Maternal Near Miss Survivors

PSI FB closed group

- A maternal near miss is an event where a woman nearly dies due to pregnancy or childbirth related complications. The events are often unexpected and may leave the survivor isolated and alone.
- A near miss is a trauma that may likely affect how a person responds to future pregnancies, labor and delivery experiences.

PSI Support Coordinators:

- Every state and more than 40 countries
- Referrals to local providers and professionals with advanced knowledge of PMADs
- www.postpartum.net/get-help/locations/

Interactive Support Map

The screenshot shows the website's header with the PSI logo and navigation links: [Donate](#), [En Español](#), [Contact Us](#), [Subscribe](#), [Join A Climber](#), and the phone number **1.800.944.4773**. A secondary navigation bar includes [Get Help](#), [Learn More](#), [Professionals](#), [Resources](#), [News & Blog](#), [About](#), [Join Us](#), and a search icon.

The main content area features a large landscape image of a lake and hills. Below the image is a blue banner with the text "Find Local Support and Help". Underneath, it says "Find our local Coordinators and resources in your area here:" followed by two buttons: "United States Map" and "International Support Listings". Below these buttons, it says "Or call us directly at 1-800-944-4773". At the bottom of the main content area, it says "PSI is here to help. We have support coordinators near you."

On the left side, there is a dark grey sidebar with the text "FIND LOCAL SUPPORT AND HELP" and a list of links: "Overview", "United States", and "International Support".

www.postpartum.net/get-help/locations/
www.postpartum.net/get-help/locations/united-states/

Support Coordinators

- Provide education, empathy, and resource referrals to those seeking support with PMADs.
- Respond to help seekers within twenty-four hours.
- Provide help to seekers with at least two resource referrals (when possible).
- Become familiar with local resources to provide the best referrals possible.
- New volunteers are wanted across the United States and Canada; the biggest needs are in Arkansas, Idaho, Maryland, Minnesota, New Mexico, and Tennessee.
- <https://www.postpartum.net/join-us/volunteer/supportcoordinator/>

Specialized Support Coordinators

- Offer support, information, and resources to parents experiencing specific conditions, roles, and risk factors for PMADs.
- Work with PSI Support Coordinators to offer local support and resources.
- <https://www.postpartum.net/join-us/volunteer/supportcoordinator/>

Active PSI Chapters

PSI State Chapters

- Most chapters operate under the fiscal sponsorship of PSI to further PSI's mission on a statewide level.
- Raise awareness and funds for your own state through the Climb Out of the Darkness.
- Bring PSI trainings to your community.
- Scholarships for PSI training events.
- Contact chapters@postpartum.net to learn about starting a chapter in your state or to be connected to your state's existing chapter.

Climb Out of the Darkness®

www.postpartum.net/join-us/climbout/

The world's largest international event raising awareness of perinatal mental illness.

- Hosted throughout the year, between January and October.
- Raised \$200,000 in 2018. Of that, \$151,000 stayed in state chapters.
- “Climb Leaders” plan and coordinate each local event.
- “Climb Team” is the name of the local event.
- Money can fund local community projects (pending approval).
- Survivors, providers, friends, and family participate
- Climbers who raise \$100 earn a t-shirt.
- Peer to peer connections.
- Become a light to help guide others out of the darkness.

PSI Closed Facebook Group

- 14,000 members
- 10 trained PSI Volunteer Moderators and Staff
- A safe space for sufferers and survivors to share, normalize and comfort one another
- Moderators monitor the discussion, review member requests and comments prior to posting, and handle emergency situations when they arise
- <https://www.facebook.com/groups/25960478598>

CHAT WITH AN EXPERT

Becoming a new parent is often filled with many questions. We are here to help with the ones revolving around mental health. Call our weekly chat, led by a licensed mental health professional.

What kind of questions can I ask?

- I'm not sure if I need help. How do I know?
- I'm not depressed, I'm anxious. Where do I turn for help?
- Why am I angry all the time?
- How do I find a counselor?
- What will my first therapy appointment be like?
- I don't have any insurance. Is there help for me?
- I can't sleep. What can I do?
- How do I know if medication is safe to take while I'm pregnant or breastfeeding?

