

	Room #	Updated	Last Updated	Comments on System's Functionality	Updated Comments March 2022 (urgent items highlighted)
100	137	1/7/20	8/10/21	Actors Lab - open space. Very sophisticated Crestron control system, albeit somewhat long in the tooth. The Crestron switcher at the rack accommodates component video inputs along with XLR audio	Control panel not functioning
100	133		Omitted from 8/21 survey		Black Box Theater, omitted from previous survey; Outdated instructor station (runs Windows 7) Monitor should match display ratio of
100	142	1/7/20	8/10/21	Orchestra Room	Outdated instructor station (runs Windows 7) Projected image needs slight adjustment Projector is noisy (check
100	145	1/7/20	8/10/21	Music Classroom. Creston control on far end of room.	Piano lab. Creston control system is failing; Projector "times out" too frequently. Macs nearing end of useful life.

100	147	1/7/20	8/10/21	Vocal Recital Room - similar system as others	Audio not functioning; projected image should be positioned correctly on the screen.
100	141A	1/7/2020	8/10/2021	No AV. Just white board and a round table and chairs.	
600	603	1/7/20	8/10/21	Classroom - Portable AV Cart that we installed. Someone added a Consumer grade soundbar just sitting on top of the doc cam	
600	607	1/7/20	8/10/21	Exercise/Yoga classroom	
800	802	12/1/18	8/10/21	AMX Panel does not seem to be operational. We would need to have an in depth discussion about this room and its functions to come up with solutions.	

800	803	12/1/18	8/10/21	Instructors PC Monitor have been moved to the side to accommodate screen viewing. Old PC equipment. Dim Projector Image.	
800	805	1/8/20	8/10/21	Conference room with CRT TV and VCR/DVD player on a mount. PC below in a cart.	
800	811	12/1/18	8/10/21	Something seriously wrong with PC. Seemed to have a mind of its own constantly clicking on the bottom of the screen even when the mouse was unplugged.	
800	830	12/1/18	8/10/21	PC Mounted to Podium at an awkward angle. Projector image is too small for the size of the classroom and there is no screen. (Projects onto whiteboard.)	No need to add a screen; projector on whiteboard is fine.
800	831	12/1/18	8/10/21	PC Mounted to Podium at an awkward angle. Projector image is too small for the size of the classroom and there is no screen. (Projects onto whiteboard.) SP2 Controls	
800	834	2/27/20	8/10/21	Projector Screen does not stay down. New AMX switcher and control panel. Teacher said that the video image from the PC was dropping out, however Dave was in the room for 30 minutes and it didn't happen. I rebooted the Switcher and control	Statistics computer lab classroom. Projector goes out every 5-7 minutes. Student computers are nearing end of useful life and should be replaced.

800	835	12/1/18	8/10/21	Small projector image onto a whiteboard. The PC at the podium is tilted too far back causing a really bad glare over the screen and it can't be	Classroom 835: the touchscreen control does not work
800	836	12/1/18	8/10/21	Small image size from projector. old frontrow control system. cords for laptop had fallen inside the podium.	
800	837	12/1/18	8/10/21	We installed the NEW SP Controls Touch Panel as a demo in this room. Using whiteboard as projection screen.	
800	838	2/27/20	8/10/21	Room was updated in Nov. 2019. AMX Controls and HDMI cabling	
800	860	12/1/18	8/10/21	Rooms seems in good condition. Wide room with 3 projectors.  (Not sure what this means now. 8/10/21)	

800	875	12/1/18	8/10/21	Wide room with 2 projectors. The projectors have a GREEN HUE to them. We rebooted the PC and the video switcher and it's still there. I sent a video signal from a laptop and it's still there.	
1000	1006	1/1/20	8/10/21	Classroom - can't go in cause they're using it, all day every day it seems...	
1000	1010	1/7/20	8/10/21	Classroom	
1000	1011	1/7/20	8/10/21	Classroom	

1000	1013	1/7/20	8/10/21	Classroom AV cabinet needs cleaning	
1000	1014	1/7/20	8/10/21	Classroom with a center conference table in the center of the room.	
1200	1204	12/1/18	8/11/21	Image size and quality isn't great. Speaker locations are not optimal (they are mounted near walls instead of above students	Room updated and is OK
1200	1230	12/1/18	8/11/21	Screen is too low. AT podium, the door latch has broken off. SP Controls push button panel functions but is not	Room OK
1200	1231	?	?		
1200	1232	12/1/18	8/11/21	This is the Small Auditorium. It was updated in 2020.	

