately to) waypoints easier.

Cords plug directly into the mount allowing you to quickly install and remove your device from power and mount. Transom and trolling motor mount included.

### Main functions

- Multitouch 4", 5" square, 7", 9" widescreen displays
- Internal high-sensitivity 5Hz GPS receiver
- New Quick-Release mount
- User data sharing (with optional cable)
- AIS and DSC Support
- 5,000 waypoints and 100 routes
- 50,000 track log points; 50 saved tracks
- NMEA 0183 compatible
- microSD™ card slot
- BlueChart® g2 & g2 Vision™ compatible
- Two installation options – bracket or flush-mounted
- echoMAP dv series come with built-in HD-ID™ fishfinder and DownVu™ scanning sonar capabilities
- echoMAP sv series come with built-in HD-ID™ sonar, DownVu™ and SideVu™ scanning sonar capabilities
- Supports 50/77/200 kHz HD-ID™ sonar
- Max depth traditional HD-ID™ sonar: 700 m
- Max depth DownVu™: 150 m
- Max width SideVu™: 150 m to each side
- Sonar recording
- Sonar history rewind
- All-in-one transducer options

### Sonar functions

- Sonar output: up to 500 watts (RMS), 4,000 watts (peak to peak)

Mounting your echoMAP is now faster and easier than ever thanks to our new quick mount accessories.

**DownVu™ Scanning Sonar**  
Available on all models.

**Traditional HD-ID™ Sonar**  
Available on all models.

**SideVu™ Scanning Sonar**  
echoMAP 72sv and echoMAP 92sv.

**BlueChart® g2 Vision™ and DownVu™ Scanning Sonar**  
Available on all models.

**BlueChart® g2 Vision™ and Traditional Sonar**  
Available on all models.

**BlueChart® g2 Vision™ and SideVu™ Scanning Sonar**  
echoMAP 72sv and echoMAP 92sv.

GPS 158i

# The power of simple in a 5" nutshell

158i with GA38 Part no.: 010-01138-02  
158i Part no.: 010-01138-03

Get quality GPS tracking with the high-sensitivity GPS 158i, a 5" grayscale standalone GPS with easy-to-use features that fit both your boat and your budget. Mariners will be able to acquire satellite signals quickly and accurately, regardless of their position, thanks to the high sensitivity GPS receiver and WAAS/EGNOS capability. It also features a built-in BNC external antenna connector.

### Main functions

- 5" FSTN LCD large display with 4-level grey scale and 480 x 320 pixels
- High-sensitivity GPS receiver
- Includes preloaded worldwide basemap
- Holds up to 3,000 waypoints, 50 routes, and 10,000 track log points
- NMEA 0183
- Internal GPS antenna
- BNC connector for external antenna support
- Easy-to-use interface with 10 input keys
- 10V to 36V input voltage range with protection circuit
- Displays big font highlight of critical information
- Waterproof IPX7

## Instruments & Networks

**GARMIN**

# Hybrid display marine instruments

GNX 21 Part no.: 010-01142-10  
GNX 20 Part no.: 010-01142-00

Perfectly designed for both sail and power vessels, these easy-to-read marine instrument displays clearly show depth, speed, wind and 50+ marine and vessel parameters. With glass-bonded displays they provide excellent readability night and day with high-contrast 36mm digits.

Also, the GNX 21's inverted display makes it easier on the eyes in the dark of night.

### Main functions

- Large 4" hybrid monochrome display
- Backlighting with multiple colours
- Glass-bonded lens to prevent fogging
- Low power consumption: consumes only 0,35 W (day - no backlight) / 0,4 W (night - mid-level backlight)
- Large digits up to 36,4 mm high
- Multiple colour schemes
- NMEA 0183 & 2000 compatible
- Powered through NMEA 2000
- Supports 10Hz external GPS input
- Customisable user profiles

## Notable Features

### Now in your colour

Choose from seven preset backlight colours, or customise one to provide optimal readability for your own conditions.

### Customisable user profiles

Choose from five display configurations for sailboat or powerboat user profiles: single, dual and triple function, Gauge and Graph mode to display wind, depth and speed. Or customise it to suit you the best.

### Auto-scroll

Set your display to automatically cycle between pages at a speed set for your most convenient, hands-free operation.

### NMEA® 2000

Monitor more than 50 marine and boat parameters including speed, water depth and temperature, wind direction and wind speed from the NMEA 2000 bus. You can also add a NMEA 0183 device using the optional 7-pin bare-wire power/data cable.

### Low power consumption

Perfect for sailors who want to sail for long intervals without having to charge batteries. Using only 25mA with 350mW daytime usage requiring no backlight and just 400 mW with a midlevel backlight setting at night.

Navigation Data.

True Wind Speed / Angle.

Speed Through Water.

# Your new multifunction instrument

GMI 20 Part no.: 010-01140-00  
 gWind bundle Part no.: 010-01248-10  
 gWind Wireless bundle Part no.: 010-01248-20

The GMI 20 has a bonded 4" colour screen that displays depth, speed, wind, engine information and over 100 marine and vessel-specific parameters based on your preference. The glass-bonded finish lens prevents fogging and increases contrast. Other features include a dedicated race timer that counts both down and up, with an internal beeper. Also included are two trim snap pieces cover options which allow you to match the GMI 20 with the new GPSMAP 500/700 and GPSMAP 8000 series or legacy Garmin chartplotters.

### Main functions

- Large bright 4" QVGA colour display
- LED backlighting
- Glass bonded lens to prevent fogging
- High contrast and up to 170° viewing angle
- Multiple colour schemes and night modes
- New red-black and green-black schemes
- Extra large digits up to 47 mm high
- NMEA 0183 & 2000 compatible
- Powered through NMEA 2000
- Supports 10Hz external GPS input
- Customisable data fields
- Customisable user profiles
- Low power mode to reduce power usage

Compatible sensors and instruments for GMI 20.

Easy to read with large, clear digits.

Engine and fuel information in the display.

GND™ 10, gWind™ & gWind™ Race

# A complete wind system

GND 10 Part no.: 010-01226-00

The GND 10 black box interface seamlessly integrates Nexus instruments and sensors with the Garmin family. It converts data between the Nexus network and NMEA 2000 to provide trouble-free compatibility between Nexus and Garmin products including the gWind, gWind Wireless and gWind Race wind transducers.

Simple plug-and-play installation between Nexus and NMEA 2000, with USB connectivity eliminates the need for user setup and system configuration.

## Main functions

### GND 10

- Seamless integration between Nexus, Garmin products (NMEA 2000) and USB networks
- Simple plug-and-play operation with no user set-up or system configuration needed
- A breeze to handle and install which provides many advantages

- Integrated key features via the plotter for enhanced sailing functionality

### gWind transducers

- Twin-fin design for superior performance and a propeller that lets you get accurate wind data even at low wind speed
- Robust and craftily designed to withstand rough elements

# High precision compasses

Bulkhead mount compasses are specifically designed for anyone demanding absolute accuracy with a steady card in all conditions and accommodating high heeling angles. Flush and pedestal mount compasses offer absolutely accuracy and a steady card in all conditions, despite the heeling angle. The Elite racing models were developed by the world's top racers and Olympic sailors.

## Powerboat compasses

### 100 series

The 100 series front and top reading compasses have three yellow lubber lines and an apparent scale size of 100 mm. The two side view lubber lines at 45° offset allow easy reading and also allow for mounting the compass to one side of the steering position.

#### 100P

Part no.: 010-01432-00,  
100P, bulkhead mount

#### 100NBC

Part no.: 010-01452-00,  
100NBC/FBC, bracket or  
flush mount, illumination,  
compensator

#### 100BC

Part no.: 010-01450-00,  
100BC, bracket mount,  
illumination, compensator

### 70 series

The 70 series front and top reading compasses have one main yellow lubber line that allows easy and safe reading at a glance. Apparent scale size of 70 mm.

#### 70

Part no.: 010-01444-00,  
70P, bulkhead mount

#### 70NBC

Part no.: 010-01443-00,  
70NBC/FBC, bracket or  
flush mount, illumination,  
compensator

#### 70FBC

Part no.: 010-01443-00,  
70FBC/NBC, bracket or  
flush mount, illumination,  
compensator

#### 100FBC

100FBC may be mounted at any angle from vertical to horizontal. Perfect for dashboard mounting. Adjustable illumination in the protection covers. The FBC model has a built-in compensator.

Part no.: 010-01452-00, 100FBC/NBC, bracket or flush mount, illumination, compensator

#### 58

Colours:

Optimal for smaller power boats. The unique built-in compensator handles even large errors (up to 40°). Equipped with illumination and a bracket that allows for mounting on any surface.

Part no.: 010-01439-00 (black) or 010-01440-00 (white), 58 Star, bracket mount, blister, packed 6 pcs in box, illumination, compensator

#### 85

85 is a very stable compass, flush mounted with a flat bottom plate. The construction of the compass card makes the model 85 very well dampened and suitable for high speed and rough conditions.

Part no.: 010-01453-00, 85E Chrome, flush mount, illumination (MN)

# Marine compasses

## Sailboat and racing compasses

**70P**

70P with apparent scale size of 70 mm. The compact size makes it very easy to install, and popular for smaller sailboats. Suitable for mounting at most angles. One lubber line for easy and safe reading at a glance. Heeling angle 30°.

Part no.: 010-01444-00, 70P, bulkhead mount

**102B/H**

102B/H has a 100 mm capsule. The cradle is gimballed and a heeling angle scale is displayed on the front. The optional compensator is easy to fit in a holder under the detachable front.

Part no.: 010-01433-00, 102B/H, bulkhead mount, heeling scale, front cover, black & white front supplied, illumination

**100P**

The 100P is a bulkhead mounted front reading compass. The 100P is also suitable for mast mounting by using optional mast bracket. Heeling angle 30°.

Part no.: 010-01432-00, 100P, bulkhead mount

**100B/H**

100B/H is equipped with a heeling angle scale and illumination. The capsule protrudes only 18 mm into the cockpit.

Part no.: 010-01433-00, 100B/H Baltic, bulkhead mount, heeling scale, illumination

**125B/H**

125B/H is equipped with a heeling angle scale and illumination. The capsule protrudes only 32 mm into the cockpit.

Part no.: 010-01435-00, 125B/H Pacific, bulkhead mount, heeling scale, illumination

**125FTC**

125FTC is a flush mounted compass with an apparent scale size of 125 mm and a gimballed cradle. This model has a built-in compensator.

Part no.: 010-01436-00, 125FTC Pacific, flush mount with compensator, illumination and armadillo cover

**125T**

125 is a pedestal compass with an apparent scale size of 125 mm and a gimballed cradle. The standard 175 mm base plate fits most steering pedestals.

Part no.: 010-01437-00, 125T Pacific, white pedestal with armadillo cover, illumination and compensator

**85/85E**

85E is a very stable compass for small and fast dinghies. Deck mounted with flat underpart. No need for making big holes in the boat.

Part no.: 010-01448-00, 85, black and white rings, flush mount, Part no.: 010-01449-00, 85E, black and white rings, flush mount, illumination

**103RE**

103RE is designed for the Laser and other dinghies. It has three separate scales and allows the compass to be read from the center of the cockpit or from a hiked position on each tack.

Part no.: 010-01434-00, 103RE Racing Elite

**70UN**

Universal compass that can be used in its bracket as a steering compass or as a bearing compass when hand-held. Suitable for kayaks, dinghies, canoes, small boats and more.

Part no.: 010-01445-00, 70UN Universal, one bracket

**70UNE**

70UNE has the same features as the 70UN but also a built-in diode illumination that is powered through batteries. Waterproof and floats.

Part no.: 010-01446-00, 70UNE Universal, one bracket, battery illumination

**70UN**

73R is the perfect combination compass. It has a tactical compass scale on the vertical part of the card and can be installed in any inclination or position with a bracket.

Part no.: 010-01447-00, 73R MiniRacing, one bracket

# Accessories and sensors for networks

**Main functions**

- Better than 1° static course accuracy
- 2° dynamic accuracy at up to 30° of pitch and roll
- 3-axis rate gyro compass with no moving parts provides accurate heading data
- 3-axis rate gyro compass improves heading data in difficult conditions
- Heading data supplied as standard 10Hz for both NMEA 0183 and NMEA 2000 (NMEA 2000 can be increased to 20Hz)
- Simple installation
- Automatic calibration function
- Waterproof according to IPX6
- Dimensions: (HxLxD) 5.1 x11.2 x 11.4 cm

## Heading Sensor

Rate gyro compass Part no.: 010-11417-00

**NMEA N2K Adapters:**

Available for the following sensors:

- GRA™ 10, Rudder angle adapter  
Part no.: 010-11324-00
- GET™ 10, Motor tilt adapter  
Part no.: 10 010-11325-00
- GFL™ 10, Fuel level adapter  
Part no.: 10 010-11326-00
- GBT™ 10, Bennett Trimplan adapter  
Part no.: 10 010-11327-00
- GST™ 10, Speed through the water & Temperature adapter  
Part no.: 10 010-11328-00

## NMEA Analogue Adapters

**Main functions**

- Compatible with the GPSMAP 500/700/6000/7000/8000 series and GMI 20 via NMEA 2000
- The GFS 10 only works with petrol-driven engines
- Maximum flow rate: up to 190 litres/h per engine
- Minimum flow rate: 7.5 litres/h

## Fuel Sensor GFS 10

GFS 10 Part no.: 010-00671-00

**Main functions**

- Supplies data for depth and water temperature
- NMEA 2000 compatible
- Can read depths down to 180 metres
- Also available with log transducer

## Intelligent Transducers

Intelligent transducers Part no.: see page 95

**Main functions**

- High-sensitivity 10Hz receiver
- 32 channels
- Can handle several GNSS systems, including GPS and GLONASS
- Available in two versions – NMEA 2000 or NMEA 0183
- Designed to cope with even the toughest of conditions
- Easy to install, and can also be fitted below deck (not on metal/carbon decks)
- Compatible with WAAS/EGNOS

## GPS 19x & 19x HVS

GPS 19x HVS Part no.: 010-01010-00  
GPS 19x Part no.: 010-01010-10

**Main functions**

- Available in NTSC (US) and PAL (Europe) video standards
- Connects directly to the GPSMAP 6000, 7000, 8000-series and 721/721xs
- Resolution: 480 TV lines
- Effective pixels: 768 x 494 (NTSC) / 752 x 582 (PAL)
- Standard and reverse image presentation
- Works equally well indoors and outdoors

## GC 10 Marine Camera

GC 10 Marine Camera Part no.: 010-11372-02  
GC 10 Marine Camera, reversed Part no.: 010-11372-03

**Main functions**

- Optional keypad for full control of all 8000 series
- Rotary knob and joystick for quick menu and screen navigation
- Seamlessly navigate between monitors of a station
- Control single or multiple monitors with one keypad
- Supports multiple keypads per station
- Small size for captain's chair integration

## Garmin Remote Input Device (GRID)

GRID Part no.: 010-01024-00

**Main functions**

- Brings Wi-Fi connectivity to Networking Garmin units
- Enables wireless communication for BlueChart Mobile and Garmin Helm Apps

## Marine Wi-Fi Adapter Kit

Marine Wi-Fi Adapter Kit Part no.: 010-11981-30

# Autopilots

## GHP™ Reactor Autopilot series

# Here you go – ~~Garmins~~ most responsive autopilot system ever

NEW  
2015

Garmin brings an advanced marine technology once only available to commercial boats to the boating public in a complete package designed for powerboats and sailboats. They react to the sea to hold your course, even when your boat is pitching and rolling. They are based on a solid-state 9-axis AHRS that has been developed for autopilots in the aviation industry, and mount nearly anywhere, in any orientation while requiring minimal commissioning<sup>1</sup>.

