

United States Department of Agriculture
National Agricultural Statistics Service
Fact Finders for U.S. Agriculture

2021 Guide To Products and Services

Issued Annually

Today's Reports for Tomorrow's Decisions

A Word About NASS Reports...

The Agricultural Statistics Board (ASB) publishes reports of State and U.S. production, stocks, inventories, disposition, utilization and prices of agricultural inputs and commodities, other items such as labor, farm numbers and agricultural chemical usage.

National reports are issued from the Washington, D.C. Headquarters. Individual State reports are issued from the Field Offices (FOs) following release of the national reports. Printed copies of both ASB and FO reports are available for a fee.

An abundance of agricultural information is available to data users through our programs. In addition to the information above, estimates on more specialized commodities including hops, mink, cherries, cranberries, lentils and peppermint oil are also available. The information is geared toward producers and can help them plan planting, feeding, breeding and marketing programs. The data are also used by agricultural organizations, services, businesses, trade groups and financial institutions to determine demand for inputs, resources, transportation and storage-related crop and livestock products. Data are used to make and carry out agricultural policy concerning farm program legislation, commodity programs, agricultural research and rural development.

Data Security Is Our Top Priority. Names, addresses and personal identifiers are never revealed. NASS survey and census data never leave NASS control.

Only authorized persons working for NASS as employees or sworn partners, who are subject to fines and imprisonment for unauthorized disclosure, can access NASS data and only for approved statistical purposes. NASS does not conduct surveys or provide data for private, proprietary purposes. When NASS collects data for others in a NASS-approved statistical study, farmers and ranchers will always be informed about the cooperating sponsor and participation will always be voluntary. Summary data from all NASS surveys and censuses are available to everyone, but NASS will never disclose any individual's reported information.

Today's Reports

NASS reports are available electronically immediately after release via "Today's Reports" on the NASS homepage at www.nass.usda.gov.

E-Mail Subscriptions

E-mail subscriptions to NASS and World Agricultural Outlook Board (WAOB) periodicals are available free of charge. Each email provides a link to the publication and is generally delivered within a few minutes of release. Our electronic mailing list provides quick and timely access to the agricultural and economic information estimates.

NASS Revision Policy

Most estimates are subject to revision, if necessary, when the next estimate is prepared. Revisions are made to provide data users with the best possible data for evaluating the current estimates. Revisions are based on additional information, such as new surveys, late reports, corrected data or more complete administrative data.

Understanding USDA Crop Forecasts

The publication describes the statistical methodology used by the National Agricultural Statistics Service to prepare the crop forecasts to give users of the data a better understanding. This is followed by a similar description of the world agriculture supply and demand estimates prepared by the WAOB. This publication is also available in Spanish, Russian and Chinese. To obtain a copy of this publication call Customer Service at (800) 727-9540 and ask for Miscellaneous Publication No. 1554.

Other USDA Publications

Several other USDA Agencies also issue a variety of economic reports which may be of interest to NASS customers. More information about the reports at these Agencies can be obtained from the following telephone numbers or Internet addresses:

Economic Research Service	www.ers.usda.gov/ (202) 694-5050
Agricultural Marketing Service	www.ams.usda.gov/ (202) 720-8998
Foreign Agricultural Service	www.fas.usda.gov/ (202) 720-7115
World Agricultural Outlook Board	www.usda.gov/oce/ (202) 720-5447

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Assistant Secretary for Civil Rights, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Stop 9410, Washington, DC 20250-9410, or call toll-free at (866) 632-9992 (English) or (800) 877-8339 (TDD) or (866) 377-8642 (English Federal-relay) or (800) 845-6136 (Spanish Federal-relay). USDA is an equal opportunity provider and employer.

NASS Data Online

The NASS website (www.nass.usda.gov) provides easy access to the wide range of information and data products. Through the homepage, you can obtain copies of all reports described in this catalog, find commodity and price specialists and more.

A calendar of scheduled releases is available from the NASS Homepage. In the “**Publications**” dropdown menu, select “**by Date (Reports Calendar)**” under the “**Browse NASS Reports**” section. Then choose the year and month.

NASS Subject Specialists on the Internet

NASS maintains a listing of subject and commodity specialists for the various program areas. From the NASS Homepage, on the “**Contact Us**” dropdown menu, select “**Ask a Specialist**” at the bottom left column.

NASS Customer Service

NASS operates an information center, staffed from 7:30 a.m. to 4:00 p.m. ET Monday-Friday, to assist you with accessing reports and data via the Internet, or printed copies. Please call (800) 727-9540.

Quick Stats - Agricultural Statistics Online Database

NASS data is also found in the online Quick Stats database free of charge. At the beginning of 2020, the Quick Stats database contained around 45 million rows. Most data are available at or soon after release time. It can be accessed at quickstats.nass.usda.gov or from the NASS homepage under the “**Data and Statistics**” dropdown menu. The web application allows custom queries based on survey or census program, commodities and characteristics, geographic levels, and time periods. The “**Spreadsheet**” option downloads a csv file.

For power users, there are two additional methods to retrieve either large amounts of data or recurring data pulls. One is an API (Application Programming Interface) and the other is large text files containing segments of Quick Stats data refreshed nightly. See the “**Developers**” and “**Help**” tabs at quickstats.nass.usda.gov for more information.

Economics, Statistics and Market Information System (ESMIS)

Through a cooperative project with Cornell University, the Albert R. Mann Library distributes NASS, Agricultural Marketing Service (AMS), Economic Research Service (ERS) Foreign Agricultural Service (FAS), and World Agricultural Outlook Board (WAOB) periodicals and data files free of charge via the USDA Economics, Statistics and Market Information System at usda.library.cornell.edu. Reports are available electronically within minutes of release.

Subscribe to E-mail

Mann Library provides a free e-mail service for NASS reports. When a current report is released, a link to the report is sent via e-mail to the list of subscribers for that report. There are two options to subscribe to the National Reports; from the NASS Homepage at www.nass.usda.gov, select “**National**” located on the top right of the page under the social media icons, or in the “**Publications**” dropdown menu select “**National Reports**” under the section “**Receive Reports by E-mail**” in the right column. Follow the instructions on the next

page to sign up and manage your subscriptions. **There is no charge for e-mail subscriptions.** You may “unsubscribe” at any time. **For assistance with e-mail delivery, please call (607) 255-5406 or e-mail usda-help@cornell.edu.**

Rich Site Summary (RSS) Alerts

RSS feeds are free content feeds from Web sites that contain article headlines, summaries and links back to full-text articles on the web. RSS uses XML technology to syndicate web content, sending it directly to your desktop, your web browser or a web-based RSS reader. Instead of visiting a specific Web site to search for new articles and features, RSS is a convenient way to alert you when content of interest appears on your favorite Web sites.

Currently NASS offers national feeds for its News and Coming Events, Today's Reports and Census of Agriculture. For more information visit: www.nass.usda.gov/Newsroom/Syndication/.

Data Users Meetings Give Us Your Feedback!

NASS sponsors annual U. S. Department of Agriculture (USDA) data users meetings to solicit comments and suggestions from users of statistical and economic reports issued by NASS, World Agricultural Outlook Board, Economic Research Service, Foreign Agricultural Service, Agricultural Marketing Service and the Foreign Trade Division from the Census Bureau.

These meetings provide an open forum where representatives of the data programs are available to answer questions about their agency's current programs and receive public suggestions for possible changes.

Proceedings are prepared from some of the meetings and provided to the participants.

These meetings are announced on the Internet at the NASS homepage www.nass.usda.gov under “**Newsroom**” as soon as they are scheduled for the upcoming year.

