

***One Megawatt Hour
One SolarCoin***

**ENERGY TRANSITION
NEEDS TO**

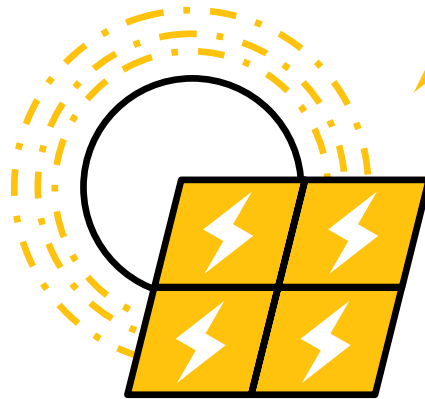

ACCELERATE

REWARDS DRIVE ACTION

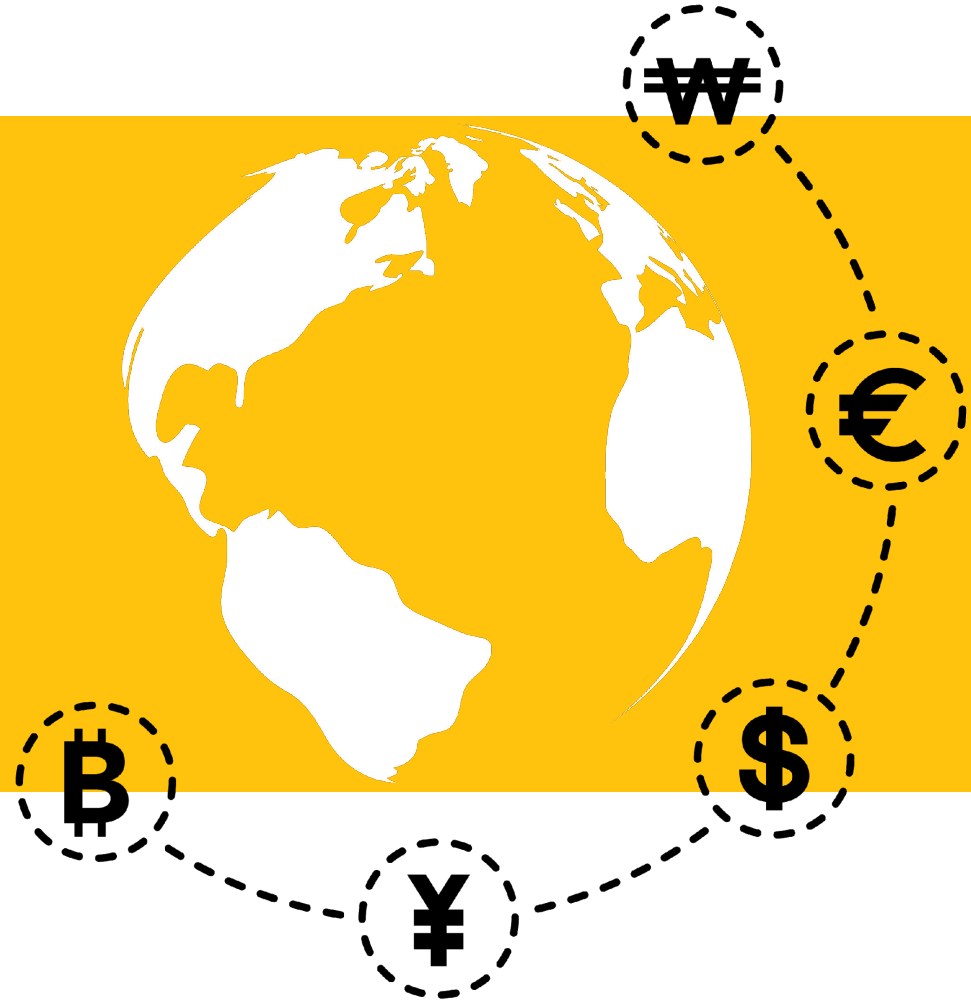

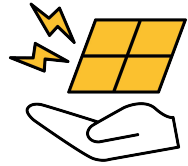

SolarCoin is a currency for the solar energy economy

1 MWh = 1 SLR

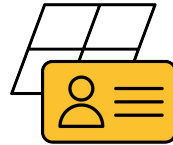

***Anyone can use
SolarCoin***

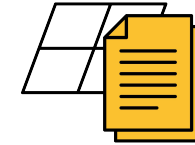

1

The owner of a solar installation produces solar energy

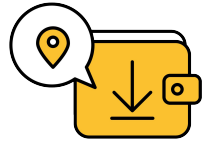

2

The owner/claimant approaches an affiliate to the SolarCoin foundation to register the solar installation to claim SolarCoins