GHP Reactor Autopilots are very versatile. Both powerboat and sailing features are available in all corepacks, including heading hold, wind hold, tack/jibe, step turns and more. However you

take to the water, you'll find a GHP Reactor corepack that is compatible with your existing steering system.

And if you team it up with a compatible Garmin networked chartplotter, you can also enjoy new features like route following, route engage, and Autopilot Virtual Device<sup>2</sup>. Optional features include BlueChart® g2 Vision® charts like Auto Guidance, that automatically steers GPS paths.

With the Garmin Reactor series, you'll have more time to enjoy the voyage.

### Key features

- **RELIABILITY** – Solid state 9-axis AHRS (Attitude and Heading Reference System), reacts to the sea to hold course, even when your boat is pitching and rolling
- **UNPRECEDENTED PERFORMANCE** – Our most responsive autopilot system on the water. GHP Reactor series minimizes heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- **EASY INSTALLATION** – Innovative technology and form factor allows you to mount anywhere, in any orientation
- **QUICK AND EASY COMMISSIONING** – Minimal commissioning and calibration takes as little as five minutes
- **STEERING SYSTEMS** – Offers a complete package designed for many vessel types and steering systems – including hydraulically steered systems, steer-by-wire systems, solenoid-driven and cable-actuated systems, linear-actuated sailboats and more
- **AUTO GUIDANCE** – Automatically follow an Auto Guidance path when used with a Garmin chartplotter using optional BlueChart g2 Vision charts
- **NEW AUTOPILOT FEATURES** – Provides new features and capabilities to new Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device<sup>2</sup>
- **FLEXIBILITY AND CONTROL** – Add an optional quatix™ GPS marine watch or GHC wireless remote for autopilot control anywhere on your boat
- **NMEA 2000** – Autopilot heading data can be shared easily with other devices on the network

<sup>1</sup> Approx five minutes as opposed to an average of 20.

<sup>2</sup> The Reactor Autopilot series is compatible with the following Garmin GPSMAP chartplotters:

- GPSMAP 4x1/5x1/5x6/7x0/4000/5000/6000/7000 - includes route following features  
 - GPSMAP 5x7/7x1/8x0/10x0 – includes route following and route engage features  
 - GPSMAP 7400/8000 – includes route following, route engage and autopilot virtual device features

# GHP™ Reactor corepack guide

## GHP REACTOR – HYDRAULIC COREPACK

Part no.: 010-00705-15

Ideal for all types of hydraulically steered powerboats – inboards, outboards, stern drives, diesels. Page 42.

## GHP REACTOR – HYDRAULIC WITH SMART-PUMP™ COREPACK

Part no.: 010-00705-65

One SmartPump fits most hydraulically steered boating applications. Page 42.

## GHP REACTOR – MECHANICAL / RETROFIT / SOLENOID COREPACK

Part no.: 010-00705-45

Ideal for sailboaters with direct or cable-actuated steering systems. Page 43.

## GHP REACTOR – STEER-BY-WIRE STANDARD COREPACK

Part no.: 010-00705-80

Fits vessels with select steer-by-wire control systems, including Yanmar® JC10 Joystick system, Teleflex® Optimus™ systems and ZF® 2800 systems. Page 44.

## GHP REACTOR – STEER-BY-WIRE CORE-PACK FOR YAMAHA® HELM MASTER™

Part no.: 010-00705-81

Brings our GHP Reactor steer-by-wire technology to vessels with Yamaha Helm Master systems. Page 44.

## GHP REACTOR – STEER-BY-WIRE CORE-PACK FOR VOLVO PENTA®

Part no.: 010-00705-85

GHP Reactor steer-by-wire technology for vessels with Volvo Penta IPS and stern drive joystick systems. Page 44.

# Hydraulic corepack – with or without SmartPump™

GHP Reactor hydraulic corepack Part no.: 010-00705-15

GHP Reactor hydraulic with SmartPump corepack Part no.: 010-00705-65

This robust unit gives powerboat users an easy to use autopilot system to rely upon for navigation. The optional SmartPump features a smaller, brushless motor-driven pump that is suitable for most users. It offers Intelligent Rudder Rate Technology (IRRT) which adjusts the rudder speed to the speed of your boat to ensure safer and more stable operation.

Based on a solid-state 9-axis AHRS that has been developed for autopilots in the aviation industry, this GHP Reactor can be mounted nearly anywhere (in any orientation) and only requires

five minutes for commissioning. It minimizes heading error, course deviation, rudder movement and power consumption, all while providing a comfortable ride.

Our patented Shadow Drive™ technology lets you take the wheel at any time without having to press buttons to disengage the pilot first. This makes it quick, easy and safe to change course or dodge obstacles, such as lobster pots. Once back on a straight course, the pilot takes over.

## Main functions

- Complete packages designed for hydraulically steered powerboats and sailboats
- Solid-state 9-axis AHRS, reacts to the sea to hold course, even when the boat is pitching and rolling
- Minimizes heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- Mounts nearly anywhere, in any orientation
- Minimal commissioning and calibration takes just five minutes
- One SmartPump™ fits most hydraulically steered boating applications<sup>1</sup>
- Small, brushless SmartPump delivers better thermal performance, higher reliability, and lower power consumption<sup>1</sup>
- Configurable flow rate from 0 to 2.4 liters per minute<sup>1</sup>
- Optimal performance for all steering cylinder sizes from 4 to 17 cubic inches
- Intelligent Rudder Rate Technology (IRRT)
- Patented Shadow Drive™ technology keeps you in control even when autopilot is engaged
- Engineered from corrosion-resistant components
- NMEA 2000 interface
- Provides advanced features and capabilities to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Connects to up to 3 GHC™ control units
- When used with a Garmin chartplotter with optional BlueChart® g2 Vision™ charts, the Reactor autopilot can automatically follow an Auto Guidance path
- Add an optional quatix™ GPS marine watch or GHC wireless remote for autopilot control anywhere on your boat
- Add optional GRF 10 Rudder Feedback sensor to further enhance performance

<sup>1</sup> Smartpump corepack only.

# Mechanical corepack – reliably accurate

GHP Reactor mechanical / retrofit / solenoid corepack  
Part no.: 010-00705-45

You never know when an extra crew member can come in handy. Maybe the wind picks up, and you have to leave the wheel to raise the sails or pull in fenders. Even in calm conditions, you sometimes need to hand over to someone else, particularly if you travel far. That's where this below-deck auto-pilot system comes in, ideally suited for sailboats or powerboats with direct or cable-actuated steering systems.

Based on a solid-state 9-axis AHRS that has been developed for autopilots in the aviation industry, this GHP Reactor can be mounted nearly anywhere (in any orientation) and only requires

five minutes for commissioning. It minimizes heading error, course deviation, rudder movement and power consumption, all while providing a comfortable ride.

Available in three linear drives capable of driving many different steering systems that fit almost any midsize to large vessel (depending on the particular installation). No rudder feedback is required when the autopilot is paired with a Garmin linear drive.

- Class A Drive Unit** – Up to 14,25 tons of displacement
- Class B Compact Drive Unit** – Up to 24,2 tons of displacement
- Class C Drive Unit** – Up to 39,5 tons of displacement

## Main functions

- Complete package ideal for sailboaters with direct or cable-actuated steering systems
- Solid-state 9-axis AHRS, reacts to the sea to hold course, even when the boat is pitching and rolling
- Minimizes heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- Mounts nearly anywhere, in any orientation
- Minimal commissioning and calibration takes just five minutes
- Engineered from corrosion-resistant components
- NMEA 2000 interface
- Enter your boat's displacement or its planning speed, and Reactor will take into consideration the various steering characteristics that are required
- Provides advanced features and capabilities to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Connects to up to 3 GHC™ control units
- When used with a Garmin chartplotter with optional BlueChart® g2 Vision™ charts, the Reactor autopilot can automatically follow an Auto Guidance path
- Add an optional quatix™ GPS marine watch or GHC wireless remote for autopilot control anywhere on your boat
- Add optional GRF 10 Rudder Feedback sensor to further enhance performance

# Steer-by-wire – effective autopilot with Shadow Drive™

GHP Reactor steer-by-wire standard corepack  
Part no.: 010-00705-80

GHP Reactor steer-by-wire Yamaha® Helm Master™ corepack  
Part no.: 010-00705-81

GHP Reactor steer-by-wire Volvo Penta® corepack  
Part no.: 010-00705-85

These corepacks bring our GHP Reactor autopilot technology to vessels with select steer-by-wire control systems, including Yanmar® Electric Power Steering for the JC10 Joystick system, Teleflex® Optimus™ systems, Yamaha® Helm Master™ systems, Volvo Penta® Inboard Performance Systems and ZF® 2800 Pod Drive steering systems.

Based on a solid-state 9-axis AHRS that has been developed for autopilots in the aviation industry, this GHP Reactor can be mounted nearly anywhere (in any orientation) and only requires

five minutes for commissioning. It minimizes heading error, course deviation, rudder movement and power consumption, all while providing a comfortable ride.

Our patented Shadow Drive™ technology lets you take the wheel at any time without having to press buttons to disengage the pilot first. This makes it quick, easy and safe to change course or dodge obstacles, such as lobster pots. Simply release the wheel, and the pilot takes over.

## Main functions

- Solid-state 9-axis AHRS, reacts to the sea to hold course, even when the boat is pitching and rolling
- Standard corepack: supports steering systems from Yanmar® JC10 Joystick system, Teleflex® Optimus™ systems and ZF® 2800 system
- Corepack for Yamaha®: supports Yamaha Helm Master systems
- Corepack for Volvo Penta®: supports Volvo Penta IPS and stern drive joystick systems
- Minimizes heading error, course deviation, rudder movement, power consumption, while providing a comfortable ride
- Mounts nearly anywhere, in any orientation
- Minimal commissioning and calibration takes just five minutes
- Patented Shadow Drive™ technology keeps you in control even when the autopilot is engaged
- NMEA 2000 interface
- Provides advanced features and capabilities to compatible Garmin chartplotters such as route following, route engage, and Autopilot Virtual Device
- Connects to up to 3 GHC™ control units
- When used with a Garmin chartplotter with optional BlueChart® g2 Vision™ charts, the Reactor autopilot can automatically follow an Auto Guidance path
- Engineered from corrosion-resistant components
- Add an optional quatix™ GPS marine watch or GHC wireless remote for autopilot control anywhere on your boat
- Add optional GRF 10 Rudder Feedback sensor to further enhance performance

quatix™

quatix is a highly accurate GPS powered marine watch that features built-in remote capabilities. It allows you to remotely control a Garmin autopilot so you can move around the deck of a power boat or sailboat while having information and control right on your wrist.

**Main functions**

- Auto pilot control
- Tactical GPS navigator in a rugged marine watch
- Very easy to use with altimeter, barometer and 3-axis compass
- Waterproof to 50 m
- Sight 'N Go navigation
- Wireless connectivity
- Share waypoints, routes and tracks with other compatible Garmin GPS units and apps
- Chronometer includes alarms, chimes and vibration alerts

quatix Part no.: 010-01040-51

GHC™ Remote control

This wireless remote places functionality of your GHC autopilot control display into the palm of your hand. For the ultimate in onboard freedom and convenience, the GHC remote offers on-the-move steering and mode control from the primary helm unit, depending on the installation of the GHC.

**Main functions**

- On-the-move steering and mode control at distances up to 45 ft (13.72 m)
- Rugged and waterproof
- Built-in digital display
- Bright backlit screen
- Simple, ergonomic keypad operation

GHC Remote control Part no.: 010-11146-00

GRF 10 Rudder feedback sensor

Pair this sensor with the GHP 20 or GHP 12 to provide rudder position feedback to detect and avoid rudder stops. The GRF 10 uses a magnetic sensor to relay position information, eliminating the friction that can cause other types of sensors to wear out. The arm of the GRF 10 is connected to the rudder of the boat and relays position information through the sensor to the mariner so they know where the rudder is.

**Main functions**

- Know where the rudder is positioned without having to look back
- Make smoother maneuvers and avoid over-compensating
- Save undue wear and stress on the autopilot system by eliminating force on the rudder when it's already stopped left or right

GRF 10 Rudder Feedback Sensor Part no.: 010-11829-00

The Garmin logo, featuring the word "GARMIN" in white, uppercase letters with a small blue triangle above the letter "I".

