

## Coronavirus (COVID-19) Cases in Licensed Child Care Facilities in California Week of 3/22/22

The California Child Care Licensing Program collects COVID-19 positive cases for licensed child care facilities statewide. The figures and tables in this report represent COVID-19 positive cases at child care facilities licensed by the California Department of Social Services, Community Care Licensing Division. Data are presented for those counties with at least three open child care licensed facilities for any given type (e.g., Child Care Centers, Large Family Child Care Homes<sup>1</sup>, Small Family Child Care Homes<sup>2</sup>), in consideration of privacy and security concerns. This report also includes tables for the total number of open licensed facilities for Child Care Centers and Family Child Care Homes statewide in each of California's 58 counties. The number of open facilities accounts for temporarily closed facilities due to COVID as well as permanently closed facilities. Open facility counts in this report will differ from facility counts on the transparency website which reflect only permanently closed facilities.

The figure and tables in this report identify the counties with eleven (11) or more COVID-19 positive cases and at least three open child care facilities, unless otherwise stated. Values of less than eleven (11) are masked (shown as <11) and values of eleven (11) or more that could be used to identify masked values are also masked (shown as \*\*) in accordance with de-identification guidelines. True values of zero appear as "0". If a county does not have at least three open facilities of a given type, the county data for that facility type is removed and appears as "N/A". The figures and tables below represent the cumulative values for a given time period.

### Types of Licensed Child Care Facilities in California

**Licensed Child Care Centers:** A Licensed Child Care Center (or Day Care Center) is usually located in a commercial building. Non-medical care and supervision are provided for infant to school age children in a group setting for periods of less than 24 hours.

**Licensed Family Child Care Homes:** A Licensed Family Child Care Home must be in the licensee's own home. A Family Child Care Home reflects a home-like environment where non-medical care and supervision are provided for periods of less than 24 hours.

- **Small** Family Child Care Homes provide care to no more than 8 children.
- **Large** Family Child Care Homes provide care to no more than 14 children.

Effective October 2, 2020, a methodology adjustment to our data tracking system was made in how positive COVID-19 cases are counted. This resulted in an increase in the overall total of cumulative cases since mid-April, 2020.

\*Effective May 04, 2021, this report will be published on Wednesdays based on the previous week's aggregated information compiled on Tuesdays.

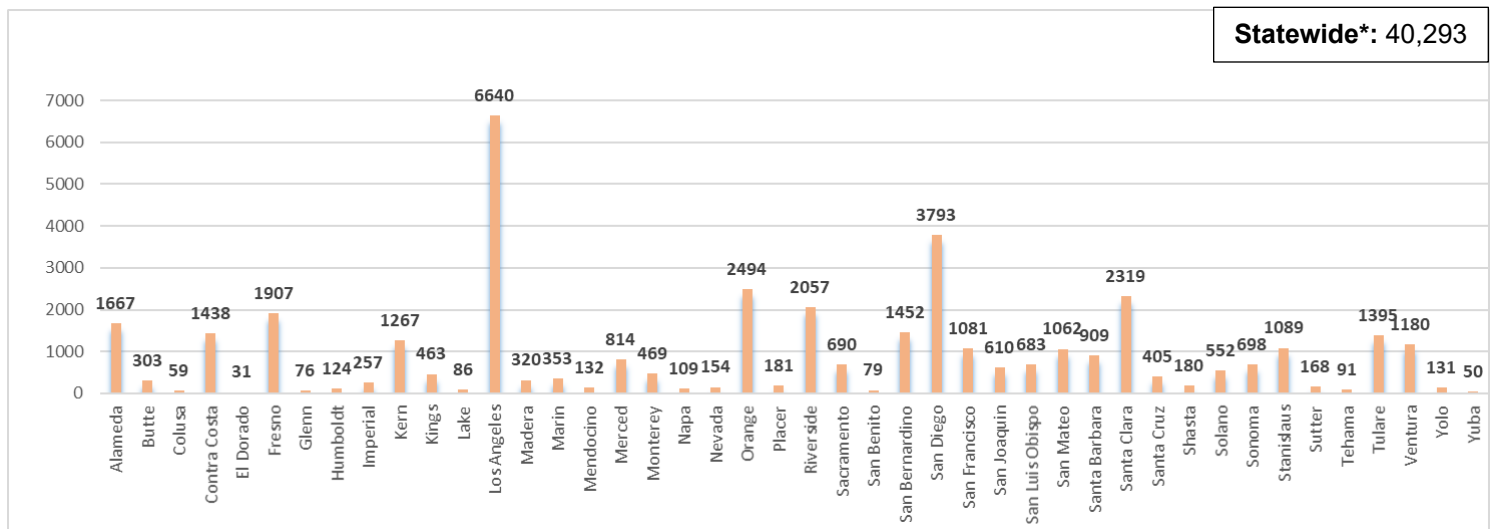

**Table 1. Changes in CA positive COVID-19 cases in licensed child care facilities statewide\* from prior week**

	<b>Total Positive Cases</b>	<b>+/-/=</b>	<b>Number of Cases This Week</b>	<b>+/-/=</b>	<b>Percent Change from Prior Week</b>
Child Care Centers	29591	+	521	+	1.8%
Large Family Child Care Homes	7502	+	96	+	1.3%
Small Family Child Care Homes	3200	+	24	+	0.8%
<b>TOTAL</b>	<b>40293</b>	<b>+</b>	<b>641</b>	<b>+</b>	<b>1.6%</b>

\*The Statewide total is the number of COVID-19 positive cases for all licensed child care facilities in California, including facilities with fewer than eleven (11) COVID-19 positive cases among staff, children, and parents.

