Hosting Private Races

How do I host Private races in the game?

Its easy to host private races where you can invite friends / teammates to race against you, in a boat / location and format of your choice.

All you need to do is:

1. Open Virtual Regatta Inshore
2. Select 'Custom Race' on the left hand side of the screen in the lobby
3. Press on 'create'
4. Select boat, format, and location from the drop-down boxes. Enter your selected number of players (max 20) and an access code (password) of your choice
5. For players to enter your race, they must then go to 'Custom Race', then select 'Join' and enter your access code by pressing the green box at the bottom

TIPS

- Private races cost **200 coins**, and can host **up to 20 players**
- You can set a password for your race
- Use spectator mode on a big screen to choose your view, and follow the action
- Don't forget to use the Sailing School to brush up on your skills before you race!
