

# Georgia: Price Movements of Top Exports and Other Highlights

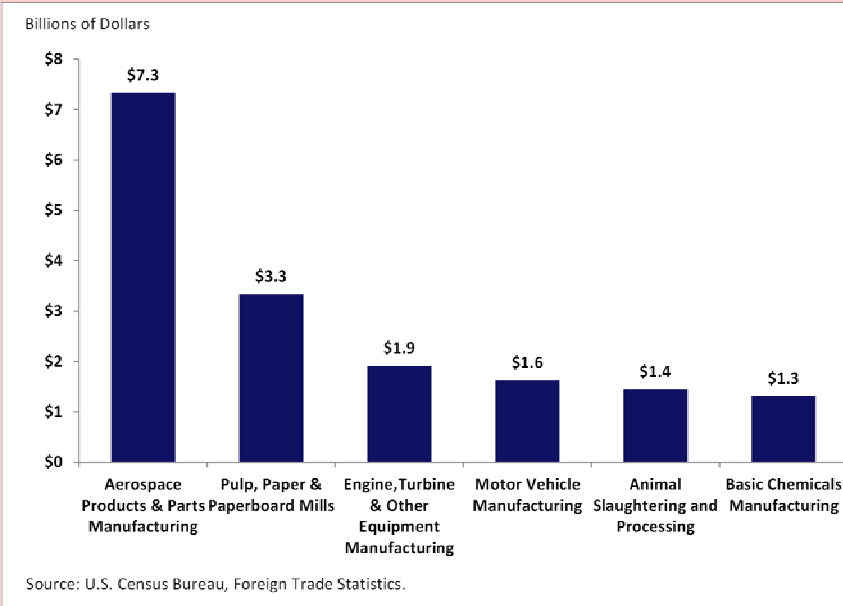

July 2015

[www.bls.gov](http://www.bls.gov)

Prices for Georgia's top export industry, aerospace product and parts manufacturing, rose during the second quarter of 2015. Prices for pulp and paper as well as motor vehicle prices also increased, while prices for engine, turbine, and other equipment manufacturing declined.

## Top Six Georgia Exports by Trade Dollar Value, 2014

- Georgia's top export industry, aerospace product and parts manufacturing, accounted for 18.6 percent of the state's total exports by trade dollar.
- Georgia ranked fourth in the United States, with \$7.3 billion, in exported aerospace products and parts.
- In 2014, Georgia ranked first in the United States in exported pulp, paper, and paperboard mill products.
- Georgia's top 6 export industries accounted for 43.1 percent of the state's total exports of \$39.4 billion in 2014.

## U.S. Export Price Indexes: Aerospace Product and Parts Manufacturing

- Export prices for aerospace product and parts ticked up 0.2 percent in the second quarter of 2015, due to 0.1-percent advances in each month.
- Prices for export aerospace product and parts increased 3.1 percent over the past year, in contrast to overall export manufactured articles prices which declined 4.5 percent for the same period.
- The yearly increase was the result of consistently strong demand in late 2014 and early 2015.

### U.S. Export Price Indexes: Pulp, Paper, and Paperboard Mills

- The export price index for pulp, paper, and paperboard mills rose 0.3 percent between March and June.
- An increase of 0.3-percent in June was responsible for the overall advance, while prices remained unchanged in May and April.
- Over the past year, the index increased 0.7 percent, despite a slowing of demand at the beginning of 2015.

### U.S. Export Price Indexes: Engine, Turbine, & Power Transmission Equipment Manufacturing

Source: U.S. Bureau of Labor Statistics, International Price Program.

- The export price index for engine, turbine, and other manufacturing decreased 0.2 percent between March and June.
- The index increased 1.2 percent for the 12-month period ended in June, due largely to increases of 0.5-percent and 0.6-percent in December and January, respectively.
- Strong global demand was primarily responsible for the increase in the index over the past 12 months.

### U.S. Export Price Indexes: Motor Vehicle Manufacturing

- Export prices for motor vehicle manufacturing increased 0.3 percent in the second quarter of 2015, the result of a 0.3-percent advance in May.
- The export price index for motor vehicles rose 0.2 percent over the past 12 months.
- The 3-month increase was the result of the strengthening international demand as the summer began.