## GMR® xHD2 series

# The new GMR® xHD2 series is like nothing you've ever seen

GMR 424 xHD2, 4kW, 4ft Part no.: K10-00012-08  
 GMR 624 xHD2, 6kW, 4ft Part no.: K10-00012-09  
 GMR 626 xHD2, 6kW, 6ft Part no.: K10-00012-10  
 GMR 1224 xHD2, 12kW, 4ft Part no.: K10-00012-11  
 GMR 1226 xHD2, 12kW, 6ft Part no.: K10-00012-12

GMR 42x xHD2 Pedestal, 4kW Part no.: 010-01333-00  
 GMR 62x xHD2 Pedestal, 6kW Part no.: 010-01333-01  
 GMR 12xx xHD2 Pedestal, 12kW Part no.: 010-01333-02  
 GMR xHD2, 4' Antenna Part no.: 010-01333-03  
 GMR xHD2, 6' Antenna Part no.: 010-01333-04

The new GMR xHD2 series high-definition open-array radars is designed for serious seafarers of larger yachts and sport fishing boats. Their excellent sensitivity and consistent target positioning make them perfect for offshore and overnight cruising and fishing. These reliable radars provide invaluable aid in tracking land, other boats, weather or even finding game fish.

Bird mode helps you find birds, and thus fish. Dual-range radar provides redundancy for close and long range. Dynamic auto gain

and dynamic sea filter continually adjust to your surroundings and provide optimal performance in varying conditions.

All you have to do is choose what output power you're looking for (4, 6 or 12kW) and the preferred size of your antenna (4 or 6'). The 6' antenna focuses the beamwidth down to just 1.1°. Even the 4' antenna achieves an impressive 1.8° beamwidth. The tighter the beamwidth, the better the more detailed radar image resolution.

## Main functions

- xHD2 power and performance, these high sensitivity radars deliver high resolution, excellent target separation, and consistently accurate target positions
- Dual radar support provides redundancy and ability for each display unit on the boat to select data from one of two different radar sources
- Bird Mode helps you to find flocks at the water's surface indicating a hot fishing spot
- Silent rotation and reliable operation
- 8-bit true color display helps discriminate large targets from small ones
- Simultaneously monitor up to ten MARPA targets (optional rate gyro compass)
- Dynamic auto gain and sea filter continually adjusts to your surroundings to provide optimal performance in varying conditions
- Rotation speed: 24 or 48 rpm
- Withstands winds of up to 100 knots
- Antenna diameter:
  - GMR 1224 xHD2 / 624 xHD2 / 424 xHD2 (4 foot)
  - GMR 1226 xHD2 / 626 xHD2 / 426 xHD2 (6 foot)
- Vertical beam angle: 25°
- Emission power:
  - GMR 1226/1224 xHD2: 12kW
  - GMR 626/624 xHD2: 6kW
  - GMR 424 xHD2: 4kW
- Horizontal beam width:
  - GMR 1224 xHD2 / 624 xHD2 / 424 xHD2: 1.8°
  - GMR 1226 xHD2 / 626 xHD2: 1.1°
- Range: 72 nm max. / 20 metres min
- No complex user settings – easy to install and start using

# Special features xHD2

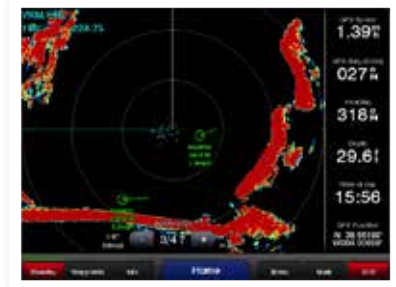

## Echo Trails

A historical “trail” is left on the screen to help you quickly identify moving targets and potential collision threats.<sup>1</sup>

## Dual Range

Allows independent split screen display for simultaneous close and long range view.<sup>2</sup>

## MARPA

Automatic tracking of up to 10 selected targets, helping you keep track of other vessels and avoid collisions.<sup>3</sup>

## Radar Overlay

Overlays the radar image on the chartplotter's map page.

## Color Pallets

Choose between a number of different colour settings to fit your needs.<sup>4</sup>

## MARPA and Trails

Combine MARPA targets and trails to get a good overview of the vessels around you.<sup>3</sup>

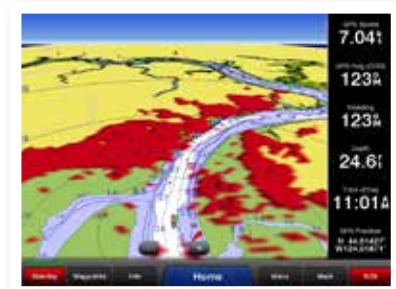

## Dual Radar

Dual radar provide the flexibility to install two different radars on the boat for best performance at any range.<sup>5</sup>

## Bird Mode

Choose Bird Mode to find flocks at the water's surface indicating a hot fishing spot.<sup>1</sup>

## Surface Radar

Display radar returns from the surface of the water when the chartplotter is connected to a marine radar.

<sup>1</sup> Feature is available on GPSMAP® 721, 820, 1020, 7400, 8000 series.

<sup>2</sup> Feature is available on GPSMAP 4000, 5000, 6000, 7000, 7400, 8000 series.

<sup>3</sup> Feature is available on GPSMAP 820, 1020, 4000, 5000, 6000, 7000, 7400, 8000 series. Optional heading sensor is required (sold separately).

<sup>4</sup> Feature is available on GPSMAP 7x1, 820, 1020, 6000, 7000, 7400, 8000 series.

<sup>5</sup> Feature is available on GPSMAP 8000 series.

## GMR® 24 xHD &amp; 18 xHD

# Precision and power

GMR 24 xHD Part no.: 010-00960-00

GMR 18 xHD Part nr.: 010-00959-00

The GMR 24 xHD and 18 xHD offer advanced digital processing for enhanced performance. The radar echo is displayed on your chartplotter screen with an image up to four times more detailed than that of a conventional radome. Perfectly suited for amateurs and professionals alike, it detects the smallest obstacles both up close and far away with extreme precision.

## Main functions

- 4kW emission power for improved discrimination
- MARPA function (rate gyro compass sold separately)
- Horizontal beam width:
  - GMR 18 xHD: 5.1°
  - GMR 24 xHD : 3.7°
- Vertical beam width: 25°
- Maximum range:
  - GMR 18 xHD: 36 nm
  - GMR 24 xHD: 48 nm
- Minimum range: 25 m
- Rotation speed: 24 or 48 rpm
- Withstands winds of up to 100 knots
- IPX7 waterproof

## GMR® 18 HD

# Affordable HD performance

18 HD Part no.: 010-00572-02

Monitor the horizon with the GMR 18 HD. This 4kw high-definition radome offers excellent performance at a modest price. Its compact 18" diameter makes it ideal for small craft and yachts. With a power of 4 kilowatts, it offers a range of 36 nautical miles.

## Main functions

- 4kW emission power for improved target discrimination
- MARPA function (rate gyro compass sold separately)
- Horizontal beam width: 5.1°
- Vertical beam width: 25°
- Maximum range: 36 nm
- Minimum range: 25 m
- Rotation speed: 24 or 30 rpm
- Withstands winds of up to 100 knots
- IPX7 waterproof

# Finding the right radar

## Radome or open array radar?

The radome has a compact format that easily adapts to the limited space of a small craft, making it ideal for sailing near the coast. Open array radars offer enhanced performance and a greater range, detecting small targets with extreme precision and sharper imagery.

## xHD technology and high-resolution images

Our radars incorporate xHD technology for even better digital processing. Thanks to optimisation of the pulse width and repetition frequency, the image provided is four times more detailed (compared to conventional radars). Regardless of distance, the echoes on your chartplotter are clearer, and the targets better defined.

A close-up view of a boat's dashboard. On the left, a digital display shows a map. To its right are two analog gauges. Below the gauges is a throttle lever with a blue grip. A VHF radio antenna is mounted on the right side of the dashboard. The background shows a body of water and a distant shoreline under a clear sky.

VHF & AIS

GARMIN<sup>®</sup>

# Black box VHF with optional AIS

300i Part no.: 010-00756-11  
300i AIS Part no.: 010-00757-11

The VHF 300i and VHF 300i AIS are space-saving “black box” VHF’s, that offer support for multiple communication stations and options for dual band AIS receivers. The design allows out-of-sight installation, enabling you to save valuable space on your instrument panel. The entire device can be operated from a GHS™ 10i, a full-function remote control that also works as a microphone.

### Main functions

- “Black box” design saves space at the helm
- Up to 25W transmission output
- All functions and settings are managed via the GHS 10i (supplied)
- 4” active speaker with volume knob (supplied)
- Initiate a VHF call directly from your Garmin NMEA 2000 plotter and VHF
- Full Class D Digital Selective Calling (DSC) with built-in DSC receiver
- NMEA 2000/NMEA 0183 interface
- Position tracking – locate and follow up to three other boats
- Two-way hailer function with compatible speaker
- The VHF 300i and VHF 300i AIS are compatible with the GHS 10i and GHS 20i
- Records 90 seconds of the latest call
- Available in either black or grey
- Three ports for additional VHF stations
- Use as intercom between stations

# Robust lifelines in all weathers

100i Part no.: 010-00754-11  
200i Part no.: 010-00755-11

The VHF 200i and VHF 100i are high-quality marine radio systems packed with functionality and options. These robust, waterproof (IPX7) VHF systems are ideal lifelines in all types of weather. They provide outstanding performance with up to 25 watts of transmit power and exceptional noise suppression. The 3.2” display with at-a-glance graphics and the three large multi-function buttons add to the user-friendliness.

### Main functions

- Extra large 3.2” display with adjustable backlighting
- Up to 25W transmission output
- LOCAL receiver mode for improving reception performance in areas with dense radio traffic
- Initiate a VHF call directly from your Garmin NMEA 2000 plotter and VHF
- Full Class D Digital Selective Calling (DSC) with built-in DSC receiver
- NMEA 2000 (only 200i) and NMEA 0183 interface options
- Position tracking options
- The VHF 200i is compatible with the GHS 10i and GHS 20i to add additional stations
- Knobs for adjusting volume, squelch and choice of channel
- Available in either black or grey

# Greater flexibility on board

GHS 20i, complete with wireless station  
Part no.: 010-11190-10  
GHS 20i, handheld unit only  
Part no.: 010-11190-11

GHS 10i Part no.: 010-11188-10

The GHS 20i and 10i give you full-function control over your VHF. The GHS 20i is a wireless remote handset that lets you maintain control as you move about on board. Designed for quick and easy use, the system features a volume, squelch and channel adjustment knob and a dedicated channel 16 selection key. The GHS 20i and 10i are compatible with the VHF 300i, 300i AIS and 200i. Both models support DSC (see below).

### Main functions

- Sharp 2" LCD display
- Dedicated buttons for channels and frequencies
- Multi-function buttons for other settings and functions
- Dedicated button for selecting channel 16
- Microphone that provides you with intercom options when it is connected to a speaker
- Knob for adjusting volume, squelch and channels
- Connect up to three GHS 20i to each wireless hub

## DSC

### DSC – a safer emergency call

Digital Selective Calling (DSC) is a global protocol that uses channel 70 to transmit and receive digital messages. VHF radios equipped with DSC can send and receive digital emergency messages, private calls and general calls, and let you call attention to VHF calls by using stored MMSI numbers (Maritime Mobile Service Identity).

By pressing the emergency button on your handheld VHF, you activate a DSC distress call. Your GPS position, time data and your boat's MMSI number are then sent digitally via channel 70. Other vessels and land stations can receive your emergency call and respond immediately.

DSC significantly improves the chances of rapid rescue.

# AIS 600

## See and be seen on the water

Raise the level of safety on board with the AIS 600 and patented ClearTrack™ technology, that guarantees uninterrupted signal reception. The AIS transceiver lets you receive AIS data and transmit your own data to other AIS receivers in the area. This gives you a good overview of the area even when visibility is very poor. The AIS 600 is a “black box” that can be installed out of sight behind the bulkhead. It is operated directly from your plotter screen. The integrated splitter allows you to connect both AIS and VHF to the same antenna.

AIS 600 Part no.: 010-00865-00

**Main functions**

- Helps during navigation and to avoid collisions
- NMEA 2000-certified
- Integral splitter box means that it is sufficient to have one VHF antenna for both AIS 600 and VHF radio
- Integrated AIS target data with information displayed directly on the chartplotter
- ClearTrack™ technology ensures that reception is uninterrupted
- Alarm (CPA) via Radar to avoid collisions
- Integral GPS receiver
- Dual channel AIS receiver
- Class A and class B reception

# AIS 300

## When observing is enough

The AIS 300 lets you receive AIS data from other vessels in the area. It helps you to avoid collisions and navigate safely, even in poor visibility. The AIS 300 is a “black box” that can be installed out of sight behind the bulkhead. It is operated directly from your plotter screen. It comes with an integrated splitter that allows you to connect both AIS and VHF to the same antenna.

AIS 300 Part no.: 010-00892-00

**Main functions**

- Helps during navigation and to avoid collisions
- NMEA 2000-certified
- Integral splitter box means that it is sufficient to have one VHF antenna for both AIS 300 and VHF radio
- Integrated AIS target data with information displayed directly on the chartplotter
- Alarm (CPA) via Radar to avoid collisions
- Dual channel AIS receiver
- Class A and class B reception

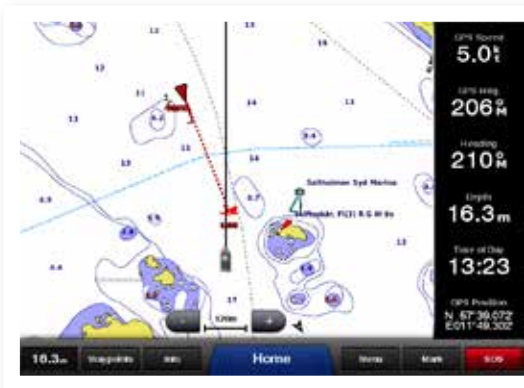

# Automatic Identification System

Improved communication, safety and collision avoidance at sea. AIS shows you other boats immediately on your marine chart.

The Automatic Identification System (AIS) enables the exchange of navigation status data between vessels and land-based stations. Ships equipped with AIS can identify and track each other wherever they meet. Already, commercial vessels over 300 gross tonnage are obliged to carry AIS, and a growing number of small commercial and leisure boats are also opting for it to increase safety.

Your vessels name, size, use, speed, heading and more is sent by VHF to other traffic in the vicinity. With an AIS receiver on board, anyone can see the position and bearing of other boats and ships nearby.

Make your boat visible to others with the AIS 600 transponder.

## Collision warnings

Risks are clearly indicated, which greatly minimizes the risk of collision.

## Identification

Sends detailed vessel data, allowing easy identification.

