

Updated 11/16/2020

Greetings,

This correspondence is being sent out on behalf of the California Department Public Health. The annual immunization assessment reporting site is now open for Pre-Kindergarten. California Health and Safety Code Section [120375](#) requires all child care facilities to review students' immunization records.

The following facilities, though required to review the immunization status of their students are **not required to report** annually at www.shotsforschool.org:

- **Licensed Family Home Care Facilities**
- **Licensed School-Age Facilities**

The California Code of Regulations Section [6075](#) requires the following facilities to **report** annually on their immunization status of students:

- Licensed Facilities with a Day Care Center license

Facilities with an Infant Center License:

- And an existing Day Care Center License can report under your Day Care Center License number for children between 2 to 5 years old.
- Who do not have an existing Day Care Center License do not need to report.

You can confirm your license number and what license(s) you have at the [DSS/CCLD Facility Search Page](#). Facilities with a DAY CARE CENTER license: choose 'Child Care Center' from the drop down menu.

Before reporting, please review the guidance at [Immunization Assessment Reporting](#). Check that each student has in the cumulative file a complete and accurate:

- California School Immunization Record (CSIR or "Blue Card"), or
- Electronic record of required vaccinations (or stored in a computerized system).

If your school is closed or does not have students for the applicable ages or grades, please sign-in to report your school's closure or lack of students.
