7. 2 nd entry	6% if paper-based, N/A if electronic data collection	-
8. Operational reporting	Yes	-

Comments

(1) These PDMs are 6-monthly as that was the default frequency at the time. The 6-month PDM was missed, and the 12 month PDM took place two months later than planned, due to delays in reaching agreement with our implementation partner on acceptable budgets. We decided to lower the sample size to 1.5% for cost reasons.