## Clear overview

Shows you the surroundings and the vessels around your boat.

## Social seamanship

Spot your friends quickly and enjoy direct ship-to-ship communication.

## Black box sonar

ClearVü™ sonar technology

# ClearVü™ Sonar for superior image precision – ready to be amazed?

Scanning Sonar technology offers high-resolution, true-life imaging of the underwater structure and fish, providing a detailed view both below and to the sides of your vessel. You can use this technology to search for and confirm ideal fishing spots.

## Advantages of ClearVü Sonar

### Superior resolution

Enhanced resolution for greater target separation and stunning details.

### More dynamic

Wide dynamic range for small target detection, making sure you see more than ever.

### Clearer picture

Noise suppression allows for a much clearer picture – a real feast for your eyes.

## DownVü™

This high-frequency sonar gives you a clearer picture of what's below your boat, by producing a more detailed representation of objects, structure and fish. DownVü with CHIRP technology takes it one step further, producing an ultra-clear page with even more detail.

## SideVü™

SideVü shows you what is happening to the sides of your boat. An excellent way of finding structures and fish. SideVü with CHIRP technology provides an even more detailed and higher resolution image of what is beneath the surface.

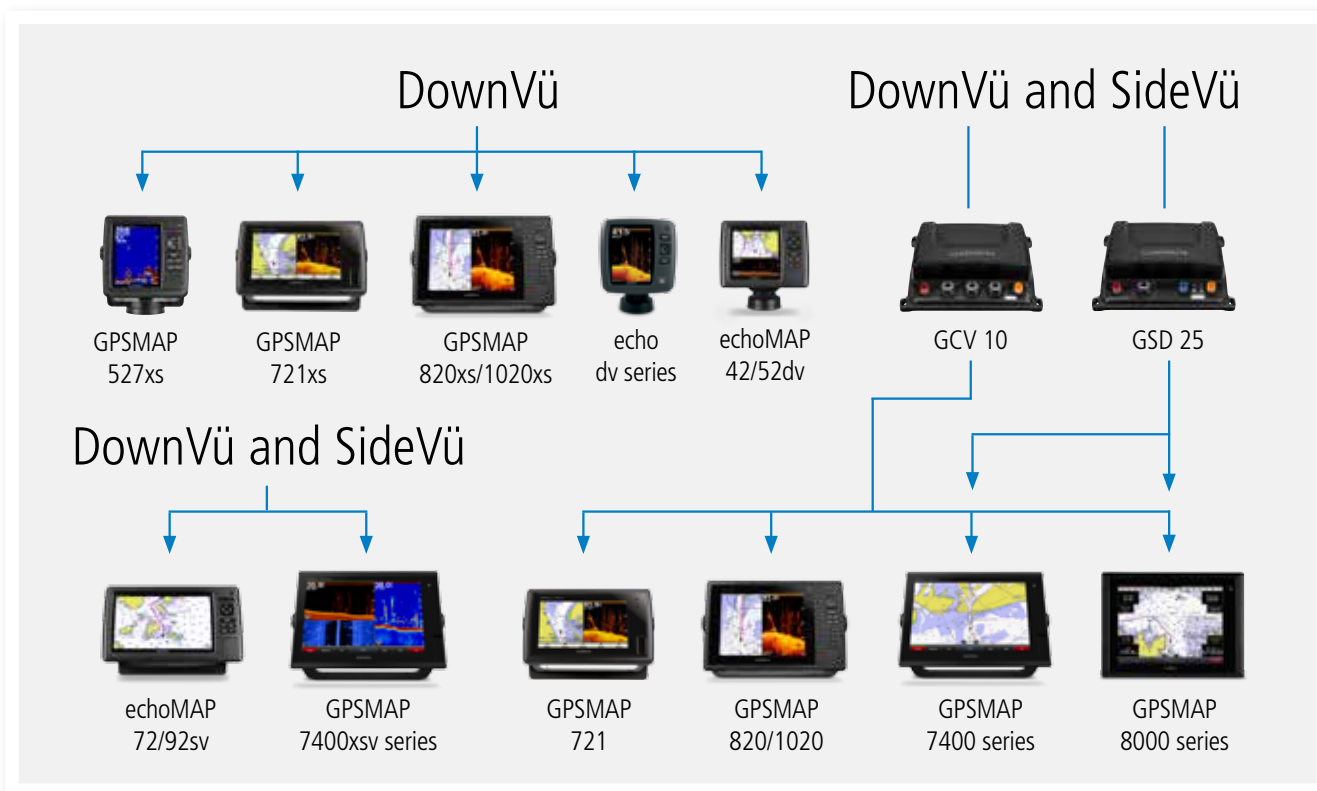

# New GT series scanning transducers – a welcome sonar addition

Finally, there is a line of scanning transducers that are designed to accommodate any caliber of mariner, from the casual cruiser to the professional angler. The new GT series of scanning transducers aren't just powerhouses in themselves – they are made even stronger by the fact that they work with just about

any echo you can think of. Naturally they also offer a variety of mounting options and price points. Choose from various configurations of traditional, CHIRP, DownVü and SideVü sonar technology for precisely the type of installation and fishing experience you want. For more information see page 84.

## ClearVü Sonar capable products

# CHIRP sonar technology

## What is CHIRP?

CHIRP is the most sophisticated sonar technology available for use by the fishing and boating public. The word itself is an acronym for Compressed High-Intensity Radiated Pulse.

### Standard Sonar

Standard sonar sends a single frequency at a time. Since the only feedback is from this one single frequency, there is little information to work with, limiting the clarity and resolution available with standard sonar.

### CHIRP Sonar

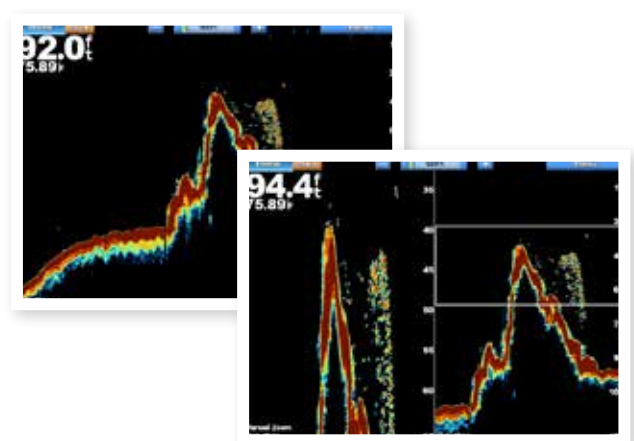

Instead of sending just a single frequency, CHIRP sends a continuous sweep of frequencies ranging from low to high. CHIRP sonar technology then interprets frequencies individually upon their return. Since this continuous sweep of frequencies provides CHIRP with a much wider range of information, CHIRP sonar is able to create a much clearer, higher resolution image.

## Why Garmin CHIRP?

The key to CHIRP sonar is the interpretation of the data retrieved. The better the data interpretation, the better the screen image.

Compare un-doctored screen images provided by actual Garmin sonar owners to any other CHIRP sonar images you have seen. We think you'll agree that when it comes to CHIRP sonar technology, Garmin is creating products that interpret CHIRP sonar data the best.

# Advantages of CHIRP

## Improved resolution

Improved target resolution enables you to actually see individual baitfish separately.

## More data

A sweep of tones delivers more data, providing a much higher resolution, and clearer depiction of targets on screen.

## Intelligent

Each frequency reacts differently to structure densities to create a clearer image of what's below.

## Clear difference

Improved target resolution enables you to differentiate between big fish and tight clusters of baitfish.

## Double power

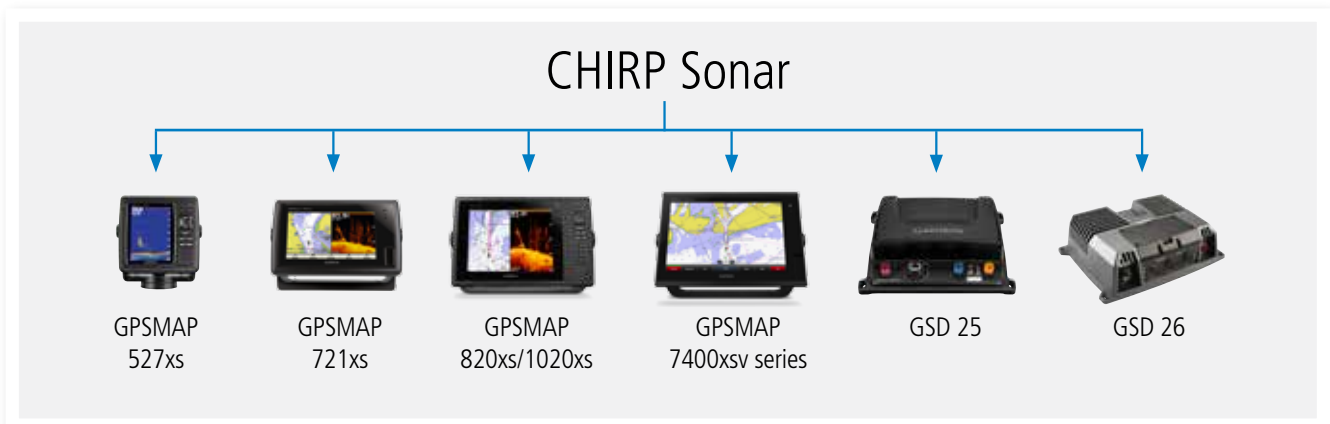

CHIRP doubles the power put on the target.

## Close bottom view

Improved target resolution enables you to distinguish fish hovering just above bottom.

# CHIRP Sonar capable products

## GSD 26

# Take your sport fishing to new depths

GSD 26 Part no.: 010-00958-00

The GSD 26s revolutionary spread spectrum technology gives you the best of both worlds – better target separation in deep waters, and the option of tuning to specific frequencies to target certain species of fish. It also offers optimal target definition, bottom contour analysis and signal noise suppression at greater depths, and gives you faster screen updates and instant interpretation of what’s below.

### Main functions

- The GSD 26 digital sonar incorporates revolutionary digital Spread Spectrum technology
- Works with a dual-channel single receiver
- The dual transmitter allows simultaneous and independent dual frequency display
- Manually adjustable frequency from 28 kHz to 210 kHz
- Powerful digital signal delivers fantastic signal reproduction and performance in deep water
- Optional output power between 300W and 3kW
- Compatible with Airmar’s new transducers with CHIRP technology
- Waterproof (IPX6)

## GSD 25

# Premium CHIRP scanning sonar module

GSD 25 Part no.: 010-01159-00

Designed for the serious sportfisherman, the GSD 25 premium sonar module is a remote network solution that provides outstanding fishfinding and bottom tracking capabilities for boats with networked [MFD installations](#) or GPSMAP® 7400 series chartplotters. It offers true dual-channel 1kW CHIRP, plus DownVü™ and SideVü™ scanning sonar with CHIRP technology for the clearest scanning images on the water.

### Main functions

- Designed for the serious offshore sportfisherman
- Premium remote network sonar solution
- Provides outstanding fishfinding and bottom tracking capabilities
- Includes dual-channel 1kW CHIRP, plus SideVü and DownVü sonar scanning with CHIRP technology
- Get target details so precise, you can actually distinguish between small and closely spaced fish at key fishing depths
- Max. depth 1,500 m\*
- For use with the Garmin GPSMAP 8000 Glass Helm series or GPSMAP 7400 series chartplotters

\*Maximum depth dependent on transducer, water salinity, bottom type and other water conditions

# Professional sonar technology

GSD 24 Part no.: 010-00957-00

The GSD 24 incorporates modern digital technology to give superior target separation and bottom structure analysis. Compatible with many different transducers, this new sonar module has optional transmission output (600W, 1kW and 2kW) for pin-point accuracy at depths of down to 1,500 metres. Whether you are looking for fish or hazards below the surface, you'll see everything in exceptionally sharp detail.

### Main functions

- Displays depth, fish echoes and bottom contours
- Produces a clear image with fantastic signal reproduction and performance in deep water
- Two frequencies: 50 and 200kHz
- Optional output power of 600W, 1kW or 2kW
- Max. depth 1,500 m\*
- Upgrading adapter from GSD 22 to GSD 24 supplied
- Simple installation with Garmin Marine Network™
- Ability to fine tune the 50kHz frequency from 45-55kHz and the 200kHz from 190-210kHz to better align the sonar and the transducer

\*Maximum depth dependent on transducer, water salinity, bottom type and other water conditions

# The all-seeing black box sonar

GCV 10 w/DV & SV transducer Part no.: 010-01156-00  
 GCV 10 w/o DV & SV transducer Part no.: 010-01156-10

The Garmin GCV™ 10 black box sonar adds both SideVü™ and DownVü™ with CHIRP scanning sonar technology to your compatible Garmin echoMAP™ or GPSMAP® series. CHIRP technology sweeps through a range of frequencies to give you an ultra-clear sonar picture of objects, structure and fish that pass below (DownVü™) and to the sides (SideVü™) of the boat. Together with your combo's HD-ID™ sonar, you get an excellent search and confirmation tool for advanced fishfinding in both fresh and saltwater.

### Main functions

- For use with compatible echoMAP™ and GPSMAP® series
- Provides both DownVü™ and SideVü™ with CHIRP scanning sonar technology for a high-frequency, ultra-clear sonar picture of objects, structure and fish that pass below (DownVü™) and to the sides (SideVü™) of the boat
- Includes 12 pin all-in-one DownVü™/ SideVü™ transducer with 20 ft. cable
- 3 network ports provided for advanced networking capability
- Excellent search and confirmation tool for advanced fishfinding in both fresh and saltwater
- Jackplate and step mount available (both sold separately)

**GARMIN**

Fishfinders

echo™ 551dv

# First-rate fishfinder with DownVu™

551dv with transducer Part no.: 010-01256-00

It's hard to describe the sensation of fishing with 500 watts of output power and Garmin's HD-ID™ target tracking technology. The 640 x 480 pixel VGA screen displays fish, bottom contours and structures in amazing detail. The dual beam sensor, with an angle of up to 120°, lets you see far beyond the boat. You can even see what's happening at a depth of 580 metres. And it comes equipped with the Garmin DownVu scanning sonar.

