## PREFACE

**National Lutheran School Accreditation (NLSA)** requires that Lutheran early childhood centers evaluate themselves based on ten Standards. The word “standard” originates from the French word *estandard*, which was the flag of the leader around which his followers rallied. Such a standard raised in battle provided leadership, a goal and a sense of working together. So it is today. The ten Standards challenge Lutheran early childhood centers to improve the quality of their programs. They are not meant to reflect what every center is like, but rather to give each center an indication of worthy goals to achieve.

The accreditation process was designed specifically for LCMS early childhood centers and is intended to serve as a measure of the quality of their programs. The Self-Study process outlined in this document allows a school to thoroughly evaluate its programs and procedures develop a School Action Plan and report progress annually in a Cumulative Annual Report (CAR). The CAR reports a process of ongoing improvement that benefits the school in the interest of the children it serves. Accreditation is valid for five (5) years pending submission and acceptance of the Cumulative Annual Report by the District Accreditation Commissioner and the district office.

Reaccreditation requires application, completion of the Self-Study Report, a successful Validation Team Visit by four or more peer professional reviewers, a positive recommendation from the District Accreditation Commission and approval by the National Accreditation Commission.

The process is based upon three assumptions. First, a high-quality program is required to be good stewards of the blessings given by God. Second, each center willingly cooperates with local governmental agencies unless such cooperation inhibits the free sharing of the Gospel. Third, the early childhood center strives to meet or exceed all local, state and federal guidelines related to early childhood education.

We pray that the accreditation process serves to raise the level of quality in centers choosing to participate in NLSA. As a result, centers will better serve the community with the opportunity to tell many more children about the love of their Savior, Jesus.

Dr. Rebecca Schmidt  
Director, National Lutheran School Accreditation

# THE SELF-STUDY DOCUMENT

## STANDARD 1: PURPOSE

*The school is driven by its Christian mission.*

*Note: Standard 1 is divided into two categories: mission and ministry and philosophy. Introductory comments and necessary responses are required for each of the two sections.*

## STANDARD 1A: MISSION AND MINISTRY

### Overview

Schools develop mission, ministry, purpose and vision statements to communicate and serve as the basis for forming school goals, learner outcomes and action plans as well as determining direction for all activities of the school. For clarity in this accreditation process, these statements are referred to as “Mission and Ministry Statements.”

The Lutheran early childhood program must be an integral part of the congregation’s ministry to young children and their families. As such, it concerns itself with the ministry of the whole church to fulfill its purpose as a Christ-centered early childhood program. The command of God is made clear to us in Matthew 28:19-20 (NIV): “Therefore go and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, and teaching them to obey everything I have commanded you.”

Mission outreach is an essential part of an early childhood program. Some families are active members of Lutheran or other Christian churches. Other families may be unchurched, inactive members of a church or practicing other religions. For these families, the early childhood program may be their only contact with a Christian environment and their first introduction to Jesus. The pastor and the early childhood staff minister to families daily, as well as in times of need. The early childhood program provides the opportunity to witness the love of Christ and build a strong, Christ-centered relationship with families. It is important that the congregation has ownership in the early childhood program as it carries out God’s command of ministry to meet the needs of families.