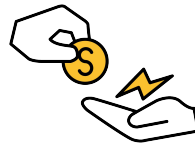

3

The claimant provides some data and / or documentation about their solar facility

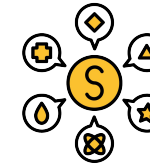

4

Claimant downloads a SolarCoin wallet and generates a receiving address for SolarCoins

5

SolarCoin Foundation issues SolarCoins directly into the claimant's wallet – 1 SolarCoin per 1 MWh of electricity produced

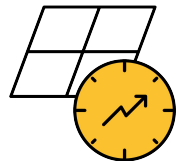

6

Claimant can collect or spend SolarCoins as they wish

7

Claimant may receive ongoing SolarCoins every 6 months for 30 years or however long the facility generates energy

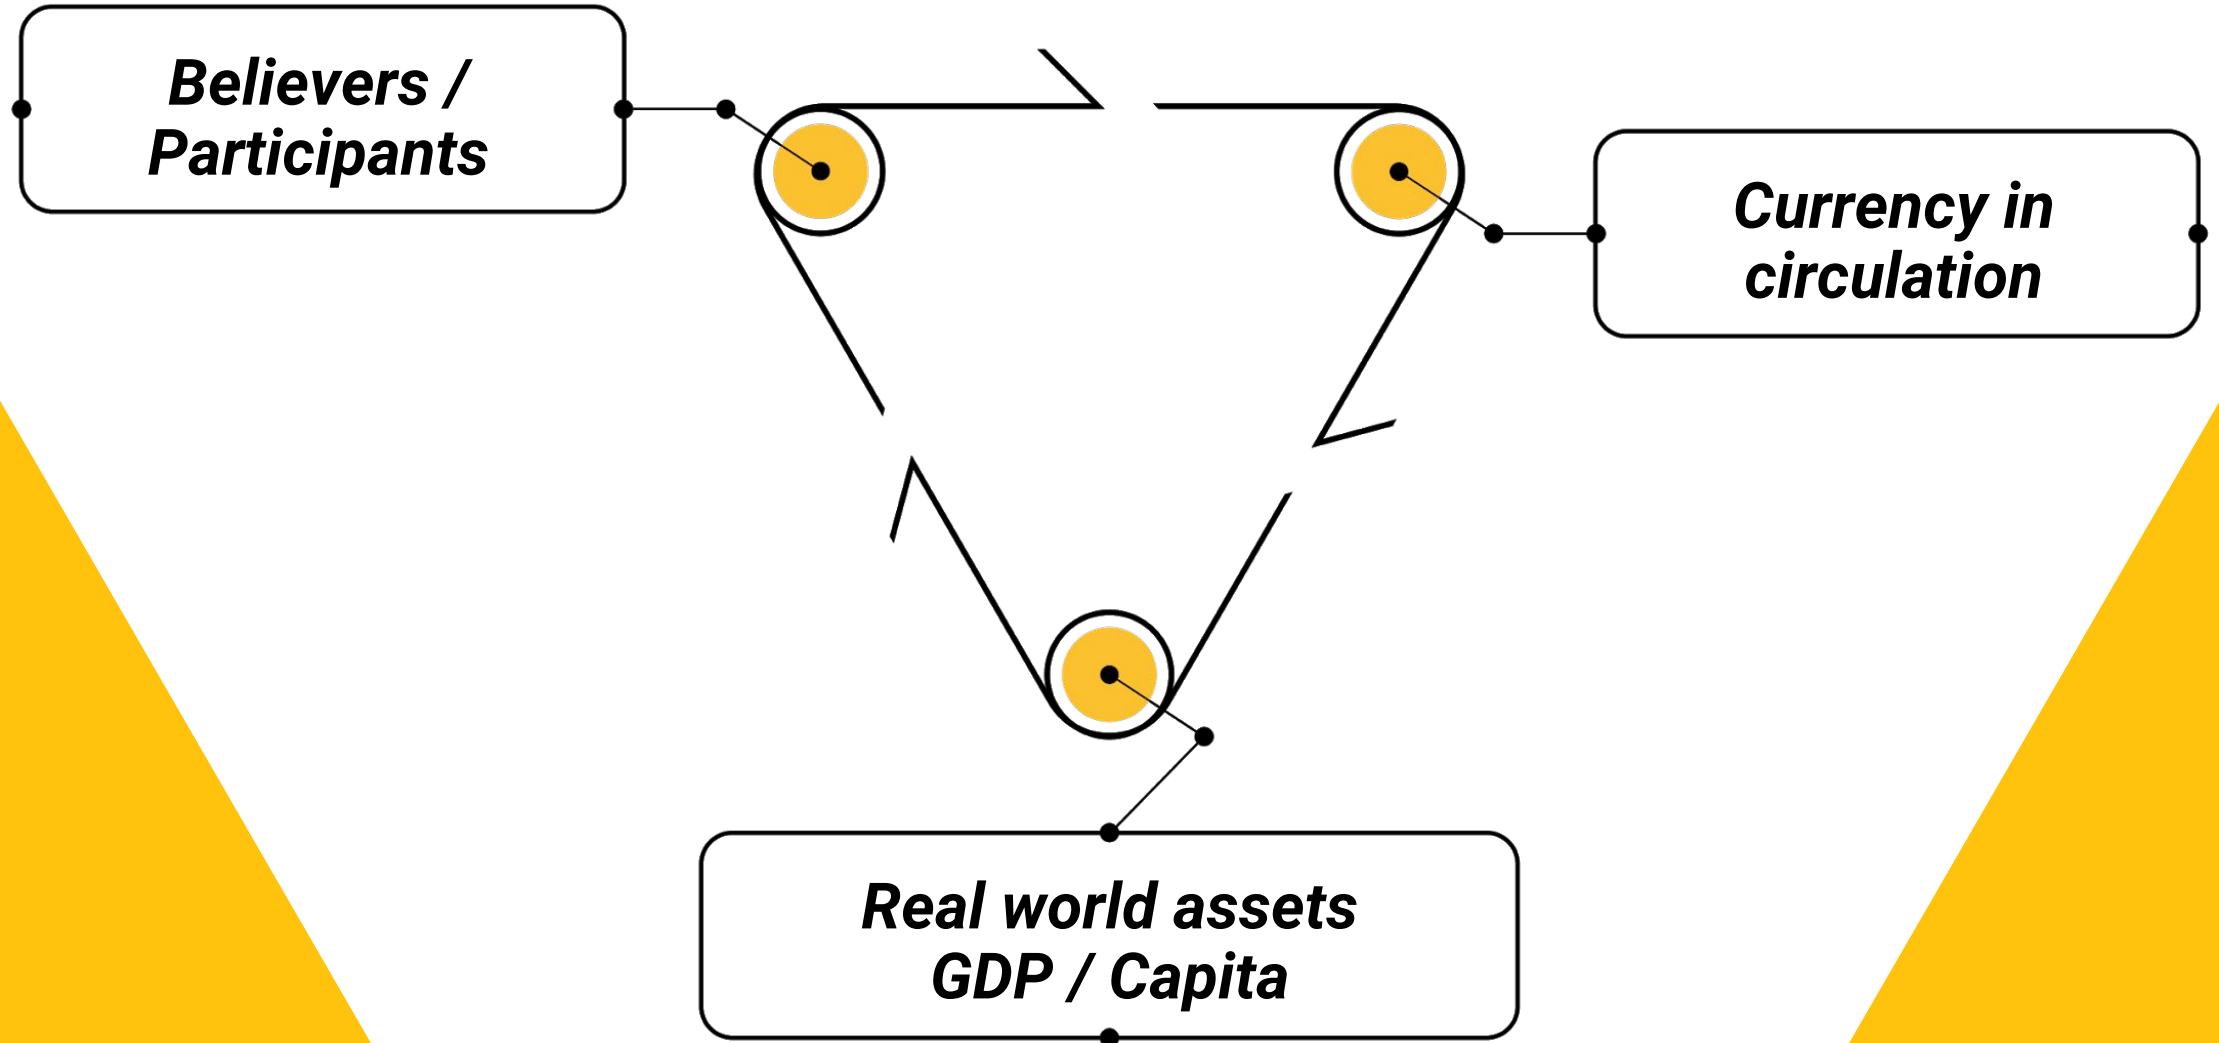

Solar facility owner gets one SolarCoin for each verified MWh

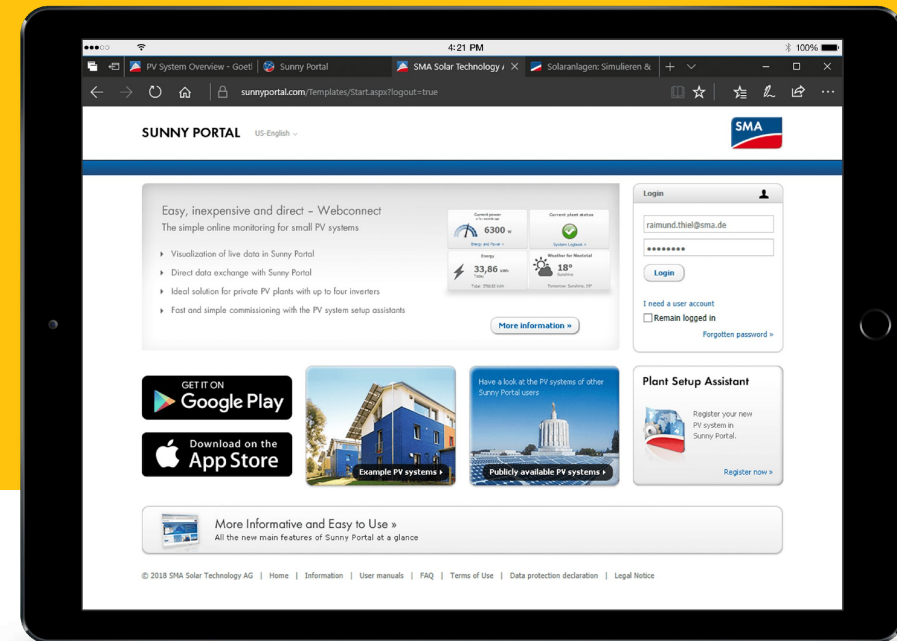

Why is SolarCoin worth something?

Currency*	Users / _{mm}	Value / _{\$ bn}	Value User	Adjusted for GDP
USD	1.000	\$ 3,874	\$ 3,874	\$ 3,874
EUR	742	\$ 1,300	\$ 1,725	\$ 3,019
WON	51	\$ 91	\$ 1,784	\$ 3,700
RMB	1,379	\$ 1,050	\$ 761	\$ 5,281
GOLD	7,000	\$ 7,710	\$ 1,101	\$ 6,119
BTC	18	\$ 120	\$ 6,667	\$ 6,667
SLR	0.004	\$ 0.016	\$ 4,000	\$ 4,000

*Network Capital currency valuation is based on +50 currencies, Gold & BTC representing more than \$15 trillion currency equivalents.

Who is involved?