1300	1332	1/7/20	8/11/21	Conference Room. It doesn't appear that anything works and hasn't for awhile. Extron wallplate meant to control TV? It's mounted too high and it doesn't work. TV has power but doesn't respond even to manual	
1300	Classified Lounge	1/7/20		Conference Room Basically none of the AV in this room is used or even useable.	
1400	1430	12/1/18	8/11/21	Projector screen is warped & old style aspect ratio. No sufficient sound for students.	ECON computer lab, 25 computers but 39 seats. Additional devices purchased for this room did not fit furniture and were deployed
1400	1431	12/1/18	8/11/21	Old projector, poor image. Old Screen. Podium needs to be replaced. DVD player is broken. Speakers mounted on wall are poor quality.	No A/V installed yet! This room was to be a Math classroom using laptops and card, but laptops were
1400	1432/1433	?	?		

1400	1434	12/1/18	8/11/21	Disaster. The image coming out of the PC is shaky/fuzzy; Cables are total mess. Tile above Projector Mount is busted. The Mount is Wobbly and loose. There is an ancient TV in the corner that should be taken out.	Remodeled classroom. A/V not yet installed.
1400	1435	12/1/18	8/11/21	Cleanest Room I've Seen so far. Missing Projector screen.	
1400	1436	12/1/18	8/11/21	Projector Image is not very bright.	

The projector system in room 1436 has been funky since early spring semester. The projector and the base at the front desk/podium don't communicate consistently. For example, instructor will have the correct input displayed (project the computer, rather than the document camera or something else)... but then the projector will turn on and

1400	1432-1433	12/1/18	8/11/21	Mounts are wobbly and not very well installed. along with the screen in the back of the room is at an odd angle. Rear screen is badly warped.	"Wifi doesn't work consistently, sometimes not at all.  This make me nervous as more students will be returning to campus next semester, and likely more instructors will want computers in the classroom since
1500	1535	1/6/20	8/11/21	Conference Room	
1500	1540	1/6/20	8/11/21	Conference Room	
1600	1630	12/1/18	8/11/21	2nd LAN Jack is Broken. Desktop monitor is fuzzy.	

1600	1631	12/1/18	8/11/21	VGA format at 4:3 video aspect ratio. No laptop input at Podium. IR receiver at projector was loose due to old tape.	
1600	1632	12/1/18	8/11/21	Very inconsistent WiFi	
1600	1633	12/1/18	8/11/21	Podium inside shelf is falling apart. PC/Monitor is outdated. Podium size/design is not useable easily. Projector has poor image and not centered on screen. WiFi Signal is weak. Audible feedback from speakers (humming)	
1600	1635	12/1/18	8/11/21	PC monitor has a green line running up and down the screen.	

1600	1636	12/1/18	8/11/21	PC/Monitor sits at an odd angle which the overhead lights create a terrible glare making the screen unreadable. No projector screen in room making it hard to read as well. Very bad WiFi Connectivity. Data ports are off the wall and only 1 port is connected.	
1600	1637	12/1/18	8/11/21	Apparently, something wrong with main HDMI to the projector, because and second one has been taped along wall from the podium. The orientation for the classroom is at 90 degrees from the others in the building.	
1600	1638	12/1/18	8/11/21	Podium height adjustment is slow. Rear access door in podium was locked.	
1700	1731		8/11/21	Community Room	
1700	1738	12/1/18	8/11/21	New room in Library building. Odd shaped room, floor to ceiling windows with blackout shades. Lower corners of projection screen are starting to wrinkle. Rack components are installed and SN and Tags are not accessible to be read.	I thought this room had recently been refreshed?

1700	1760	12/1/18	8/11/21	2 Projectors and 2 Screens. Recent Installation.	
1700	1761	12/1/18	8/11/21	Recent Installation.	
1700	1770	1/8/20	8/11/21	Meeting room with a projector and screen at one end and then an open table configuration in the middle and a bunch of PCs around the perimeter of the room.	
1700	1771	1/8/20	8/11/21	Offices only. No AV. Surveyed 1770	
1700	1772	1/8/20	8/11/21	Classroom / Computer lab  Room is oddly shaped. almost a triangle.	