Written comments concerning the data users meetings, questions, or requests for additional information are welcomed. Please direct comments or questions to Patricia Snipe USDA-NASS, Room 5336A South Building, Washington, DC 20250-2000. Phone: (202) 690-8141, Fax: (855) 838-6336, or e-mail: patricia.snipe@usda.gov

For Your Information

Informative agency publications and items other than the NASS Reports Collection are available to you just for asking. Call (800) 727-9540 to request a copy.

- **Fact Finders of U.S. Agriculture** - Discusses the organization of the National Agricultural Statistics Service, the importance of agricultural information, the history of agricultural statistics, the NASS estimating program, the 5-year Census of Agriculture, the integrity of estimates, assistance to other organizations and other topics.

Survey Assistance to Other Organizations

In addition to the many statistical activities directly related to its mission, NASS conducts surveys for and lends technical expertise to other Federal agencies, State governments and private organizations on a reimbursable basis.

NASS provides support and assistance in the areas of questionnaire and sample design, data collection and editing, analysis of survey results and training. For further information contact the Survey Development Methodology Branch at (202) 720-2248.

NASS International Program Activities

NASS technical support is not confined to the domestic sphere since Agency specialists frequently provide assistance and training to other countries to help establish or improve their agricultural statistics programs.

NASS has been involved in international training and technical assistance activities for over 40 years. Assistance and training are provided to technical staff in other countries for improvement of individual skills and survey methodology to provide more reliable and timely agricultural information. NASS participates in reimbursable international training and technical assistance because they:

1. Allow for improvement of USDA's own assessment of food and fiber production capabilities and levels in foreign countries;
2. Assist the U.S. Government's efforts to help developing countries improve institutions that can help eliminate hunger and poverty;
3. Develop NASS's human resources by exposure to other cultures and work situations.

For further information contact the NASS International Programs Office at (202) 720-4505.

Data Products

NASS can prepare data to meet user specifications. Sponsors must reimburse all costs for specially prepared work. For further information, call customer service at (800) 727-9540.

Agricultural Chemicals & Pest Management

* **Note since 2009, Agricultural Chemical Usage results are released through Quick Stats database only.** Pre-defined queries are found at: [www.nass.usda.gov/Surveys/Guide to NASS Surveys/Chemical Use/](http://www.nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Chemical_Use/).

2020 Agricultural Chemical Use Field Crops Summary, May 14. Chemical application rates and acres treated for selected 2019 field crops in major producing States and pest management practices used.

2019 Agricultural Chemical Use Fruit Summary. Chemical application rates and acres treated for selected 2018 fruit crops in major producing States and pest management practices used on program acres.

2020 Agricultural Chemical Use Vegetables Summary, July 21. Chemical application rates and acres treated for selected 2019 vegetables crops in major producing States and pest management practices used on program acres.

2009-2010 Agricultural Chemical Usage Postharvest Summary, Wheat. Pesticide application rates and quantity of postharvest wheat treated plus data on application methods and timing of applications for major producing States. Includes data on pest management practices used on target operations.

2010 Agricultural Chemical Usage Sheep and Sheep Facilities. Summary of information on chemical applications to sheep and associated sheep structures/facilities.

2006 Agricultural Chemical Usage Dairy Cattle and Dairy Facilities. Summary of information on chemical applications to dairy cattle and associated cattle structures/facilities.

2005 Agricultural Chemical Usage Swine and Swine Facilities. Summary of information on chemical applications to hogs and associated hog structures/facilities.

Aquaculture

Catfish Production. 2 issues.

February 8: February's issue contains water area and grower inventory; sales numbers by size groups for major production States and United States.

July 20: July's issue contains water area and grower inventory.

Trout Production, February 25. Grower sales, distributed trout and fish losses for major production States and United States.

Census of Agriculture

The Census is conducted every 5 years to obtain agricultural statistics for each county, state and the Nation.

2017 Census of Agriculture. The Census is the leading source of statistics about the Nation's agricultural production and the only source of consistent, comparable data at the county, State and national levels. The Census is authorized by law under Title 7, U.S. code and is conducted in close cooperation with the Nation's agricultural user groups and farmer organizations.

The Census includes all places from which \$1,000 or more of agricultural products, including government payments, were produced and sold, or normally would have been sold, during the census year.

Special Studies are conducted as follow-on programs to the Census of Agriculture. The follow-on programs include the Census of Aquaculture, Irrigation and Water Management Survey, Census of Horticultural Specialties, Tenure, Ownership and Transition of Agricultural Land Survey, the Organic Production Survey and the Local Food Marketing Practices Survey.

Census Data Query Tool. Access 2017 Census data by table with the Census Data Query Tool at https://www.nass.usda.Quick_Stats/CDQT/Chapter/1/table/1 All data queries are downloadable as .csv files for use in spreadsheets.

Volume 1, Geographic Area Series

United States, State and County Data. Separate State reports display statistics for the entire State and every county or equivalent. The United States Summary provides national data and selected data for each State. Data include number of farms; farm characteristics; livestock, poultry and their products; crops; land use; irrigation; producer characteristics; ownership;

income; production expenses; direct marketing; farm labor and migrant workers; agricultural activity on American Indian reservations; chemical use; computer use and more. Reports cover 2017, with comparative data for previous census years.

Additional reports are provided for Puerto Rico, including Municipio Profiles and the outlying areas American Samoa, Northern Mariana Islands, Guam and U.S. Virgin Islands.

2020 Census of Puerto Rico. Results available online only at www.nass.usda.gov/AgCensus.

2020 Outlying Areas. American Samoa, Guam, Northern Mariana Islands, and U.S. Virgin Islands. **Results available online only at www.nass.usda.gov/AgCensus.**

Highlights and Profiles

State and County Profiles. Based on results of the Census of Agriculture, describes changes in several key agricultural statistics. Also provides the rank of each county in the State and the Nation in crop acreage, livestock inventories and sales. Graphics included. **Results available online only at www.nass.usda.gov/AgCensus.**

Race, Ethnicity and Gender Profiles

Based on results from the Census of Agriculture, detailed data by state and county are provided for several categories of minority operations. **Results available online only at www.nass.usda.gov/AgCensus.**

Volume 2, Subject Series

American Indian Reservations. Provides data that supplement the 2017 Census of Agriculture Volume 1. This publication presents selected operation and operator data for 73 American Indian Reservations. Data includes number of farms, land in farms market value of products, production practice and characteristics of the operation and producers. **Results available online only at www.nass.usda.gov/AgCensus.**

Congressional District Rankings. Presents agricultural statistics by Congressional district (116th Congress) for all farms in all 50 States. Tables show the total market value of products sold and the number of farms by size for land in farms, cropland harvested, selected crops and inventory of cattle, calves, hogs and pigs. Crops vary by State and tables show number of farms by acres harvested for commodities such as tobacco, cotton, soybeans for beans, peanuts for nuts and land in orchards. **Results available online only at www.nass.usda.gov/AgCensus.**

History. Provides a detailed report describing the planning and execution of the Census of Agriculture. **Results available online only at www.nass.usda.gov/AgCensus.**

Volume 3, Special Studies

Watershed Tabulations. Presents agricultural statistics by 6-digit Hydrological Unit Code for the contiguous 48 states, Alaska and Hawaii. The data tables show the number of farms, land in farms, cropland harvested, irrigated acres, acres treated with fertilizer, acres treated with chemicals, selected crop acreage, organic acreage and inventory of selected livestock. **Results available online only at www.nass.usda.gov/AgCensus.**

