### Prepayment Plans

UPS offers two prepayment plans that provide greater bill paying convenience. Under either plan, you prepay an amount equal to four weeks' average billing. This payment remains on account to cover one month's anticipated UPS charges. The amount needed on account may change, depending on your shipping activity. Late Payment Fees apply.

- **Monthly Prepayment Plan:** The shipper makes a prepayment with UPS in an amount equal to four weeks' anticipated charges as estimated by UPS. Upon notice to the shipper, UPS may change the required prepayment amount at any time to reflect a revised estimate of four weeks' charges.
- **Weekly Prepayment Plan:** The shipper makes a prepayment with UPS in an amount equal to four weeks' anticipated charges as estimated by UPS. Upon notice to the shipper, UPS may change the required prepayment amount at any time to reflect a revised estimate of four weeks' charges.