1700	1763A	1/8/20	8/11/21	Conference room with boardroom table - upstairs There is a sophisticated system here with LifeSize video conferencing system, Kramer, Extron and AMX controls none of which is being used now. There is a	
1700	1767B	1/8/20	8/11/21	Smaller conference room	
1800	1830	1/8/20	8/12/21	Chem lab. AV consists of white boards only.	No immediate A/V needs
1800	1831	12/1/18	8/12/21	volume is "fixed", would be nice to be able to adjust volume from keypad	No immediate A/V needs
1800	1832	12/1/18	8/12/21	Projector image too hard to read. Volume is also "fixed"	No immediate A/V needs
1800	1833	12/1/18	8/12/21	Messy cable Management among student work stations. The heat in this room is unbearable, and seems to be only in this room. Projector is too close. Speakers are poor quality.	Recently refreshed with higher-end desktops/monitors with grant \$\$\$. No needs.

1800	1835	12/1/18	8/12/21	Cannot find control switcher, speaker amp. No dedicated room PC, but we did find a laptop in the closet with the Blu-Ray Player. No Projector Screen.	Current laptop and portable projector OK but nearing end of useful life.
1800	1836	12/1/18	8/12/21	This is a very basic room. Projector and OLD doc camera on a cart. Pull down screen.	Current laptop and portable projector OK but nearing end of useful life.
1800	1839	12/1/18	8/12/21	Room has a raised platform and custom built in desk. Power and data in coming from under the platform and seems to be inaccessible. We cannot find the data ports. PC not connecting to monitor or projector.	Currently OK
1800	1844	1/8/20	8/12/21	Chem lab. AV consists of white boards only.	No A/V needs.

2000	2030	1/6/20	8/12/21	Lab	General biology lab. Ancient desktop at instructor station should be replaced (takes forever to boot); No audio. Screen should be replaced.
2000	2031	1/6/20	8/12/21	Lab. Seems to be working well. Projector and screen not in use. Doesn't control power on MondoPad; possibly by design?	Microbiology lab. Mondopad used in lieu of PC and projector.
2000	2040	1/6/20	8/11/21	Lab  Screen appears to be broken (stuck part-way down).	Physiology lab. Controls to raise/lower screen work only sporadically. New screen needed.

2000	2041	1/6/20	8/11/21	Lab  Screen appears to be broken although this one is down and it is operable.	Anatomy lab. Screen remains in down position, but that is OK. Screen should be cleaned.
2000	Conf. Room	1/7/20	8/12/21	<b>Does not exist</b>	
2200	2210	12/1/18	8/12/21	Large Room, tiny poor speakers, very poor projector and small screen. very old SP Controls System.	No audio.
2200	2220	12/1/18	8/12/21	Projector image is very poor and discolored. Speakers are also poor.	No audio.
2200	2230	12/1/18	8/12/21	Disaster system. Control system no longer working. Added a second projector to work while old broken one is still on the ceiling. Because of this the SP controls no longer functions. DVD player is also broken, Podium is falling apart. Projector image is dim screen is old.	Projector requires remote control but otherwise works OK; Good audio quality.

2200	2240	12/1/18	8/12/21	Horrible "Sound System" components. Bad projector image and screen. old control system and podium.	Audio consists of two small speakers at instructor station.
2200	2200B	1/8/20		Office - Conference Room at the back of 2200 (not labelled as 2200B)  They do make instructional videos in this room.	
2250	Conf. Room	1/7/20		Tiny conference room in Campus Police	
3000	3004	12/1/18		Seems to be an older set up. Dell monitor is fuzzy. Pixie Pro was not turning the projector On or Off. Had to use the projector's handheld remote.	
3100	3101	1/6/20		This is a tiny computer lab with 6-8 PCs and no AV	
3100	3102		8/13/21	This is a classroom.	

3100	3104		8/13/21	This is a classroom	
3200	3201	12/1/18	8/13/21	Pixie Pro is not turning the projector On and Off.	
3200	3220	2/27/20	8/13/21	Refreshed control system, projector and speakers.	
3300	3310	1/6/20	8/13/21	This is a conference room	
3500	3503	1/6/20		This is a ceramics lab	
3700	3705	12/1/18		Recently Updated Room	Macs nearing end of useful life.
3700	3706	12/1/18		Kramer Video Switcher does not display each input in the same scaling settings. Projectors aren't too sharp of an image. Use digital connection instead of VGA	Pending ticket to adjust controls to project from laptop directly to both monitors (rather than

3700	3716	12/1/18		Art classroom. No AV in Room. Just a large drop down screen.	mounted projector with a second portable Panasonic (comparable
3700	3717	12/1/18		Painting classroom. only a really bad screen mounted to the wall, does not go up and down easily	Repair broken ports; Reliable WiFi needed
3700	3718	12/1/18		Art classroom, no AV	Reliable WiFi needed
3700	Conf. Room	1/8/20		Does not exist. Even asked a staff person that was there.	
3900	3901			This room was updated in 2019.	
3900	3902	12/1/18		See Room 3901	