## Main functions

- 5" display with 256 colours, 640 x 480 pixels, VGA
- Clearly visible in strong sunlight
- Garmin HD-ID™ technology for superb presentation of fish arcs and bottom contours (with transducer)
- Garmin DownVu™ scanning sonar
- Three frequencies: 50/77/200kHz<sup>1</sup>
- Maximum depth: 700 metres<sup>2</sup>
- Sensor angle: up to 60°/120°
- Swivelling and tiltable quick-release mount with built-in connector
- Output power: 500W (RMS) / 4,000W (peak to peak)
- Garmin Smooth Scaling™ – you see the image at all times, even when the sonar changes depth scale
- Sonar history
- Real time window
- Simple installation

<sup>1</sup> Depending on transducer

<sup>2</sup> Maximum depth dependent on transducer, water salinity, bottom type and other water conditions

echo™ 301dv & 301c

# Easy-to-use with superb presentation

301c with transducer Part no.: 010-01260-00  
301c without transducer Part no.: 010-01260-01

301dv with transducer Part no.: 010-01255-00

The echo 301dv/c features a 3.5" sunlight-readable colour display and includes an all-in-one transducer for HD-ID™ target tracking technology that lets you see through the water like never before. The 300-watt sonar allows you to see details down to a depth of 450 metres and offers a viewing angle of up to 120°. The quick-release mount makes it easy to install, tilt and swivel the device. The dv model also boasts DownVu™ sonar for a near-photographic view.

## Main functions

- 3.5" display with 256 colours, 320 x 240 pixels, QVGA
- Garmin HD-ID™ technology for superb presentation of fish arcs and bottom contours (with transducer)
- Garmin DownVu™ scanning sonar<sup>1</sup>
- Three frequencies: 50/77/200kHz<sup>2</sup>
- Maximum depth: 530 metres<sup>3</sup>
- Sensor angle: up to 60°/120°
- Quick-release mount that can be swivelled and tilted
- Output power: 300W (RMS) / 2,400W (peak to peak)
- Garmin Smooth Scaling™ – you see the image at all times, even when the sonar changes depth scale
- Real time window
- Simple installation

<sup>1</sup> 301dv only

<sup>2</sup> Depending on transducer

<sup>3</sup> Maximum depth dependent on transducer, water salinity, bottom type and other water conditions

echo™ 201dv

# Powerful simplicity at any depth

201dv with transducer, part no.: 010-01254-00

The powerfully simple 5" echo 201dv includes an all-in-one transducer that delivers advanced HD-ID™ target tracking technology. echo 201dv also comes with DownVu™ scanning sonar for a nearly photographic view under your boat. Smooth Scaling™ depth range adjustments, sonar history rewind and scans to a depth of 530 metres with a wide scanning angle that is also perfect for shallow water.

## Main functions

- 5" high resolution display, 480 x 320 pixels, HVGA
- Garmin HD-ID™ technology for superb presentation of fish arcs and bottom contours (with transducer)
- Garmin DownVu™ scanning sonar
- Three frequencies: 50/77/200kHz<sup>1</sup>
- Maximum depth: 530 metres<sup>2</sup>
- Sensor angle: up to 60°/120°
- Swivelling and tiltable quick-release mount with built-in connector
- Output power: 300W (RMS) / 2,400W (peak to peak)
- Garmin Smooth Scaling™ – you see the image at all times, even when the sonar changes depth scale
- Sonar history
- Real time window
- Simple installation

<sup>1</sup> Depending on transducer

<sup>2</sup> Maximum depth dependent on transducer, water salinity, bottom type and other water conditions

echo™ 151dv & 151

# Compact sonar with clear 4" display

151dv with transducer Part no.: 010-01258-00

151dv with transducer Part no.: 010-01253-01

With dual-beam technology at a single-beam price and a transducer on-board, echo 151dv and 151 is every sport fisherman's dream. With 200 watts (RMS) of transmit power, you can accurately scan to depths of 450 metres in fresh water. In shallower water, a cone angle of 120° lets you see fish far from your boat. Garmin's HD-ID™ target technology provides you with better separation and image definition on a 4" display.

## Main functions

- Monochrome FSTN display, 256 x 160 pixels
- Garmin HD-ID™ technology for superb presentation of fish arcs and bottom contours (with transducer)
- Garmin DownVu™ scanning sonar<sup>1</sup>
- Three frequencies: 50/77/200kHz<sup>2</sup>
- Maximum depth: 450 metres<sup>3</sup>
- Sensor angle: up to 60°/120°
- Quick-release mount that can be swivelled and tilted
- Output power: 200W (RMS) / 1,600W (peak to peak)
- Frequency: 200/77 kHz
- Simple installation

<sup>1</sup> 151dv only

<sup>2</sup> Depending on transducer

<sup>3</sup> Maximum depth dependent on transducer, water salinity, bottom type and other water conditions

# Great value for money

101 Part no.: 010-01257-01

A great value for the money, echo 101 is a powerfully simple-to-use fishfinder with compact, space-saving design, a crisp 4-inch grayscale display and advanced HD-ID™ sonar technology. Includes a single-beam (200kHz) transmitter with 1,600W peak-to-peak power output, and it comes ready-to-fish with quick-release tilt/swivel mount, transducer, and versatile transom and trolling motor mounting kit to make installation a snap.

### Main functions

- Monochrome FSTN display, 256 x 160 pixels
- Garmin HD-ID™ technology for superb presentation of fish arcs and bottom contours (with transducer)
- Frequency: 200kHz
- Maximum depth: 180 metres<sup>1</sup>
- Sensor angle: up to 60°
- Quick-release tilt/swivel mount and transom/trolling motor transducer included
- Output power: 200W (RMS) / 1600W (peak to peak)
- Frequency: 200 kHz
- Simple installation

<sup>1</sup> Maximum depth dependent on transducer, water salinity, bottom type and other water conditions

## Portable echo™ Kit

# Don't leave your echo™ behind

Portable echo Kit Part no.: 010-11849-01

This is our new portable case that fits all echo fishfinders. The perfect solution for anyone who wants to use their echo in different boats, in a kayak or canoe, when ice fishing or in a fishing shelter. The case has soft sides and a smart, integrated carrying handle that provides excellent protection and superior stability against knocks.

In addition to the case, the kit includes a rechargeable, sealed 12V AGM battery, a 220V battery charger, a suction cup mount and a floating element for the transducer. The design of the mount means that the transducer hangs straight down when you are fishing with the sonar from the ice. An unusually well thought-out solution for an unusually well thought-out sonar.

The echo and transducer in the picture is an example – not included when purchasing the case.

GARMIN<sup>®</sup>

# VIRB™ action camera

VIRB Elite white Part no.: 010-01088-11  
VIRB Elite dark Part no.: 010-01088-16

VIRB Part no.: 010-01088-01

## Life. Camera. Action.

VIRB and VIRB Elite are true HD 1080p action cameras that combine uncompromising durability, enhanced HD video recording and easy-to-use features. The Elite model also comes with high-sensitivity GPS, accelerometer and altimeter GPS based recording profiles and boasts Wi-Fi connectivity.

The built-in 1.4" Chroma™ colour display (that stays on when the camera is on, but uses minimal power) lets you easily set up

shots, playback video and adjust menu settings without detaching the camera from its mount. To start filming, you simply move the oversized slide switch forward.

Record at 1080p for up to three hours with the rechargeable lithium-ion battery. Video enhancement features like Digital Image Stabilisation and Lens Distortion Correction ensure that the footage looks great, even before you start editing.

### Main functions

- True HD 1080p video recording
- Chroma™ Display: high-resolution, colour for easier control of setup, playback and adjustments
- 16 MP CMOS image processor for multiple HD video and photo modes
- Digital Image Stabilization
- Lens Distortion Correction (LDC)
- Long lasting rechargeable lithium-ion battery, record up to 3 hours at 1080p
- microSD slot holds up to 64GB card (1 hr record at 1080p = 4GB)
- Still image capture: 16MP, 12 MP (wide), 8MP (medium)
- Photo Burst and Time Lapse
- VIRB desktop editing app for easy import, editing with GPS sensor overlays, and uploading
- Rugged, durable, waterproof (IPX7) with an aerodynamic design
- WideVu lens: shooting modes (Wide/Medium/Narrow)
- Internal microphone and optional external USB adapter with stereo microphone
- Micro HDMI output for video playback
- Easy accessible slider switch to control recording – instant on/off power functionality
- ANT+ connectivity for remote control function with other compatible Garmin products and data transfer such as heart rate, temperature, cadence, cycling power and more
- VIRB Edit, a free, easy to use, desktop editing software
- Various compatible mounts (handlebar, helmet/head strap, shoulder strap, tripod, wrist strap, car dash, flat surface, curved surface and more)

#### VIRB Elite adds:

- High-Sensitivity GPS, accelerometer, and altimeter
- GPS based recording profiles let you record all the action and none of the prep
- Wi-Fi (802.11 b/g/n) connectivity; use with free mobile applications for iPhone and Android

quatix™

quatix Part no.: 010-01040-51

# quatix™ – one of its kind

The unique quatix marine watch is designed for avid mariners of all types, providing all the features of a navigating handheld conveniently strapped to your wrist.

No other GPS-enabled device in the world offers as broad a range of marine navigation features, such as remote control of Garmin equipment, such as VIRB™ action cameras, and streaming NMEA 2000® data to a marine watch<sup>1</sup>.

Since it is equipped with both ANT™ capabilities and Bluetooth® technology, you can easily share tracks, waypoints and routes wirelessly with other compatible Garmin GPS devices and smartphones.

You can also plan your trip at home on a compatible Apple® device with the BlueChart® Mobile app or HomePort™ marine planning software for Windows® and Mac® and download it to quatix.

## Main functions

- High-sensitivity, GPS-enabled marine watch with altimeter, barometer and 3-axis compass
- Temperature sensor
- Automatic MOB detection<sup>1</sup>
- Waterproof to 50 metres
- Sail racing features include:
  - Virtual starting line
  - Tack assist
  - Countdown timer with large, easy to read digits
- Tide charts with detailed data
- Change course with Garmin marine autopilot remote control capabilities
- Stream NMEA 2000 data<sup>1</sup> such as depth, speed and water temperature
- Wirelessly connect with new iPad®, iPhone® 5 and iPhone 4s using BlueChart® Mobile app
- Share waypoints, routes and tracks with compatible Garmin watches and handhelds
- Remote control capabilities with VIRB action camera
- Detailed tide data
- Marine data fields (COG, SOG, VMG, etc)
- Alerts (anchor drag, off course, speed)
- Watch functions include stopwatch, alarms, chimes and vibration alerts
- Rechargeable Li-ion battery lasts up to 6 weeks in watch mode; streaming mode: 25-hrs (GPS off) or 16-hrs (GPS on)

GNT10 Part no.: 010-01134-00

<sup>1</sup> Requires optional GNT™ 10 NMEA transceiver, sold separately.

# Monterra

## Monterra does marine

Monterra Part no.: 010-01065-00

Don't let the name fool you. This full-featured Wi-Fi enabled GPS navigator combines powerful mapping with the versatility of Android®, and works just as well on the open sea as it does in the high mountains. It has the power and flexibility to go anywhere, and loaded with the stellar marine maps of Garmin you'd be hard pressed to find a better travel companion to take on board.

### Main functions

- 4" dual orientation screen
- Get Android apps on Google Play™
- 8 MP autofocus camera and 1080p HD video with automatic geotagging
- High-sensitivity GPS/GLONASS receiver for better positioning
- 3D MapMerge™ for maps in 3-D
- 3-axis electronic compass with gyro and barometric altimeter
- Built-in waterproof microphone and speaker with 3.5mm input
- Built-in UV sensor that measures the intensity of the sun
- 6 GB of internal memory and microSD card for additional storage of data
- Uses rechargeable lithium-ion battery pack or AA batteries

# Montana® 650t, 650 & 600

## Your guide across land or water

Montana 650t Part no.: 010-00924-03  
 Montana 650 Part no.: 010-00924-01  
 Montana 600 Part no.: 010-00924-00

The robust Montana is perfect for all kinds of activities, such as jet-skiing, yacht racing or cruising and power boating. Wherever your next adventure takes you, you can rest assured that you have the ultimate navigator in your hand. It will even take your picture with a 5 megapixel camera with digital autofocus (650/650t). In addition to the basemap, the 650t also has a preloaded topographical map of Europe

### Main functions

- Clear, dual orientation 4" TFT touchscreen
- Highly sensitive GPS receiver for improved performance and reception
- Slot for microSD card
- USB interface
- Robust and durable
- 3-axis electronic compass and barometric altimeter
- Can be supplemented with BlueChart g2 marine charts, Pro v2 outdoor map, Prime outdoor map, City Navigator and Birdseye
- 5 megapixel camera (650t/650)
- Supplied with removable, rechargeable Lithium Ion battery, use AA batteries or connect to 12V with optional cable

# Top choice for enthusiasts

78s Part no.: 010-00864-01

78 Part no.: 010-00864-00

Boaters and watersport enthusiasts everywhere swear by the GPSMAP 78 handhelds. They feature a bright 2.6" LCD colour display with built-in worldwide basemap and a special MOB (man overboard) button. What's more, these waterproof devices are designed to float. The GPSMAP 78s also has a 3-axis compass, barometric altimeter and a basemap with shaded contours.

### Main functions

- 2.6" LCD colour display
- Highly sensitive GPS receiver for optimum reception and performance
- Slot for microSD card
- USB interface
- Wireless data transfers
- Floats
- MOB (man overboard) button: shows distance and bearing to the position where the button was pressed
- 3-axis electronic compass and barometric altimeter (78s)
- Can be enhanced with BlueChart g2 charts

# Reliable and user-friendly

GPS 72H Part no.: 010-00840-01

The GPS 72H is a robust and waterproof navigator. It has a high-sensitivity GPS receiver and a USB interface. This very user-friendly device is designed to float if dropped in the water. The multiple features of the GPS 72H make it the natural choice when it comes to entry-level handhelds for marine navigation.

### Main functions

- Clear LCD display
- Highly sensitive GPS receiver for improved performance and reception
- USB interface and NMEA 0183 ports
- Robust and lightweight
- Floats
- Up to 18 hours battery life
- 500 waypoints

The Garmin logo, featuring the word "GARMIN" in white, uppercase, sans-serif font, with a small blue triangle above the letter "I".

GARMIN.

