

# Lecciones de JavaScript para WordPress de un polizón optimista

WORDCAMP  
VALLADOLID  
2020

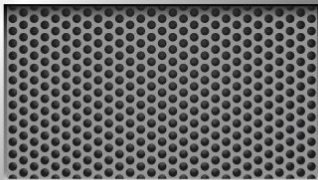

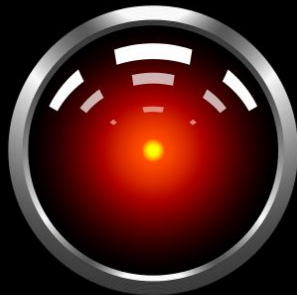

**Cuando seas  
padre comerás  
dos huevos**

**Siempre pasa**

**Nunca pasa**

WP 9000

**¿Cómo podría  
pasar esto?**

# JS

```
40
41 $(function(){cards();});
42 $(window).on('resize', function(){cards();});
43 function cards(){
44   var width = $(window).width();
45   if(width < 750){
46     cardssmallscreen();
47   }else{
48     cardsbigscreen();
49   }
50 }
51 function cardssmallscreen(){
52   var cards = $('.card').length;
```

REST API

# Ventajas

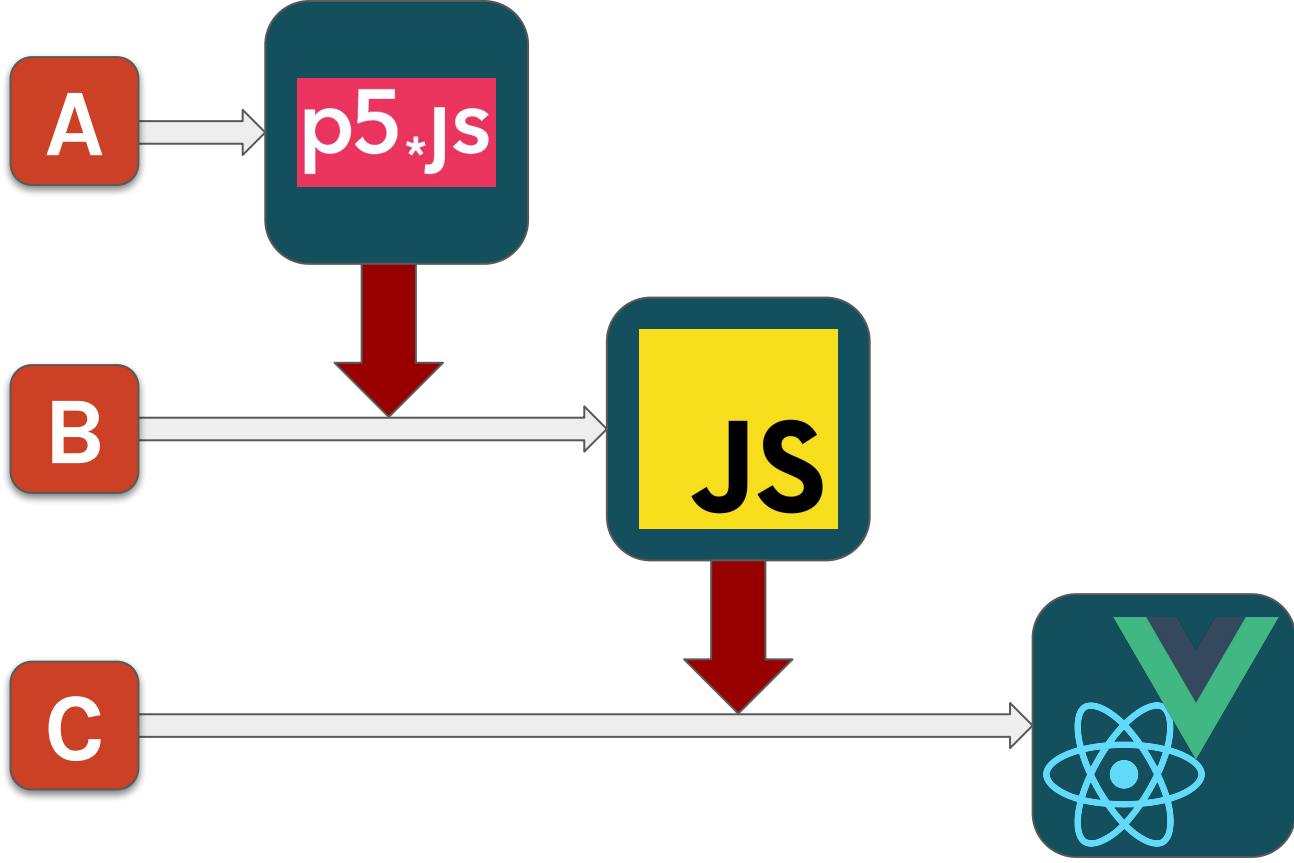

- Desarrollo web moderno para frontend de verdad
- Todo está pensado para ser optimizado
- Cambiará tu forma de desarrollar
- Ecosistemas grandes y crecientes

# Inconvenientes

- Curva de aprendizaje
- Sintaxis
- Complejidad de los entornos de desarrollo
- Expectativas demasiado altas

**¿Por qué Vue JS?**