3950	3950	1/6/20		24 student iMacs, 1 teacher iMac, 4 Mac Pros, 4 printers, Epson stylus pro. Bluetooth speaker.	Remodel project complete. Macs should be replaced with current models along with all other campus Macs.
4100	4103	1/6/20		Conference Room; screen doesn't want to	

Updated Comments	Suggestions	Updated Suggestions	Notes from Aug. 12-16/2021
ning	Replace projector with brighter one, as well as screen with more gain and/or contrast. Also, needs to be leveled and fit onto the screen better. (Although we did improve it A LOT, already!)		
	New Projector & Screen (needs to be perforated and possibly and gray screen) See which sources can be taken out or replaced: (Laserdisk? IPod player/controller? Other... Any associated Creston programming.		
	New Projector. Programming for screen appears to be not working correctly. (Still true on 8/10/21) Also, batteries in mouse are corroded. DVI to projector (not VGA, but also not HDMI) Things in rack that are probably not needed.		

<p>We ended up replacing the NEC projector with a Panasonic projector provided by Choolwe. At one point the Creston switcher in the podium died. We power-cycled it and it was working when last seen. One must still turn the system on from</p>	<p>Projector. Wire Management. Wire Pathway improvement.</p>	<p>Projector does not power on correctly. We unplugged and replugged, It turns on but turns itself off and leaves a flashing orange LED. Lamp may be bad or something. Also, we'd need to play something in order to assess the audio</p>	
<p>No Change</p>	<p>TV for sharing content?</p>		
<p>Soundbars (InFocus L&amp;R) have been installed onto the MondoPad and a coach that we met said they work great! They don't</p>	<p>Mount Tv to wall. Add Podium for desktop dc and doc cam for teacher. Install distributed audio in ceiling</p>	<p>Current location of MondoPad on the cart works for them!</p>	
<p>The room is now a physical therapy room! The audio serves them well enough. there is no TV and np huge</p>	<p>Equipment appears to work. Need to know what they wanted to change.</p>	<p>Depends on how they want to use the room. It seems that for now all they need is some background music.</p>	
<p>&lt;&lt; Same, same.</p>	<p>Set up a pow wow session.</p>	<p>Some people were here that use the room and if what they said is correct thid could be greatly simplified! Just a couple of large TVs in</p>	

Look like the PC was updated, but the projector is still pretty poor.	New Projector/mount, new screen. New PC/Monitor. Either attach SP Controls box to desk or alter it so that it can lay flat.	<< Same. The doc cam is old and weird; seems to be for transparencies only (no overhead light). Don't think they use it at all. They would	
This room is back in the bowels of Room 804!	Perhaps a flat screen with HDMI inputs. Split output of PC?	Perhaps replace TV with larger flat screen and simply connect to a (newer) PC? IT's pretty awkward setup.	
There is a sign on the outside saying the room is unavailable. There are chairs in a circle inside and a short throw	Service PC.	???	
No change. Switching works.	Fix angle of PC/Monitor. Change projector out for ceiling mounted and add a screen.	No Change.	
No change. Switching works. Someone left the doc cam on! (This has been the case in a few rooms.)	Fix angle of PC/Monitor. Change projector out for ceiling mounted and add a screen.	No Change.	
AMX Solecis. All seems to work! The PC and monitor seems to be new also.	New Screen. New PC Equipment. Replace Laptop HDMI cable.		

No change. Switching works.	Fix angle of PC/Monitor. Change projector out for ceiling mounted and add a screen.	Standardize the location of the doc cam.	
Switching NO LONGER WORKS. The user must manually make selection on the Kramer at the bottom of the rack!	Ceiling mounted projector & screen. New control system.	<b>THIS IS AN URGENT NEED TO REPLACE THE SWITCHING SYSTEM!</b>	
This *new* touchscreen SP2 control system DOES NOT WORK! I ended up unplugging the power to the screen so that it doesn't look like something that is supposed to work. There	The wireless handheld mic has a dead (rechargeable) battery. Needs a spare battery and a charging station.  Make the teacher's console more serviceable somehow. Could not get to anything to troubleshoot.	<b>THIS IS AN URGENT NEED TO REPLACE THE SWITCHING SYSTEM!</b>  Standardize the location of the doc cam.	
	New control system. Cable Management. New Filter & Bulb for projector	<<< Appears to be done already. Nothing else needed for	
Screens are pull-down type. Tops of screen enclosures are extremely dusty! Images need to adjusted to fit screens.	Add HDMI input at desk for laptops. At some point upgrade to digital video. Raise screens. (?)	SP2 Controls are not working. Also, the PC does not show up anywhere; not on its monitor nor via switching to the projector. Need to troubleshoot PC, monitor and switching.	