Cartography

# The **best marine chartplotters** demand the best electronic marine charts.

## Why is it important?

No matter how many resources are devoted to producing the most functional, powerful and easy-to-use marine chartplotter, it is practically worthless unless even more resources and efforts are invested in producing the digital cartography. Marine charts are by far the most important component of a chartplotter.

As a chartplotter producer, Garmin has been aware of this for many years and has developed its own chart format. Garmin has worked alongside market-leading chart suppliers from all over the world to create BlueChart. It enables us to offer you the kind of security that can only come from accurate electronic chart data of the highest quality, without any intermediaries.

BlueChart cartography complements Garmin's line of handheld mapping products and marine chartplotters. This line of cartography offers our most detailed digital marine data and is designed to provide interactive viewing of detailed nautical chart data, thereby providing navigators with innovative object-oriented cartography. These detailed electronic nautical charts look just like paper charts when displayed on your Garmin chartplotter. Descriptive details for features typically found on nautical charts can easily be viewed with a simple key press. Cursor movements over the chart reveals descriptions for contour depths, chart number, navaid name, and much more.

BlueChart is available in two different versions to ensure you get the most and the best out of your Garmin.

## New Chart Guarantee

New Chart Guarantee ensures that you will always be able to access the most current charts available at the time of purchase. This program entitles those who have recently purchased a new preprogrammed BlueChart g2 or BlueChart g2 Vision microSD/SD card to one FREE update to the newest version of charts. This is valid within 6 months of purchase.

For detailed information on our other update, upgrade and trade-in programmes, see [www.garmin.co.uk/bluechart](http://www.garmin.co.uk/bluechart) or contact our product support on 0808 238 0000 (freephone from UK landline) or 0870 850 1242 phone (within UK), or +44 870 850 1242 phone (outside UK.)

## BlueChart® g2

BlueChart g2 mapping features smooth layering and seamless integration of map graphics for easy panning, scrolling and zooming. With rich colours and shading for easy interpretation and clear visibility, this marine charting offers comprehensive IALA navaid symbology and marine services. And, best of all, it features a choice of map perspective view, or the familiar 2D direct-overhead view – to make chart reading and orientation easier. BlueChart is styled to match the appearance of paper charts when displayed on your Garmin chartplotter.

## BlueChart® g2 Vision™

Enhance your nautical navigation with BlueChart g2 Vision high-precision charting. Features include high-resolution satellite imagery, above and below the waterline 3D perspectives, Auto Guidance technology, aerial photography of ports, harbours, marinas and waterways and coastal roads with points of interest. BlueChart g2 Vision gives mariners greater capabilities on the water, with useful navigation landmarks and marine landscape detail to boost your chartplotting technology.

# BlueChart® g2 Vision™

## – superior navigation

BlueChart g2 Vision is a marine chart standard from Garmin that sets the bar very high for future maritime navigation. BlueChart g2 Vision provides the same high-quality marine cartography as BlueChart g2. In addition, it offers high-resolution satellite images, 3D perspective above and below the waterline, technology for automatic guidance to the selected destination (Auto Guidance), aerial photos for superior realism and detailed road maps in coastal areas.

BlueChart g2 Vision can be used in Garmin's chartplotters from the 8000, 7000, 6000, 5000, 4000, 1000, 800, 700, 500, 400 and echoMAP series, and the GPSMAP 620.

**BlueChart g2  
Vision**

### Main functions

- Vectorised chart data
- Shaded depth contours
- Tidal stations in selected countries
- Wrecks, protected areas, anchoring, other obstacles
- 2D and 3D chart perspective
- Harbour information
- Fishing chart with detailed depth contours
- Colour aerial photos that create accurate and detailed images of harbours, marinas, navigation channels, landmarks and much more
- Detailed land map along the coast
- Interesting places, e.g. restaurants, hotels, sights
- Satellite images laid over the chart create a realistic image of land areas
- Mariner's Eye view – The chart in 3D for fast, simple and reliable positioning
- Fish Eye view – 3D perspective below the waterline, showing depth and contours based on bathymetric chart data
- Auto Guidance searches for and processes all chart attributes to automatically suggest the best route
- Tidal graphics, current arrows, etc
- Searchable natural harbours, marine refueling stations, guest harbours, etc

## Fish Eye view

3D perspective below the waterline, showing depth and contours based on bathymetric chart data.

## Auto guidance

Searches and processes all the attributes on the chart to automatically suggest the best route.

## Aerial photos

The photos provide a realistic and detailed picture of harbours, marinas, navigation channels, landmarks and much more.

## Important information

Tides, currents, harbour information and road maps (coastal areas), etc.

## Satellite images

Satellite images that can be laid over the traditional chart.

## Mariners Eye view

Marine chart in a 3D perspective that provides an overview of your position for fast, simple and reliable navigation.

# Free HomePort™ planning program

HomePort 2.2 makes it easy to plan your next voyage from the comfort and convenience of your home using your BlueChart g2 and BlueChart g2 Vision map data on your computer.

- Save planned routes on an SD card and transfer the information to your chartplotter
- Sonar playback from past voyages or fishing trips
- Shares data with quatix marine watch
- Calculate speed, fuel consumption and arrival time
- Calculate distance and heading for your proposed route
- See tidal data and depth profiles
- Compatible with Google Earth

# The best journeys begin at home, on your iPad or iPhone

With our BlueChart® Mobile app, you can plan your route on your iPad or iPhone wherever you are. You have full access to the same multi-functional, accurate BlueChart data that is available for Garmin plotters, and can view shaded depth contours and tidal zones with spot sounding. Plan your journey around sights in harbours and channels, keep a track of weather conditions, temperatures, dew points, wind direction/speed, radar and cloud cover.

Use Active Captain – an advertisement-free information service – to find out more about what to see and do in the areas you'll be travelling to. Active Captain is a community-based information service providing mariners with up-to-date user reviews and information on Points of Interest.

When you board your boat, you can wirelessly transfer routes, waypoints and tracks to your Garmin plotter\*.

Apple, the Apple logo, iPhone and iPad are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc.

\*Compatible with the new GPSMAP- and echoMAP series with built in wireless connectivity. Compatible also with the GPSMAP 6000, 7000 and 8000 series through a wireless router (optional).

Mounting Style	Picture	Description	Garmin P/N	Freq. (kHz)	Power	Beam-width (°) LF/HF (-3dB)	Max Depth (ft.)	Depth/Speed/Temp	# of Pins	Cable Length (ft.)	Adapter Req'd?	Supported Deadrise/Transom Angles	Garmin comments
<b>CHIRP TECHNOLOGY TRANSDUCERS FOR USE WITH THE GSD 26</b>													
Transom Mount		Airmar TM265LH	010-11646-20	42-65 & 130-210	1kW	16-25/6-10	3000	D,T	Bare wires	39	No	3-21 degree transom	Best performing and only 1kW transom mount. Excellent deep-water performance and exceptional bottom and water column detail.
		Airmar TM265LM	010-11650-20	42-65 & 85-135	1kW	16-25/11-16	3000	D,T	Bare wires	39	No	3-21 degree transom	
Thru-Hull		Airmar B265LH	010-11645-20	42-65 & 130-210	1kW	16-25/6-10	3000	D,T	Bare wires	39	No	0-20 degree deadrise	Essentially combines two B175s in one housing. Excellent deep-water performance and exceptional bottom and water column detail.
		Airmar B265LM	010-11647-20	42-65 & 85-135	1kW	16-25/11-16	3000	D,T	Bare wires	39	No	0-20 degree deadrise	
		Airmar R109LH	010-11642-20	38-75 & 130-210	2kW	9x23/4-8	8000	D,T	Bare wires	49	No	0-25 degree deadrise	2kW in a slightly smaller package than the R509LH. Very narrow-beam at both low and high frequencies for excellent deep water performance.
		Airmar R509LH	010-11640-20	28-60 & 130-210	2-3kW	5x9-11x23/4-8	10000	D,T	Bare wires	49	No	0-25 degree deadrise	Best deep water performance, highest power. Very narrow-beam at both low and high frequencies for excellent deep water performance. One transducer covers popular fishing frequencies - 28, 38, 50 and 200 all in one transducer. Not the best choice for those who primarily fish in shallow water.
In-Hull		Airmar M265LH	010-11644-20	42-65 & 130-210	1kW	16-25/6-10	3000	D	Bare wires	39	No	0-30 degree deadrise	Best performing and only 1kW in-hull. Excellent deep-water performance and exceptional bottom and watercolumn detail. Narrow beam provides crisp image detail. Not for cored-hull vessels.
		Airmar R111LH	010-11643-20	38-75 & 130-210	2kW	10x19/4-8	8000	D,T	Bare wires	49	No	0-25 degree deadrise	
	Airmar R599LH	010-11641-20	28-60 & 130-210	2-3kW	9x23/4-8	10000	D	Bare wires	49	No	0-22 degree deadrise	In-hull version of the R509LH. Best deep water performance, highest power. Very narrow-beam at both low and high frequencies for excellent deep water performance. Not best choice for fishing shallow water. Not for cored-hull vessels.	
Pocket Mount		Airmar PM265LH	010-11811-20	42-65 & 130-210	1kW	16-25/6-10	3000	D,T	Bare wires	39	No	Installation Dependant	Popular choice for boat builders. Pocket mount version of the B265LH.
		Airmar PM265LM	010-11812-20	42-65 & 85-135	1kW	16-25/11-16	3000	D,T	Bare wires	39	No	Installation Dependant	
		Airmar R111LH	010-11643-20	38-75 & 130-210	2kW	10x19/4-8	8000	D,T	Bare wires	49	No	Installation Dependant	Pocket mount version of the R109LH. Very narrow-beam at both low and high frequencies.
		Airmar CM599LH	010-11813-20	28-60 & 130-210	2-3kW	9x23/4-8	10000	D,T	Bare wires	49	No	Installation Dependant	Pocket mount version of the R599LH. Very narrow-beam at both low and high frequencies. Not best choice for fishing shallow water.
<b>SMART SENSORS FOR USE WITH NMEA 0183 OR NMEA 2000 PRODUCTS</b>													
Transom Mount		Intelliducer, NMEA2000, Transom	010-00703-00	160	150W	N/A	900	D,T	NMEA 2000	20	No	0-22 degree transom	Provide depth and temp.

## GPSMAP 8000, 8500 & GMM series

GPSMAP 8015

GMM 170

GPSMAP 8500

### The package contains

GPSMAP 8008/8012 or 8015, GPS 19x NMEA 2000® (with pole mount, flush mount and under deck mount adapters)<sup>1</sup>, Garmin card reader<sup>1</sup>, Protective cover, Flush mount gasket and hardware, Power cable, NMEA 0183 cable, NMEA 2000 2 m backbone/drop cable, NMEA 2000 10 m backbone cable, NMEA 2000 power cable, NMEA 2000 T-connector & terminator kit, Documentation  
<sup>1</sup>Item not included with the display only variation

GMM 150/170 or 190, Protective cover, Flush mount gasket and hardware, Power cable, DVI-D cable 15 ft, 20 ft network cable, Documentation

GPSMAP 8500/8530, Mounting hardware, Power cable, NMEA 0183 cable, NMEA 2000 2 m backbone/drop cable, NMEA 2000 power cable, NMEA 2000 T-connector & terminator kit, Manual case with documentation

### GPSMAP 8008

010-11984-01	Bail mount
010-11985-01	Mounting gasket
010-12018-00	Flat mount kit
010-11986-01	Trim piece snap cover
010-11987-01	Protective cover

### GPSMAP 8012

010-11984-02	Bail mount
010-11985-02	Mounting gasket
010-12018-01	Flat Mount Kit
010-11986-02	Trim piece snap cover
010-11987-02	Protective cover

### GPSMAP 8015

010-11985-03	Mounting gasket
010-12018-02	Flat Mount Kit
010-11986-03	Trim piece snap cover
010-11987-03	Protective cover

### GMM 150

010-11985-04	Mounting gasket
010-12019-00	Flat Mount Kit
010-11986-04	Trim piece snap cover
010-11987-04	Protective cover

### GMM 170

010-11985-05	Mounting gasket
010-12019-01	Flat Mount Kit
010-11986-05	Trim piece snap cover
010-11987-05	Protective cover

### GMM 190

010-11985-06	Mounting gasket
010-12019-02	Flat Mount Kit
010-11986-06	Trim piece snap cover
010-11987-06	Protective cover

### Series accessories

010-01024-00	GRID (Garmin Remote Input Device)
010-01023-00	Garmin Card Reader
010-11986-07	GRID Trim piece snap cover
010-11986-08	Trim piece snap cover, Garmin Card Reader
010-12000-00	DVI-D cable, 2 m
010-12000-01	DVI-D cable, 5 m
010-12000-02	DVI-D cable, 10 m
010-11425-08	Power cable, GMM 150/170/190
010-11425-09	Network cable, 6ft
010-11082-00	Pole mount adapter
010-11083-00	Surface mount adapter
010-11084-00	Under deck mount
010-11984-02	Bail mount w/knobs
010-10550-00	6ft Marine network cable, RJ45
010-10551-00	20ft Marine network cable, RJ45
010-10552-00	40ft Marine network cable, RJ45
010-10562-00	Cable grommet
010-10580-00	Cable coupler, marine network
010-10603-00	Marine network cable connector RJ45, 2-pack
010-10603-01	Marine network cable connector RJ45, 20-pack
010-10647-01	500ft Bulk, Marine network cable, RJ45
010-10817-02	Weather cap, NMEA 0183 cable
010-10817-03	Weather cap, power/data cable
010-10817-04	Weather cap, network cable
010-11425-00	Video cable (threaded)
010-11425-01	Power cable (threaded)

010-11425-02	NMEA 0183 cable (threaded)
010-11425-03	Video cable (threaded, right angle)
010-11425-04	Power cable (threaded, right angle)
010-11425-05	NMEA 0183 cable (threaded, right angle)
010-11425-06	Multimedia cable (right angle)
010-11454-00	Antenna cable (10 m)
010-10683-05	4GB microSD card with SD adapter
010-00351-00	GMS 10 Network Port Expander (Network Device)
010-11417-00	Marine heading sensor, Airmar H2183
010-11418-00	Marine heading sensor cable, NMEA 0183, 10 m
010-11419-00	Marine heading sensor cable, NMEA 2000, 6 m
010-11981-30	Garmin Wi-Fi Adapter, for use with Garmin