\*The decrease in the number of Total Positive Cases for Small Family Child Care Homes is due to the capacity change of facilities from Small Family Child Care Homes to Large Family Child Care Homes.

Figure 1. California's Licensed Child Care Facilities Total COVID-19 Cases by County\*\* as of 3/22/22

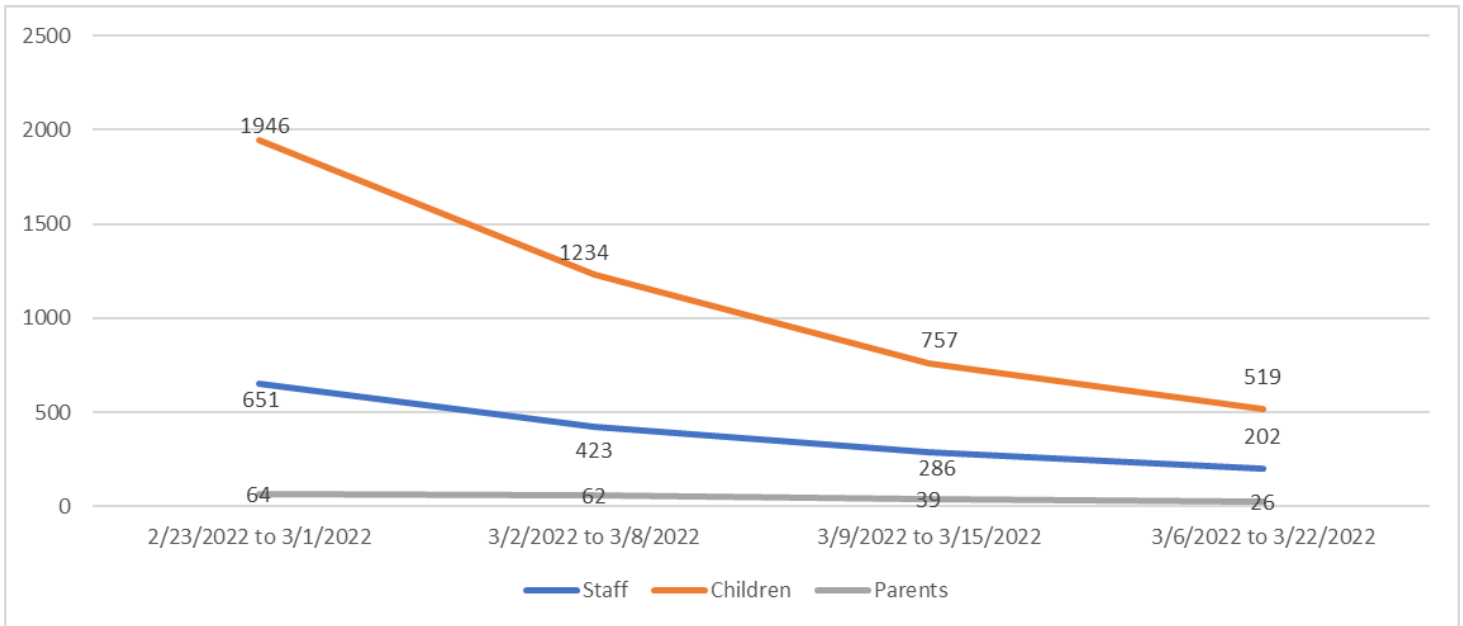

\*The Statewide total is the number of COVID-19 positive cases for all child care facilities in California, including facilities with fewer than eleven (11) COVID-19 positive cases among staff, children, and parents.

\*\* The County total is the number of COVID-19 positive cases for child care facilities within that county for counties with at least three open child care facilities and a total of at least eleven (11) COVID-19 positive cases among staff, children, and parents.

**Total Positive COVID-19 Cases Statewide and by County for Each Facility Type  
by Children, Parents, Staff in California  
As of 3/22/22**

The table below represents COVID-19 positive cases by county and facility type for Child Care Centers and Large and Small Family Child Care Homes licensed by the California Department of Social Services, Community Care Licensing Division. Data is presented for those counties with at least three open child care facilities of the given type (Child Care Center, Large Family Child Care Home, or Small Family Child Care Home). This threshold is in consideration of privacy and security concerns.

Values of less than eleven (11) are masked (shown as <11) and values of eleven (11) or more that could be used to identify masked values are also masked (shown as \*\*) in accordance with de-identification guidelines. True values of zero appear as "0". If a county does not have at least three open facilities of a given type, the county data for that facility type has been removed and appear as "N/A".
