

## **Introducing the Pyramid Model**

**Dear Parents and Caregivers:**

**LULAC Head Start will be introducing an exciting new social/emotional/behavioral model with children and staff in the near future. The name is The Pyramid Model and its goal is to create a preschool environment where every child feels good about coming to school.**

**As we begin to use the Pyramid Model, classroom staff will work together to ensure that all children understand behavior expectations and receive instruction in critical social skills, friendship skills and problem solving.**

**Please take a moment to read the letter explaining a bit more about this model. Because of the importance of this project (and considering the size of LULAC Head Start), the Pyramid Model Leadership Team has decided to introduce Pyramid in one classroom as a pilot program before we introduce it to the rest of the children, families and staff at LULAC.**

**Please be looking for this model to be introduced within the entire program by midyear 2021! Let us know what you think.**

**Sincerely,**

**The Pyramid Model Leadership Team**
