

In favor of a fair tax reform

The Pirates demand the abolition of the tax classes and therefore a taxation in which each person is treated equally, regardless of their civil status.

Childcare

The Pirates demand the payment of a Chèque-Service d'Accueil, so that everyone can freely decide whether they wish to have their children looked after in a day care facility or if they prefer to remain themselves at home with her children.

Security

The Pirates demand a stronger physical police presence on our streets and public spaces, together with street workers and social services. This is the best solution to increase the feeling of security in this country.

fair **solutions** *for today* **and tomorrow**

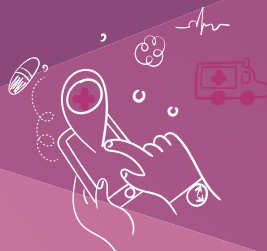

An open and digital economy

The Pirates demand a simplification of business creation and a sustainable economic growth accelerated by research, innovation and digitalization.

Reward environmentally friendly behavior

The Pirates demand that each person receive a monthly direct aid (climate bonus) and that the CO2 tax on various products harmful to the environment be adjusted as compensation.

Fast access in the field of healthcare for all

The Pirates demand a wider offer of medical houses, more information on what is offered and longer opening hours, in order to really relieve emergencies in hospitals.

A roof over everyone's head

The Pirates demand that public housing be rented out at €10 per square meter per month and that an access to ownership be offered via the lease-purchase formula.

Lëscht 7

Dignity in the Third Age

The Pirates demand universal access to rooms in retirement and care homes, regardless of the financial situation of the people concerned.

You should have your say

The Pirates demand real citizen participation, where public petitions are given more weight, a participatory budget and a national citizen council are introduced.