Agricultural Atlas of the United States. Features thematic maps highlighting agricultural activities and characteristics such as farm number and size, selected crops harvested, livestock and poultry inventories and number sold, agricultural sales, production expenses, land use, irrigation patterns, fertilizer and chemical use machinery and equipment on farms. Covers the United States, States and counties. **All maps are available online at www.nass.usda.gov/AgCensus.**

Agricultural Census Web Maps. An online application utilized to access key Census data through a collection of interactive maps. **Results available online only at www.nass.usda.gov/AgCensus.**

Specialty Crop Tabulations. Presents agricultural statistics for specialty crops for all farms in the 50 states. Tables show production, demographic and economic data for farms producing specialty crops. Specialty crops are defined as fruits and vegetables, tree nuts, dried fruits, nursery crops (including floriculture) and maple syrup. Some USDA agencies do not consider maple syrup a specialty crop, so data are provided that include and exclude maple syrup to accommodate either definition. **Results available online only at www.nass.usda.gov/AgCensus.**

Typology, January 22. The 2017 Census of Agriculture Farm Typology report provides data that supplement the 2017 census. Selected census statistics by typology categories that group farms with similar characteristics are provided. It primarily focuses on the “family farm,” or any farm where the majority of the business is owned by the producer and individuals related to the producer, including relatives who do not live in the producer’s household. **Results available online only at www.nass.usda.gov/AgCensus.**

Organic Tabulations. Selected census statistics of producer and farm characteristics by all farms and farms with organic sales are provided. **Results available online only at www.nass.usda.gov/AgCensus.**

Specialty Crops for Outlying Areas. Provides data on number of farms, acres harvested, and value of sales for specialty crops in Puerto Rico, American Samoa, Guam, Northern Mariana Islands, and U.S. Virgin Islands. **Results available online only at www.nass.usda.gov/AgCensus.**

2018 Irrigation and Water Management Survey. Displays results from a sample survey of farm and ranch operators who reported using irrigation in the 2017 Census. Includes acres irrigated; yields of specified crops; method of distribution; quantity and source of water used; number and depth of wells; pumps used in moving water; energy use; and expenditures for maintenance and investments for each State, 20 water resources regions and the United States. **Results available online only at www.nass.usda.gov/AgCensus.**

2018 Census of Aquaculture. Provides statistics about the U.S. aquaculture industry at National and State levels. Data collected include production methods, water area and sources, production, sales, sales outlet and aquaculture for restoration, conservation, enhancements and recreation. **Results available online only at www.nass.usda.gov/AgCensus.**

2014 Tenure, Ownership and Transition of Agricultural Land (TOTAL). Provides a comprehensive picture of farm land ownership and farm economics, including operating expenses, demographic information on land owners, capital expenses, farm debt and assets, labor needs, and household characteristics. **Results available online only at www.nass.usda.gov/AgCensus.**

2019 Organic Survey. Provides statistics on acreage, production, sales, price, expenses, and other data for various organic crop and livestock commodities at national, state, and commodity levels. **Results available online only at www.nass.usda.gov/AgCensus.**

2019 Census of Horticulture Specialties. Provides data at national and state levels on number and kinds of horticultural specialty operations, value of sales, and types of products. **Results available online only at www.nass.usda.gov/AgCensus.**

Selected data are presented in other formats, including Congressional District Profiles, Rankings of Market Value of Agricultural Products Sold, a series of topical census highlights, and zip code tabulations. **Results available online only at www.nass.usda.gov/AgCensus.**

Other Reports

2020 Local Food Marketing Practices Survey, November 18. Provides comprehensive statistics on local agricultural economies. **Results available online only at www.nass.usda.gov/AgCensus.**

Current Agricultural Industrial Reports

NASS publishes four Current Agriculture Industrial Reports. They are: Grain Crushing and Co-Products Production, Flour Milling Products, Cotton System Consumption and Stocks, and Fats and Oils: Oilseed Crushings, Production, Consumption and Stocks.

Flour Milling Products. 4 issues plus annual summary.

Feb 1, May 3, Aug 2, Nov 1. This quarterly report covers all firms in the United States operating wheat and rye flour mills. Type of data collected are amount of flour and millfeed produced from wheat and rye.

Flour Millings Products 2020 Summary, May 3.

Grain Crushings and Co-Products Production.

12 monthly issues plus annual summary.

Jan 4, Feb 1, Mar 1, Apr 1, May 3, Jun 1, Jul 1, Aug 2, Sep 1, Oct 1, Nov 1, Dec 1. This is a monthly report that covers consumption of corn and sorghum. The publication provides data about agricultural commodities consumed for alcohol and other uses as well as the production of co-products and products in the United States.

Grain Crushings and Co-Products Production 2020 Summary, March 1.

Cotton System Consumption and Stocks. 12 monthly issues plus annual summary.

Jan 4, Feb 1, Mar 1, Apr 1, May 3, Jun 1, Jul 1, Aug 2, Sep 1, Oct 1, Nov 1, Dec 1. Monthly totals for running bales, end of month stocks in warehouses and cotton spinning facilities for major States and U.S Consumption of stocks and spindle utilization.

Cotton System Consumption and Stocks 2020 Summary, March 1.

Fats & Oils: Oilseed Crushings, Production, Consumption and Stocks. 12 monthly issues plus annual summary.

Jan 4, Feb 1, Mar 1, Apr 1, May 3, Jun 1, Jul 1, Aug 2, Sep 1, Oct 1, Nov 1, Dec 1. This is a monthly report that covers businesses that produce various edible and inedible fats and oils. This report also includes data that covers all establishments crushing or solvent processing vegetable oil bearing materials (oilseeds, beans, nuts, etc.); including establishments using a continuous process that immediately refines the oil. Type of data collected are amount of crop crushed, amount of processed oil and feed produced.

Fats & Oils: Oilseed Crushings, Production, Consumption and Stocks 2020 Summary, March 1

2021 North American Grain and Oilseed Crushing. 1 issue.

March 15. This publication is a result of a joint effort by Statistics Canada and NASS to release the soybean and canola seed crushings information for both countries within one publication.

Related Services

NASS Data Laboratory. Provides access and analysis of micro data for each State by researchers desiring to explore relationships among agricultural variables relevant to environmental, resource management and productivity trends and developments. For information, call (800) 727-9540 or e-mail nass@usda.gov.

Dairy

Dairy Products. 12 monthly issues plus annual summary.

Jan 6, Feb 4, Mar 4, Apr 1, May 4, Jun 4, Jul 2, Aug 4, Sep 3, Oct 4, Nov 4, Dec 3. Production of butter, cheese, frozen products, evaporated, condensed, dry milk and whey products. Shipments, stocks and prices of dry milk and whey products, major States and U.S.

Dairy Products 2020 Summary, April 27. Summary of production for manufactured dairy products for 2020 and revised data for 2019.

Milk Production. 12 monthly issues plus annual summary.

Jan 25, Feb 23, Mar 18, Apr 21, May 20, Jun 18, Jul 22, Aug 19, Sep 20, Oct 20, Nov 18, Dec 20. Number of milk cows, production per cow and total milk production during preceding month for major States and U.S. in all issues.

January 25, April 21, July 22, October 20: Number of milk cows and production quarterly by State and U.S.

February 23: Number of milk cows, production per cow and milk production revised by months, 2019 and 2020 by State and U.S. Licensed dairy herds by State and U.S.

Milk Production, Disposition and Income 2020 Summary, April 29. Annual number of milk cows, production per cow and production for the year by State and U.S. 2019-20. Amount of milk used on farms and amount sold, cash receipts and value of production by State and U.S.

Environmental and Demographics

Farm Computer Usage and Ownership, *August 18*. Report of computer ownership and usage for farm businesses, including internet access. Comparison between computer usage, 2018 and 2020.