EVERY WEDNESDAY - MOMS
FIRST MONDAY - DADS

Chat Number: 800.944.8766
Participant Code: 73162

For days and times visit: www.postpartum.net/get-help/chat-with-an-expert

© 2022 PSI - <https://www.postpartum.net/>

- Chat on group phone call
- Facilitated by PSI expert, licensed PMH professional
- Participants join by phone, can be anonymous
- There is no need to pre-register or give your name

Smart Patients Forum

- Online health forum for medical and mental health challenges
- PSI staff moderates the PMAD forum
- Can be anonymous
- www.smartpatients.com/ppd

Postpartum Support International (PSI) is proud to partner with Smart Patients to offer this online community, where women can receive peer support in a private space where they can feel comfortable sharing openly. The Smart Patients Postpartum community complements the programs of PSI to provide the information and comfort to pregnant and new mothers suffering from perinatal mood and anxiety disorders like postpartum depression, postpartum anxiety, postpartum PTSD, postpartum psychosis and depression and anxiety during pregnancy.

One of PSI's main goals is to make mothers and families aware that effective help is available, that they can get better, and that PSI can help them find knowledgeable providers who understand how to treat PPD.

Join Smart Patients, ask a question, participate in the discussions and support others who can learn from you.

Learn from other patients.
Patients often become extraordinarily knowledgeable about their disease. You can, too.

Resources for Providers

Frontline Provider Training

- For Frontline Providers — Obstetricians/Gynecologists, Family Practice Physicians, Internists, Nurse Practitioners, Midwives, Physician's Assistants, Nurses
- The CME training, provided by PSI experts, is designed to equip frontline providers with the skills necessary to assess patients for perinatal mental health complications and, as appropriate, provide treatment or connect individuals with additional resources and care.
- Available as either a single-day, onsite, 6-hour course or via two 2-hour-long on demand recorded webinars.
- Continuing Education Credits: CMEs, CNEs
- <https://www.postpartum.net/professionals/trainings-events/frontline-provider-trainings/>

PSI Educational Materials

Certification in Perinatal Mental Health PMH-C

- A structure for professional education and evaluation
- A standardization of training and experience to inform families and payers of perinatal mental health specialists
- The certification curriculum requirements build on existing evidence-based perinatal mental health certificate trainings, adding an advanced-training component.

PMH Discussion Tool

Perinatal Mental Health Discussion Tool

As many as 1 in 7 moms (1 in 10 dads) experience symptoms of depression and anxiety during the postpartum period. People of every age, income level, race and culture can develop Perinatal Mood and Anxiety Disorders (PMADs) during pregnancy and within the first year after delivery. This tool can help track your symptoms and discuss them with your medical provider. Being your own advocate is okay and you deserve to be well.

I have been experiencing the following symptoms: (please mark all that apply)

- Feeling depressed or void of feeling
- Feelings of hopelessness
- Lack of interest in the baby
- Trouble concentrating
- Brain feels foggy
- Feeling anxious or panicky
- Feeling angry or irritable
- Dizziness or heart palpitations
- Not able to sleep when baby sleeps
- Extreme worries or fears
(including the health and safety of the baby)
- Flashbacks regarding the pregnancy or delivery
- Avoiding things related to the delivery
- Scary and unwanted thoughts
- Feeling an urge to repeat certain behaviors to reduce anxiety
- Needing very little sleep while still functioning
- Feeling more energetic than usual
- Seeing images or hearing sounds that others cannot see/hear
- Thoughts of harming yourself or the baby

Risk Factors

Below are several proven risk factors associated with postpartum depression (PPD) and postpartum anxiety (PPA). Knowing these risk factors ahead of time can help you communicate more effectively with your family and medical provider and put a strong self-care plan in place.

Please mark all risk factors that apply:

- History of depression or anxiety
- History of bipolar disorder
- History of psychosis
- History of diabetes or thyroid issues
- History of FMS
- History of sexual trauma or abuse
- Family history of mental illness
- Traumatic pregnancy or delivery
- Pregnancy or infant loss
- Birth of multiples
- Baby in the NICU
- Relationship issues
- Financial struggles
- Single mother
- Teen mother
- No or little social support
- Away from home country
- Challenges with breastfeeding

RESOURCES
