

Be part of the Antifouling Initiative Protect, Collect & Dispose

Antifouling
paint and dust is
hazardous

Environmental Best Practice

Protect the environment

- ✓ Choose the right paint & work in a well-ventilated area
- ✓ Protect the ground and surrounding area
- ✓ Minimise paint dust by wet sanding

Collect paint debris

- ✓ Place tarpaulins under the vessel
- ✓ Use an industrial vacuum-cleaner linked to the paint scraper
- ✓ Capture old paint with 'paste-and-peel' techniques

Dispose of waste

- ✓ Clean up and dispose of all hazardous waste correctly