	Fix GREEN HUE ISSUE ASAP. Add HDMI input at desk for laptops. At some point upgrade to digital video. Raise screens.	The green hue is still there! My (KW) guess is that it is a projector issue.	This classroom is deemed usable other than not having a doc cam as of about 8/13/21. - kw
Got in! There's a flat panel TV in the center front of the room. Plus two TVs in the back. Classic classroom setup otherwise only with tables instead of little		Might be fine the way it is if they only use the PC.	
There's a flat panel TV in the center front of the room. Plus two TVs in the back. Classic classroom setup otherwise only with tables instead of little desks. Extron keypad	What works, works. It really depends on what they need to do in here.  As for the Extron keypad, all it does is turn the TVs on and off. There is a volume control knob. Don't know if it works. Probably can do everything from the PC.		
Old projector and screen. It does work! In-wall SP Controls housing for the DVD/VCR and keypad controls.	Upgrade projector, screen (and controls?)	The projected image is VERY dim. The room need a complete but very simple overhaul.	

<p>Looks pretty good now! There's a flat panel TV in the center front of the room. Plus two TVs in the back. Classic classroom setup otherwise only with round tables of 6 instead of individual little desks. Extron keypad</p>	<p>What works, works. It really depends on what they need to do in here.</p>		
<p>SP Controls in-wall housing for DVD/VCR, switching and controls.</p>	<p>Screen, projector; possibly touch screen display. Update controls; Ceiling speakers.</p>		
<p>&lt;&lt;&lt; SAME SITUATION! (Room is located on far side of theater.) <del>Switching works (SP2</del></p>	<p>16:9 screens, new projectors. move speakers to optimal positions. 4 more speakers would also help with sound distribution</p>	<p>Install new projectors and 16:9 screens. Install 6 or 8 ceiling <del>speakers located properly</del></p>	<p>All shortcomings notwithstanding, this classroom is deemed usable as of about</p>
<p>Screen still too low and needs 16:9 aspect ratio. Same situation with SP <del>Controls</del></p>	<p>Raise and replace screen with 16:9. Add laptop input at desk.</p>	<p>HDMI cable for laptop there now. <del>Screen and projector needs</del></p>	<p>This classroom is deemed usable as of about 8/13/21. - kw</p>
			<p>This classroom is deemed usable as of about 8/13/21. - kw</p>

<< Same Situation	Design a system and install.	<< Same	This classroom is usable. - kw
	Figure out what people want to use this for and install a simple system		
<< Same Situation, except now the podium has been disconnected, cords rolled up and rolled away into the middle of the room!	Replace screen and add audio system.	Talk to them see if they want anything here.	
The room has been gutted. Construction in progress!	Consider a new system.	Talk to them see if they want anything here.	
		This room was apparently not part of previous surveys but was listed on the "must work" list from Kathy.	Not sure what we ended up doing here but the room is deemed usable as of 8/13/21. - kw

<p>The room has gutted. Construction in progress! Rooms 1434 and 1435 are combined now.</p>	<p>Replace everything ASAP</p>	<p>Talk to them see if they want anything here.</p>	
<p>The room has gutted. Construction in progress! Rooms 1434 and 1435 are combined</p>	<p>Projector screen. Possibly New Projector ceiling mounted to get a larger image. Remove old TV in the corner.</p>	<p>Talk to them see if they want anything here.</p>	
<p>The Extron switching and controls do work but are a little weird. Not intuitive. The switcher itself is behind and blank panel on the rack so you can't see what it's doing.</p> <p>The audio goes to 4 non-standard speakers in the ceiling. The audio quality is there, but it's not great sounding. Kinda have to blast it to</p>	<p>Replace Projector &amp; Position closer to gain more brightness</p>	<p>Projector is little dim but it doesn't seem terrible to me... (kw)</p>	<p>All shortcomings notwithstanding, this classroom is deemed usable as of about 8/13/21. - kw</p>