## GPSMAP 7400 series

GPSMAP 7412xsv

GPSMAP 7410xsv

GPSMAP 7408xsv

GPSMAP 7407xsv

### The package contains

GPSMAP 74xx unit, Power/data cable, NMEA 2000® drop cable, T-connector, Bail mount with knobs  
 Flush mount kit, Protective cover, Grommet, Documentation

### GPSMAP 7407

010-12163-00	Bail Mount, GPSMap 7407
010-12164-00	Flush Mount Gasket, GPSMap 7407
010-12165-00	Top/Bottom Trim Cap Bezel, GPSMap 7407
010-12166-00	Protective Sun Cover, GPSMap 7407
010-12167-10	SD Card Door, Repl, GPSMap 7407

### GPSMAP 7408

010-12163-01	Bail Mount, GPSMap 7408
010-12164-01	Flush Mount Gasket, GPSMap 7408
010-12165-01	Top/Bottom Trim Cap Bezel, GPSMap 7408
010-12166-01	Protective Sun Cover, GPSMap 7408
010-12167-00	SD Card Door, Repl, GPSMap 7408/7410/7412

### GPSMAP 7410

010-12163-02	Bail Mount, GPSMap 7410
010-12164-02	Flush Mount Gasket, GPSMap 7410
010-12165-02	Top/Bottom Trim Cap Bezel, GPSMap 7410
010-12166-02	Protective Sun Cover, GPSMap 7410
010-12167-00	SD Card Door, Repl, GPSMap 7408/7x10/7412

### GPSMAP 7412

010-12163-03	Bail Mount, GPSMap 7412
010-12164-03	Flush Mount Gasket, GPSMap 7412
010-12165-03	Top/Bottom Trim Cap Bezel, GPSMap 7412
010-12166-03	Protective Sun Cover, GPSMap 7412
010-12167-00	SD Card Door, Repl, GPSMap 7408/7410/7412

## GPSMAP 1020xs/1020 & 820xs/820

GPSMAP 1020xs

GPSMAP 820xs

### The package contains

1020xs/1020 or 820xs/820, Power/data cable, Bail mount, Flush mount, Protective cover, Documentation

### Accessories

010-12087-01	All-in-one 77/200 kHz HD-ID and DownVü
010-12105-00	Transom Mount
010-12105-10	Trolling Motor Mount
010-12127-00	Bail Mount, 800 series
010-12128-00	Bail Mount, 1000 series
010-12123-00	Protective Cover, 800 series
010-12124-00	Protective Cover, 1000 series
010-12125-00	Trim Piece Snap Cover, 800 series
010-12126-00	Trim Piece Snap Cover, 1000 series
010-12129-00	Flush Mount Kit, 800 series
010-12130-00	Flush Mount Kit, 1000 series
010-12131-00	Flat Mount Kit, 800 series
010-12132-00	Flat Mount Kit, 1000 series
010-12133-00	SD Card Door

## GPSMAP 721xs & 721

GPSMAP 721xs

GPSMAP 721

### The package contains

721xs/721, Power/data cable, Bail mount and knobs, Flush mount kit, Protective cover, Documentation

### Accessories

#### Wiring & connectors

010-11970-00	Power Cable GPSMAP 721/721xs
010-10817-03	Connector guard Power/data
010-10817-01	Connector guard NMEA 2000
010-10817-02	Connector guard NMEA 0183
010-11261-00	Connector guard for BNC
010-11972-00	Protective Cover
010-11976-00	Trim Piece Snap Cover
010-12058-00	microSD Card Door (replacement)

#### Miscellaneous

010-11967-00	Bal Mount, Repl GPSMAP 721/721xs
010-11969-00	2nd Mount Station
010-11978-00	Flush Mount Kit
010-11995-00	Flat Mount Kit
010-00872-00	GPS antenna GA30
010-11454-00	Antenna cable GA30 10 m
010-11082-00	Pole mount for GA30
010-11083-00	Flush mounting kit for GA30
010-11084-00	Installation kit below deck GA30

NMEA 2000 accessories, see page 97

Depth transducer, see page 88

## GPSMAP 527xs & 527

GPSMAP 527xs

GPSMAP 527

### The package contains

527xs/527, Power/data cable, Tilt/swivel mount, Flush mount kit, Protective cover, Documentation

### Accessories

010-12017-00	GA 38 GPS/ GLONASS antenna
010-11082-00	Pole mount adapter
010-11083-00	Surface mount adapter
010-11084-00	Under deck mount
010-10447-05	Flush mounting kit
010-10921-00	Marine swivel mounting bracket (replacement)
010-10930-00	2nd Mounting station
010-11454-00	Antenna cable (10 m)
010-10683-05	4GB microSD card with SD adapter
010-10912-00	Protective cover (replacement)

## echoMAP 92sv/72sv & 52dv/42dv

echoMAP 92sv

echoMAP 72sv

echoMAP 52dv

echoMAP 42dv

### The package contains

echoMAP unit, Transom transducer (depending on version), Power/data cable, Protective cover (not 42dv), Quick release mount, (Tilt/Swivel (42dv/52dv) and Tilt only (72dv/92dv), Documentation

### echoMAP 42dv

010-12199-00	Protective Cover
010-12199-01	Flush Mount Kit
010-12199-03	Tilt/Swivel Quick Release Mount

### echoMAP 52dv

010-12247-00	Flush Mount Kit
010-12247-01	Trim Piece Snap Covers

### echoMAP 72sv

010-12233-00	Protective Cover
--------------	------------------

010-12233-01	Flush Mount Kit
010-12233-02	Trim Piece Snap Covers
010-12233-03	Bail Mount, echoMAP 7x/9x
010-12233-04	MicroSD Card Door

### echoMAP 92sv

010-12234-00	Protective Cover
010-12234-01	Flush Mount Kit
010-12234-02	Trim Piece Snap Covers
010-12233-03	Bail Mount, echoMAP 7x/9x
010-12234-04	MicroSD Card Door

### Series Accessories

010-12199-04	Cable, Power, Data, 6ft, echoMAP
010-12234-05	Cable, 4-pin to 12 pin
010-12234-06	User Sharing Data Cable

## GPS 158i

GPS 158i

### The package contains

GA38, Tilt/swivel quick release mount, Power cable, Hardware and Documentation

### Accessories

010-12017-00	GA38 GPS Antenna
010-11676-00	Quick release mount with tilt/swivel
010-11682-00	Flush mount kit
010-11680-00	Protective cover

## Instruments

GMI 20

GNX 21

GND10/gWind

GPS 19x

GFS 10

### The package contains

GMI 20 or GNX 20 or GNX 21, Black trim piece snap cover, Silver/black trim piece snap cover (only GMI 20), Protective cover, Flush mount gasket and hardware, NMEA 2000® power cable, NMEA 2000 drop cable, NMEA 2000 T-connectors and terminators, Documentation

gWind Wireless + WSI Box + GND 10 or gWind + GND 10 or gWind Race + GND 10

GPS 19x, Antenna, Installation equipment for pole, Flush and below deck, Drop cable, T-connection and Termination kit

### GMI 20/GNX 20/21

010-12023-00	Flat mount kit
010-12021-00	Flat mount gasket
010-12020-00	Protective cover
010-12022-00	Trim snap piece cover (black)
010-12022-01	Trim snap piece cover (silver/black)

### GND10/gWind

010-12117-00	GND 10 USB Mini-B Cable
010-12117-01	Nexus Field Installable Connectors, M8, M, F
010-12117-02	gWind to nWind Connector Adapter Cable
010-12117-03	Nexus Network Cable, Straight Connector (5 m)
010-12117-04	Mast Cable (25 m)
010-12117-05	Mast Cable (40 m)
010-12117-06	Mast Bracket, gWind
010-12117-07	Mast Bracket gWind Race
010-12117-08	Propeller
010-12117-09	Nexus Cable, Bare Ends (8m)

### GPS 19x

010-11082-00	Pole mount adapter
010-11083-00	Surface mount adapter
010-11084-00	Under deck mount
010-11824-00	Power data cable
010-11824-01	Update & rate select cable

NMEA 2000 accessories, see page 97

# Instruments, Autopilots, Radar & VHF

## GC 10

GC 10 Marine Camera

### The package contains

GC 10, Integrated power/video cable (45 cm), Installation kit

### Accessories

010-11376-00	BNC for RCA adapter GC 10
010-11376-02	Video cable GC 10 5 m
010-11376-03	Video cable GC 10 15 m

## Marine heading sensor

Marine Heading Sensor

### Accessories

010-11418-00	NMEA 0183 cable MHS 10 m
010-11419-00	NMEA 2000 cable MHS 6 m

## NMEA Analogue adapters

NMEA Analogue Adapters

### Accessories

010-01140-00	GMI 20 Marine Display
010-11413-00	Speed/Temperature sensor
010-11413-01	Temperature sensor
010-10279-02	Speed sensor 7-pin
010-11456-00	Paddle wheel for speed sensor

## Reactor Autopilot Series

Reactor Hydraulic

Reactor Mechanical

Reactor steer-by-wire

### The package contains

Hydraulic Corepack: GHP Reactor CCU, GHC 20 helm control display, ECU, ECU power cable, Interconnect cable, Shadow Drive, buzzer, NMEA 2000 drop cables (2 m), NMEA 2000 power cable, NMEA 2000 T-connectors, Male and female terminators, Documentation.

Hydraulic Corepack with SmartPump: GHP SmartPump, GHP Reactor CCU, GHC 20 helm control display, ECU power cable, Interconnect cable, Shadow Drive, Buzzer, NMEA 2000 drop cables (2 m), NMEA 2000 power cable, NMEA 2000 T-connectors, Male and female terminators, Documentation.

Mechanical Corepack: GHP Reactor CCU, GHC 20 helm control display, ECU, Interconnect cable, Buzzer, NMEA 2000 drop cables (2 m), ECU power cable, NMEA 2000 T-connectors, Male and female terminators, Documentation

Steer-By-Wire Standard Corepack: GHP Reactor CCU, GHC 20 helm control display, CCU cable, Buzzer, NMEA 2000 drop cables (2 m), NMEA 2000 power cable, NMEA 2000 T-connectors, Male and female terminators, Documentation

Steer-By-Wire Yamaha Corepack: GHP Reactor CCU, GHC 20 helm control display, CCU cable, Buzzer, NMEA 2000 drop cables (2 m), NMEA 2000 power cable, NMEA 2000 T-connectors, Male and female terminators, Documentation

Steer-By-Wire Volvo Penta Corepack: GHP Reactor CCU Volvo-Penta, GHC 20 helm control display, Volvo IPS Gateway, buzzer, Interconnect cable, NMEA 2000 drop cables (2 m), NMEA 2000 power cable, NMEA 2000 T-connectors, Male and female terminators, Documentation

### Accessories

010-11351-30	Interconnect cable, GHP 3D Hydraulic Corepack
010-11351-40	Interconnect Cable, GHP 3D Mech & Hyd w/Pump
010-11351-50	Interconnect Cable, GHP 3D, SBW Corepacks
010-11052-62	Ghp Reactor CCU
010-11052-60	Steer-by-Wire
010-11052-61	VIPER
010-11052-63	Volvo Penta

## Radar (all models)

GMR 1206 xHD2

GMR 404 xHD2

GMR 24 xHD/18 xHD

GMR 18 HD

### The package contains

Radar antenna, Installation kit, Power/radar cable 15 m, Documentation

### Accessories

010-10550-00	6ft Marine network cable, RJ45
010-10551-00	20ft Marine network cable, RJ45
010-10552-00	40ft Marine network cable, RJ45
010-10562-00	Cable grommet
010-10580-00	Cable coupler, marine network
010-10603-00	Marine network cable connector RJ45, 2-pack
010-12067-01	Power, GMR, 12AWG
010-10603-01	Marine network cable connector RJ45, 20-pack
010-10647-01	500ft Bulk, Marine network cable, RJ45
010-10817-04	Weather cap, network cable
010-11170-00	Thd Collar, Split, RJ45 Cable
010-11417-00	Marine heading sensor, Airmar H2183
010-11418-00	Marine heading sensor cable, NMEA 0183, 10 m
010-11419-00	Marine heading sensor cable, NMEA 2000, 6 m

Garmin Marine Network accessories, see page 97

## VHF 300i/300i AIS/200i/100i

VHF 300i

VHF 200i

VHF 100i

### The package contains

VHF 300i/VHF 300i AIS, GHS 10i remote control/mic, Active speaker, Power cable, Deck cable (10 m), Marine installation equipment, Suspended mount for GHS 10i, Documentation

VHF 200i or 100i, Removable speaker/microphone (200i), Fixed connection speaker/microphone (100i), Power cable, Hailer/NMEA 0183 cable (200i), NMEA 0183 cable (100i), Mounting bracket, Sealing strip for inset mounting, Mounting equipment, Mount for microphone, Protective cover, Documentation

### VHF 100i

010-11257-10	Volume/squelch and channel button
010-11196-00	Microphone hanger

### VHF 300i AIS/300i

010-11184-00	Cable extension, 12 pin, 5 m
010-11185-00	Cable extension, 12 pin, 10 m
010-11186-00	Deck cable, 12 pin, 10 m
010-11406-00	Deck cable extension, 12 pin, 3 m
010-11733-00	Quick release lanyard
010-11217-00	Active speaker, Black
010-11219-00	Power cable, VHF 300i/ NMEA 0183, Hailer
010-11257-10	Knob, volume/ squelch & channel change
010-11258-10	Active speaker top and bottom snap covers, Black
010-11354-00	<b>Dealer Programming Box</b>
010-11188-10	GHS 10i Black
010-11190-10	GHS 20i, GWH 20 Black Wireless - Remote handset and hub
010-11190-11	GHS 20i Black Wireless remote handset
010-11196-00	Mic hanger
010-11257-00	GHS 10/20 channel change knob
010-11401-00	GWH 20 Wireless hub
010-11402-00	Charging cradle for GHS 20/20i
010-11403-00	Belt clip for GHS 20/20i.