National Farmers Market Managers Survey, *August 17*. Conducted under an agreement with the Agricultural Marketing Service. AMS uses the data to measure the customer demand of local foods from the Farmers Market manager's perspective, look for potential expansion opportunities, target access to nutritional foods, market nutritional education, measure access to local foods and organic foods, and strengthening community engagement. This survey will be conducted every 5 years. **Results available at <https://usda.library.cornell.edu/concern/publications/pz50hd694>.**

Agricultural Safety: 2012 Childhood Injury and Adult Occupational Injury, 2009 Injuries to Youth on Farms, 2008 Injuries to Adults on Racial Minority –Operated Farms, 2008 Injuries to Youth and Adult on Hispanic-Operated Farms and 2006 Farm and Ranch Safety Survey. National Institute of Occupational Safety and Health (NIOSH), an agency of the Center for Disease Control and Prevention, sponsored these surveys to better understand the magnitude and scope of agricultural injuries.

Economics

Agricultural Prices. 12 monthly issues. All issues present prices received by farmers for principal crops, livestock and livestock products; indexes of prices received by farmers; parity prices; prices paid for input items and feeder livestock; indexes of prices paid by farmers and livestock/poultry feed price ratios. The NASS Quick Stats database is updated monthly with historical index revisions at www.nass.usda.gov. A description of parity prices including authority for, method of computation and prices used in parity computations.

January 29: Revised monthly prices for rice; marketing year average prices for rice. Grazing fee rates on privately owned non-irrigated land for 17 western states. Revised historical series of prices received and prices paid indexes.

February 26: Revised monthly and annual average prices for meat animals. Annual average prices received for wool and mohair are published in the January Sheep and Goat publication. Adjusted base prices used in computing parity prices, including commodities not included in the monthly report.

March 31: No special features.

April 30: Revised monthly and annual prices for milk, poultry, eggs and milkfat test percentages. Annual index benchmark revisions for price paid indexes.

May 28: Historical monthly and marketing year average feed price ratios and market year average prices for tobacco. Value of all cattle and calves and sheep as of January 1, 2021; hogs and pigs as of December 1, 2020 are published in the Meat Animals Production, Disposition and Income summary.

June 30: Revised monthly U.S. monthly prices, marketing year average prices and marketing percents for barley and wheat.

July 30: Marketing year average prices for sugarbeets and sugarcane. Revised monthly U.S. prices, marketing year average prices and marketing percents for canola and flaxseed. Adjusted base prices used in computing parity, prices including commodities not included in the monthly report.

August 31: Revised state monthly prices, marketing year prices and marketing percents for wheat, oat, barley, hay, peanuts, and rye. Marketing year average prices for upland and American-Pima cotton; revised monthly prices for upland cotton and cottonseed and monthly marketings of upland cotton. Year-to-date U.S. monthly prices and marketings and preliminary marketing year average prices for rice.

September 30: Revised monthly prices, marketing year average prices and marketing percents for canola, sorghum, soybeans and sunflowers. Revised U.S. monthly prices, marketing year average prices and marketing percents for corn, chickpeas, dry edible peas and lentils. Monthly price revisions for fresh apples, peaches, grapes and pears.

October 29: No special features.

November 30: Revised monthly prices, marketing year average prices and marketing percents for corn and dry beans. Marketing year average prices for rapeseed, and mustard seed, safflower and proso millet.

December 30: Marketing year average prices for hops. Prices paid index for beef cattle production. Annual average prices paid for feeder livestock.

Cash Rents State, *August 6*. Irrigated cropland, non-irrigated cropland and pastureland cash rents per acre for States and U.S. Estimates are for the 2020 calendar year. **Results available online only at quickstats.nass.usda.gov/.**

Farm Labor. 2 issues.

(Postponed to February 11, 2021) *February 11, 2021*. The Farm Labor Survey has been funded by the Department of Labor (DOL) since July 2011. Regional and national data for

hired workers, hours worked, and wage rates are published semi-annually. Beginning in 2012 two quarters of farm labor data are published semi-annually in May and November. The May publication includes January and April data while the November publication includes July and October data. Estimates are made January, April, July and October for the week including the 12th of the month. Annual average wage rates, hired workers and hours worked are published in November.

Farm Production Expenditures 2020 Summary, July 30. Revised 2019 and preliminary 2020: Estimates of farm production expenditures by U.S. farm production regions, type of farm and economic class for major expenses.

Farms and Land in Farms 2020 Summary, February 19. Number of farms in operation, land in farms and average farm size by acres during 2020 and revisions for 2019; State and U.S. data. Selected State sales class estimates for number of farms and land in farms.

Land Values 2021 Summary, August 6. State, regions and U.S. agricultural land values for 2021 including 2020 revisions. Estimates are on a per acre basis and include value of all land and buildings, cropland and pasture.

Field Crops

Crop Production. 12 monthly issues plus annual summary and four supplements.

January 12: Hay stocks on farms December 1, 2020; indicated production of 2020-21 citrus fruits.

February 9: Indicated production of 2020-21 citrus fruits; area harvested, yield and production of sugarcane for 2020.

March 9: Indicated production of 2020-21 citrus fruits; area harvested, yield and production of sugarcane for 2020.

April 9: Indicated production of 2020-21 citrus fruits and revised production of 2019-20 citrus fruits.

May 12: Winter wheat indicated area harvested yield, production and U.S. production by class as of May 1. Indicated area harvested, yield and production for Durum wheat (Arizona and California); indicated production of 2020-21 citrus fruits. Hay stocks on farms May 1. Revised 2020 acreage, yield, production and bales ginned of cotton. Revised 2020 and final revisions for 2019 production and disposition of cottonseed; forecast 2021 almond production. Objective survey data for cotton number of cumulative large bolls and harvest loss. Indicated 2021 production of peaches and almonds (California).

June 10: Winter wheat indicated area harvested, yield, production and U.S. production by class as of June 1; Durum wheat indicated area harvested, yield and production for Arizona and California; indicated production of 2020-21 citrus fruits; 2021 maple syrup production, 2020 maple syrup price and value. Revised 2020 maple syrup production. Objective survey data for winter wheat percent of samples processed in the lab. Indicated 2021 production of cherry (tart and sweet). Hops area strung for harvest by variety.

July 12: Indicated area harvested, yield and production as of July 1 for winter wheat, Durum wheat, other spring wheat, oats, barley, and flue-cured tobacco. Indicated production of wheat by class, apricots, almonds and 2020-21 citrus fruits. Objective survey data for winter wheat number of heads per square foot and percent of samples processed in the lab.

August 12: Acreage entered for certified seed potatoes; updated planted acreage - all crops, if changed; indicated area harvested, yield and production as of August 1 for corn for grain, winter wheat, Durum wheat, other spring wheat, oats, barley, cotton, rice, hay, sorghum for grain, dry edible beans, soybeans for beans, peanuts for nuts, tobacco (by class and type), sugarbeets, sugarcane for sugar and seed, and hops; indicated cottonseed production. Indicated U.S. production of wheat and rice by class, apples, peaches, pears, grapes and cranberries. Objective survey data for winter wheat number of heads per square foot and percent of samples processed in the lab. Planted acres by commercial class for dry edible beans.

September 10: Updated planted acreage - cotton, peanuts and rice, if changed; indicated area harvested, yield and production as of September 1 for corn for grain, cotton, rice, sorghum for grain, soybeans for beans, peanuts for nuts, tobacco (by class and type), sugarbeets, sugarcane for sugar and seed; indicated cottonseed production. Indicated area planted, harvested, yield and production for chickpeas, dry edible peas and lentils. Indicated U.S. production of rice by class, hazelnuts and walnuts. Indicated production of 2021-22 California Navel oranges. Objective survey data for selected States; corn plant populations and number of ears per acre, soybeans number of pods with beans per 18 square feet, and cotton cumulative boll counts.

