Confirm presence of lice by looking closely at your especially behind

Check other kids and adults in your home and begin everyone affected

Buy a metal lice comb and OTC lice treatment. or call a lice salon for an

treatment to hair. following package directions exactly.

Wash beloved stuffed animals. or put in a bag for two weeks (optional).

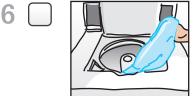

Vacuum fabriccovered items where child's head has rested (furniture, carpets, car seats).

Don't wash your pets (they can't carry lice) or clean your whole house (it doesn't help!).

Tell teachers, friends, and caregivers, so other children can be checked promptly.

Repeat comb-outs every 1 or 2 days for 10 days.

carefully (see "How to do a lice comb-

bedding, towels, hair care items in hot water, or dry in hot dryer.

Repeat the lice treatment 9 days after first application.

Don't worry. Lice are a hassle, but they don't carry disease or pose any health hazard. For more details, visit our Lice Survival Guide at www.babycenter.com/lice.