<p>Audio is terrible! Very distorted as if the speaker(s) are blown!</p> <p>Image on both screens is terrible.</p> <p>Keystone is difficult alignment on rear screen.</p> <p>Mount for Projector is still wobbly</p>	<p>Fix it!</p> <p>Not sure what the fix is, however. Need further diagnostics or simply replace.</p> <p>Might get some traction out of replacing the ceiling speakers.</p>	<p>New Screens &amp; Projectors.</p> <p>OR Add just one larger sized 16:9 screen in front.</p> <p>With a better projector. Not clear what the mic mixer is actually for. Adds to the audio confusion.</p>	
<p>Wall-mounted SP Controls keypad with ON/OFF and single button source selection which controls the projector inputs, but there is only one input being used (VGA from table). Image from</p>	<p>Depends on what you want and need. Could upgrade to HDMI extenders from table to projector.</p>	<p>\&lt;&lt; This still. Plus, upgrade projector: Replacing the bulb MAY help the brightness. It is or WAS a very nice projector, but is neither bright nor HD at this point.</p> <p>Also replace the speakers</p>	
	<p>Seems like a temporary setup. What is wanted and needed? Maybe a podium with some simple controls?</p>	<p>Talk to them see if they want anything here.</p>	
<p>There is no PC!</p> <p>2nd LAN jack is still broken (missing actually).</p>	<p>New monitor.</p>	<p>Still needs new monitor and now it needs a new PC!</p> <p>Replace screen with 16:9.</p> <p>Upgrade speakers.</p> <p>Replace podium: it's very tiny and awkward to use.</p>	

Room is packed full of desks. Podium in accessible. Doc Cam has been left on but we	Upgrade to HDMI and 16:9 Aspect ratio.	Turn off the Doc Cam.	
Room is packed full of desks. Podium in accessible.	Replace: PC Monitor, projector, screen, speakers, control system & podium. Add: input for laptop	Can't see to make suggestions.	
<< Same. Plus... With persistence, the controls do work (sort of) but there is no feedback on the buttons so you don't know <del>what's been selected</del>	Replace: PC Monitor, projector, screen, speakers, control system & podium. Add: input for laptop	<< Same.  Replace everything, including mounts for screen (They are badly bent.)	
The room is half full of kids' tables. The green line on monitor is still there. There is a FrontRow control system that is not intuitive. The ON button does not turn the system on. The OFF button does turn it on		Replace FrontRow controller (as well as the Kramer switcher?). Add HDMI cable for laptop.  Need some immediate work-arounds in order to use this room as a classroom.	

<< Same	Real, pull-down projection screens in the rooms with the short-throw projectors would go a long way toward making the images more readable. Perhaps set the the aspect ratio of the projector to 16:10 to match the monitor at the desk.	The projector *might* need a new bulb; but the biggest improvement could be realized by installing a simple 16:9 pull-down screen! Without doing something the projector image is almost unusable.	
Room gutted; apparently to be combined with 1638	Rerun cabling to projector. Consider adding video extender.	???	
Room gutted; apparently to be combined with 1637	Add cable for laptop, if switcher allows.	???	
Please take current pictures and upload them to the room's folder. And add component details into	AV System was updated in 2021. Strangely the people who used it today did not utilize the system! They brought their own (tiny) speakers to attach to their laptop...	Everything is perfect the way it is! Add lapel wireless mics.	Show people who use this room how to use it!
No signal from the PC to its monitor. Also no signal to the projector from the Kramer.  THIS ROOM IS NON-FUNCTIONAL!!!		Diagnose and Figure out a workaround!	Diagnose and Figure out a workaround!

<p>&lt;&lt; Same</p> <p>Switching works. There is no audio!</p>		<p>Tweak projectors. Re-aim and re-focus, etc. Diagnose and fix audio. (Fixed 8/12/21)</p>	<p>All shortcomings notwithstanding, this classroom is deemed usable as of about 8/13/21. - kw</p>
<p>Switching seems to be working, but DVD/VCR and Blu-ray players are not working.</p>		<p>Replace bulb or projector. Tweak projector.</p> <p>Replace Doc Cam or figure out a way to hold HDMI</p>	<p>&lt;&lt;&lt;&lt; All shortcomings notwithstanding, this classroom is deemed usable as of about 8/12/21. The PC is</p>
<p>SP2 Controls. Doc Cam needs replacement.</p> <p>The sound is going to the all-in-one monitor speakers instead of out to the amp and</p>		<p>Troubleshoot audio to amp and speakers. This room cannot be used for presenting anything with audio until this is fixed.</p> <p>Replace Doc Cam. (It</p>	
<p>&lt;&lt;&lt; Nothing has</p>			
<p>The RS232 control to the projector is not connected, apparently because the female plug on the end needs an adapter to connect to the female jack on the projector.</p> <p>Also, the audio is NOT</p>	<p>Speakers should be properly mounted in ceiling for best performance.</p> <p>Tweak projector alignment. Also, the image is very blurry (not just focus).</p> <p>Program SP Controls to control projector which apparently has been replaced at some point.</p>	<p>&lt;&lt;&lt; All the same, plus:</p> <p>Not sure if the problem with SP Controls was programming or if it has always been that the cable was unplugged.</p> <p>Resolution settings on PC need some adjustment for</p>	