October 12: Updated, planted acreage - dry edible beans, canola, corn, sorghum, soybeans, sugarbeets and sunflower, if changed; indicated area harvested, yield and production as of October 1 for corn for grain, cotton, rice, sorghum for grain, hay, dry edible beans, soybeans for beans, peanuts for nuts, sunflower, canola, tobacco (by class and type), sugarbeets, sugarcane for sugar and seed; indicated cottonseed and pecan production. Indicated U.S. production of rice by class and 2021-22 citrus fruits. Revised canola, peanut and sunflower acreage, yield and production for 2020. Objective survey data for selected States; corn plant populations, number of ears per acre and percent of samples processed in the lab, soybean number of

Pods with beans per 18 square feet and percent of samples processed in the lab, and cotton cumulative boll counts.

November 9: Indicated area harvested, yield and production as of November 1 for corn for grain, cotton, rice, sorghum for grain, soybeans for beans, peanuts for nuts, sugarbeets and sugarcane for sugar and seed; indicated cottonseed production. Planted acres, indicated area harvested, yield and production of potatoes. Indicated U.S. production of rice by class. Objective survey data for selected States; corn plant population, number of ears, row width distribution and percent of samples processed in the lab, soybean row width distribution, number of pods with beans per 18 square feet and percent of samples processed in the lab, and cotton cumulative large boll counts.

December 9: Indicated area harvested, yield and production as of December 1 for cotton, sugarcane for sugar and seed. Indicated production of cottonseed and 2021-22 citrus fruits. Objective survey data for selected States; cotton cumulative large boll counts.

Crop Production 2020 Summary, January 12. Acreage, yield, and production data for 2020 and revised for 2019. Objective survey data for selected States; corn plant populations, number of ears per acre, row width distribution; soybean number of pods with beans per 18 square feet; row width distribution.

Prospective Plantings, March 31. Expected plantings as of March 1 for corn, all wheat, winter wheat, Durum wheat, other spring wheat, oats, canola, barley, cotton, rice by length of grain, all sorghum, dry edible beans, dry edible peas, and lentils, chickpeas, soybeans, sunflower, flaxseed, peanuts, and sugarbeets; acreage for harvest of hay and tobacco (by class and type).

Acreage, June 30. Planted and harvested area by State for corn, potatoes, soybeans, all wheat, winter wheat, other spring wheat, Durum wheat, oats, barley, rye, sorghum, rice by length of grain, peanuts, oil and non-oil sunflower, flaxseed, canola, rapeseed, safflower, mustard seed, dry beans, sugarbeets, dry peas, chickpeas, and lentils. Planted area only for cotton and proso millet. Harvested area only for all hay, alfalfa hay, other hay, tobacco (by class and type) and sugarcane. Percent of area planted to biotechnology varieties in the U.S. and selected States for corn, soybeans and Upland cotton. Percent of soybean acreage double cropped by State. Percent of acreage planted for potatoes by types.

Small Grains 2020 Summary, September 30. Acreage, yield and production of wheat, oats, barley and rye for 2021, including revised data for 2020 and Production of wheat by class. Objective survey data for winter wheat number of heads per square foot.

Winter Wheat and Canola Seedings, January 12. Seeded acreage of 2021 winter wheat; seedings of Durum wheat (AZ and CA). Seeded acreage of 2021 winter canola (KS and OK).

Corn Objective Yield Survey Data, 1992-2006. This report provides information on the types of data collected from the corn objective yield survey and how they relate to the Agricultural Statistics Board yield estimates. This report provides information to assist data users in understanding the corn objective yield program and the changes that have occurred in the objective yield data over a 15-year period.

Soybean Objective Yield Survey Data, 1992-2006. This report provides information on the types of data collected from the soybean objective yield survey and how they relate to the Agricultural Statistics Board yield estimates. This report provides information to assist data users in understanding the soybean objective yield program and the changes that have occurred in the objective yield data over a 15-year period.

Wheat Objective Yield Survey Data, 1993-2007. This report provides information on the types of data collected from the wheat objective yield survey and how they relate to the Agricultural Statistics Board yield estimates. This report provides information to assist data users in understanding the wheat objective yield program and the changes that have occurred in the objective yield data over a 15-year period.

Cotton Ginnings. 13 reports issued approximately twice per month during Aug-Mar ginning season, plus annual summary.

Jan 12, Jan 22, Feb 9, Mar 9, Aug 12, Sep 10, Sep 23, Oct 12, Oct 22, Nov 9, Nov 24, Dec 9, Dec 22. Running bales ginned to date for all cotton and American-Pima cotton by State. County ginnings, relating to first-of-month, are released with mid-month State ginnings.

Cotton Ginnings 2020 Summary, May 12. Running bales ginned, 480-pound bales ginned, average bale weight and number of active cotton gins by State and county for the ginning period.

Crop Progress, 35 issues, first workday of the week during growing season. Issued weekly during the growing season April-November; this report lists planting, selected development stages and harvesting progress and overall condition of selected crops in major producing States. The data, summarized by crop and by State, are republished in the *Weekly Weather and Crop Bulletin* released by WAOB.

Crop Values 2020 Summary, February 25. Marketing year average prices and value of production of principal crops, preliminary 2020 and revised 2019 and 2018. Note: State estimates for fruits and nuts are included in “*Noncitrus Fruits and Nuts 2020 Summary*.” State estimates for vegetables are included in “*Vegetables 2020 Summary*.”

Weekly Weather and Crop Bulletin (ISSN 0043-1974)

The Weekly Weather and Crop Bulletin is published weekly and is jointly prepared by the U.S. Department of Commerce, National Oceanic and Atmospheric Administration (NOAA) and the U.S. Department of Agriculture (USDA).

Annual subscriptions: Domestic and International subscriptions are \$60.00. Check and credit card (Visa, MasterCard, Discover and American Express) payments are accepted. Payments (invoices) should be mailed to: NNDC/NCDC, P.O. Box 70169, Chicago, IL 60673-0169; or invoices faxed to (304) 726-4409.

Correspondence to the meteorologists should be directed to: Weekly Weather and Crop Bulletin, NOAA/USDA, Joint Agricultural Weather Facility, USDA South Building, Room 4443B, Washington DC 20250. Internet URL: www.usda.gov/oce/waob/jaswf; e-mail address: jawfweb@oce.usda.gov.

Grain Stocks. 4 issues.

January 12: On and off farm stocks of all wheat, Durum wheat, corn, sorghum, oats, barley and soybeans on December 1, 2020 by State; revisions of all wheat, Durum wheat, corn, oats, barley, sorghum, soybeans, flaxseed, rye, canola, mustard seed, safflower, rapeseed and sunflower for 2020. Number and capacity of off-farm storage facilities and capacity of on-farm storage facilities on December 1, 2020. On and off farms stocks of dry peas, lentils, and chickpeas on December 1, 2020 and revision for June 1, 2020. Revision for June 1, 2020 Austrian winter peas.

March 31: On and off farm stocks of all wheat, Durum wheat, corn, sorghum, oats, barley, soybeans and sunflower on March 1 by State and previous quarter revisions.

June 30: On and off farm stocks of all wheat, Durum wheat, corn, oats, barley, sorghum, soybeans, flaxseed, canola, rapeseed, dry peas, lentils, and chickpeas and rye on June 1 by State and previous quarter revisions.