*active partners now reach 6% of global solar energy with more being added

Doing good

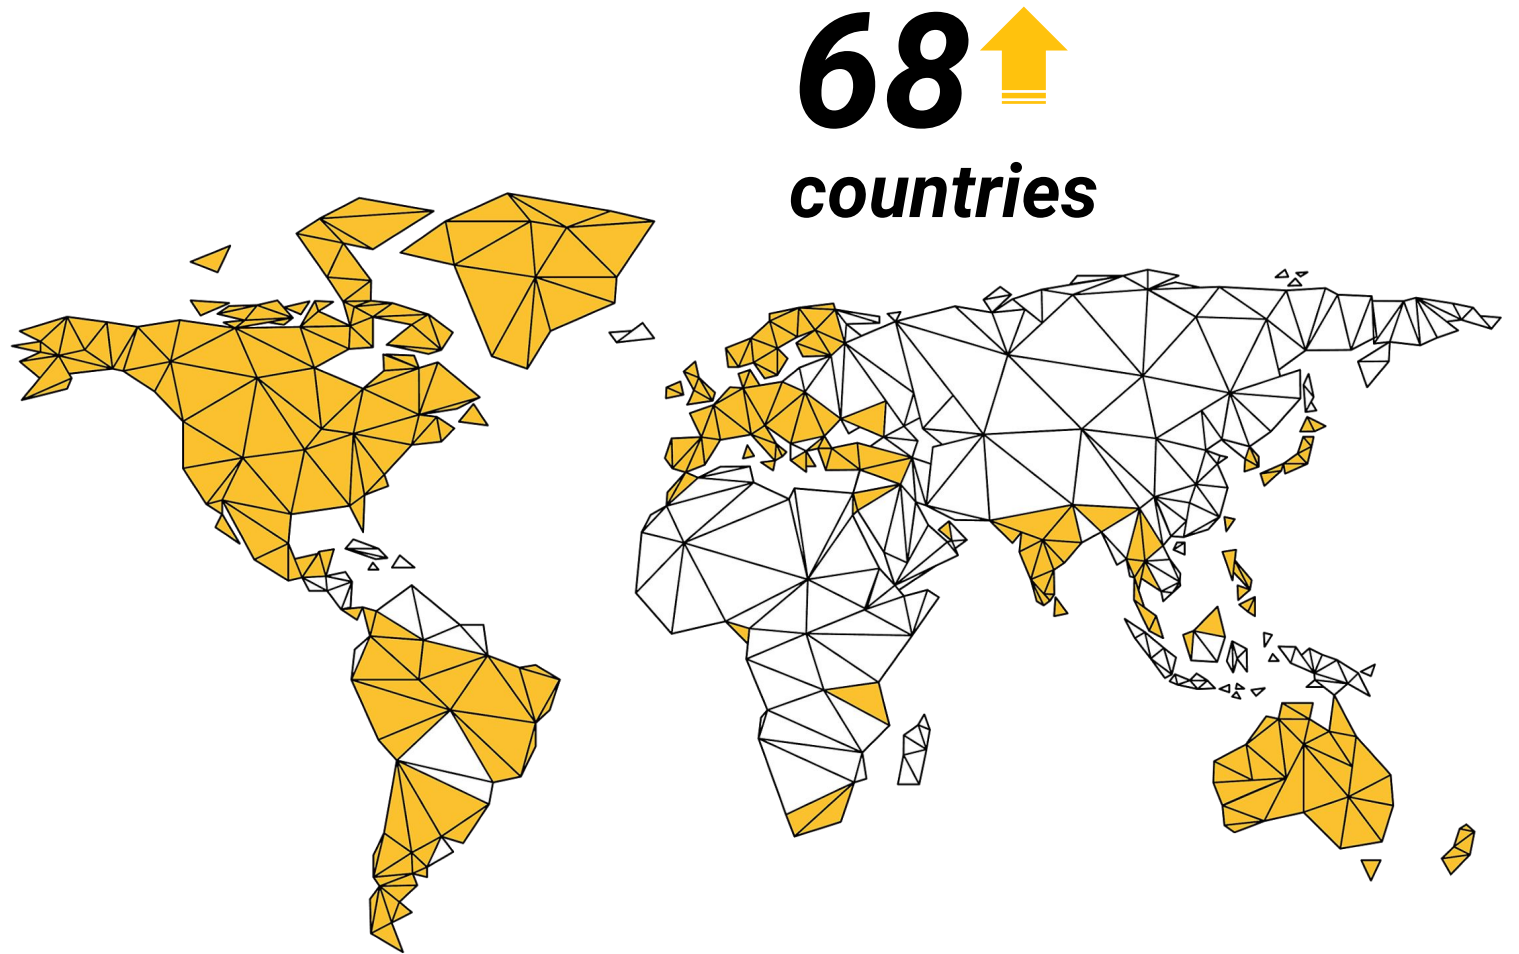

***Donate and spread
the sunshine***

Growing fast

Claim now and you get SolarCoin for energy generated back to ***Jan 1, 2010***