<<< Nothing has changed.	Replace with new streamlined system. check to see if videoconferencing is needed and support that. Put the PC in the cabinet / rack. Clean up the cabinet / rack. (It is quite large...)	<<< Nothing has changed.	
The only source now is a PC on the floor under the table. There is an SP Controls keypad in the wall but it doesn't seem to control anything. The TV on the wall will not power on (green LED		Replace TV. Use existing as boat anchor. Figure out some controls or simply route PC output to TV.	
	Depends on what the teacher wants to do. Right now it's strictly hands on lab		
	Change monitor mount to be at a better angle.	update to larger screen with new projector. update	
room has a microphone which volume is controlled on the mix	Ceiling Mounted Projector and screen	update to larger screen with new projector. update control system	
The system generally works!  And the temp is much better today! (8/12/21)	Move projector back. Add new ceiling speakers. Add HDMI Secured screw on type cables. Manage cables and power strips in student work stations. Address the problem with the HVAC system for this room (it's like an oven in here)	Find the HDMI cable for laptop input, label it and make available for use.	

<p>Laptop in the room powers on but has no display, on attached monitor not on projector.</p> <p>I tested with my laptop and video works to the projector! Sound and inputs are controlled via 2 Extron keypads: one just inside the door as</p>	<p>Add Projector Screen. You may have an understanding of how this system is wired and where the components reside. Or you may have a wiring plan. It's best to identify that now, prior to any issues.</p>	<p>Replace laptop! with another laptop or PC.</p>	
<p>&lt;&lt; Nothing new. I assume it works such as it is. Did not test.</p>	<p>You could start over with a simple system here.</p>		
<p>The PC has no internet!!!      Could not test audio.      SP Controls is wonky.      Works but not always.      PC is old and crappy!      Any source selected goes to PC monitor as well as projector.</p>	<p>Convert video signal from VGA to HDMI to projector.</p>	<p>Replace PC. Fix Internet. Test sound.      Consider updating display.      (2 flat monitors? Move projector? Something...)</p>	
<p>&lt;&lt; Same</p>	<p>Depends on what the teacher wants to do. Right now it's strictly hands on lab environment.</p>	<p>&lt;&lt; Same</p>	

<p>System generally works. Projector image is dim and the screen is wavy. PC takes a really long time to boot. Doc cam works. There is no DVD.</p>	<p>Replace screen - it's pretty tattered; PC , monitor, projector and controls</p>	<p>&lt;&lt; Same. Plus: Replace lamp in projector; or replace projector.</p>	<p>&lt;&lt;&lt;&lt; Replaced lamp in projector. All other shortcomings notwithstanding, this classroom is deemed usable as of about 8/13/21. - kw</p>
<p>Actually does control power on the MondoPad! Doesn't control power on the projector and I can't find a switch to control the screen.</p>	<p>Replace doc cam (or use different output since HDMI out is damaged.) Could remove projector and screen.</p>	<p>&lt;&lt; Same Locate HDMI cable for laptop and make available. Update control, switching and signal flow. (Uses old VGA extenders to MondoPad)</p>	<p>Not marked as usable. Not sure what condition it's in as of 8/13/21 - kw</p>
<p>&lt;&lt;&lt;Same. Screen is stuck part-way down.  Upon further investigation, we found that there is a manual switch to control the screen! Had to click it up, then down, It still doesn't go quite all the way down, so maybe</p>	<p>Replace screen, projector, switcher and controls</p>	<p>&lt;&lt;&lt;Same  Even though we got the screen to come down, it's not in good shape and now is discolored from being part-way down all these years.  Suspect the the AV switching device simply needs to be replaced, as</p>	<p>Routed video from outputs from the PC directly to its monitor and to the projector via a cable across the floor to the rear cabinets and then new ethernet extenders to the projector. All other shortcomings notwithstanding, this</p>