September 30: On and off farm stocks of all wheat, Durum wheat, corn, oats, barley, soybeans, sorghum, sunflower, safflower and mustard seed on September 1 by State and previous quarter revisions. Revised 2020 soybean and corn acreage, yield and production.

Hop Stocks. 2 issues, *March 15* and *September 16*. Grower, dealer and brewer stocks March 1 and September 1.

National Hop Report, *December 17*. Area harvested, yield, production, price and value by State.

Peanut Prices. Weekly on Friday. U.S. average price and marketings by type of peanut (Runner, Spanish, Valencia and Virginia).

Peanut Stocks and Processing. 12 issues.

Jan 27, Feb 26, Mar 26, Apr 26, May 26, Jun 28, Jul 28, Aug 27, Sep 27, Oct 27, Nov 26, Dec 27. The reports include the stocks at end of previous month; millings, production and disappearance of milled products, previous month for the U. S. Preliminary season totals shown in August release. Revised season totals shown in August release.

Potato Stocks. 4 issues.

Feb 17, Apr 15, Jun 16, Dec 16. Grower, processor and local dealer storage stocks in producing areas, first of the month by State.

Potatoes 2020 Summary, *September 28*. Production, farm disposition, value and stocks by State and utilization of potatoes for the United States, 2020 crop.

North American Potatoes. 2 issues.

January 21 and December 15. This publication is the result of a joint effort by NASS and Statistics Canada to provide producers with additional information about potato production in North America. The release includes area planted and harvested, yield, production, utilized production, market year average price and value of sales for both countries.

Rice Stocks. 5 issues.

Jan 12, Mar 31, Jun 30, Aug 20, Oct 22. Rough and milled rice stocks on and off farms, December 1, 2020, March, June, August and October (California only) by State and stocks by length of grain classes (five Southern States and California).

Field Crops Usual Planting and Harvesting Dates. *NASS handbook 628.* This handbook documents the usual planting and harvesting date for major field crops. Data are presented by State and commodities.

World Agricultural Supply and Demand Estimates. Issued monthly, WASDE provides the most current USDA forecasts of United States and world supply-use balances of major grains, soybeans and products and cotton; and United States supply and use of sugar and livestock products.

Fruits, Nuts and Vegetables

Citrus Fruits 2021 Summary, *September 8*. Annual summary of acreage, yield, production, use, price and value 2020-21 crop and revised 2019-20 crop.

Coffee, January 26. This report contains bearing acreage, yield, total production, utilized production, average price, and value of production estimates for the current and previous two seasons. All components are published for cherry equivalent basis, and quantity and average price for utilized production is included for parchment and green equivalent basis.

Noncitrus Fruits and Nuts 2020 Summary, May 5. Annual summary of acreage, yield, production, use, price and value of 2020 crop by State. Includes data for apples, apricots, avocados, berries, cherries, coffee, cranberries, dates, grapes, kiwifruit, nectarines, olives, papayas, peaches, pears, plums, prunes, strawberries, almonds, hazelnuts, macadamias, pecans, pistachios and walnuts.

Pecan Production, January 21. Bearing acreage, yield, price and value of 2020 crop by state.

Fruit and Tree Nuts: Blooming, Harvesting and Marketing Dates. *NASS handbook Number 729.* This handbook identifies the usual blooming, harvesting and marketing dates as well as principal producing counties and major varieties for the fruits and tree nuts covered in NASS's national program of crop estimates.

The Field Offices of USDA NASS compiled the basic information, prepared the estimates of usual dates and designated the important areas of production and major varieties for their respective States. Growers and horticultural specialists were consulted to verify information published.

Mushrooms, August 31. Agarics mushrooms: Area in production, volume of sales, utilization, price per pound, value of sales and by selected States and U.S. for July 1, 2020 - June 30, 2021 and intentions for the next season. Brown mushrooms: volume of sales and value of sales and U.S. for July 1, 2020 - June 30, 2021. Specialty mushrooms: production, volume of sales, price per pound and value of sales by variety and U.S. Also, area in production which includes natural wood outdoor logs, natural wood undercover and indoor logs and all other production media by variety and U.S. Sales of all certified organic mushroom at the U.S. level.

Vegetable 2020 Summary, February 11. End-of-season 2020 estimates of acreage, yield, production, marketing year average price, value and utilization for artichokes, asparagus, snap beans, broccoli, cabbage, cantaloupe, carrots, cauliflower, celery, sweet corn, cucumbers, garlic, honeydews, head lettuce, leaf lettuce, onions, romaine lettuce, bell peppers, chile peppers, pumpkins, spinach, strawberries, squash, sweet potatoes, tomatoes and watermelons.

Vegetables Usual Planting and Harvesting Dates. *NASS handbook Number 507.* This handbook identifies the usual planting and harvesting dates for fresh market and processing vegetables as well as principal producing counties and major varieties for the vegetables covered in NASS's national program of crop estimates. The Field Offices of USDA NASS compiled

the basic information, prepared the estimates of usual dates and designated the important areas of production and major varieties for their respective States. Growers and horticultural specialists were consulted to verify information published.

Livestock

Cattle. 2 issues.

January 29: Inventory number by class of all cattle and calves as of January 1, 2021 and number of calves born during 2020 by State and U.S. Number of all cattle and number by classes July 1, 2020, U.S. Total number on feed January 1, 2021 by State and U.S.

July 23: Inventory number by class of all cattle and calves as of July 1, 2021, U.S. Expected 2021 calf crop, U. S. Total number on feed July 1, 2021, U.S.

Cattle on Feed. 12 monthly issues.

Jan 22, Feb 19, Mar 19, Apr 23, May 21, Jun 25, Jul 23, Aug 20, Sep 24, Oct 22, Nov 19, Dec 23. All issues present monthly total number on feed, placements by weight group, marketings and other disappearance for feedlots with 1,000 head or more capacity for major States and U.S. Number on feed by class, shown for feedlots with 1,000 head or more capacity for major States and the U.S. in January, April, July and October reports. Number of feedlots and fed cattle marketings during 2020 and January inventory 2021 by size groups for U.S. in February report.

U.S. & Canadian Cattle and Sheep, March 4. Inventory by class of all cattle and calves and number of calves born for U.S., and Canada combined. Inventory by class of all sheep and lambs and number of lambs born for U.S., Canada and combined.

U.S. & Canadian Cattle, August 25. Inventory by class of all cattle and calves and number of calves born for U.S., Canada and combined.

For more cattle information, see Livestock Slaughter, Meat Animals: Production, Disposition and Income and Agricultural Prices February issue.

Overview of the U.S. Cattle Industry. June 24, 2016. This report provides information on cattle supply and disposition numbers and trends which have implications for future cattle supplies. The report is provided to the industry and data users to provide a better understanding of the relationships within the cattle industry.

Equine. January 1, 1999. This is the only NASS publication of U.S. equine statistics. The report contains total equine inventory for 1998 and 1999, equine sold and value of sales.

Quarterly Hogs and Pigs. 4 quarterly issues.

March 25: Inventory number by class as of March 1; December 2020 - February 2021 farrowings and pig crop; March - August 2021 intended farrowings for major States and U.S.

June 24: Inventory number by class as of June 1; March-May 2021 farrowings and pig crop; June - November 2021 intended farrowings for major States and U.S.

September 24: Inventory number by class as of September 1; June-August 2021 farrowings and pig crop; September 2021 - February 2022 intended farrowings for major States and U.S.

December 23: Inventory number by class of all hogs and pigs as of December 1; September - November 2020 farrowings and pig crop; December 2021 - May 2022 intended farrowings, major States and U. S.; annual farrowings (December 2020 - November 2021) by State and U.S.