### VHF 200i

010-11194-00	Fist mic relocation kit
010-11191-00	Bail mount
010-11192-00	Bail mount knobs
010-11182-00	Power cable, 1.5 m
010-11183-00	NMEA 0183 cable, 15 inch
010-11184-00	Cable extension, 12 pin, 5 m
010-11185-00	Cable extension, 12 pin, 10 m
010-11186-00	Deck cable, 12 pin, 10 m
010-11406-00	Deck cable extension, 12 pin, 3 m
010-11197-10	Protective cover, Black
010-11733-00	Quick release lanyard
010-11193-01	Fist mic, Black
010-11199-00	Top & bottom snap cover, Silver
010-11200-00	Flush mounting gasket
010-11257-10	Knob, volume/ squelch & channel change

## AIS 600 & 300

AIS 600

AIS 300

### The package contains

AIS 600, GA 38 GPS antenna, Power cable, Safety Related Message cable, NMEA 2000 drop cable (2 m), VHF interconnect cable (1.2 m), Installation equipment, NMEA 2000 T-connection, USB cable, PC/Software CD

AIS 300, Power/data cable, NMEA 2000 drop cable (2 m), VHF interconnect cable (1.2 m), Installation equipment, NMEA 2000 T-connection

### AIS 600

010-00872-00	GPS antenna GA 38
010-11422-00	Power cable
010-11422-01	Safety Related Message cable
010-10723-01	PC cable mini-USB

### AIS 600/300

010-11422-00	Power cable
010-11422-02	VHF interconnect cable 2 m
010-11422-03	VHF interconnect cable 5 m
010-11442-00	NMEA 2000 start kit

NMEA 2000 accessories, see page 97

## GSD 26/25/24 & GCV 10

GSD 26

GSD 25

GSD 24

GCV 10

### The package contains

GSD 24, Power/data cable, Network cable, Adapter for connection to older transducer, Documentation

GSD 25, Right-Angle Power Cable (2 m), Right-Angle Network Cable (2 m), Mounting Hardware, Documentation

GSD 26, Power/data cable, Network cable, Documentation

GCV 10, DownVü/SideVü transducer, Right-angle power cable (20 ft), Right-angle network cable (6 ft), Right-angle transducer adapter cable, Transom transducer mount, Mounting hardware, Documentation

### GSD 26/25/24

010-10550-00	6ft Marine network cable, RJ45
010-10551-00	20ft Marine network cable, RJ45
010-10552-00	40ft Marine network cable, RJ45
010-10562-00	Cable grommet
010-10580-00	Cable coupler, marine network
010-10603-00	Marine network cable connector RJ45, 2-pack
010-10603-01	Marine network cable connector RJ45, 20-pack
010-10647-01	500ft Bulk, Marine network cable, RJ45
010-10817-04	Weather cap, network cable
010-11170-00	Thd Collar, Split, RJ45 Cable
010-11425-01	Power cable (threaded)
010-10279-03	Speed sensor, 8-pin, plastic, transom mount
010-10365-20	AIRMAR ST850 Speed/Temp sensor, 8-pin,
010-10717-20	AIRMAR T80 Water temp probe, 8-pin,
010-11613-00	8-pin Female to wire block adapter
010-11617-50	Transducer extension cable, 8-pin (10ft)
010-11617-52	Transducer extension cable, 8-pin (20ft)
010-10781-00	Power/ data cable
010-10717-00	Temperature probe w/ID, 25ft cable

010-12262-00	RA Adapter, 8pin Xdcr
010-12262-10	RA Adapter, 12pin Xdcr

### GCV 10

010-12089-00	Right angle transducer adapter cable, GCV 10
010-12089-10	GT30-TH, DV/SV, 455/800, Thru Hull
010-12089-11	GT30-THP, DV/SV, 455/800, Thru Hull Pair
010-12106-00	Step Mount
010-12106-10	Jack Plate Mount
010-12006-00	Transom Mount
010-11617-30	10ft Transducer Extension Cable
010-11617-40	30ft Transducer Extension Cable
010-12097-00	Power Cable, Right Angle
010-12262-10	12-pin Transducer Cable Adapter, Right Angle

## echo 551dv/201dv

echo 551dv

echo 201dv

### The package contains

echo 551dv, 501c or 201dv/201, Quick-release mount, Power cable, Transom/trolling transducer, Documentation

### Accessories

010-11678-10	Power cable, 18 AWG
010-11680-00	Protective cover
010-11676-00	Quick release mount with tilt/swivel
010-11682-00	Flush mounting kit
010-11849-00	Portable echo kit
010-11849-04	AC charger, replacement for portable kit
010-11849-05	Portable bag, replacement
010-11849-07	Suction cup transducer mount, replacement
010-11849-08	Base and handle, replacement for portable kit
010-10279-04	Speed Sensor (4-pin)
010-11615-00	Transducer adapter, female 4-pin to male 6-pin

## echo 301dv/301c/151dv/151/101

echo 301dv/301c

echo 151dv/151

echo 101

### The package contains

echo 301dv/301c, 151dv/151 or 101, Quick-release mount, Power cable, Transom/trolling transducer, Documentation

### echo 301dv/301c

010-11678-10	Power cable, 18 AWG
010-11679-00	Protective cover
010-11677-00	Quick release mount with tilt/swivel
010-11681-00	Flush mounting kit
010-11849-00	Portable echo kit
Part Number	MSRP
010-11849-04	AC charger, replacement for portable kit
010-11849-05	Portable bag, replacement
010-11849-07	Suction cup transducer mount, replacement for
010-11849-08	Base and handle, replacement for portable kit
010-10279-04	Speed Sensor (4-pin) - not for 301/301dv
010-11615-00	Transducer adapter, female 4-pin to male 6-pin

### echo 301dv/301c/151dv/151/101

010-11678-10	Power cable, 18 AWG
010-11679-00	Protective cover
010-11677-00	Quick release mount with tilt/swivel
010-11681-00	Flush mounting kit
010-11849-00	Portable echo kit
010-11849-04	AC charger, replacement for portable kit
010-11849-05	Portable bag, replacement
010-11849-07	Suction cup transducer mount, replacement for
010-11849-08	Base and handle, replacement for portable kit
010-11615-00	Transducer adapter, female 4-pin to male 6-pin

# Handhelds

## quatix

quatix

### The package contains

quatix marine watch, Dark grey band, Light grey band, Screws, Torx tool, USB/Charger cable, AC adapter with EU and UK plugs, Documentation

### Accessories

010-10635-00	AC adapter (replacement)
010-10635-01	AC adapter
010-10644-02	External Power Pack
010-11814-10	fenix USB/Charger Cable
010-01134-00	GNT 10 NMEA transceiver
010-11814-02	fenix Wrist Strap Kit
010-11814-03	fenix Carabiner Strap
010-11814-20	Dark gray band, replacement
010-11814-21	Light gray band, replacement

## Monterra & Montanta 650t/650/600

Monterra

Montanta 650t

Montanta 650

Montanta 600

### The package contains

Monterra, Lithium-ion battery pack, USB cable, AC adapter, Anti-glare screen protectors, Documentation

Montana 650t/650/600, Lithium-ion battery, Mounting bracket, Power cable for boat, AC charger, USB cable, Protective cover, Documentation

### Accessories

010-10851-11	Vehicle Power Cable
010-11654-00	Suction Cup Mount with Speaker
010-11654-01	AMPS Rugged Mount with Audio/Power Cable
010-10962-00	RAM Mounting Kit
010-11654-06	Marine Mount with Power Cable
010-11654-03	Lithium-Ion Battery Pack
010-11654-04	Friction Mount Kit with Speaker
010-11654-05	Anti-Glare Screen Protectors (Montana)
010-10117-02	Universal Carrying Case
010-11131-00	Serial Data/Power Cable
010-10997-00	Heart Rate Monitor
010-10997-02	Heart Rate Monitor - Soft Strap
010-10644-00	Speed/Cadence Bike Sensor
010-11092-20	CHIRP Geocaching Beacon
010-11921-06	Lithium-Ion Battery Charger
010-10683-05	4 GB microSD™ Card with SD™ Adapter
010-11092-30	tempe™ Acc,Ext Temp Sensor
010-10997-07	Soft Strap Premium Heart Rate Monitor
010-10714-00	Elastic Strap for Heart Rate Monitor
010-10714-01	Elastic Strap for Heart Rate Monitor (Small)
010-10729-00	Speed/Cadence Bike Sensor Replacement Parts
010-11996-00	Anti-glare Screen Protector (Monterra™)

## GPSMAP 78s/78

GPSMAP 78s

GPS 78

### The package contains

GPSMAP 78s or 78, USB cable, Wristband, Documentation

### Accessories

010-10851-11	Cig adapter
010-11131-00	Power/data cable Serial
010-00872-00	GPS antenna GA30
010-10121-00	Adapter cable MCX BNC
010-11343-00	Battery charger + 2 AA NiMH batteries
010-11441-00	Marine mount
010-11441-01	Dashboard mount
010-10082-00	Power/data cable
010-10085-00	Cig adapter
010-10117-02	Soft case
010-10141-00	PC cable
010-10165-00	PC/Cig adapter
010-10199-02	Base plate for Dashboard mount
010-10306-00	Beanbag for dashboard mount
010-10310-00	USB for Serial adapter
010-10503-01	Friction mount for dashboard mount
010-10723-01	USB cable

## GPS 72H

GPS 72H

### The package contains

GPS 72H, Carrying strap, Documentation  
GPS 72H (Marine pack), Cig adapter, Marine mount, Case, Carrying strap, Documentation

### Accessories

010-10082-00	Power/data cable
010-10085-00	Cig adapter
010-10117-02	Soft case
010-10141-00	PC cable
010-10165-00	PC/Cig adapter
010-10199-02	Base plate for Dashboard mount
010-10300-00	Marine mount
010-10305-00	Dashboard mount
010-10305-01	Cycle mount 25 mm
010-10306-00	Beanbag for dashboard mount
010-10310-00	USB for Serial adapter
010-10496-00	Adapter for cycle mount 25-32 mm
010-10503-01	Friction mount for dashboard mount
010-10723-01	USB cable

## VIRB

VIRB Elite

VIRB

### The package contains

VIRB or VIRB Elite action camera, Lithium-ion battery, Cradle, Short link, Right angle link, Adapter to popular industry mounts, Flat surface mount, Curved surface mount, Removable flange base, Threaded collar, Knobs (3), USB cable, Documentation

### Accessories

010-11838-00	Vehicle power cable
010-11921-04	Dive case
010-11921-07	Bike/large tube mount
010-11921-08	Vented helmet strap mount
010-11921-09	Head strap mount
010-11921-10	Shoulder harness mount
010-11921-11	Tripod mount
010-11921-12	Wrist strap
010-11921-13	Auto dash suction mount
010-11921-14	Audio-video cable
010-11921-15	Small tube mount
010-12094-00	VIRB Remote control
010-12095-30	Wrist strap kit

# Scanstrut accessories, Garmin Marine Network & NMEA 2000

## Scanstrut Accessories

## Accessories

021-00060-00	150mm (6") Composite PowerTower®
021-00059-00	350mm (14") Composite PowerTower®
021-00061-00	Mast Mount for 18" radome
021-00062-00	Mast Mount for 24" radome
021-00058-00	Self-leveling Mast Mount - for 4kW Garmin radomes
021-00063-00	Deck Pod - Up to 8" displays (deep back) - White
021-00064-00	Deck Pod - 10" & 12" displays (deep back) - White
021-00066-00	Helm Pod - Up to 8" displays (deep back) - White
021-00021-00	Helm Pod - 10" & 12" displays (deep back) - White
021-00065-00	Helm pod for 4 x standard instruments / 2 x standard instruments + 1 x 7" screen - White

## Garmin Marine Network

010-10550-00	Network cable RJ45 6 ft
010-10551-00	Network cable RJ45 20 ft
010-10552-00	Network cable RJ45 40 ft
010-10580-00	Extension connector for network cable
010-10603-00	Network connector RJ45 2 pack
010-10603-01	Network connector RJ45 20 pack
010-10647-00	Network cable RJ45 100 m
010-10817-04	Connector guard Network
010-11090-00	Network cable RJ45 Angled to the right
010-00351-00	GMS 10 Network Port Expander

## NMEA 2000

010-10817-01	Connector guard NMEA2000
010-11076-00	NMEA 2000 Backbone cable 2 m
010-11076-01	NMEA 2000 Backbone cable 6 m
010-11076-02	NMEA 2000 Backbone cable 10 m
010-11076-03	NMEA 2000 Drop cable 30 cm
010-11078-00	NMEA 2000 T-connection
010-11079-00	NMEA 2000 power cable 2 m
010-11080-00	NMEA 2000 Termination Male
010-11081-00	NMEA 2000 Termination Female
010-11089-00	NMEA 2000 Backbone cable 2 m Angled to the right
010-11094-00	NMEA 2000 Conn Field - Male
010-11095-00	NMEA 2000 Conn Field - Female
010-11096-00	NMEA 2000 Enclosed termination
010-11442-00	NMEA 2000 Start kit
010-11580-00	Cable isolator for Yamaha cable

Our website includes information about our current product range, campaigns, detailed product descriptions, technical specifications, images, software and software updates. We also have an extensive FAQ section that answers many questions.

Good luck – we'll see you at sea!

## Official supplier of marine electronics for Clipper Race.

The 12-sailboat fleet of 70-foot Clipper 70s for the Clipper 2015-16 rounds of the World Yacht Races will be equipped with complete systems of our intuitive, robust navigational electronics for their year-long race circumnavigating the globe. We were selected by Clipper Ventures as the official supplier for the Clipper 70s following a thorough selection process involving several manufacturers of marine electronics.

The Clipper Round the World Yacht Race is the only event of its type. Anyone can join the adventure and sail the world in an eleven month-long racing marathon. Considering that they will sail 15 races covering 40,000-miles of circumnavigation and touch 13 countries to crown the winner, the navigational electronics had better be top notch. And we're sure they are.

Of course, you'll probably never subject your boat to such a grueling ordeal where you absolutely had to trust the reliability and accuracy of your marine electronics. But wouldn't it be nice to know you could?

Products on board 2013-14 include:

- nWind Race Transducer Vertical
- NX2 Server
- NXR Network
- NXR XL20
- NXR Multi Control
- Garmin quatix™ GPS navigating marine watches
- Garmin GPSMAP Chartplotters
- Garmin GMR 24 HD Radar
- Garmin GMI Instruments
- VHF 200i
- AIS 600