<p>Here again, we found that there is a manual switch with a key to control the screen!</p> <p>The SP Controls work. Screen is not automated and has a hole in it.</p> <p>Audio works!</p>	<p>Replace screen, projector and controls</p>	<p>&lt;&lt;&lt;Same</p>	<p>All shortcomings notwithstanding, this classroom is deemed usable as of about 8/13/21. - kw</p>
<p><b>Still does not exist!</b></p>			
<p>SP Controls in-wall cabinet/control buttons. Doc Cam is on S-Video input, but it is not labelled as such.</p>	<p>Projector, screen, ceiling sound system distributed around the room, new control system. new podium and PC Monitor. New DOC Cam.</p>	<p>&lt;&lt; Yes. Update everything.</p>	<p>All shortcomings notwithstanding, this classroom is deemed usable as of about 8/13/21. - kw</p>
<p>&lt;&lt;&lt; Same. PC takes forever to boot! Once booted, it takes forever to load a webpage!</p> <p>Image is so dim fuzzy it's unusable.</p> <p>Audio works but there is</p>	<p>Replace: projector, screen, speakers, podium, PC and Monitor.</p>	<p>&lt;&lt; Same. Plus replace doc cam (on/off button stuck)</p>	<p>I believe we replaced both the projector and the doc cam with stuff we found in IT storage. (Sorry - my memory is affected by the "fog of war".)</p> <p>In any case,</p>
<p>Not a disaster this time!. PC was already on, so not sure how it boots up. It loaded a webpage OK. A projector is mounted in the ceiling although</p>	<p>Replace and mount new projector, get controls working again. New screen, and ceiling speakers, and podium</p>		<p>I believe this one still needs at minimum a new lamp in the projector or a new projector. Shortcomings notwithstanding,</p>

<p>Old SP Controls keypad that doesn't work at all. Projector wouldn't turn on initially even using the IR remote or pressing button on the projector itself. We power cycled it and got it on. Warning message says, "replace lamp"</p>	<p>New Projector, mount, screen, sound system, control system</p>	<p>&lt;&lt; Same. Immediate projector replacement!  8/13 - replaced projector with something we found in IT storage. image still not perfect and the teacher must use a remote to operate it, but at least it does operate!</p>	<p>The audio was terrible here. We removed the (tiny) PC speakers (sub and satellites) that someone installed in the podium and on the walls as well as the mic noisy mixer. We mounted a pair of powered speakers (scrounged from IT</p>
	<p>Talked to the guys there. The setup works for them!</p>		
	<p>Reprogram the Pixie Pro Controller. Upgrade to digital video, projector accepts DVI. Replace desk monitor. Repair cable Patch Bay.</p>		
<p>Relatively new system by IRM. PC signal does not pass thru Solecis on the input assigned to PC. It DOES work thru input 4 (Blu-ray). We left a sign</p>	<p>New projector, screen, controls; If screen is replaced, mount it off the wall so it doesn't interfere with the white board.</p>	<p>Schedule a time for us to return and troubleshoot the Solecis; likely to be some EDID trouble that needs to be fixed with a command.</p>	

The volume on the keypad must be turned up in order to hear	New projector, screen, controls, some type of speakers and amp.	Room has been updated by IRM. (Solecis and Massio)	This classroom is deemed usable as of about 8/13/21. - kw
<< No change.	Reprogram Pixie Pro Controller. Add cable for laptop. Convert to digital video and upgrade projector.	<< No change.  Audio works but in right channel only. PC very slow. Doc cam works.	SP Controls does not control projector. Must use remote. Cover for remote is missing. Monitor shows same content as Projector. The Kramer is super
Updated system. Works reasonably well, other than horribly slow PC and the HDMI cable for	Get larger projector screen.		This classroom is deemed usable as of about 8/13/21. - kw
HDMI > DVI from laptop to projector works after a few tries. The picture on the screen looks good!	Upgrade audio for teacher and well as classroom; HDMI to projector; upgrade screen.	There really isn't any "audio". So depends on what's wanted and needed and that the school wants to pay for.	
	No suggests without input from teacher.		
	Could use a Mac compatible mouse on ALL the mac's in the room. Also the IP control should really be moved to the right side of the podium so that the instructor can reach		
	Service call for IRM to check the video settings and get them all aligned the same. Program AV Mute Button to work		

	Depends on if anything is wanted/needed		
	Depends on if anything is wanted/needed		
	Depends on if anything is wanted/needed		
	See Room 3901		

	Upgrade audio for teacher and well as classroom; HDMI to projector; upgrade screen.		
	New projector, screen, controls, Blu-ray		

Review AV System w/User	Minor Adjustments Needed	Update PC & Monitor	Update Control & Switching	Update Video Signal to HDMI	Update Projector (s)	Update Proj Screen(s)	Update Display (s)	Update Blu-Ray