For more hogs and pigs information, see Livestock Slaughter, Meat Animals: Production, Disposition and Income and Agricultural Prices February issue.

Overview of the U.S. Hog Industry. October 29, 2015. The Overview of the U.S. Hog Industry report provides an official periodic review of efficiency trends and changes in the structure of the breeding herd. This report also notes changes in hog operation size groups, compares historic hog prices and reviews live hog imports and marketings. This report compares 2014 production year data to the 2008 production data released in the Overview of the U.S. Hog Industry report published in October 2009.

U.S. and Canadian Hogs. 2 issues.

March 4 and August 25. This release contains inventory, sows farrowed and pig crop for U.S., Canada and combined.

Livestock Slaughter. 12 monthly issues plus annual summary.

Jan 21, Feb 25, Mar 25, Apr 22, May 20, Jun 24, Jul 22, Aug 19, Sep 23, Oct 21, Nov 24, Dec 23. Number of head, live weight and dressed weight of cattle, calves, sheep and lambs and hogs and pigs slaughtered in commercial plants and number by class in federally inspected plants by State. Also red meat production by species by State and U.S.

Livestock Slaughter 2020 Summary, April 21. Annual summary for total livestock slaughter and red meat production for 2020 by State and months. Number of cattle, calves, sheep and lambs and hogs and pigs slaughtered in federally inspected plants by class for selected States and U.S. Number of goats and bison slaughtered in federally inspected plants in 2020, U.S. weekly number of head slaughtered in federally inspected plants by species and class, U.S. number of federally and non-federally inspected plants and number of head slaughtered in

2020. Also number of head slaughtered in federally inspected plants by size group and species, U.S.

Overview of the U.S. Slaughter Industry, October 27, 2016. This report provides an official review of changes in the U.S. livestock and poultry slaughter industry over the past 25 years. Additionally, the report gives an overview of survey and estimation procedures as well as terminology used in NASS's slaughter publications.

Meat Animals Production, Disposition and Income 2020 Summary, April 29. Annual balance sheet and income estimates for cattle and hogs. Includes estimates of beginning and ending inventories, births, deaths, inshipments and marketings. Also includes 2018 and 2019 total production and marketings in pounds, value of production, cash receipts, home consumption and gross marketings by State and U.S.

Sheep and Goats, January 29. Sheep and lamb inventory by class by State and U.S., 2021. Lamb crop by State and U.S., 2020. January 1 inventory of angora, milk and meat and other goats. Number of sheep shorn, wool production, price and value by State for 2020. Number of goats clipped, mohair production and value for AZ, NM and TX for 2020.

For more sheep information, see Livestock Slaughter.

Poultry

Broiler Hatchery. 53 issues weekly. Number of broiler chicks placed and eggs set for the previous week, 19 selected States and United States. Available every Wednesday or if Federal holiday is on a Tuesday or Wednesday then on Thursday.

Hatchery Production 2020 Summary, April 7. U.S. commercial hatchery data on number of broiler-type and egg-type chicks hatched, monthly, major States and U.S. for 2020 and revised data for 2019. Number of eggs in incubators on the first of each month by region and U.S. broiler chicks placed and eggs set by weeks for the 19 selected States and United States. Turkey eggs set and net poults placed, poults hatched U.S., capacity of chicken and turkey hatcheries by region and U.S.

Poultry Production and Value 2020 Summary, April 29. Estimates of production and value for commercial broilers, eggs, turkeys raised and chickens (excluding commercial broilers) sold for 2019-20 by State and U.S.

Chickens and Eggs. 12 issues plus annual summary.

Jan 21, Feb 26, Mar 22, Apr 22, May 21, Jun 22, Jul 22, Aug 23, Sep 22, Oct 22, Nov 22, Dec 21. Number of layers on hand, eggs per 100 layers, and total eggs produced during preceding month by type of flock by major States and U.S. Number of layers and eggs produced per 100 layers on the first

Specialty Agriculture

of the month by type of flock. Pullet chicks added and layers' disposition at the U.S. level. Layers being molted and molt completed during the previous month by major States and U.S. U.S. commercial hatchery data on number of broiler-type and egg-type chicks hatched during preceding month, major States and U.S. and number of eggs in incubators on the first of the month by region and U.S. Number of broiler-type pullet chicks for hatchery supply flocks (total and domestic) and number of egg-type pullet chicks for hatchery supply flocks, U.S.

Chickens and Eggs 2020 Summary, February 25. Revised monthly estimates of the number of layers on hand, rate of lay and egg production States and U.S. for 2019 and 2020. Revised egg production during the month by type, selected States and U.S. December 1, 2019 and 2020 chicken inventories and values by State and U.S.

Egg Products. 12 monthly issues.

Jan 28, Feb 25, Mar 30, Apr 29, May 27, Jun 29, Jul 29, Aug 31, Sep 28, Oct 28, Nov 29, Dec 28. Federally inspected, shell eggs broken, form in which broken.

Poultry Slaughter. 12 issues plus annual summary.

Jan 25, Feb 22, Mar 24, Apr 23, May 24, Jun 24, Jul 23, Aug 24, Sep 24, Oct 25, Nov 23, Dec 22. Number of head and pounds slaughtered under Federal inspection by type, for the U.S. Total liveweight of poultry slaughtered and condemnations by selected States and U.S.

Poultry Slaughter 2020 Summary, February 26. Also available as a separate issue in the above subscription. Number of poultry slaughtered by month, by type, and annual total for the United States. Pounds certified ready-to-cook, ante-mortem and post-mortem condemnations by type, by month and the U.S. total.

Turkey Hatchery. 12 monthly issues.

Jan 13, Feb 16, Mar 16, Apr 14, May 13, Jun 16, July 14, Aug 13, Sep 15, Oct 15, Nov 18, Dec 15. Number of turkey eggs in incubators on first of current month, net poults placed and poults hatched by month.

Turkeys Raised, September 24. Number of turkeys raised during preceding year and raised during current year, major States and U.S.

Overview of the U.S. Turkey Industry. April 30, 2014. This report presents 2008-2013 historical information on the U.S. turkey industry. NASS survey procedures and methodology are presented with a graphical interpretation of the data.

Certified Organic 2018 Summary. Provides statistics on acreage, production, sales, price, expenses, and other data for various certified organic crop and livestock commodities at national, state, and commodity levels.

Cold Storage. 12 monthly issues plus annual summary and biennial *Capacity of Refrigerated Warehouses*, published in even years.

Jan 25, Feb 23, Mar 22, Apr 22, May 24, Jun 22, Jul 22, Aug 23, Sep 22, Oct 22, Nov 22, Dec 22. End-of-month stocks of meats, dairy products, poultry products, fruits, nuts and vegetables in public, private and semi-private refrigerated warehouses.

Cold Storage 2020 Summary, February 26. Regional and national totals for end-of-month holdings of meat, dairy products, poultry products, fruits, nuts and vegetables in public, private and semi-private refrigerated warehouses for 2020.

Capacity of Refrigerated Warehouses 2019 Summary. Biennial report. Number of warehouses and capacity by State and U.S. number of general warehouses public and private.

Floriculture Crops 2020 Summary, May 27. Production, price and value of wholesale sales for 17 selected States and growers having \$100,000 or more in sales. Number of growers and growing area for growers with \$10,000 or more in sales. Issue covers the following crops:

Cut flowers: Dahlia, Peony, Sunflowers, Pompon chrysanthemums, Gerbera Daisy, gladioli, iris, all lilies, all orchids, all roses, snapdragons, cut tulips and other cut flowers.

Potted flowering plants: Finished florist chrysanthemums, Easter lilies, orchids, poinsettias, roses, spring flowering bulbs and other potted flowering plants.

