

Mom CONGRESS™

Maternal mental health disorders like postpartum depression are the #1 most common complication of childbirth.

Up to **1 in 5**

women will suffer from a maternal mental health disorder like postpartum depression¹

less than **15%**

of women receive treatment²

1 in 7

will experience depression during pregnancy³

Up to **50%**

of women living in poverty will suffer from a maternal mental health disorder^{4,5}

NOT JUST MOMS

Maternal mental health disorders impact the whole family, not just women⁶

More Than **600,000**

women will suffer from a maternal mental health disorder in the United States every year⁷

Anxiety and depression have risen

37% in teen girls

This will increase the number of women suffering postpartum depression in the future⁵

1 in 10

Dads will experience a perinatal mental health disorder following the birth of their child.⁶

Who are we?

Moms from all across the country with varied backgrounds, professions, ethnicities, and worldviews are coming together to recognize the power of a collective voice and the importance of family-centered policies.
