Transport Area Open Meeting

IETF-71, Philadelphia, PA, USA

March 11, 2008

Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

- the IETF plenary session,
- any IETF working group or portion thereof,
- the IESG, or any member thereof on behalf of the IESG,
- the IAB or any member thereof on behalf of the IAB,
- any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices,
- the RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 3978 (updated by RFC 4748) and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice. Please consult RFC 3978 (and RFC 4748) for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

IESG Advertisement

- the IESG is looking for additional scribes to take minutes during the telechats and face-to-face meetings
- goal: better load balancing among the team of scribes
- send email to iesg@ietf.org if you're interested, or talk to Magnus and me after the session

State of the Area

Document Progress

- 6 IDs approved by the IESG (11 in the previous cycle)
- 6 IDs published as RFCs (20 in the previous cycle)

- not exactly a lot
 - WGs haven't been pub-requesting more (AD queues mostly empty)
 - last cycle was extremely short & had a holiday period

Liaison Activities

- TSV has received two liaison statements from ITU-T SG 11
 - Comments on the IETF Liaison response on Y.2121 and the development of new Recommendation Q.Flowstatesig
<https://datatracker.ietf.org/liaison/422/>
“For Information”
 - Intended work on the application of PCN in a RACF-controlled environment
<https://datatracker.ietf.org/liaison/423/>
“For Comment”, response deadline: May 2008

State of the Area

- **MIDCOM** is about to conclude
 - documents are in AUTH48, WG will close following that
 - **thank you** chairs, editors and participants!
- several WGs are nearing the end of their chartered work
 - **RSERPOOL** document set is in AD review
 - **IPPM** metrics composition and aggregation are left
 - **ROHC** header compression for IPsec are the only IDs left
- this leaves us with:
BEHAVE, DCCP, FECFRAME, NFSv4, NSIS, PCN, RMT, TCPM & TSVWG
- **your ADs are interested in hearing about ideas for future work!**