Foliage: Potted foliage, hanging baskets.

Annual Bedding/Garden plants: Flats, pots and hanging baskets of begonias, peony geraniums from vegetative cuttings, New Guinea impatiens, other impatiens (*I. Wallerana*), marigold, pansy/viola, petunias, all other flowering and foliar plants and vegetable-type bedding plants.

Herbaceous perennials: Potted hardy garden chrysanthemums, daylily, ferns, hosta, peony, and other herbaceous perennials.

Cut cultivated greens: Leatherleaf ferns, other cut cultivated greens.

Propagative Floriculture material: Total sales of material for cut flowers, potted flowers, annual bedding/garden plants, herbaceous perennials, foliage and cut cultivated greens.

Honey, March 18. Annual report of number of colonies producing honey, yield per colony, honey production, average price and value, 2020 and revised 2019; honey stocks as of December 15, 2020, by State and U.S.

Honey Bee Colonies, August 2. Annual report of honey bee colonies, lost colonies, added colonies, renovated colonies and colonies affected by stressors by State and U.S.

Mink, July 22. Mink pelt production by color class by selected States, 2020 data and revised 2019. Females bred and to be bred in 2021. Value of pelt production.

Organic Certifiers 2015/2016 Summary. Provides statistics on certified acreage and livestock commodities at the national and state level.

Other Reports

Agricultural Statistics Book 2021, November 2021 A comprehensive statistical report (approximately 500 pages) containing current and historical agricultural data, revised annually. Statistics cover grain and feed; cotton, tobacco, sugar crops and honey; oilseeds, fats and oils, vegetables and melons; fruits, tree nuts, and horticultural specialties; hay, seeds and minor field crops; cattle, hogs and sheep; dairy and poultry statistics; farm resources, income and expenses; taxes, insurance, credit and cooperatives; stabilization and price-support programs; consumption; fertilizers and pesticides and more.

*** Note all County Estimates releases are available on Quick Stats only.**

County Estimates 2019- 2020 for All Rice, March 4. County level estimates for all rice for 2020 and 2021 for participating States.

County Estimates 2020 - 2021 for Barley, December 9. County level estimates for barley for 2020 and 2021 for participating States.

County Estimates 2020 - 2021 for Cattle, May 10. County level estimates for cattle for 2019 and 2020 for participating States.

County Estimates 2019 - 2020 for Corn for Grain & Silage, February 25. County level estimates for corn for grain and silage for 2019 and 2020 for participating States.

County Estimates 2019 - 2020 for Cotton, May 12. County level estimates for cotton for 2019 and 2020 for participating States.

County Estimates 2020 - 2021 for Durum Wheat, December 9. County level estimates for durum wheat for 2020 and 2021 for participating States.

County Estimates 2019 - 2020 for Hogs and Pigs, August 18. County level estimates for hogs and pigs for participating States for 2019 and 2020.

County Estimates 2020 - 2021 for Oats, December 9. County level estimates for oats for 2020 and 2021 for participating States.

County Estimates 2019 - 2020 for Peanuts, May 6. County level estimates for peanuts for 2019 and 2020 for participating States.

County Estimates 2019 - 2020 for Poultry, June 7. County level estimates for poultry for 2019 and 2020 for participating States.

County Estimates 2020 - 2021 for Sheep, May 10. County level estimates for sheep for 2020 and 2021 for participating States.

County Estimates 2018-2019 for Sorghum, February 20. County level estimates for sorghum for 2019 and 2020 for participating States.

County Estimates 2018 - 2019 for Soybeans, February 20. County level estimates for soybeans for 2018 and 2019 for participating States.

County Estimates 2019 – 2020 for Spring Wheat, December 9. County level estimates for spring wheat for 2020 and 2021 for participating States.

County Estimates 2020 - 2021 for Winter Wheat, December 9. County level estimates for winter wheat for 2020 and 2021 for participating States.

Cash Rents County Level, August 27. County level estimates for participating States.

Crop Production Historical Track Records, April 12. This report includes a historical data series and a comparison of preliminary to final planted and harvested crop acreage and a comparison of preliminary crop production forecasts to final and end-of-year crop production estimates.

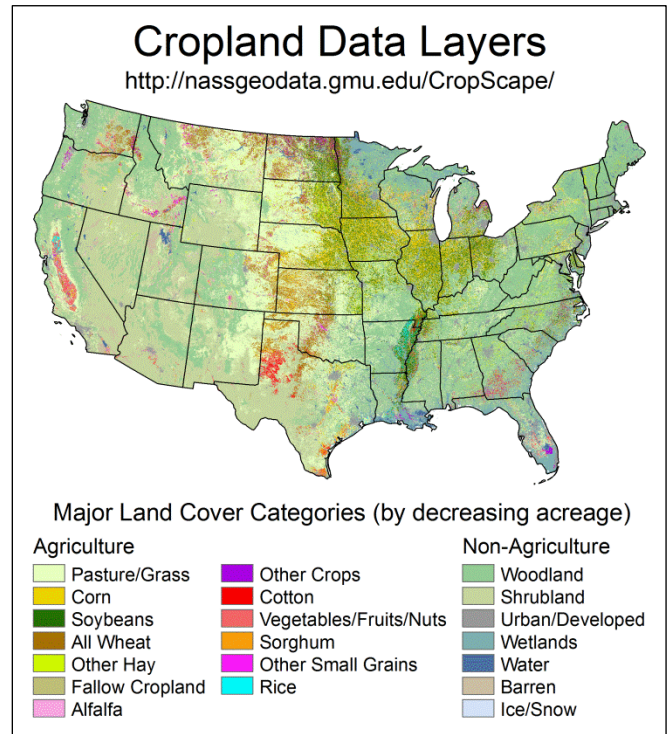

Livestock Historical Track Records, September 15. This report compares the preliminary inventory or production estimates to the final inventory or production estimates for

cattle, hogs and pigs, sheep and lambs, milk production, broilers, eggs and turkeys.

Price Reactions After USDA Livestock Reports, March 11. This report describes the market price reaction during the time periods surrounding the release of livestock inventory report.

Price Reactions After USDA Crop Reports, March 12. This report describes the market price reaction during the time periods surrounding the release of crop production reports.

Cropland Data Layer Products. NASS is pleased to offer these geospatial products for online monitoring of the nation’s agricultural land. The Cropland Data Layer (CDL) products are available via the NASS CropScape visualization portal at <https://nassgeodata.gmu.edu/CropScape/>. CropScape offers advanced tools such as interactive visualization, web-based geospatial queries, data dissemination, and automated data delivery to applications such as Google Earth. The CDL is a crop-specific categorized land cover product and uses imagery, depending on the year, from the Disaster Monitoring Constellation Deimos-1, UK2, AWiFS, and Landsat 5/7/8 satellites. The CDL products cover the entire continental United States since 2008 and various states for earlier years (1997 – 2007). For GIS users, download the mosaicked national CDL and confidence layer products https://www.nass.usda.gov/Research_and_Science/Cropland/Release/index.php. For all historical state-level CDL products delivered via one download, visit the USDA/NRCS Geospatial Data Gateway at https://datagateway.nrcs.usda.gov/GDGHome_DirectDownLoad.aspx.

Data Gateway <http://datagateway.nrcs.usda.gov/>.

ACKNOWLEDGMENT

Many thanks to the farmers, ranchers and producers across the nation who willingly participate in the surveys with National Agricultural Statistics Service, U.S. Department of Agriculture. They are the strength behind the NASS agricultural inventory, production, price and environmental information, products and services. We appreciate their support and cooperation - they are the cornerstone of the food and fiber system that feeds and clothes the world.
